INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and each major fund, of the Nederland Fire Protection District (the "District") as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Nederland Fire Protection District as of December 31, 2024, and the respective changes in financial position, thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Nederland Fire Protection District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures of the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required budgetary and pension information on pages 30-34 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has not presented the management's discussion and analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion is not affected by this missing information.

NEDERLAND FIRE PROTECTION DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2024

Amounts Reported for Governmental Activities in the Statement of Activities
are Different Because:

Net Changes in Fund Balances - Total Governmental Funds	\$ 480,992
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount the capital outlay \$1,090,168, exceeded depreciation expense (\$236,160) for the period.	854,008
Proceeds of leases are reported as revenue in the governmental funds but is shown as an increase in liabilities in the government-wide financial statements,	(870,227)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the change in compensated absences.	(6,863)
Deferred Charges related to pension are not recognized in the governmental funds. However, for the government-wide statements that amount is capitalized and amortized.	<u>(101,736)</u>
Change in Net Position of Governmental Activities	<u><u>\$ 356,174</u></u>

The accompanying notes are an integral part of the financial statements.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Nederland Fire Protection District was formed to provide fire protection and emergency medical services to the Town of Nederland and surrounding area within its boundaries. The District is governed by a five-member Board of Directors elected by the residents.

The accounting policies of the Nederland Fire Protection District (the “District”) conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

Reporting Entity

In accordance with governmental accounting standards, the Nederland Fire Protection District has considered the possibility of inclusion of additional entities in its financial statements.

The definition of the reporting entity is based primarily on financial accountability. The District is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if District officials appoint a voting majority of the organization’s governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. The District may also be financially accountable for organizations that are fiscally dependent upon it.

Based on the application of these criteria, the District does not include additional organizations in its reporting entity.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current *financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, specific ownership taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, which include property and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property and equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

Buildings	40 years
Machinery and Equipment	10 - 20 years
Vehicles	15 years

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities fund type statement of net position.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

The government-wide financial statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted, and unrestricted.

Net Investment in Capital Assets includes the District's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds that are attributable to the acquisition, construction, or improvement of those assets.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position (Continued)

Restricted Net Position includes assets that have third-party (statutory, bond covenant, or granting agency) limitations on their use. The District typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a future project.

Unrestricted Net Position typically includes unrestricted liquid assets. The Board has the authority to revisit or alter this designation.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Restricted – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified Emergency Reserves as being restricted because their use is restricted by State Statute for declared emergencies.
- Committed – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District did not have any committed resources as of December 31, 2024.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Unassigned – This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The District would typically use restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources.

Compensated Absences

Employees of the District are allowed to accumulate unused vacation and sick time. Upon termination of employment with the District, an employee is compensated for all accrued vacation time at the current rate of pay. Accrued sick time is paid at a rate of 50% upon retirement from the District at the employee's current rate of pay.

These compensated absences are recognized when due in the governmental funds types. A liability has been recorded in the government-wide financial statements for accrued compensated absences.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and balance sheets will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to the liabilities, the statement of financial position and balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position and fund balance that applies to a futures period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Property Taxes

Property taxes are levied on November 1 and attach as an enforceable lien on property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. The County Treasurer's office collects property taxes and remits to the District on a monthly basis.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes (Continued)

Since property tax revenues are collected in arrears during the succeeding year, a receivable and corresponding deferred revenue are recorded at December 31. As the tax is collected in the succeeding year, the deferred revenue is recognized as revenue and the receivable is reduced.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations. However, complete comparative data in accordance with generally accepted accounting principles has not been presented since its inclusion would make the financial statements unduly complex and difficult to read.

Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- In September, District Management submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 31, the budget is legally enacted through passage of a resolution.
- District Management is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Board of Directors.
- Budgets are legally adopted for all funds of the District on a basis consistent with generally accepted accounting principles (GAAP).

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY(Continued)

- Budgeted amounts in the financial statements are as originally adopted or as amended by the Board of Directors. All appropriations lapse at year end.

Legal Compliance

The actual expenditures of the General Fund exceeded the budgeted amounts by \$744,690. This may be a violation of State statute. This excess was caused by the reporting of the capital lease expense that were not budgeted.

NOTE 3: CASH DEPOSITS AND INVESTMENTS

A summary of deposits and investments as of December 31, 2024 follows:

Cash Deposits	\$ 88,480
Investments	<u>1,037,885</u>
Total	<u>\$ 1,126,365</u>

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2024, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

The District has no policy regarding custodial credit risk for deposits.

At December 31, 2024, the District had deposits with financial institutions with a carrying amount of \$88,480. The bank balances with the financial institutions were \$86,501. All of the deposit balances with the financial institutions were covered by federal depository insurance.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 3: CASH DEPOSITS AND INVESTMENTS (Continued)

Investments

Interest Rate Risk

The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Colorado statutes specify in which instruments the units of local government may invest which includes:

- Obligations of the United States and certain U.S. government agency securities
- General obligation and revenue bonds of U.S. local government entities
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

The above investments are authorized for all funds and fund types used by Colorado local governments.

Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District had no investments requiring categorization as of December 31, 2024.

Local Government Investment Pools

The District had invested \$1,037,885 in the Colorado Government Liquid Asset Trust (ColoTrust) which has a credit rating of AAAM by Standard and Poor's. ColoTrust is an investment vehicle established for local government entities in Colorado to pool surplus funds and is regulated by the State Securities Commissioner. It operates similarly to a money market fund and each share is equal in value to \$1.00. Investments consist of U.S. Treasury and U.S. Agency securities, and repurchase agreements collateralized by U.S. Treasury and U.S. Agency securities. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the entities.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 3: CASH DEPOSITS AND INVESTMENTS (Continued)

Local Government Investment Pools (Continued)

ColoTrust is not a 2a7-like external investment pool. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. The government-investor does not "look through" the pool to report a pro rata share of the pool's investments, receivables, and payables.

NOTE 4: CAPITAL ASSETS

Capital assets activity for the year ended December 31, 2024, is summarized below:

	Balances <u>12/31/23</u>	<u>Additions</u>	<u>Deletions</u>	Balances <u>12/31/24</u>
Governmental Activities				
Capital Assets, not depreciated

NOTE 5: LONG-TERM DEBT

Following is a summary of long-term debt transactions for the governmental activities for the year ended December 31, 2024.

	<u>Balance</u> <u>12/31/2023</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31/2024</u>	<u>Due In</u> <u>One Year</u>
Leases	\$ -	\$ 870,227	\$ -	\$ 870,227	\$ 391
Compensated Absences	<u>49,868</u>	<u>6,863</u>	<u> </u>	<u>56,731</u>	<u>-</u>
Totals	<u>\$ 49,868</u>	<u>\$ 877,090</u>	<u>\$ </u>	<u>\$ 926,958</u>	<u>\$ 391</u>

Compensated Absences are being paid from resources generated by the General Fund.

Lease

On January 5, 2023, the District entered into a lease for the purchase of a Pumper Truck. The lease is secured by the vehicle financed, and, in the event that the District defaults on the lease, the title to the vehicle will transfer back to the Lessor. The lease requires 14 annual payments of \$93,925 including principal and interest, at 5.24% through February 10, 2038.

Future Debt Service Requirements

Total annual debt service requirements for the equipment leases at December 31, 2024, are as follows.

<u>Year Ended December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 391	\$ 93,534	\$ 93,925
2026	48,372	45,553	93,925
2027	50,905	43,020	93,925
2028	53,571	40,354	93,925
2029	56,376	37,549	93,925
2030-2034	329,385	140,240	469,625
2035-2038	<u>331,227</u>	<u>44,473</u>	<u>375,700</u>
Total Debt Service Requirements	<u>\$ 870,227</u>	<u>\$ 444,723</u>	<u>\$ 1,314,950</u>

NOTE 6: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains insurance through a commercial carrier for these risks of loss. No claims have exceeded insured amounts in the last three years.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 7: COMMITMENTS AND CONTINGENCIES

Claims and Judgments

The District participates in a number of federal, state, and local programs that are fully or partially funded by grants received from other governmental units. Expenses financed by grants are subject to audit by the appropriate grantor government. If expenses are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. The District believes that disallowed expenses, if any, would not have a material effect on the overall financial position of the District.

TABOR Amendment

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local government. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the Amendment. The District has established an emergency reserve, representing 3% of fiscal year spending (excluding debt service), as required by the Amendment. At December 31, 2023, the emergency reserve of \$44,000 was recorded as a restriction of fund balance in the General Fund.

NOTE 8: DEFINED BENEFIT PENSION PLANS

Volunteer Firefighters' Pension Plan

Summary of Significant Accounting Policies

The District has established the Volunteer Firefighters' Pension Plan (the "Volunteer Plan"), an agent multiple-employer defined benefit pension fund administered by the Colorado Fire & Police Pension Association ("FPPA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the Volunteer Plan have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Volunteer Firefighters' Pension Plan (Continued)

General Information about the Pension Plan

Plan Description. Any firefighter who has both attained the age of fifty and completed twenty years of active service shall be eligible for a monthly pension. Additionally, any firefighter that has reached the age of fifty with at least ten years of service will receive a pension benefit that is prorated for years of creditable volunteer service between 10 and 20 years. A firefighter who is disabled in the line of duty and whose disability is of such character and magnitude as to deprive the firefighter of earning capacity and extends beyond one year, shall be compensated in an amount determined by the Pension Board.

The Plan also provides for a lump-sum burial benefit upon the death of an active or retired firefighter. Spouses of deceased firefighters may receive benefits as authorized by State statute. FPPA issues an annual, publicly-available financial report that includes the assets of the Volunteer Plan. That report may be obtained on FPPA's website at <http://www.fppaco.org>.

Funding Policy. An actuary is used to determine the annual required contribution ("ARC") necessary to maintain the actuarial soundness of the Plan. Colorado law requires the State to make an annual contribution to the Plan. Because the District's monthly benefit amount is over \$400, the State's annual contribution is calculated as the highest State contribution made between 1998 and 2001. The District makes an additional contribution to support the plan.

The actuarial study as of January 1, 2023, indicated that the current levels of contributions to the fund are adequate to support on an actuarially sound basis the prospective benefits for the present Plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the District reported a net pension asset of \$145,683. The net pension asset was measured as of December 31, 2023, and was determined by an actuarial valuation as of January 1, 2023. Standard update procedures were used to roll forward the total pension liability to December 31, 2024.

NEDERLAND FIRE PROTECTION DISTRICT

December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Volunteer Firefighters' Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2024 the District recognized pension income of \$9,076. At December 31, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	N/A	N/A
Net difference between projected and actual earnings on pension plan investments	\$95,987	\$58,847
Change in assumptions and other inputs	N/A	N/A
Contributions subsequent to the measurement date	\$5,000	N/A
Total	\$100,987	\$58,847

\$5,000 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,	
2024	\$2,205
2025	\$12,518
2026	\$27,205
2027	(\$4,788)

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan

Plan Description

The Statewide Retirement Plan is a cost-sharing multiple-employer defined benefit pension plan. The Plan consists of four components: Defined Benefit Component, Hybrid Defined Benefit Component, Social Security Component and Money Purchase Component. The Plan currently has 230 participating employer fire and police departments.

The Defined Benefit Component and Social Security Component cover substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978, provided that they are not already covered by a statutorily exempt plan. Employers once had the option to withdraw from the Plan, but a change in state statutes eliminated this option effective January 1, 1988, unless the employer elects and is determined to be eligible to participate in the Statewide Money Purchase Plan.

In 2003, legislation was enacted that allows departments who cover their firefighters and police officers in money purchase plans to elect coverage under the Plan. As of August 5, 2003, clerical and other personnel from fire districts whose services are auxiliary to fire protection may also participate in the Plan. As of January 1, 2020, Colorado police and sheriff departments who participate in Social Security have the option of affiliating for coverage under the Plan.

The Plan assets are in the Fire & Police Members' Benefit Investment Fund Long-Term Pool and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Money Purchase Component assets). The Long-Term Pool is designed primarily for open plans with a longer time horizon, appropriate risk tolerance, and lower liquidity needs. The investment return assumption is 7.00 percent.

Members participating in DROP or in the Money Purchase Component choose among various investment options offered by an outside investment manager

Description of Benefits

The FPPA Board of Directors may change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The Normal Retirement Age should not be less than age 55 or more than age 60. Any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Members with combined age and years of service totaling 80 or more, with a minimum age of 50 also qualify for a normal retirement pension.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

Description of Benefits (Continued)

A member is eligible for retirement after attainment of age 55 with at least five years of credited service.

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis.

The annual retirement benefit for the Defined Benefit Component is 2.0 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent of the average of the member's highest three years' base salary for each year of service thereafter.

Beginning January 1, 2007, the annual normal retirement benefit for the Social Security Component is 1.0 percent of the average of the member's highest three years base salary for each year of credited service up to then years plus 1.25 percent of the average of the member's highest three years' base salary for each year thereafter. Prior to 2007, the benefit for members of the Social Security Component will be reduced by the amount of social security income the member receives annually, calculated as if the social security benefit started as of age 62.

The annual retirement benefit of the Hybrid Defined Benefit Component is 1.9 percent of the average of the member's highest three years' base salary for each year of credited service through December 31, 2022 and 1.5 percent of the average of the member's highest three years' base salary for each year of credited service after January 1, 2023.

Benefits paid to retired members and beneficiaries may be increased annually on October 1 via cost of living adjustment (COLA). COLAs may be compounding or non-compounding. The increase in benefits, if any, is based on the FPPA Board of Director's discretion. Compounding COLAs can range from 0 percent to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers. Non-compounding COLAs take into consideration the investment returns, compounding COLAs and other economic factors. COLAs may begin once the retired member has been receiving retirement benefits for at least 12 calendar months prior to October 1.

Upon termination, the vested account balance within the Money Purchase Component becomes available to the member.

Upon termination, a member may elect to have their member contributions, along with 5.0 percent as interest, returned as a lump sum distribution in lieu of a retirement benefit.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

Contributions

Contribution rates for the Plan are set by state statute. The FPPA Board of Directors may further increase the required contributions, equally between employer and member, upon approval through an election of both employers and members.

Members of the Defined Benefit Component contribute 12.0 percent of base salary. In 2020, legislation was enacted to increase the employer contributions rate to the Plan beginning in 2021. Employer contribution rates will increase 0.5 percent annually through 2030 to a total of 13.0 percent of base salary. These increases result in a combined contribution rate of 25.0 percent of base salary in 2030. In 2023, the total combined member and employer contribution rate was 21.5 percent.

Contributions from Defined Benefit Component members and employers of plans reentering the Defined Benefit Component are established by resolution and approved by the FPPA Board of Directors. The continuing rate of contribution for reentry groups is determined for each reentry group. The additional contribution amount is determined locally and may be paid by the member, the employer or split 50/50. Per the 2020 legislation, the required employer contribution rate for reentry departments also increases 0.5 percent annually. These increases result in a minimum combined contribution rate of 25.2 percent in 2030. In 2023, the total minimum required member and employer contribution rate was 21.7 percent.

Members of the Social Security Component contribute 6.0 percent of base salary. Per the 2020 legislation, employer contribution rates will increase 0.25 percent annually through 2030 to a total of 6.5 percent of base salary. These increases result in a combined contribution rate of 12.5 percent of base salary in 2030. In 2023, the total combined member and employer contribution rate was 10.75 percent.

The Hybrid Defined Benefit Component and Money Purchase Component members and their employers are currently each contributing at the rate determined by the individual employer. Effective January 1, 2023, the employer and member minimum contribution rates will increase by 0.125 percent annually until they reach a minimum rate of 9 percent each and at least a combined rate of 18 percent in 2030. In 2023, the total minimum combined member and employer contribution rate was 16.25 percent.

The Hybrid Defined Benefit Component sets contribution rates at a level that enables the defined benefits to be fully funded at the member's retirement date. The amount allocated to the Hybrid Defined Benefit Component is set annually by the FPPA Board of Directors. The Hybrid Defined Benefit Component contribution rate from July 1, 2023 through June 30, 2024 is 14.24 percent. The Hybrid Defined Benefit Component contribution rate from January 1, 2023 through June 30, 2023 was 13.90 percent.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

Contributions (Continued)

Contributions in excess of those necessary to fund the defined benefit are allocated to the member's self-directed account in the Money Purchase Component.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Within the Money Purchase Component, members are always fully vested in their own contributions, as well as the earnings on those contributions. Vesting in the employer's contributions within the Money Purchase Component, and earnings on those contributions occurs according to the vesting schedule set by the plan document at 20 percent per year after the first year of service and to be 100 percent vested after five years of service or the attainment of age 55. Employer and member contributions are invested in funds at the discretion of members.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the District reported a net pension asset in the amount of \$0 for its proportionate share of the SRP Plan net pension asset. The SRP Plan net pension asset was measured as of January 1, 2024, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2024. Standard update procedures were used to roll forward the total pension liability to December 31, 2024. The District's proportion of the SRP Plan net pension asset was based on the District's contributions to the SRP Plan for the calendar year 2023 relative to the total contributions of participating employers to the SRP Plan.

At December 31, 2024, the District's proportion was 0.03588%, which was a decrease of 0.002144% from its proportion measured as of December 31, 2023.

December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended December 31, 2024 the District recognized SRP pension expense of \$178,033. At December 31, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to SRP pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$68,328	\$3,283
Net difference between projected and actual earnings on pension plan investments	\$44,389	N/A
Changes in proportion and differences between contributions recognized and proportionate share of contributions	\$98,628	N/A
Change in assumptions and other inputs	\$39,633	N/A
Contributions subsequent to the measurement date	\$57,221	N/A
Total	\$281,386	\$3,283

\$57,221 reported as deferred outflows of resources related to SRP pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year December 31, 2024.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to SRP pensions will be recognized in pension expense as follows:

Year ended December 31	
2025	\$40,269
2026	\$52,928
2027	\$69,768
2028	\$21,351
2029	\$23,132
Thereafter	\$40,247

Actuarial assumptions. The actuarial valuations for the SWBP Plan were used to determine the total pension liability and actuarially determined contributions for the fiscal year ending December 31, 2023.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and
Deferred Inflows of Resources Related to Pensions** (Continued)

The valuations used the following actuarial assumptions and other inputs:

Total Pension Liability:

Actuarial Valuation Date	January 1, 2023
Actuarial Method	Entry Age Normal
Amortization Method	N/A
Amortization Period	N/A
Long-term investment Rate of Return*	7.00 percent
Projected salary increases*	4.25 – 11.25 percent
Cost of Living Adjustments (COLA)	0.00 percent
*Includes Inflation at 2.5%	

Actuarially Determined Contributions:

Actuarial Valuation Date	January 1, 2023
Actuarial Method	Entry Age Normal
Amortization Method	Level % of Payroll, Open
Amortization Period	30 Years
Long-term investment Rate of Return*	7.00 percent
Projected salary increases*	4.25 – 11,25 percent
Cost of Living Adjustments (COLA)	0.00 percent
*Includes Inflation at 2.5%	

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA’s Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2022 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA’s actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2023. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 8: DEFINED BENEFIT PENSION PLANS (Continued)

Statewide Retirement Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The long-term expected rate of return on SRP pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent).

Best estimates of arithmetic real rates of return for each major asset class included in the SRP Plan's target asset allocation as of December 31, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	35.00%	8.33%
Equity Long/Short	6.00%	7.27%
Private Markets	34.00%	10.31%
Fixed Income – Rates	10.00%	5.35%
Fixed Income – Credit	5.00%	5.89%
Absolute Return	9.00%	6.39%
Cash	1.00%	4.32%
Total	100.00%	

The discount rate used to measure the total SRP pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the FPPA Board of Director's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SRP Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment) to determine the total pension liability.

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate, based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

Statewide Retirement Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the purpose of this valuation, the expected rate of return on SRP pension plan investments is 7.00%; the municipal bond rate is 3.77% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. Regarding the sensitivity of the net asset liability/(asset) to changes in the Single Discount Rate, the following presents the SRP Plan's net pension liability, calculated using a Single Discount Rate of 7.00%, as well as what the plan's net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Proportionate share of the net pension liability (asset)	\$201,184	-	-

Pension plan fiduciary net position. Detailed information about the SRP Plan's fiduciary net position is available in FPPA's comprehensive annual financial report which can be obtained at <http://www.fppaco.org>.

NOTE 9: PAID FIREFIGHTER PENSION PLAN

Statewide Money Purchase Pension Plan

Plan Description - Beginning in 2000, the District contributes to the Statewide Money Purchase Pension Plan (Plan), a cost-sharing multiple-employer defined contribution pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The Plan provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members through the Statewide Death and Disability Plan, which is also administered by FPPA. This is a non-contributory plan. All full time, paid firefighters of the District are members of the Plan and the Statewide Death and Disability Plan. The Plan was established by the State Legislature under Title 31, Article 30 of the Colorado Revised Statutes (CRS), as amended.

NEDERLAND FIRE PROTECTION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2024

NOTE 9: PAID FIREFIGHTER PENSION PLAN (Continued)

Statewide Money Purchase Pension Plan (Continued)

FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for both the Plan and the Statewide Death and Disability Plan. That report may be obtained by contacting FPPA.

Funding Policy - The contribution requirements of plan members and the District are established and may be amended by the State legislature. Both the District and the employee contribute 8.0% of the employee's covered salary. The District contributions to the Plan for the year ending December 31, 2024, were \$1,116 equal to the required contribution.

NOTE 10: ADJUSTMENTS TO AND RESTATEMENTS OF BEGINNING BALANCES

During the year ending on December 31, 2024, beginning net position was increased by \$231,883 to correctly state the capital assets of the District.

The effect of the restatement is shown below:

	<u>Net Position:</u> <u>Government Wide</u>
December 31, 2024, as previously reported	\$ 2,881,645
Change in Accounting Principle	<u>231,883</u>
December 31, 2024, as restated	<u>\$ 3,113,528</u>

NOTE 11: SUBSEQUENT EVENTS

The District has evaluated subsequent events through the date which the financial statements were issued. It was determined that no events were required to be disclosed.
