**Required Supplementary Information**

**MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**  
**Required Supplementary Information (RSI)**  
**June 30, 2024**

The discussion and analysis of the Centennial Board of Cooperative Educational Services' (the "BOCES") financial performance provides an overall review of the BOCES' financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the BOCES' financial performance as a whole. Readers should also review the financial statements, financial statement footnotes, and budgetary comparison schedules to broaden their understanding of the BOCES financial performance.

**Financial Highlights**

As a result of the implementation of GASB 68 during the year ended June 30, 2015, the BOCES' net position statement has changed significantly over the past several years. The total net position changed from -\$7,721,501 at the end of the June 30, 2023, to -\$8,300,457 as of June 30, 2024. The share of Colorado PERA's net pension liability for Centennial BOCES is causing the primary impact to the Statement of Net Position, which is found on page 4.

The BOCES fund balance in the General Fund of \$2,367,055 is an increase of \$55,365 over the prior fiscal year. The fund balance represents 14.9% of the actual expenditures for the fiscal year ended June 30, 2024. This was based on positive project balances in Administration, particularly Admin Operations, with Technology Department, Special Education Department, and Innovative Education Services Department each running somewhat negative project balances.

Federal Migrant Education revenues account for \$2,123,177, or 13.3% of total governmental revenue for the year ending June 30, 2024. Federal Special Education IDEA Part B revenues account for \$1,839,649, or 11.6% of total governmental revenue. Title I revenues account for \$1,443,574, or 9.1% of total governmental revenue. Total federal sources of revenues were \$277,922 higher for the year ending June 30, 2024 compared to June 30, 2023. The main increases in federal sources were from Title I Part A, Migrant Education, and IDEA Part B Special Education funds. State revenue was essentially level as of June 30, 2024, compared to the prior fiscal year, with local revenue seeing a decrease of \$114,066 as of June 30, 2024, compared to the prior fiscal year.

**Using the Basic Financial Statements**

The basic financial statements consist of the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can first understand the BOCES as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements – the Statement of Net Position and the Statement of Activities. Both provide long and short-term information about the BOCES' overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the BOCES' operations in more detail. The governmental fund statements tell how general BOCES services were financed in the short term as well as what remains for future spending. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

## Financial Analysis of the BOCES as a Whole

For the fiscal year ending June 30, 2024, Centennial BOCES had a positive change in the fund balance. The fund balance increased \$55,365 over the prior year. At the end of the current fiscal year, total assets of the BOCES increased to \$7,334,658 compared to \$6,709,534, which is an increase of \$625,124 from the prior year. The change is largely due to an increase in grants receivable of \$564,556 and an increase in other accounts receivable of \$109,873. Total deferred outflows of financial resources increased \$961,249 from the prior year. The change in liabilities is highlighted by an increase of \$536,300 in accounts payable and by an increase of \$2,754,610 in non-current liabilities, representing a total increase in liabilities of \$3,363,145. Total deferred inflows of financial resources decreased \$1,197,816 from the prior year.

## Government-Wide Financial Statements

The government-wide statements report information about the BOCES as a whole using accounting methods similar to those used by private businesses. The statements of net position include all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the BOCES' net position and how they have changed. The change in net position is important because it tells the reader that for the BOCES as a whole, the financial position of the BOCES has improved or diminished. The causes of this change may be the result of various factors, some financial, some not. Non-financial factors include facility conditions and required educational programs.

In the Statement of Net Position and the Statement of Activities, the BOCES has one type of activities: Governmental Activities. The majority of the BOCES' programs and services are reported here including instruction, support services, and interest on long term debt.

A condensed summary of the BOCES' Net Position is as follows:

TABLE I – CONDENSED SUMMARY OF NET POSITION

	2024	2023
<b>Assets:</b>		
Current Assets	\$ 4,710,402	\$ 4,081,623

Total Liabilities, Deferred Outflows and Net Position	\$ 13,279,816	\$ 11,793,520

The most significant changes in governmental activities were an increase in deferred outflows of resources of \$961,249, and an increase in non-current liabilities of \$2,754,610. The decrease in deferred inflows of resources of \$1,197,816 was primarily due to the updated Centennial BOCES' share of the net pension liability from PERA into the financial statements per GASB 68 requirement.

A condensed Statement of Activities and Changes in Net Position is as follows:

TABLE 2 – CONDENSED STATEMENT OF ACTIVITIES

The increase in governmental activity total revenues of \$1,115,668 is primarily attributable to the increase in other miscellaneous revenues of \$176,432. The increase in total expenses of \$1,063,241 is mostly attributable to both an increase in supporting services expense of \$894,833.

### Reporting the BOCES' Most Significant Fund

The statements of the BOCES' major fund begin on page 8. Fund financial reports provide detailed information about the BOCES' major fund. The Centennial BOCES' major fund is the General Fund.

### Governmental Funds

All of the BOCES' activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the BOCES' general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The

relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements of the Governmental Funds. The BOCES' governmental fund is the General fund. The General Fund accounts for the BOCES's entire program related activities.

**Fund Financial Statements**

As of June 30, 2024, the BOCES' general fund reported a fund balance of \$2,367,055, which is an increase of \$55,365 from the June 30, 2023 balance. The increase was primarily related to positive project balances in Administration, particularly Admin Operations, with Technology Department, Special Education Department, and Innovative Education Services Department each running somewhat negative project balances. The general fund has an unassigned fund balance of \$2,066,555 and a committed fund balance of \$300,500.

**Capital Assets**

As of June 30, 2024, the BOCES had \$2,558,815 invested in a broad range of capital assets, including land, buildings, furniture, and equipment. The BOCES decreased net capital assets by \$38,776 (including additions and depreciation). The change was due to a net increase in total accumulated depreciation. A summary of the BOCES' Capital Assets is as follows:

TABLE 3 – SUMMARY OF CAPITAL ASSETS

The BOCES' policy is to capitalize and inventory annually capital assets with a unit value of or greater than \$5,000 and an estimated useful life of or greater than one year.

## Debt Administration

As of June 30, 2024, the BOCES had total outstanding long-term debt as follows:

TABLE 4 – SCHEDULE OF NONCURRENT LIABILITIES

	Balance 6/30/23	Additions	Deletions	Balance 6/30/24	Due Within One Year	Interest Expense

The BOCES' capital leases are for the Agency's equipment. Additional information regarding these leases can be found in Note 5 to the financial statements starting on page 18.

## General Fund Budget

The Board of Directors adopts the BOCES' budget in May of each year. Changes are then made in September when grant allocations are announced and staff changes are made for the new school year. The adoption of supplemental budgets is allowed throughout the year when unanticipated additional revenues are received. The majority of changes to the BOCES' budget are due to grants updated or awarded after the budget adoption. The final budget increased by \$963,728 over the original budget due to an increase in several grants, including Title I Part A of \$367,838, and an increase in interest revenue and an additional grant award in the Administration department. Actual expenditures for the year were \$1,349,766 less than budgeted.

## Economics Factors and Next Year's Budget and Rates

Joining forces to enrich educational opportunities for students, the BOCES provides high quality programs and services through partnerships and collaboration which support the educational priorities of member districts and enrich educational opportunities for students. The 2024-2025 budget addresses the major projects for the ensuing school year and provides an adequate level of funding for ongoing programs. The budget includes all programs associated with the seventeen districts within the BOCES. Overall, the original adopted BOCES budget for 2024-2025 is \$17,040,857 or \$179,940 less than the final budget for 2023-2024. The main decreases are in the phasing out of ARP ESSER 3 funds and a reduction in federal Migrant Education funding of 10%. Federal Program budgets decreased \$628,191 over the final 2023-2024 budget. Special Education budgets increased \$565,153 over the final 2023-2024 budget.

## Requests for Information

This financial report is designed to provide a general overview of the BOCES' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, 2020 Clubhouse Drive, Greeley, CO, 80634.

## Independent Auditors' Report

### **Opinion**

We have audited the accompanying financial statements of the governmental activities, and major fund of Centennial Board of Cooperative Educational Services, as of and for the year ended June 30, 2024, and the related notes to the financial statements which collectively comprise Centennial Board of Cooperative Educational Services basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and major fund of the Centennial Board of Cooperative Educational Services as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Centennial Board of Cooperative Educational Services and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Centennial Board of Cooperative Educational Services ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditors' Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Centennial Board of Cooperative Educational Services internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt Centennial Board of Cooperative Educational Services ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Report on Summarized Comparative Information***

We have previously audited the Centennial Board of Cooperative Educational Services 2023 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 31, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023 is consistent, in all material respects, with the audited financial statements from which it has been derived.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that a management's discussion and analysis, budgetary comparison information, historical pension information and other post-employment benefit plan information listed in the tables of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

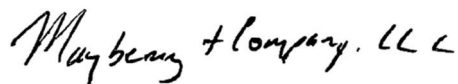

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Centennial Board of Cooperative Educational Services basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Report on Other Legal and Regulatory Requirements***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

***Other Reporting Required by Governmental Accounting Standards***

In accordance with *Governmental Accounting Standards* on our consideration of the Centennial Board of Cooperative Educational Services' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Centennial Board of Cooperative Educational Services' internal control over financial reporting and compliance.

## CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Centennial Board of Cooperative Educational Services (the BOCES) conform to generally accepted accounting principles as applicable to governmental units. Following is a summary of the more significant policies:

##### **Reporting Entity**

In evaluating how to define the government, for financial reporting purposes, the BOCES' management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity* as subsequently updated and amended.

Based upon the application of these criteria, no governmental organizations are includable within the BOCES' reporting entity.

##### **Basis of Presentation**

###### **Government-wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information of the BOCES as a whole. The reporting information includes all of the non-fiduciary activities of the BOCES. These statements are used to distinguish between the governmental and business-type activities of the BOCES. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The BOCES' does not report any business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the BOCES and for each function of the BOCES' governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include fees and charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues that are not classified as program revenues are presented as general revenues. The effects of interfund activity have been eliminated from the government-wide financial statements.

###### **Fund Financial Statements**

The fund financial statements provide information about the BOCES' funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds would be aggregated and reported as non-major funds. Any fiduciary funds are presented separately. The BOCES presently does not have any non-major or fiduciary funds.

## CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### **NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The BOCES reports the following major governmental fund:

General Fund - This fund is the general operating fund of the BOCES. It is used to account for all financial activity.

#### **Measurement Focus and Basis of Accounting**

##### **Government-Wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the same time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions in which the BOCES gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

##### **Governmental Fund Financial Statements**

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The BOCES considers all revenues reported in the governmental funds to be available if they can be used to satisfy current obligations as of year-end, generally not over 60 days after year end. These revenues could include federal, state, and county grants, and some charges for services. Grants are only recognized to the extent allowable expenditures have been incurred. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the BOCES funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, they are both restricted and unrestricted net position available to finance the programs. It is the BOCES' policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year-end.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### **Measurement Focus and Basis of Accounting** (Continued)

##### **Governmental Fund Financial Statements** (Continued)

The BOCES adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- Budgets are required by state law for all funds. By May 31, the Executive Director submits to the Board of Directors a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year end.
- Public hearings are conducted by the Board to obtain taxpayer comments.
- Prior to June 30, the budget is adopted by formal resolution.
- A Uniform Budget Summary must be prepared and posted on the BOCES' website.
- Expenditures may not legally exceed appropriations at the fund level.
- Revisions that alter the total expenditures of any fund must be approved by the Board.
- Budgeted amounts reported in the accompanying financial statements are as adopted or amended by the Board.

##### **Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance**

Cash - Cash is in interest bearing accounts which are comprised of certificates of deposit, savings accounts and money market accounts which are legally authorized. The balance in the cash accounts is available to meet current operating requirements.

Receivables - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets – Capital assets used in governmental activities operations are shown on the government-wide financial statements. These assets are not shown in the governmental funds and are therefore listed as a reconciling item between the two presentations. Property and equipment acquired or constructed for governmental fund operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the government-wide presentation. No depreciation has been provided on capital assets in the governmental funds.

Property and equipment is stated at cost. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

**CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES**

**NOTES TO FINANCIAL STATEMENTS**

**June 30, 2024**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance (Continued)**

Depreciation has been provided over the estimated useful lives of the asset in the government-wide presentation. Depreciation is calculated using the straight-line method over the following useful lives:

Buildings and Site Improvements	50 years
Other Equipment	5-20 years

Unearned Revenues - The unearned revenues include governmental grants which have been received but not yet earned as service has not been provided.

Vacation leave - The BOCES' twelve month contract employees shall receive vacation leave time. Vacation leave benefits for contracted employees are as follows: employees with 1-3 years of service can accumulate 96 hours per year, employees with 4-5 years of service can accumulate 120 hours per year and employees with 6 years and over of service can accumulate 144 hours per year. An employee may not accrue more time than can be accrued in a two-year period. Upon termination of employment, other than for cause, an employee shall be paid a lump sum at the employee's current daily rate for unused vacation, not to exceed two year's accumulation.

Sick leave - The BOCES will provide 96 hours per year of sick leave with a maximum accrual of 520 hours (employees will be compensated for unused sick leave above the base of 20 days/160 hours at the current state minimum wage upon separation of employment.

Deferred outflows/inflows of resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has several items that qualify for reporting in this category, all related to outstanding pension and OPEB obligations and further described in Notes 6 and 8.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The BOCES reports deferred inflows for pension and OPEB related amounts as further described in Notes 6 and 8.

Net Position/Fund Balances - In the government-wide financial statements, net position is shown as net investment in capital assets, with these assets essentially being nonexpendable; restricted when constraints placed on the net position are externally imposed; or unrestricted.

## CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### **Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance (Continued)**

For the governmental fund presentation, fund balances that are classified as “nonspendable” include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

Fund balance is reported as “restricted” when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors, is reported as “committed” fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, are reported as “assigned” fund balance. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

All remaining fund balance in the General Fund is presented as unassigned.

##### **Net Position/Fund Equity Flow Assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance, if allowed under the terms of the restriction. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES**

**NOTES TO FINANCIAL STATEMENTS**

**June 30, 2024**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Revenues and Expenditures**

Revenues and Expenditures - Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred.

**Comparative Data**

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the BOCES' financial position and operations. However, comparative (i.e., presentation of prior year totals by fund type) data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

**NOTE 2: CASH AND INVESTMENTS**

A reconciliation of the cash and investment components on the balance sheet to the cash and investments categories in this footnote are as follows:

**Cash and Investments**

Petty Cash	\$	400
Deposits		202,592
Investments		<u>1,729,154</u>
<b>Total Cash and Investments</b>	<b>\$</b>	<b><u>1,932,146</u></b>

**CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES**

**NOTES TO FINANCIAL STATEMENTS**

**June 30, 2024**

**NOTE 2: CASH AND INVESTMENTS (Continued)**

**Deposits**

The Colorado Public Deposit Protection Act, (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At June 30, 2024, State regulatory commissioners have indicated that all financial institutions holding deposits for the BOCES are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. Deposits are categorized by type of credit risk: (1) Insured or collateralized with securities held by the entity or by its agent in the entity's name. (2) Collateralized with securities held by the pledging financial institution's trust department or agent in the entity's name. (3) Uncollateralized, including any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the entity's name.

At June 30, 2024, the BOCES’ deposits had bank and carrying balances as follows:

	<u>Bank Balance</u>	<u>Carrying Balance</u>
FDIC Insured	\$ 250,000	\$ 502,924
PDPA Collateralized (Not held in BOCES name)	378,135	-
<b>Total Deposits</b>	<u><u>\$ 628,135</u></u>	<u><u>\$ 502,924</u></u>

**Investments**

The BOCES has \$1,729,154 invested in the Colorado Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. Colotrust operates similarly to a money market fund and each share is equal in value to \$1.00. Investments of Colotrust consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank provides safekeeping and depository services to Colotrust in connection with the direct investment and withdrawal functions of Colotrust. Substantially all securities owned by Colotrust are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by Colotrust. The fair value of the position in the pool is the same as the valuation of the pool shares.

Cash Invested - Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. The allowed investments include local government investment pools and obligations of the United States Government.

Interest Rate Risk – The BOCES does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES**

**NOTES TO FINANCIAL STATEMENTS**

**June 30, 2024**

**NOTE 2: CASH AND INVESTMENTS (Continued)**

**Investments (Continued)**

Credit Risk – State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The BOCES has no investments policy that would further limit its investment choices. At June 30, 2024, the BOCES’ investment in the Colorado Government Liquid Assets Trust (Colostrust) was rated AAAM by Standard & Poor’s.

Concentration of Credit Risk – The BOCES Board has placed no limit on the amount the BOCES may invest in any one issuer.

**NOTE 3: CAPITAL ASSETS**

The BOCES' policy is to capitalize and inventory annually all capital assets with a unit value of or greater than \$5,000 and an estimated useful life of or greater than one year.

A summary of changes in capital assets is as follows:

	<u>Balance</u> <u>06/30/23</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u> <u>06/30/24</u>
<b>Governmental Activities:</b>

Depreciation for the governmental activities is allocated to supporting services in the amount of \$95,164 as of June 30, 2024.

**CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES**

**NOTES TO FINANCIAL STATEMENTS**

June 30, 2024

**NOTE 4: ACCRUED SALARIES AND BENEFITS**

Salaries and retirement benefits of certain contractually employed personnel are paid over a twelve month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, as of June 30, 2024, are 547,865. Accordingly, the accrued compensation is reflected as a liability in the accompanying financial statements of the General Fund.

**NOTE 5: LONG-TERM OBLIGATIONS**

A summary of changes in long term obligations for the year ended June 30, 2024:

	<b>Balance 6/30/23</b>	<b>Additions</b>	<b>Deletions</b>	<b>Balance 6/30/24</b>	<b>Due Within One Year</b>	<b>Interest Expense</b>

Long term obligations also include the potential equity distribution of \$40,185 discussed in Note 11.

**Leases – Direct Borrowing**

In September 2020, the BOCES entered into a copier lease agreement for \$7,775. Monthly payments of \$143 are due through August 2025, at an interest rate of 4.00%. In the event of default, the Lessor may retain the security deposit and/or terminate or cancel the agreement. The Lessor may require all sums due under the agreement with the unpaid balance discounted at present value rates, the amount of any purchase option and if none is specified, 20% of the original equipment cost will represent an anticipated residual value, interest may be recovered on any unpaid balance at an annual rate of 8%. The Lessor may use any remedies available under Article 2A of the Uniform Commercial Code. Fees liable to the Lessee associated with right to remedy may include reasonable attorney’s fees, actual court costs and repossession costs. The Lessee may be required to return the equipment to a location designated by the Lessor. The net proceeds of the sale of any repossessed equipment will be credited against what is owed.

2026	285	1	286
<b>Total</b>	<b>\$ 1,953</b>	<b>\$ 49</b>	<b>\$ 2,002</b>

In December 2021, the BOCES entered into a copier lease agreement for \$7,700. Monthly payments of \$142 are due through November 2026, at an interest rate of 4.00%. In the event of default, the Lessor may retain the security deposit and/or terminate or cancel the agreement. The Lessor may require all sums due under the agreement with the unpaid balance discounted at present value rates, the amount of any purchase option and if none is specified, 20% of the original equipment cost will represent an anticipated residual value, interest may be recovered on any unpaid balance at an annual rate of 8%. The Lessor may use any remedies available under Article 2A of the Uniform Commercial Code. Fees liable to the Lessee associated with right to remedy may include reasonable attorney’s fees, actual court costs and repossession costs. The Lessee may be required to return the equipment to a location designated by the Lessor. The net proceeds of the sale of any repossessed equipment will be credited against what is owed.

The future minimum capital lease payments at June 30, 2024, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

<b>Total</b>	<b>\$ 3,916</b>	<b>\$ 202</b>	<b>\$ 4,118</b>

**NOTE 6: DEFINED BENEFIT PENSION PLAN**

**Summary of Significant Accounting Policies**

*Pensions.* The BOCES participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees’ Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. As of June 30, 2024, 108 employees were members of the PERA Plan.

#### NOTE 6: DEFINED BENEFIT PENSION PLAN

##### **Summary of Significant Accounting Policies (Continued)**

*Plan description.* Eligible employees of the BOCES are provided with pensions through the SCHDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

##### **General Information about the Pension Plan**

*Benefits provided as of December 31, 2022.* PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of the highest average salary and cannot exceed the maximum benefit allowed by the federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

**General Information about the Pension Plan (Continued)**

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA’s Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contributions provisions as of June 30, 2024:* Eligible employees of, the BOCES and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Eligible employees are required to contribute 11.00% of their PERA-includable salary during the period of July 1, 2023 through June 30, 2024. Employer contribution requirements are summarized in the table below:

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

	<b>7/1/23- 6/30/24</b>
Employer contribution rate	11.40%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. 24-51-208(1)(f)	-1.02%
Amount apportioned to the SCHDTF	10.38%
Amortization equalization disbursement (AED) as specified in C.R.S. 24-51-411	4.50%
Supplemental amortization equalization disbursement (SAED) as specified in C.R.S. 24-51-411	5.50%
<b>Total employer contribution rate to the SCHDTF</b>	<b>20.38%</b>

<sup>1</sup> Rates are expressed as a percentage of salary as defined in C.R.S. 24-51-101(42).

**NOTE 6: DEFINED BENEFIT PENSION PLAN (Continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the BOCES is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the BOCES were \$1,124,802 for the year ended June 30, 2024.

For purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation. As specified in C.R.S. § 24-51-414, the State is required to contribute a \$225 million (actual dollars) direct distribution each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. House Bill (HB) 22-1029, instructed the State treasurer to issue an additional direct distribution to PERA in the amount of \$380 million (actual dollars), upon enactment. The July 1, 2023, payment is reduced by \$190 million (actual dollars) to \$35 million (actual dollars). The July 1, 2024, payment will not be reduced due to PERA's negative investment return in 2022. Senate Bill (SB) 23-056, enacted June 2, 2023, requires an additional direct distribution of approximately \$14.5 million (actual dollars), for a total of approximately \$49.5 million (actual dollars) to be contributed July 1, 2023.

The net pension liability for the SCHDTF was measured as of December 31, 2022, and the total pension liability (TPL) used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2021. Standard update procedures were used to roll-forward the TPL to December 31, 2022. The BOCES proportion of the net pension liability was based on the BOCES contributions to the SCHDTF for the calendar year 2022 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At June 30, 2023 the BOCES reported a liability of \$14,763,093 for its proportionate share of the net pension liability that reflected a reduction in its overall proportionate share of the liability due to support from the State as a nonemployer contributing entity. The amount recognized by the BOCES as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the BOCES were as follows:

District's proportionate share of the net pension liability	\$ (14,763,093)
The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the District	\$ (316,765)
<b>Total</b>	<b>\$ (15,079,858)</b>

At December 31, 2023, the BOCES proportion was 0.08349%, which was an increase of 0.01727% from its proportion measured as of December 31, 2022. This increase was significantly impacted by the reduction in the nonemployer contribution for the year.

For the year ended June 30, 2024, the BOCES recognized pension expense of \$1,731,778 and revenue of \$24,664 for support from the State as a nonemployer contributing entity. At June 30, 2024, the BOCES reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows</b>	<b>Deferred Inflows</b>
Difference between expected and actual experience	\$ 701,974	\$ -
Changes of assumptions or other inputs	\$ -	\$ -
Net difference between projected and actual earnings on pension plan investments	\$ 2,826,322	\$ (2,482,712)
Changes in proportion and differences between contributions recognized and proportionate share of contributions - Plan Basis	\$ 1,845,287	\$ (1,073,922)
Contributions subsequent to the measurement date	\$ 590,768	\$ -
<b>Total</b>	<b>\$ 5,964,351</b>	<b>\$ (3,556,634)</b>

\$590,768 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended June 30:</b>	<b>Fiscal Year Totals</b>
2025	\$ 104,314
2026	1,003,706
2027	1,004,008
2028	(295,079)
<b>Total</b>	<b>\$ 1,816,949</b>

*Actuarial assumptions.* The December 31, 2022, valuation used the following actuarial cost method, actuarial assumptions and other inputs:

<sup>1</sup> Post-retirement benefit increases are provided by the AIR, accounted separately with each Division Trust Fund, and subject to moneys being available, therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

The mortality tables described below are generational mortality tables developed on a benefit-weighted basis.

The pre-retirement mortality assumptions were based upon the Pub T-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- Males: 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97% of the rates for all ages, with generational projection using scale MP-2019.
- Females: 105% of the rates for all ages, with generational projection using scale MP-2019.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

The actuarial assumptions used in the December 31, 2022, valuations were based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020.

The long-term expected return on plan assets is reviewed as part of regularly scheduled experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation. The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Real Rate of Return</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
<b>Total</b>	<b>100.00%</b>	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

*Discount rate.* The discount rate used to measure the total pension liability was 7.25%. The basis for the projection of liabilities and the FNP used to determine the discount rate was an actuarial valuation performed as of December 31, 2022, and the financial status of each of the Division Trust Funds as of the current measurement date (December 31, 2023). In addition, the following methods and assumptions were used in the projection of cash flows:

#### NOTE 6: DEFINED BENEFIT PENSION PLAN (Continued)

##### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- Beginning with the December 31, 2023, measurement date and thereafter, the FNP as of the current measurement date is used as a starting point for the GASB 67 projection test.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200, required adjustments resulting from the 2018 and 2020 AAP assessments. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessments. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches .103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225,000, commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

Based on the above assumptions and methods, the FNP for each of the Division Trust Funds was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use the municipal bond index rate, and therefore, the discount rate was 7.25%. There was no change in the discount rate from the prior measurement date for any of the Division Trust Funds.

*Sensitivity of the BOCES proportionate share of the net pension liability to changes in the discount rate.* The following presents the collective net pension liability for each of the Division Trust Funds calculated using the discount rate of 7.25% as of the measurement date, as well as if it were calculated using a discount rate that is 1- percentage point lower (6.25%) or 1-percentage point higher (8.25%):

	<b>1% Decrease (6.25%)</b>	<b>Current Discount Rate (7.25%)</b>	<b>1% Increase (8.25%)</b>
Proportionate share of the net pension asset (liability)	\$ (19,740,711)	\$ (14,763,093)	\$ (10,612,362)

*Pension plan fiduciary net position.* Detailed information about the SCHDTF’s FNP is available in PERA’s ACFR which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 7: DEFINED CONTRIBUTION PENSION PLAN**

**Voluntary Investment Program**

*Plan Description* - Employees of the BOCES that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy* – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The BOCES does not contribute to the plan. Employees are immediately vested in their own contributions, employer contributions, if any, and investment earnings. For the fiscal year ended June 30, 2024 program members contributed \$71,855.

##### **Summary of Significant Accounting Policies**

*OPEB.* The BOCES participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

##### **General Information about the OPEB Plan**

*Plan description.* Eligible employees of the BOCES are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended, and sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided.* The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 *et seq.* specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare health benefits program is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### **NOTE 8: OTHER POST-EMPLOYMENT BENEFITS (Continued)**

##### **General Information about the OPEB Plan (Continued)**

###### *PERA Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

###### *DPS Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

*Contributions.* Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02% of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the BOCES is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the BOCES were \$56,295 for the year ended June 30, 2024.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2024, the BOCES reported a liability of \$356,470 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2023, and the total OPEB liability (TOL) used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2022. Standard update procedures were used to roll-forward the TOL to December 31, 2023. The BOCES proportion of the net OPEB liability was based on The BOCES contributions to the HCTF for the calendar year 2023 relative to the total contributions of participating employers to the HCTF.

At December 31, 2023, the BOCES proportion was 0.04994%, which was a decrease of 0.00038% from its proportion measured as of December 31, 2022.

For the year ended June 30, 2024, the BOCES recognized OPEB income of \$15,485. At June 30, 2024, the BOCES reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows</b>	<b>Deferred Inflows</b>
Difference between expected and actual experience	\$ -	\$ (75,051)
Changes of assumptions or other inputs	\$ 4,352	\$ (38,149)

<sup>1</sup>UnitedHealthcare MAPD PPO plans are 0% for 2023.

Each year the per capita health care costs are developed by plan option; currently based on 2023 premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1, the UnitedHealthcare MAPD PPO plan #2, and the Kaiser Permanente MAPD HMO plan. Actuarial morbidity factors are then applied to estimate individual retiree and spouse costs by age, gender, and health care cost trend. This approach applies for all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A for the PERA benefit structure.

The 2023 Medicare Part A premium is \$506 per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2022, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the TOL are summarized in the table below:

Mortality assumptions used in the December 31, 2022, valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below, reflect generational mortality and were applied, as applicable, in the determination of the TOL for the HCTF, but developed on a headcount-weighted basis. Affiliated employers of the State, School, Local Government and Judicial Divisions participate in the HCTF.

Pre-retirement mortality assumptions for the State and Local Government Divisions (members other than Safety Officers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for Safety Officers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the Judicial Division were based upon the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions (members other than Safety Officers) were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for Safety Officers were based upon the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the School Division were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the Judicial Division were based upon the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97% of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105% of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for members other than Safety Officers were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for Safety Officers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.

The following health care costs assumptions were updated and used in the roll-forward calculation for the HCTF:

- Per capita health care costs in effect as of the December 31, 2022, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to be age 65 and older and are not eligible for premium-free Medicare Part A benefits have been updated to reflect costs for the 2023 plan year.
- The morbidity rates used to estimate individual retiree and spouse costs by age and by gender were updated effective for the December 31, 2022, actuarial valuation. The revised morbidity rate factors are based on a review of historical claims experience by age, gender, and status (active versus retired) from actuary's claims data warehouse.
- The health care cost trend rates applicable to health care premiums were revised to reflect the then current expectation of future increases in those premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by PERA Board's actuary, as discussed above.

The actuarial assumptions used in the December 31, 2022, valuations were based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)**

The long-term expected return on plan assets is reviewed as part of regularly scheduled experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Real Rate of Return</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
<b>Total</b>	<b>100.00%</b>	

*Note:* In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

*Sensitivity of the BOCES proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates.* The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

*Discount rate.* The discount rate used to measure the TOL was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2023, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- Beginning with the December 31, 2023, measurement date and thereafter, the FNP as of the current measurement date is used as a starting point for the GASB 74 projection test.
- As of the December 31, 2023, measurement date, the FNP and related disclosure components for the HCTF reflect payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24 million payment received on December 4, 2023, and a \$2 million receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1.033 million and \$24.967 million, respectively.

Based on the above assumptions and methods, the FNP for the HCTF was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the TOL. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

*Sensitivity of the BOCES proportionate share of the net OPEB liability to changes in the discount rate.* The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

<b>Discount Rate</b>	<b>1% Decrease (6.25%)</b>	<b>Current Discount Rate (7.25%)</b>	<b>1% Increase (8.25%)</b>
Proportionate share of the net pension asset (liability)	\$ (421,035)	\$ (356,470)	\$ (301,234)

*OPEB plan fiduciary net position.* Detailed information about the HCTF’s FNP is available in PERA’s ACFR which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 9: RISK MANAGEMENT**

The BOCES carries commercial insurance for various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. Settled claims resulting from these risks have not exceeded commercial or BOCES coverage in any of the past three years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.

## CENTENNIAL BOARD OF COOPERATIVE EDUCATIONAL SERVICES

### NOTES TO FINANCIAL STATEMENTS

June 30, 2024

#### **NOTE 10: SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND COMMITMENTS**

Claims and Judgments - The BOCES participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the BOCES may be required to reimburse the grantor government. As of June 30, 2024, significant amounts of grant expenditures have not been audited by state and federal agencies, but the BOCES believes that disallowed expenditures, if any, based on subsequent state and federal audits will not have a material effect on any of the individual governmental funds or the overall financial position of the BOCES.

Tabor Amendment - In November 1992, Colorado voters passed the Tabor Amendment (Amendment 1) to the State Constitution which limits state and local government tax powers and imposes spending limits. The amendment does not specifically address BOCES. However, several legal opinions have been issued stating that a BOCES itself is not subject to the requirements and restrictions of the TABOR amendment. There have been several recent court cases with organizations similar to BOCES, where the court has found that these organizations are not subject to TABOR since they are not a municipality and do not exercise independent "Government" power. However, in virtually all situations BOCES will be impacted to the degree that their member BOCES are impacted by the restrictions of TABOR. A BOCES does not need to maintain emergency reserves required by TABOR and expenditures can fluctuate independently of TABOR.

Equity ownership - The BOCES had discussions with a prior member BOCES of the Weld County BOCES as to their equity in the BOCES when they withdrew under an agreement dated August 31, 1995. In 1996, the prior member BOCES requested a payment of \$40,185 for their existing equity. At that time, BOCES legal counsel advised the Centennial BOCES that the BOCES does not have an obligation to return the equity unless the BOCES dissolves. In the future, if the BOCES dissolves, the \$40,185 will be paid from funds generated by the sale of the capital assets of the BOCES. This amount is included as another liability in the governmental activity presentation.

#### **NOTE 11: DEFICIT NET POSITION**

The Governmental Activities has an overall net position deficit of \$(8,300,324) and an unrestricted net position deficit of \$(10,853,270), primarily due to adding the PERA net pension liability of \$14,763,093 and related net deferrals, and net OPEB liability of \$356,470, as further described in Notes 6 and 8. As the BOCES has no control over pension benefits or contribution rates, the BOCES expects this deficit net position to continue for the foreseeable future.
