July 22, 2025

Honorable Mayor and City Council,
City of Golden
Golden, Colorado

Ladies and Gentlemen:

In accordance with Colorado state law and the Golden City Charter, we are pleased to submit the Annual Comprehensive Financial Report (Annual Report) for the City of Golden for the fiscal year ended December 31, 2024. This report is prepared in conformity with generally accepted accounting principles (GAAP) and was audited by Hinkle & Company PC, an independent firm of licensed certified public accountants. It includes the independent auditor's report, Management's Discussion and Analysis (MD&A), the basic financial statements and accompanying notes, as well as required supplementary information (RSI).

Responsibility for the accuracy, completeness, and fairness of the information presented rests with the City's management. To the best of our knowledge, the information is accurate in all material respects and provides a clear picture of the City's financial position and operating results for the year. All disclosures necessary to understand the City's financial activities have been included.

City management is also responsible for establishing and maintaining an internal control framework that ensures City assets are safeguarded and that accounting data is sufficient to allow for the preparation of reliable financial statements. The internal control structure is designed to provide reasonable—not absolute—assurance that these objectives are met. It recognizes that the cost of control should not exceed its benefits and that evaluating cost-benefit relationships requires management judgment. These controls form the foundation for preparing the City's financial statements and ensuring accountability in the audit process.

City Profile

Golden is located on the western edge of the Denver metropolitan area in central Jefferson County, at the base of the Rocky Mountains. The City offers scenic views, a rich history, and convenient access to key transportation corridors including I-70, US-6, SH-93, and SH-470. Golden was established in 1859, served as the Territorial Capital of Colorado from 1862 to 1867, was incorporated in 1871, and became a home rule municipality in 1967. It operates under the council-manager form of government, with policy authority vested in a seven-member City Council and administrative responsibilities carried out by the City Manager.

The City provides a full range of services including police and fire protection, streets and infrastructure maintenance, parks and recreation, water, wastewater, drainage, planning, sustainability, economic development, and general administration. Golden is also home to the Colorado School of Mines and a diverse business community encompassing retail, hospitality, technology, and manufacturing. As of December 31, 2024, Golden had an estimated population of 20,784 and a land area of approximately 9.7 square miles.

Golden's financial reporting entity includes several component units that support key areas of urban development and infrastructure investment. The Golden Urban Renewal Authority (GURA) manages tax increment financing (TIF) districts to promote reinvestment in targeted areas. The Downtown Development Authority (DDA) supports infrastructure and placemaking in the downtown core. The Golden Downtown General Improvement District (GDGID) provides parking management and other downtown amenities. These entities are included in the City's financial statements as blended component units due to their fiscal dependence and operational integration with the City.

The City follows a biennial budget process, adopting a two-year budget every even-numbered year. The budget is developed through an internal collaborative process with input from departments, the management team, and the City Manager, and is informed by community priorities, long-term plans, and financial forecasts. The Citizen Budget Advisory Committee (CBAC) plays a key advisory role in reviewing and commenting on the proposed budget. The budget is formally adopted by ordinance after public hearings, and the second year is reaffirmed annually to ensure alignment with current conditions. The City's budget serves as its primary fiscal policy document, financial plan, and operating guide.

Economic Condition and Outlook

While the broader economy continues to show signs of uncertainty—driven by inflation, interest rate volatility, and mixed signals regarding consumer and business confidence—Golden remains in a strong position. The City continues to budget conservatively and maintains reserves well in excess of policy targets. Our revenue base is diversified, and sales and use tax revenues—Golden's largest General Fund source—grew by 1.1% in 2024. Property tax revenue increased significantly due to the first year of the voter-approved 6-mill fire levy.

The City's total net position increased by \$30.9 million in 2024, including \$23.4 million from governmental activities and \$7.4 million from business-type operations. The General Fund ended the year with a fund balance of \$23.5 million, of which \$19.8 million (84.4%) was unassigned. These results reflect continued fiscal discipline and stable local economic conditions.

Local Economy

Golden's economy benefits from its location, small-town character, and mix of commercial, residential, educational, and recreational amenities. The presence of the Colorado School of Mines and various high-tech and outdoor-oriented businesses contributes to a strong employment base. Major revenue contributors include a healthy retail sector, tourism-driven businesses, and professional services.

In 2024, sales tax collections held steady despite national economic headwinds. Use tax declined due to a slowdown in construction, but the local economy overall remains resilient. Development activity continued with residential and commercial projects in various phases across the City. The downtown area continues to attract residents and visitors, supported by community events, lodging, food and beverage establishments, and cultural assets.

Long-Term Financial Planning

The City maintains a 10-year Capital Improvement Plan (CIP), updated annually as part of the budget process. One-third of the City's 3% sales and use tax rate is dedicated to capital improvements. The CIP prioritizes infrastructure maintenance, with funding set aside each year for streets, utilities, sidewalks, parks, and public facilities. The plan also identifies potential future debt needs and aligns major projects with anticipated revenue sources.

In 2024, capital investments were paced carefully to account for inflationary cost pressures and supply chain challenges. Several capital projects were delayed or phased into 2025, resulting in carryforward fund balances that will support upcoming infrastructure improvements.

Relevant Financial Policies

Golden adheres to prudent fiscal policies, including conservative revenue forecasting, a minimum unassigned fund balance policy of 20% for the General Fund, and debt management guidelines aligned with long-term affordability. The City has no general obligation debt and relies primarily on pay-as-you-go funding, voter-approved revenue measures, and lease-purchase financing when needed.

The City's voters have authorized the retention of all revenues collected in excess of TABOR limits. This allows the City to use excess revenues for public purposes, including capital projects and essential services, while still maintaining required emergency reserves and adhering to election requirements for new taxes or debt.

Major Initiatives

Key 2024 initiatives included the continued implementation of the new Fire Department funding model, with the 6-mill levy supporting expanded staffing and operations; strategic use of American Rescue Plan Act (ARPA) funds to support affordable housing; and phased investments in water, wastewater, drainage, and transportation infrastructure. The City also advanced design and planning work related to Heart of Golden Phase 1, redevelopment of the former Coors office site, and other community-prioritized projects.

On the enterprise side, the City issued new Drainage Fund debt to support critical stormwater improvements. Fossil Trace Golf Course and the Community Center continued to perform well, with business-type revenues supporting operations and reinvestment.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded the City its Certificate of Achievement for Excellence in Financial Reporting for the 2023 Annual Comprehensive Financial Report. This marks the 34th consecutive year Golden has received the award. The City also received the GFOA Distinguished Budget Presentation Award for its 2025-2026 Biennial Budget, the 29th consecutive period of recognition.

The preparation of this report required collaboration across departments and would not have been possible without the dedicated efforts of the Finance Department staff. We also thank the City's management team, the Citizen Budget Advisory Committee (CBAC), and our auditors at Hinkle & Company PC for their contributions to the City's fiscal transparency and accountability.

In closing, we appreciate the leadership and continued support of City Council in advancing sound financial management and transparent reporting

Respectfully submitted,

Scott Vargo

Independent Auditor's Report

Honorable Mayor and Members of the City Council
City of Golden
Golden, Colorado

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Golden (the City) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2024, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Office Locations:

Colorado Springs, CO
Denver, CO
Frisco, CO
Tulsa, OK

Denver Office:

750 W. Hampden Avenue,
Suite 400
Englewood,
Colorado 80110
TEL: 303.796.1000
FAX: 303.796.1001
www.HinkleCPAs.com

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, supplementary information, other information, statistical section, local highway finance report, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual comprehensive financial report (ACFR). The other information comprises the information included in the ACFR but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 14, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF GOLDEN, COLORADO

MANAGEMENT'S DISCUSSION & ANALYSIS

INTRODUCTION

As management of the City of Golden, we present this narrative overview and analysis of the City's financial activities for the fiscal year ended December 31, 2024. This section is intended to provide context for the financial statements that follow and should be read in conjunction with the City's Annual Comprehensive Financial Report (ACFR).

FINANCIAL HIGHLIGHTS

- At the close of 2024, the assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources by \$322.0 million (net position). Of this amount, \$236.1 million is invested in capital assets, \$24.4 million is restricted for specific purposes, and \$61.5 million is unrestricted and available to meet the City's ongoing obligations.
- The City's total net position increased by \$30.9 million during the year. Governmental activities accounted for \$23.4 million of this increase, primarily driven by strong sales and property tax revenues, investment earnings, and grant funding. Business-type activities contributed \$7.4 million to the overall increase, supported by rate-adjusted revenues and continued operational performance in utility and recreation services.
- The combined fund balance for all governmental funds was \$57.4 million at year-end, an increase of \$8.8 million. The General Fund increased by \$3.2 million, due to higher-than-anticipated revenues and conservative spending. The Sales and Use Tax Capital Improvement Fund added \$2.4 million, largely due to project delays. The new Fire Fund added \$1.2 million, largely due to a ramp up of hiring and strong property tax collections. Other governmental funds increased \$2.1 million as a result of grants, intergovernmental revenues, and limited expenditures.
- The unassigned General Fund balance was \$19.8 million, or 55.8% of total General Fund expenditure, reflecting the City's strong liquidity and fiscal discipline.
- Total sales and use tax revenues increased 1.1% compared to 2023. While sales tax remained steady, use tax declined due to reduced construction activity.
- During 2024, the City's total outstanding debt increased by \$3.9 million to \$18.8 million, reflecting the issuance of \$6.4 million in new Drainage Fund debt offset by \$2.5 million in scheduled principal payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the City of Golden's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2024. The report is structured to provide both broad and detailed insights into the City's financial condition and performance.

The City's basic financial statements are comprised of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

This report also includes required supplementary information and additional schedules to support the financial data presented.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a comprehensive overview of the City's finances in a format similar to that of a private-sector business. These statements present a consolidated view of the City's financial position and activities.

- The **Statement of Net Position** provides a snapshot of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources at year-end. The difference between assets plus deferred outflows and liabilities plus deferred inflows is reported as net position.
- The **Statement of Activities** explains how the City's net position changed during the year. All revenues and expenses are reported on the accrual basis, regardless of when cash is received or paid. This includes both governmental and business-type activities.

These statements distinguish between:

- **Governmental activities**, which are primarily supported by taxes and intergovernmental revenues, and include general government, public safety, public works, planning and economic development, and parks and recreation.
- **Business-type activities**, which are designed to be self-supporting through user charges. These include the City's water, wastewater, drainage, golf course, community center, and other enterprise operations.

The government-wide financial statements also include information for the City's component units. Financial information for the Golden Urban Renewal Authority (GURA) is presented as a discretely presented component unit. The Golden Downtown General Improvement District (GDGID) and the Downtown Development Authority (DDA) are reported as blended component units within the City's governmental activities.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been earmarked for specific purposes. The City, like other state and local governments, uses fund accounting to ensure compliance with finance-related legal requirements and to support financial management.

- **Governmental funds** account for the City's core services and are reported using the modified accrual basis of accounting, which focuses on current financial resources and near-term inflows and outflows. These statements help determine whether there are adequate resources to meet the City's current obligations.

- **Proprietary funds** are used to account for business-type operations, and are presented using full accrual accounting. These include the City's enterprise funds, which align with the business-type activities reported in the government-wide statements, as well as internal service funds used to manage fleet, IT, insurance, and other central services.
- **Fiduciary funds** report resources held in a trustee or custodial capacity for others and are not included in the government-wide financial statements. The City reports a Pension Trust Fund for its Volunteer Firefighters' Pension Plan.

Notes to the Financial Statements

The notes provide essential background and detail for understanding the information presented in the financial statements. They include explanations of accounting policies, breakdowns of key financial figures, and disclosure of commitments and contingencies.

Other Information

Supplementary sections of this report include:

- Budgetary comparisons for major funds
- Combining financial statements for non-major funds
- Required pension disclosures
- Statistical and trend data to support long-term analysis

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The Statement of Net Position and the Statement of Activities provide information on the City's financial condition and performance from a government-wide perspective. These statements report the City's net position, which is the difference between total assets and deferred outflows of resources, and total liabilities and deferred inflows of resources. Over time, growth in net position may serve as a useful indicator of improved financial stability.

At December 31, 2024, the City's net position totaled \$322.0 million, an increase of \$30.9 million from the prior year. The increase is attributable to both governmental and business-type activities, with notable growth in tax revenues, investment earnings, and user charges for utility and recreational services.

See next page, this area was intentionally left blank

	Net Position (in thousands)					
	Governmental Activities		Business-type Activities		Total Primary Government	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
Current and other assets	\$88,279	\$73,950	\$29,454	\$19,752	\$117,733	\$93,702
Capital Assets	129,768	119,425	120,848	116,667	250,616	236,092
Total Assets	218,047	193,375	150,302	136,419	368,349	329,794
Deferred outflows of resources	278	586	8	19	286	605
Long-term debt outstanding	11,875	15,358	7,698	957	19,573	16,315
Other liabilities	11,142	10,883	1,926	2,227	13,068	13,110
Total liabilities	23,017	26,241	9,624	3,184	32,641	29,425
Deferred inflows of resources	14,009	9,846	-	-	14,009	9,846
Net position:						
Net investment in capital assets	116,017	104,540	120,117	115,806	236,134	220,346
Restricted	17,017	17,141	7,418	379	24,435	17,520
Unrestricted	48,265	36,193	13,151	17,069	61,416	53,262
Total net position	\$181,299	\$157,874	\$140,686	\$133,254	\$321,985	\$291,128

- **Governmental Activities** increased net position by \$23.4 million, driven by strong performance in sales and property taxes, investment income, and grant-funded capital projects. Total program expenditures exceeded program revenue by \$34.5 million. Key areas of expenditure included public safety, public works, and parks and recreation.
- **Business-type Activities** increased net position by \$7.4 million, reflecting operating income in the water, drainage, golf, and cemetery funds.

Governmental net position remains concentrated in capital assets, which represent 64.0% of total governmental net position. These assets support the City's essential infrastructure and facilities but are not available for spending. The unrestricted portion of net position—available for flexible use—grew to \$48.3 million across all activities, reflecting the City's continued emphasis on operational efficiency and reserve building.

Golden's business-type activities operate on a cost-recovery basis. The 2024 financial performance reflects stable utility rate structures and strong usage across most enterprise funds, particularly in the Water and Fossil Trace Golf Course operations.

CHANGES IN NET POSITION

The City's total revenues for 2024 were \$103.5 million, while total expenses were \$72.6 million, resulting in an increase in net position of \$30.9 million, compared to an increase of \$17.6 million in 2023. This growth was led by higher tax collections—driven in part by increased property tax revenue from the newly approved 6-mill levy dedicated to fire services—as well as strong capital and operating grants and investment income. On the grant side, operating grant revenue increased due to the recognition of the remaining \$3.2

million in American Rescue Plan Act (ARPA) funds. These funds were applied to public safety salaries and benefits, which helped create budgetary flexibility within the General Fund. This flexibility allowed the City to transfer funds to the newly established Housing Trust Fund and support the acquisition of a residential apartment property to promote affordable housing within the community.

On the expense side, governmental activities increased only modestly, with most of the growth occurring in the Parks and Recreation department as the City continues to refine and expand the delivery of high-quality services to residents. Business-type activity expenses remained essentially flat compared to the prior year, reflecting stable operations across utility and enterprise funds.

Governmental Activities

Program revenues for governmental activities totaled \$15.7 million, while expenses were \$50.2 million, resulting in a program-based deficit of \$34.5 million. This shortfall was more than offset by \$58.5 million in general revenues, which include taxes, investment earnings, and other unrestricted sources.

The chart below illustrates the Governmental Activities revenues and expenses. It is important to note that the figures reflect only program revenues, which represent fees, charges, and grants tied to specific services. They do not include general revenues—such as

property and sales taxes—that fund the majority of City operations. As such, the chart may show expenses significantly outpacing revenues, but this is not indicative of a structural imbalance.

Expenses and Program Revenues - Governmental Activities

The following chart provides a comprehensive view of total revenues supporting governmental activities, combining both program revenues (such as grants and service fees) and general revenues (including taxes, investment earnings, and other unrestricted sources). This breakdown illustrates the City's overall revenue structure and highlights the extent to which general revenues fund core public services.

Significant Revenue Trends

Total revenues from governmental activities increased by **\$8.5 million**, or **12.9%**, compared to 2023. This growth was largely driven by new property tax revenue and federal grant recognition.

- **Sales and use tax** collections remained relatively flat overall. **Sales tax** increased **5.84%**, or approximately **\$1.3 million**, reflecting steady consumer activity and inflation. However, **use tax** declined by **6.16%**, or **\$339,000**, largely due to a slowdown in construction-related purchases.
- **Sales and Use Audit revenue** returned to normal levels at approximately **\$1.0 million**, following an unusually high collection of nearly **\$4.0 million** in 2023.
- The most significant driver of revenue growth was property tax, which increased substantially due to the first-year collection of a **6-mill dedicated fire levy** approved by voters in 2023. This levy generated **\$4.6 million** in 2024.
- Additionally, the City recognized the final installment of its **American Rescue Plan Act (ARPA)** allocation, totaling **\$3.2 million**. These funds were used to offset public safety salary costs, which in turn freed up General Fund resources to support the purchase of a residential apartment property aimed at addressing affordable housing and housing insecurity in the community.

Significant Expense Trends

Expenses for governmental activities increased by **\$2.8 million**, or **5.9%**, over the prior year. The majority of this increase was concentrated in public safety and parks and recreation.

- The **Fire Department** saw a notable increase in costs as the City continued its transition from a fully volunteer department to a hybrid staffing model. This expansion has been partially offset by the new **6-mill fire levy** and a federal **SAFER grant**. The department is still in the process of building out staffing levels. Going forward, the general framework for fire funding consists of **10 mills**, including **6 mills from the dedicated levy** and **4 mills from the general property tax**.
- The other major area of growth was in **Parks and Recreation**, where the City is making continued investments in park infrastructure and refining program offerings to meet resident needs.

Business-type Activities

Program revenues for business-type activities totaled \$28.1 million, while expenses were \$22.5 million, resulting in a program-based surplus of \$5.7 million. An additional \$1.2 million in general revenues—primarily from investment income—brought the total increase in net position to \$7.4 million.

The following section provides a summary of business-type activities revenues and expenses:

Expenses and Program Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Significant Revenue Trends

Revenues from business-type activities increased by **\$7.7 million** in 2024, driven primarily by growth in charges for services. These enterprise funds operate similar to private businesses—providing essential services like water, wastewater, and recreation—and rely heavily on user fees to support operations.

Charges for services increased by **\$5.8 million** compared to 2023. The majority of this growth—**\$4.9 million**—came from the City’s utility operations: water, wastewater, and drainage, representing a **47% increase** over the prior year. Key drivers included:

- A **6.2% increase in water rates**, consistent with the multi-year plan established by the 2019 rate study.
- A **5.0% increase in wastewater rates**, intended to help fund future improvements at the wastewater treatment facility.
- A **\$3.5 million increase in water and sewer development fees**, reflecting continued growth and development activity.

Other revenue categories experienced modest changes, with no other significant drivers outside of the core utility funds.

Significant Expense Trends

Expenses for business-type activities remained essentially flat in 2024, increasing by just **\$136,000**, or **0.6%**, over the prior year.

Utility funds experienced typical inflationary pressures, such as rising costs for materials, energy, and personnel. However, these were offset by **declines in expenses across the City’s Parks and Recreation-related enterprise funds**, including Fossil Trace Golf Course, the Community Center, and the Splash Aquatic Park. These decreases reflect a continued focus on refining program offerings, enhancing cost recovery, and aligning services with community expectations and demand.

FINANCIAL ANALYSIS OF THE CITY’S FUNDS

As of December 31, 2024, the City’s governmental funds reported a combined ending fund balance of **\$57.4 million**, an increase of **\$8.8 million** from the prior year. This increase is primarily the result of higher property tax revenues, conservative spending, and strategic capital project timing.

- The **General Fund** ended the year with a fund balance of **\$23.5 million**, an increase of **\$3.2 million**. This reflects strong performance in sales and property tax collections, along with underspending in several departments. The unassigned fund balance was **\$19.8 million**, or **55.8%** of General Fund expenditures, exceeding the City’s fiscal policy target and providing a healthy financial cushion.
- The **Sales and Use Tax Capital Improvement Fund (SUT Fund)** increased by **\$2.4 million**, ending the year with a fund balance of **\$15.4 million**. This increase was largely due to the timing of capital expenditures and continued collections from the

voter-approved sales and use tax. Several capital projects were delayed or phased, resulting in carryover funding for 2025.

- The **Fire Fund**, established with the implementation of the new 6-mill property tax levy, ended 2024 with a fund balance of **\$1.2 million**. This reflects the first year of property tax collections and the gradual ramp-up of staffing and expenditures associated with the transition to a hybrid fire department model.
- **Other governmental funds**, including special revenue, capital project, and permanent funds, increased by a combined **\$2.1 million**, primarily due to intergovernmental revenues and grant activity. The City continues to maintain healthy reserves dedicated to downtown improvements, parks and recreation, and perpetual care.

Governmental Fund Balances as of December 31, 2024 (rounded):

<u>General Fund:</u>	
Unassigned	\$19,840,737
Assigned	708,467
Restricted	2,120,000
Non-spendable	839,461
Total	<u>23,508,665</u>
<u>Fire Department Fund:</u>	
Restricted	714,944
Assigned	<u>476,711</u>
Total	<u>1,191,655</u>
<u>Sales and Use Tax Capital Improvement Fund:</u>	
Restricted	15,364,138
<u>Other Governmental Funds:</u>	
Assigned	2,131,341
Restricted	12,562,766
Non-spendable	<u>2,657,062</u>
Total	<u>17,351,169</u>

The City's proprietary funds also demonstrated continued strength. As of December 31, 2024, business-type activities reported a combined net position of **\$140.7 million**, an increase of **\$7.4 million** from the prior year. This growth was primarily the result of higher user fee revenues, stable expense management, and phased capital project delivery.

- **Water and Wastewater Funds** benefited from rate increases and strong development-related revenue, resulting in solid year-end positions.
- **Drainage Fund** received new debt proceeds in 2024 to support planned capital projects.
- The City's **parks and recreation enterprise funds**, including Fossil Trace Golf Course, the Community Center, and Splash Aquatic Park, continued to refine operations, improve cost recovery, and adjust programming to better align with community demand.

Net Position of Proprietary Funds as of December 31, 2024 (rounded):

<u>Water Fund:</u>	
Net Investment in Capital Assets	\$68,508,376
Restricted for Debt Service	400,172
Unrestricted	7,043,728
Total	75,952,276
<u>Wastewater Fund:</u>	
Net Investment in Capital Assets	12,971,226
Unrestricted	7,899,607
Total	20,870,833
<u>Drainage Fund:</u>

Total	5,896,792
<u>Other Proprietary Funds:</u>	
Net Investment in Capital Assets	6,117,827
Unrestricted	2,060,808
Total	8,178,635

Overall, the City's fund balances reflect sound financial management, prudent reserve planning, and alignment with Council-adopted priorities. These strong ending balances position the City well as it enters 2025, particularly in the areas of capital investment, fire service expansion, and continued modernization of the City's utility infrastructure.

GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund is the City's primary operating fund and supports key municipal services, including public safety, parks and recreation, planning, and general government functions.

For 2024, the originally adopted General Fund budget projected **\$39.8 million in revenues** and **\$43.8 million in expenditures**, inclusive of transfers, resulting in a planned **\$4.0 million use of fund balance**. The final amended budget included minor adjustments, increasing revenues to **\$40.1 million** and expenditures to **\$44.2 million**, for a revised **budgeted decrease of \$4.1 million** in fund balance.

Actual results reflected a strong fiscal position, with revenues significantly exceeding projections and expenditures coming in slightly over budget.

- **Actual General Fund revenues totaled \$48.1 million**, exceeding the final budget by **\$8.0 million**, or **20.0%**. This favorable variance was driven by stronger-than-

anticipated **property and sales tax collections**, the **recognition of remaining ARPA grant funds**, **robust investment earnings**, and **continued development-related activity**.

- As a result, the **net change in fund balance was a positive \$3.2 million**, compared to a **budgeted decrease of \$4.1 million**. The General Fund ended the year with a total fund balance of **\$23.5 million**, including an **unassigned balance of \$19.8 million**, or **55.8% of actual expenditures**—well above the City’s fiscal policy target of **20%**.

This favorable budgetary outcome reflects the City’s conservative revenue forecasting, disciplined expenditure management, and commitment to long-term financial stability. The increased fund balance positions the City to continue investing in key priorities while maintaining the flexibility to adapt to future economic conditions.

In addition to the budgetary analysis, the following charts illustrate the **breakdown of General Fund revenues by source** and **expenditures by type** for the year ended December 31, 2024. These graphics provide a snapshot of how the City generated and allocated its core operating resources.

Compared to 2023, General Fund **revenues increased by \$7.8 million, or 19.2%**. This growth was primarily driven by higher **intergovernmental revenues**, most notably the recognition of the final **\$3.2 million installment of ARPA grant funds**, along with strong

performance in **property and sales tax collections**. Investment earnings and development-related revenue also contributed to the year-over-year increase.

Expenditures by Type - General Fund

On the expenditure side, **General Fund expenses increased by \$3.2 million, or 15.6%**, compared to 2023. A significant driver of the year-over-year change was the **reclassification of Fire Department expenditures**. With the establishment of the new **Fire Fund** supported by the dedicated 6-mill property tax levy, fire-related expenses were shifted out of the General Fund beginning in 2024. This resulted in a **decrease in direct fire department expenditures** but a **related increase in interfund transfers**, as General Fund dollars were transferred to support Fire operations and other initiatives.

In addition, the General Fund recorded a **transfer to the Housing Trust Fund** supporting the **purchase of the Ford Street apartment property for affordable housing**. Beyond these one-time or structural changes, the City experienced **general cost increases across departments** related to **personnel, supplies, and professional services**, consistent with broader economic trends.

CAPITAL ASSETS

At the end of 2024, the City’s capital assets totaled **\$250.6 million** (net of accumulated depreciation), an increase of **\$14.5 million, or 6.2%**, over the prior year. This includes investments in **land, buildings, infrastructure, equipment, vehicles, and construction in progress** across both governmental and business-type activities.

The following table provides a comparative summary of total capital assets as of December 31, 2024 and 2023:

Capital Assets at Year-end						
(Net of depreciation, in Thousands)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2024	2023	2024	2023	2024	2023
Land	\$29,879	\$29,531	\$7,335	\$7,329	\$37,214	\$36,860
Land Improvements	8,775	7,987	3,404	3,611	12,179	11,598
Buildings	13,815	11,716	20,052	19,958	33,867	31,674
Artwork	1,223	1,061	34	34	1,257	1,095
Vehicles, Machinery & Equipment	10,742	7,339	6,659	4,206	17,401	11,545
Water Rights	-	-	15,416	15,416	15,416	15,416
Infrastructure	54,626	53,817	63,029	62,603	117,655	116,420
Subscription Based Information Technology Arrangements	562	800	-	-	562	800
Construction in Progress	10,146	7,174	4,919	3,510	15,065	10,684
Totals	\$129,768	\$119,425	\$120,848	\$116,667	\$250,616	\$236,092

Major capital expenses during 2024 included:

Park and Trail Improvements	\$3,219,997
Replacement Vehicles & Heavy Equipment	3,004,113
Curb, Gutter & Sidewalks	1,905,208
Affordable Housing Project	1,347,378
Building Improvements	1,149,082
Street Improvements	935,248
Drainage System Improvements	931,101
Technology Improvements/Software	842,716
Water System Improvements	756,730
Sewer System Improvements	629,425

All capital asset activity is accounted for in accordance with **GASB standards** and the City's adopted **capitalization policy**. Additional details are available in **Notes 1 and 7** of the financial statements.

DEBT

At the end of 2024, the City had total outstanding **bonded debt and certificates of participation (COPs)** of **\$18.8 million**, an increase of **\$3.9 million** compared to the prior year. This increase was due to the issuance of **\$6.4 million in new revenue bonds** to support planned capital improvements in the **Drainage Fund**, partially offset by **\$2.5 million in scheduled principal payments** on existing obligations.

The following table summarizes the City's bonded debt and COPs as of December 31, 2024 and 2023:

	Outstanding Debt, at Year-end					
	Governmental Activities		(in Thousands) Business-type Activities		Total Primary Government	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
Revenue Bonds and Notes ¹	\$ -	\$ -	\$6,960	\$880	\$7,000	\$880
Certificates of Participation	11,875	14,085	-	-	11,875	14,085
Totals	<u>\$11,875</u>	<u>\$14,085</u>	<u>\$6,960</u>	<u>\$880</u>	<u>\$18,875</u>	<u>\$14,965</u>

¹ Backed by utility fee revenues

The City's **revenue bonds** are supported by **pledged utility fee revenues** from the **Water and Drainage Funds**. The new drainage bonds were structured to align with major planned infrastructure investments and are backed by the **stable rate base of the Drainage Utility**.

The City's outstanding **certificates of participation (COPs)** are **subject to annual appropriation by City Council** and **do not constitute a general obligation of the City**. COPs are secured by **lease payments to a third-party trustee** and are not backed by a voter-approved debt pledge.

Additional detail on the City's long-term obligations can be found in **Note 11** of the financial statements.

ECONOMIC OUTLOOK AND 2025 BUDGET OVERVIEW

The City of Golden remains in a solid financial position entering 2025, supported by a diversified revenue base, consistent community demand for services, and well-managed reserves. The 2025 budget reflects the City's ongoing efforts to make thoughtful, forward-looking investments in infrastructure, public safety, and service delivery while maintaining long-term financial sustainability.

The broader economic landscape remains uncertain. Interest rate volatility, persistent inflation, the potential for new tariffs and trade restrictions, and continued recessionary signals all present risks to the national and regional economy. These economic headwinds—particularly inflation and trade-related disruptions—could increase the cost of construction materials, delay capital projects due to supply chain issues, and dampen consumer spending, directly affecting sales and use tax revenues. Despite these challenges, Golden is well-positioned to navigate potential disruptions. The City benefits from strong property values, stable tax collections, and a resilient local economy supported by a diverse mix of residential, commercial, tourism, and institutional sectors.

The 2025 budget totals **\$193.0 million** across all funds, including **\$52.5 million in General Fund appropriations** and **\$71.1 million in capital fund spending**. These investments reflect both continued community priorities and strategic reinvestment in aging infrastructure. Key priorities include utility modernization, transportation and mobility improvements, facility maintenance, and expanding affordable housing opportunities.

On the operations side, the City continues implementing the hybrid fire department model funded by the dedicated 6-mill property tax levy approved by voters in 2023, along with a 4-mill General Fund transfer. Staffing levels remain stable, with no significant new programs or personnel added, allowing departments to focus on core services and internal process improvements.

Golden's conservative fiscal philosophy, commitment to strong reserves, and flexible capital planning approach provide a solid foundation to weather economic volatility. Staff will continue to monitor financial trends and economic indicators throughout 2025 and will be prepared to adjust as needed to maintain stability and preserve essential services.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City of Golden's finances and to demonstrate the City's accountability for the public resources it manages. Questions about this report, requests for additional financial information, or inquiries regarding the City's finances should be directed to:

Finance Department

City of Golden

911 10th Street

Golden, CO 80401

Email: finance@cityofgolden.net

Website: www.cityofgolden.gov

BASIC FINANCIAL STATEMENTS

The Basic Financial Statements provide a comprehensive overview of the City's financial position and activities for the year. The Statement of Net Position and the Statement of Activities present information for the City as a whole, including its component units, using the full accrual basis of accounting in accordance with standards set by the Governmental Accounting Standards Board (GASB). These statements reflect all nonfiduciary assets, liabilities, revenues, and expenses.

In addition, separate financial statements are provided for the City's governmental funds, proprietary funds, and fiduciary funds. Each set of statements is prepared using the accounting methods appropriate to the fund type in accordance with generally accepted accounting principles (GAAP) for state and local governments.

The accompanying notes are an integral part of the basic financial statements.

CITY OF GOLDEN, COLORADO
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2024

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS \$ 57,415,627

The City uses internal service funds to charge the costs of fleet services, information services, insurance, and employee health services to other departments of the City on a cost-reimbursement basis. The assets and liabilities, excluding capital assets, of the internal service funds are included in the governmental activities in the statement of net position. 9,849,663

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. Current year capital outlays are expenditures in the fund financial statements, but they should be shown as increases in capital assets in the government-wide financial statements. The net effect of including the balances for capital assets (net of depreciation) in the governmental activities is to increase net position. 129,205,234

Capital assets, net January 1, 2024	\$ 118,624,708
Net current year additions	10,942,320
Net current year deletions	<u>361,795</u>
Capital assets, net December 31, 2024	<u><u>\$ 129,205,234</u></u>

Long-term liabilities, including bonds payable and compensated absence liabilities, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. In addition, long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as reductions in long-term debt in the government-wide financial statements. The net effect of including the long-term liabilities and the debt principal payments is to decrease net position. Those liabilities consist of: (13,726,225)

Long-term debt	\$ 11,896,849
Compensated Absences	<u>1,829,376</u>
	<u><u>\$ 13,726,225</u></u>

Included in the items related to debt is the recognition of the City's net pension liability required by GASB 68 in the amount of \$1,723,175, a deferred resource outflow in the amount of \$467,574, and a deferred resource inflow in the amount of \$189,879. (1,445,480)

NET POSITION OF GOVERNMENTAL ACTIVITIES \$ 181,298,819

The accompanying notes are an integral part of the basic financial statements.

**CITY OF GOLDEN, COLORADO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2024**

TOTAL NET CHANGE IN FUND BALANCES-GOVERNMENTAL FUNDS	<u>\$ 8,784,387</u>
---	----------------------------

The City uses an internal service fund to charge the costs of fleet services, information services, insurance, and employee health services to other departments of the City. The net income (loss) of the internal service fund is included in the governmental activities in the Statement of Activities. The effect of this consolidation is to increase net position.	4,599,639
---	-----------

Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. Issuance of long-term debt provides current financial resources to the governmental funds; however, it should be shown as an increase in long-term liabilities in the government-wide financial statements. The net effect of including the capital outlays, issuance of long-term debt, and debt principal payments is to increase net position.	14,352,983
---	------------

Capital Outlay	\$ 14,173,866
Asset Dispositions/Transfers	(136,454)
Contributed Capital	(1,894,429)
Long-term debt principal payments	2,210,000
	<u><u>\$ 14,352,983</u></u>

Depreciation is not recognized as an expense in the governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(4,269,738)
---	-------------

GASB 68 requires that certain expenditures be derecognized and recorded instead as deferred outflows of resources. Of these previously deferred outflows, \$118,446 were recognized in the current year as expenditures, decreasing the change in net position. The City's differences in expected and actual experience and changes in assumptions were \$(72,978), and the decrease in expense of (\$149,153) was recognized due to the current year changes in net pension liability. The impact of all these adjustments is to increase the change in net position by \$103,685.	103,685
--	---------

Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing unearned revenue as revenue and eliminating interfund transactions. The net effect of these reclassifications and recognitions is to increase (decrease) net position.	(146,390)
--	-----------

Compensated absences	\$ (150,121)
Accrued interest payable	3,731
	<u><u>\$ (146,390)</u></u>

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u><u>\$ 23,424,566</u></u>
--	------------------------------------

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Definition and Scope of Reporting Entity

The City of Golden (the “City”) is a Colorado home rule municipality established under Article XX of the Colorado Constitution. The City’s charter was adopted by voters on November 7, 1967, and it operates under a Council-Manager form of government as authorized by the charter.

The City provides a full range of municipal services, including public safety (police and fire), street maintenance, parks and recreation, cemetery operations, planning and zoning, historic preservation, and general administrative support. The City also operates enterprise activities including water and wastewater utilities, storm drainage, a golf course, and a community center. These operations are accounted for in proprietary funds.

The financial reporting entity is defined in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by Statements No. 39 and No. 61. Under these standards, component units are included in the City’s financial reporting if their operational or financial relationships with the City are such that exclusion would cause the City’s financial statements to be misleading or incomplete.

Based on these criteria, the City has identified the following component units for inclusion in its financial statements:

Discretely Presented Component Units

Golden Urban Renewal Authority (GURA)

GURA is a legally separate entity created under Colorado law to redevelop and revitalize designated areas within the City. The City Council appoints the board members and must approve GURA’s budget. Although the City is not financially accountable for GURA in the traditional sense, the nature of the relationship meets the criteria for discrete presentation due to the City’s ability to impose its will and the potential for financial benefit or burden.

GURA does not issue separate financial statements. Its financial activity is included in the City’s government-wide financial statements as a discretely presented component unit.

Blended Component Units

Golden Downtown General Improvement District (GDGID)

The Golden Downtown General Improvement District was established to finance and maintain improvements in the downtown area. The City Council serves as the governing board, and the District is managed by City staff. Because the GDGID provides services entirely within the City and its governing body is substantively the same as the City’s, it is reported as a blended component unit and included in the City’s governmental fund financial statements.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Downtown Development Authority (DDA)

The Downtown Development Authority was formed to support economic development and reinvestment in the downtown core. The City Council serves as the DDA's governing body and approves its budget. The DDA is reported as a blended component unit due to the extent of the City's operational and financial involvement. Its financial activity is included in the City's governmental fund financial statements.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the City. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely significantly on fees and charges for services.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and
- Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. These statements include all long-term assets and liabilities, including capital assets, accumulated depreciation, long-term debt, and pension obligations.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Significant revenues susceptible to accrual include sales and use taxes, property taxes, franchise taxes, intergovernmental revenues, charges for services, and investment earnings.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proprietary and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting, consistent with the government-wide statements.

Fund Accounting and Financial Statement Presentation

The City uses fund accounting to report its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and support financial management by segregating transactions related to specific governmental functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three broad categories: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are used to account for the City's general governmental activities. These funds focus on the sources, uses, and balances of current financial resources. The City reports the following major governmental funds:

- General Fund – the City's primary operating fund, used to account for all financial resources not reported in another fund.
- Fire Department Fund – special revenue fund used to account for the operation of the City's fire department and the associated mill levy.
- Sales and Use Tax Capital Improvement Fund – used to account for the construction and acquisition of capital assets funded by the City's voter-approved 1% sales and use tax restricted for capital improvements.

Proprietary Funds

Proprietary funds are used to account for business-type activities that are financed and operated similarly to private enterprises. These funds report operations that provide goods or services to the public for a fee intended to recover associated costs. The City reports the following major proprietary funds:

- Water Fund – provides potable water service to residents and businesses.
- Wastewater Fund – provides sewer services to residents and businesses.
- Drainage Fund – accounts for stormwater drainage operations and capital improvements, funded by user charges based on impervious surface area.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

- Fossil Trace Golf Course Fund – accounts for all operations of the City-owned golf course.
- Community Center Fund – accounts for the operation and maintenance of the City’s recreation center.

The City also maintains several internal service funds to account for centralized services provided to other City departments on a cost-reimbursement basis. These include:

- Fleet Management Fund – vehicle maintenance and replacement
- Information Technology Fund – technology infrastructure and support
- Medical Benefits Fund –self-funded employee health insurance
- Insurance Fund –general liability and property coverage
- Workers’ Compensation Fund –employee injury claims and risk management

Fiduciary Funds

Fiduciary funds are used to account for resources held by the City in a trustee or custodial capacity for the benefit of individuals or other entities. These funds are not included in the government-wide financial statements. The City reports a Pension Trust Fund for the Volunteer Firefighters’ Pension Plan.

Eliminations and Financial Statement Structure

In the Statement of Net Position, all internal balances have been eliminated except those between governmental and business-type activities, which are shown as “internal balances” and eliminated in the total primary government column.

In the Statement of Activities, internal service fund transactions have been eliminated. However, transactions between governmental and business-type activities are not eliminated.

Reconciliations between the fund financial statements and the government-wide financial statements are included to explain differences created by the integrated approach of GASB Statement No. 34.

Revenue Classifications and Recognition

Amounts reported as program revenues include:

1. Charges to customers or applicants for goods, services, or privileges provided;
2. Operating grants and contributions; and
3. Capital grants and contributions, including special assessments.

General revenues include internally dedicated resources (such as internal service charges or interfund transfers), all taxes, investment income, and unrestricted revenues not tied to specific programs.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Proprietary funds distinguish operating from nonoperating revenues and expenses. Operating revenues and expenses arise from the core functions of each enterprise fund. For example, water, wastewater, drainage, golf, and community center funds earn operating revenue through charges for services, including tap fees when applicable. Operating expenses include personnel, supplies, contracted services, depreciation, and administration.

Internal service funds generate operating revenue through service charges to other City departments. Expenses include the direct costs of providing those services.

Nonoperating revenues and expenses include items such as investment income, one-time grants, or other non-exchange transactions.

Use of Restricted vs. Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

Estimates Inherent in Financial Statements

The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Material estimates that are particularly susceptible to change in the near term include liabilities related to self-insurance programs and the net pension liability.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity

Cash and Investments

Cash and investments include demand deposits, certificates of deposit, money market funds, U.S. Treasury and agency securities, and investments held by third-party trustees. Investments are stated at fair value, based on quoted market prices. The City pools cash and investments from all funds for investment purposes, with each fund participating based on its cash balance. Investment income is allocated to individual funds based on their average daily balance in the pool.

Receivables

Receivables include amounts due from other governments, customers, taxpayers, and other entities. All receivables are reported at their net realizable value. Management evaluates the need for allowances for uncollectible accounts based on historical collection trends and specific account risks.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Interfund Receivables and Payables

Activity between funds that represents short-term lending or borrowing arrangements outstanding at year-end is classified as “due to/from other funds.” Long-term balances are classified as “advances to/from other funds.” Any residual balances between governmental and business-type activities are reported in the government-wide financial statements as “internal balances.”

Inventories

Inventories consist primarily of supplies and replacement parts held for consumption in City operations, as well as merchandise held for resale in the Fossil Trace Golf Course pro shop and the Golden History Museum gift shop. Inventories are recorded at average cost and are expensed when consumed or sold, depending on the nature of the inventory. Inventory balances are classified as nonspendable in the fund financial statements, as the resources are not in spendable form.

Prepaid Items

Payments made to vendors for services that benefit future periods are recorded as prepaid items and recognized as expenditures when the services are consumed.

Restricted Assets

Assets are reported as restricted when legally restricted for specific purposes by external parties, bond covenants, or enabling legislation. Typical restricted assets include cash and investments held in escrow or related to debt service, capital projects, or customer deposits.

Capital Assets

Capital assets include land, buildings, improvements, infrastructure, equipment, and software. Assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated assets are recorded at acquisition value at the date of donation.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The City’s capitalization threshold is \$5,000 with a useful life of more than one year. Estimated useful lives by asset class are as follows:

Asset Class	Useful Life (Years)
Land Improvements	20
Buildings	20–50
Building Improvements	15–30
Infrastructure	20–50
Machinery and Equipment	3–10
Vehicles	5–10
Furniture and Fixtures	5–15
Software	3–10

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Maintenance and repairs are charged to expense when incurred. Major improvements that extend the life or increase the capacity of capital assets are capitalized.

Subscription-Based Information Technology Arrangements (SBITAs)

The City accounts for subscription-based IT arrangements in accordance with GASB Statement No. 96. These arrangements are recognized as right-to-use subscription assets with corresponding subscription liabilities when the contract conveys control of the right to use the underlying software. The subscription asset is amortized over the term of the agreement, including options reasonably certain to be exercised.

Unearned Revenue

Unearned revenue represents amounts received in advance of when they are earned. These typically include payments for recreation programs, facility rentals, or advance utility billing and are recognized as revenue in the period when the related service is provided.

Deferred Outflow of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period. The City reports deferred outflows related to pensions and debt refundings.

Compensated Absences

Employees earn vacation and sick leave in accordance with City policy. A liability is accrued for all earned but unused vacation leave and reported in the government-wide and proprietary fund financial statements. The governmental funds report only the portion expected to be liquidated with current financial resources.

Claims and Judgements

The City carries insurance coverage for health benefits, property and casualty, and workers' compensation through third-party providers. However, the City is responsible for certain deductibles and self-insured portions of these programs. Estimated liabilities are recorded for known claims and for claims incurred but not reported (IBNR) as of year-end. IBNR amounts are not actuarially determined but are based on estimates provided by the City's insurance providers, including the Colorado Intergovernmental Risk Sharing Agency (CIRSA) and the City's health plan consultant. These liabilities are reported in the appropriate internal service funds and in the government-wide financial statements.

Long-Term Liabilities

Long-term liabilities include bonds payable, certificates of participation, leases, notes, net pension liability, net OPEB liability, and compensated absences. These obligations are reported in full in the government-wide and proprietary fund statements. Governmental funds report only those liabilities expected to be liquidated with current financial resources.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Deferred Inflows of Resources

Deferred inflows of resources are an acquisition of net position applicable to a future reporting period. The City recognizes deferred inflows for unavailable property taxes and for pension items under GASB 68.

Pension

The City participates in a closed defined benefit pension plan administered by the Fire and Police Pension Association (FPPA) for volunteer firefighters. Net pension liabilities, along with related deferred inflows and outflows of resources, are recorded in the government-wide and proprietary fund statements based on actuarial valuations and the City's proportionate share. Disclosures are provided in accordance with GASB Statement No. 68.

Net Position

Net position in the government-wide and proprietary fund statements is classified as:

- **Net investment in capital assets** – capital assets less related debt
- **Restricted** – amounts constrained by external parties, laws, or contracts
- **Unrestricted** – all other amounts not classified above

Fund Balance

In the governmental funds, fund balance is reported in classifications that reflect the level of constraints placed on the use of resources:

- **Nonspendable** – not in spendable form (e.g., inventories, prepaids)
- **Restricted** – externally imposed restrictions
- **Committed** – formal action by City Council
- **Assigned** – intent to use for a specific purpose (management or Council)
- **Unassigned** – available for any purpose in the General Fund

Summarized Comparative Data

The financial statements include summarized prior-year comparative information in total but not at the level of detail required for a full presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the City's prior year financial statements. Certain prior-year amounts may have been reclassified to conform with the current year's presentation.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

In accordance with the Colorado Local Government Budget Law, the City follows these procedures in establishing the annual budget:

- The City Manager is required to submit a proposed budget to City Council by October 15 for the following calendar year.
- A public hearing is held on the proposed budget, and notice is published in accordance with legal requirements.
- The budget is legally adopted by ordinance on or before December 31 each year.
- The legal level of budgetary control is at the fund level. Budgetary transfers within a fund may be authorized administratively, but any increase in total fund appropriations requires City Council approval.
- Following budget adoption, the City certifies its mill levy to Jefferson County in accordance with statutory deadlines, generally no later than December 15.

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except for certain capital and grant funds which may be budgeted on a project-length basis. All appropriations lapse at year-end, unless specifically reappropriated or encumbered for ongoing contracts or capital projects.

All funds of the City are legally required to adopt an annual budget, except fiduciary funds. Budgets are legally adopted for the General Fund, special revenue funds, capital projects funds, proprietary funds, and internal service funds.

Encumbrances and Carryforwards

Encumbrance accounting is used in all governmental funds as an extension of budgetary control. Purchase orders and contracts outstanding at year-end are reported as assigned or committed fund balance depending on authorization level and do not lapse. Appropriations for ongoing capital projects and multiyear grant-funded programs are carried forward automatically into the next fiscal. Total encumbrances outstanding as of December 30, 2024: for Fire Department Fund are \$213,711, for Sales and Use Tax Fund are \$106,070, for Water Fund are \$10,875, for Fossil Cemetery Fund are \$38,700, and for Fleet Management Fund are \$1,453,454.

Capital Project Budget

Capital improvements are budgeted in accordance with the City's Capital Improvement Plan (CIP), which identifies funding sources and timelines over a five-year horizon. Capital projects are formally appropriated as needed and are monitored through a project-length budget that carries forward until project completion.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 3 – DEPOSITS AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all funds of the City.

Cash and investments at December 31, 2024 consisted of the following:

Cash and Investments Category	Balance
Petty Cash	\$ 7,770
Deposits	13,145,165
Investments	84,563,161
Total	\$ 97,716,096

Cash and investments are reported in the financial statements as follows:

Financial Statement	Balance
Primary Government	\$ 84,439,810
Primary Government – Restricted	8,932,398
Component Unit	4,343,888
Total	\$ 97,716,096

Deposits

The City maintains its primary operating account with Wells Fargo Bank, which serves as the City's main depository. The City also holds a secondary account with UMB Bank for lockbox processing and contingency operations. All deposits are held in financial institutions located in Colorado and are protected under the Colorado Public Deposit Protection Act (PDPA). Under PDPA, eligible public depositories must pledge collateral equal to at least 102% of the uninsured public deposits they hold. Collateral is held by a third-party custodian in the name of the financial institution but for the benefit of the public entity.

As of December 31, 2024, the City's deposits were either insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized in accordance with PDPA requirements

Investments

The City's investment activity is governed by Colorado Revised Statutes and the City's adopted Investment Policy. The City's investment objectives are, in order of priority: legality, preservation of capital, liquidity, yield, and consistency with sustainability and community values. The City contracts with Insight Investment as its investment advisor and uses UMB Bank as its third-party investment custodian.

Authorized investments include U.S. Treasury and agency obligations, repurchase agreements collateralized by such securities, local government investment pools (such as CSAFE), time certificates of deposit, highly rated money market mutual funds, and select high-quality corporate and municipal bonds. Specific criteria and limitations for these investments are outlined in the City's Investment Policy.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

As of December 31, 2024, the City held investments in compliance with its policy and state law, as summarized below:

Investment Type	S&P Rating	Less Than 1 Year	1 - 5 Years	Fair Value
CSAFE Investment Pool	AAAm	\$ 46,013,556	\$ -	\$ 46,013,556
Corporate Bonds	AAA	-	978,691	978,691
Corporate Bonds	AA	-	490,844	490,844
Corporate Bonds	AA-	-	475,405	475,405
Corporate Bonds	A+	1,497,635	3,992,737	5,490,372
Corporate Bonds	A	3,470,445	3,974,133	7,444,578
Corporate Bonds	A-	-	529,158	529,158
International	A	498,334	501,330	999,664
International	A-	495,342	1,518,411	2,013,753
U.S. Treasury Notes	AA+	3,470,275	5,330,742	8,801,017
FHLB	AA+	1,235,842	3,161,238	4,397,080
FHLMC	AA+	534,332	953,433	1,487,765
FFCB	AA+	499,875	3,434,704	3,934,579
FNMA	AA+	494,317	1,012,382	1,506,699
Total		\$ 58,209,953	\$ 26,353,208	\$ 84,563,161

Interest Rate Risk

Investments are structured to maintain adequate liquidity and minimize interest rate risk. The City limits the portfolio's weighted average maturity to five years and aims to maintain at least 10% of its portfolio in instruments maturing within 90 days.

Credit Risk

Credit risk is mitigated through strict credit rating requirements and diversification. The City limits concentration of credit risk by capping investments in any single issuer (excluding U.S. government and agencies) at 50% of the total portfolio.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. All of the City's deposits are either insured or collateralized in accordance with PDPA.

Custodial Credit Risk – Investments

The City's investment securities are held in safekeeping by UMB Bank, an independent third-party custodian, in the City's name on a delivery-versus-payment basis. This mitigates custodial credit risk for investments.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 4 – FAIR VALUE MEASUREMENT

The City categorizes its investments according to the fair value hierarchy established by GASB Statement No. 72, which prioritizes the inputs used to measure fair value. The hierarchy has three levels:

- **Level 1:** Quoted prices in active markets for identical assets;
- **Level 2:** Observable inputs other than quoted prices, such as quoted prices for similar assets or inputs corroborated by observable market data.
- **Level 3:** Unobservable inputs that rely on the City's own assumptions.

Investments are classified in their entirety based on the lowest level of input that is significant to the valuation. The City uses pricing services and custodial bank valuations that rely primarily on market-based inputs to determine fair value.

As of December 31, 2024, the City's investments measured at fair value were as follows:

Investment Type	Balance	Level 1	Level 2	Level 3
U.S. Treasury Notes	\$ 8,801,017	X		
Mortgage-backed Securities	11,326,124		X	
Corporate Bonds	15,409,047		X	
International	3,013,418		X	
Total	\$ 38,549,606			

In addition to the investments reported above, the City also held \$46,013,556 in the Colorado Surplus Asset Fund Trust (CSAFE) at year-end. CSAFE is an external investment pool that operates under GASB Statement No. 79 and is reported at amortized cost, which approximates fair value. As such, CSAFE holdings are not subject to the fair value hierarchy classification.

All investment activity for the year was in full compliance with the City's adopted Investment Policy and applicable legal requirements.

NOTE 5 – TAXES

Property Taxes

Property taxes are levied by Jefferson County on behalf of the City of Golden and attach as an enforceable lien on January 1 of each year, based on the assessed valuation as determined by the County Assessor.

Property tax bills are mailed by the County Treasurer in January of the following year and are payable in two equal installments due on February 28 and June 15, or in full by April 30. If not paid timely, the taxes become delinquent and are subject to collection procedures under Colorado law.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

The mill levy is certified annually by the City to Jefferson County by December 15 in accordance with the Colorado Local Government Budget Law. Property taxes are collected by the County and remitted to the City on a monthly basis.

Taxes levied on January 1 are intended to finance the budget for the calendar year beginning that same day. As such, the full levy is recorded as a receivable and a deferred inflow of resources at December 31. Revenue is recognized in the following year when the taxes become available and measurable under the modified accrual basis of accounting.

For the 2024 budget year, the City certified the following mill levies and associated assessed valuations:

Purpose	Mill Levy (Mills)	Net Assessed Valuation	Revenue Use
General Operations (City)	12.340	\$743,928,996	General Fund
Fire Department Operations	6.000	\$743,928,996	Fire Department Fund
Downtown Development Authority	5.000	\$62,009,225	DDA operations (component unit)
Golden Downtown GID	1.752 (<i>after credit</i>)	\$31,434,911	GDGID maintenance and improvements

The GDGID's total certified levy of 2.352 mills was reduced by a temporary mill credit of 0.600 mills, resulting in a net levy of 1.752 mills.

Sales and Use Taxes

The City imposes a 3% sales and use tax on taxable sales within City limits. Of this, 1% is dedicated to capital improvements, and the remaining 2% supports general City operations. In addition to the general tax, the City has voter-approved lodging and marijuana taxes.

Sales and use taxes are collected by the City from vendors and remitted monthly. Revenue is recognized in the period in which the underlying sales occur, provided the amounts are measurable and available. Taxes collected but not yet remitted by vendors at year-end are reported as taxes receivable and deferred inflows of resources in the governmental fund financial statements.

NOTE 6 – RESTRICTED ASSETS, LIABILITIES, AND RESERVES

Certain assets are classified as restricted because their use is legally or contractually limited to specific purposes. As of December 31, 2024, the City held \$8,230,587 in restricted cash and investments held in CSAFE, and an additional \$701,811 in the General Fund in a non-CSAFE account, representing escrow deposits held on behalf of third parties. The total restricted balance across all funds was \$8,932,398.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

The restricted balances are as follows:

Fund	Description	Restriction Purpose	Balance
General Fund	Escrow Deposits	Escrow deposits held by the City for third-party obligation	\$701,811
Drainage Fund	2024 Stormwater Bond Construction Fund	Bond proceeds restricted for construction of drainage improvements	7,018,202
Water Fund	2015 Water Revenue Bond Debt Service Reserve	Reserve required under bond covenants	400,172
SUT Fund	2019 Certificates of Participation (COP)	Funds restricted for project-related uses under COP agreement	812,213

Restricted assets are reported in the government-wide and proprietary fund financial statements, and as restricted fund balance in the governmental funds, as applicable. Related liabilities, if any, are presented in the appropriate fund and typically relate to future capital expenditures, debt service obligations, or refundable escrow commitments.

NOTE 8 – SUBSCRIPTION-BASED INFORMATION TECHNOLOGY AGREEMENTS

The City accounts for subscription-based information technology arrangements (SBITAs) in accordance with GASB Statement No. 96, which requires recognition of a subscription asset and a corresponding subscription liability when a contract conveys control of the right to use IT software alone or in combination with tangible capital assets.

As of 12/31/2024, the City had 3 active subscriptions. The subscriptions have payments that range from \$27,500 to \$117,472 and interest rates that range from 0.3300% to 2.7360%. As of 12/31/2024, the total combined value of the subscription liability is \$504,317. The combined value of the right to use asset, as of 12/31/2024 of \$1,003,728 with accumulated amortization of \$441,266. The subscriptions had no Variable or Other Payments included in the Subscription Liability, within the Fiscal Year.

Initial Measurement

At the commencement of the subscription term, the City measures the subscription asset at the present value of subscription payments expected to be made during the term, plus any upfront implementation costs. The corresponding liability is measured at the present value of expected subscription payments, discounted using the City's incremental borrowing rate if an implicit rate is not stated in the agreement.

Amortization and Expense Recognition

The subscription asset is amortized on a straight-line basis over the subscription term. Subscription payments made during the term are split between amortization of the asset and interest expense on the liability.

Subscription Terms

The City currently maintains active SBITAs related to enterprise resource planning (ERP) software, permitting systems, and digital services. These agreements have non-cancelable terms ranging from 3 to 7 years and do not include material options reasonably certain to be exercised beyond the base term.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

SBITA Balances as of December 31, 2024:

NOTE 9 – RETIREMENT PLANS

The City of Golden provides retirement benefits to eligible employees and volunteers through a combination of single-employer defined contribution and closed defined benefit plans. These include 401(a) and 457 plans administered through MissionSquare, a closed defined benefit pension plan for volunteer firefighters through the Fire & Police Pension Association of Colorado (FPPA), and two Length of Service Award Plans (LOSAP) for current volunteer firefighters.

Defined Contribution Plans (401(a) and 457 Plans)

The City sponsors 401(a) and 457 retirement savings plans through MissionSquare Retirement. Participation and contribution rates vary by employee group.

- General Employees (401(a)):
 - 2% employee contribution
 - 5% City contribution
 - Vesting: 20% after 1 year, fully vested after 5 years
- Sworn Police and Fire Employees (401(a)):
 - 10% employee contribution
 - 13% City contribution
 - Vesting: 40% after 2 years, fully vested after 5 years
 - These employees do not participate in Social Security
- 457 Deferred Compensation Plan:
 - Voluntary employee contributions
 - City matches up to 3%, with the match deposited in the 401(a) plan

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

As of December 31, 2024, combined balances across these plans exceeded \$87 million, all invested in mutual funds, with an average 401(a) balance of approximately \$94,999 for general employees and \$267,608 for police/fire employees

Volunteer Firefighter Pension Plan (Closed Defined Benefit Plan)

Plan Description

The City of Golden sponsors a single-employer defined benefit pension plan for its volunteer firefighters. The plan is administered by the Fire and Police Pension Association of Colorado (FPPA) and provides retirement, disability, and survivor benefits to qualifying members. The plan was closed to new entrants effective January 1, 2011, and no additional participants have been admitted since that date. Current participants include retirees receiving benefits, inactive members who vested prior to the plan's closure, and active members.

The plan operates under the provisions of Title 31, Article 30 of the Colorado Revised Statutes and is subject to the administrative oversight of FPPA. Although FPPA administers the trust and manages investments, the City retains ultimate responsibility for funding the plan. The City of Golden is the sole employer and plan sponsor, and there are no employee contributions. The plan is funded through employer contributions, investment income, and a matching contribution from the State of Colorado, subject to annual appropriation by the General Assembly.

As of the January 1, 2023, actuarial valuation and the December 31, 2023, measurement date, as updated for December 31, 2024, there were 62 retirees and beneficiaries, 15 inactive, nonretired vested members, and 9 active members (eligible but not accruing additional service), for a total of 86 plan participants. The annual financial report of FPPA may be obtained by contacting FPPA at www.fppacp.org.

Funding Policy and Actuarial Assumptions

The City makes contributions to the plan based on actuarially determined amounts prepared by the Fire and Police Pension Association of Colorado (FPPA), in accordance with GASB Statement No. 68. The actuarial cost method used is entry age normal, and the amortization of the unfunded liability is calculated on a level dollar basis over a 20-year open amortization period.

Key actuarial assumptions as of the January 1, 2023 valuation and December 31, 2023 measurement date include:

- Interest rate: 7.00% per annum, compounded annually, net of operating expenses
- Inflation: 2.50%
- Retirement: 50% per year of eligibility until 100% at age 65
- Disability: graduated rates for all disabilities
- Mortality: RP-2014 Mortality Tables for Blue Collar Employees
- Separation: graduated rates for all withdrawals

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

- Marital Status: 90% married
- Asset Valuation: five-year smoothed fair value method
- Payroll growth: Not applicable (plan covers volunteers)
- Cost-of-living adjustments (COLA): None

The City's contribution includes the amount necessary to meet the annual service cost plus an amortization of the unfunded liability. Additionally, the State of Colorado provides a supplemental discretionary contribution, which is included in the plan's fiduciary net position.

For the year ended December 31, 2024, the actuarially determined contribution (ADC) was \$229,150. The City contributed \$155,000, and the State of Colorado provided a matching contribution of \$77,940, for a total of \$232,940, exceeding the ADC by \$3,790. The plan is projected to remain solvent through at least the year 2123 under current assumptions.

The City recognized pension income of \$149,153 related to the plan for 2024, as reported in the government-wide financial statements.

Plan assets are held in trust and managed by FPPA in accordance with its long-term strategic asset allocation policy. The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic nominal rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Nominal Rate of Return
Cash	1.00%	4.32%
Fixed Income – Rates	10.00%	5.35%
Fixed Income – Credit	5.00%	5.89%
Absolute Return	9.00%	6.39%
Long Short	6.00%	7.27%
Global Equity	35.00%	8.33%
Private Markets	34.00%	10.31%
Total	100.00%	

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Benefits Provided

The Volunteer Firefighter Pension Plan provides monthly retirement income to eligible volunteers who have met the service and age requirements set forth in the plan. A volunteer who completes at least 20 years of qualified service and reaches age 50 is eligible for a normal retirement benefit of \$625 per month. For those who separate from service after earning at least 10 years of credited service but before reaching age 50 or 20 years of service, a vested deferred retirement benefit is available. This benefit is calculated as \$31.25 per year of service, payable monthly beginning at age 50.

Volunteers who serve more than 20 years receive an additional \$31.25 per month for each additional year of service beyond the 20-year minimum. Disability retirement benefits are also available. For short-term, line-of-duty disability, the plan provides \$312.50 per month for up to one year. Long-term, line-of-duty disabilities result in a lifetime benefit of \$625 per month.

In the event of a volunteer's death, the plan provides survivor benefits depending on the volunteer's status at the time of death. For a line-of-duty death prior to retirement, the plan pays the surviving spouse \$312.50 per month. If the death occurs after retirement, the survivor is eligible for a benefit of \$312.50 per month, plus any additional amounts tied to extended service years. For vested volunteers who had not yet retired, the survivor receives \$15.63 per year of credited service. The plan also provides a lump sum funeral benefit of \$1,250.

Net Pension Liability

As of December 31, 2023 (the measurement date), the total pension liability of the plan was \$4,930,421 and the fiduciary net position totaled \$3,207,246, resulting in a net pension liability of \$1,723,175. The plan's fiduciary net position was 65.05% of the total pension liability.

For the years ended December 31, 2023, the City recognized the following changes in the net pension liability/(asset):

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability/(Asset) (a) – (b)
Balance at December 31, 2022	\$4,961,742	\$3,089,414	\$1,872,328
Changes for the year:			
Service Cost	9,796		9,796
Interest	334,727		334,727
Contributions - Employer		155,000	(155,000)
Contributions - State		77,940	(77,940)
Net Investment Income		286,284	(286,284)
Benefit payments	(375,844)	(375,844)	-
Administrative Expense		(25,548)	25,548
Net Changes	(31,321)	117,832	(149,153)
Balance at December 31, 2023	\$4,930,421	\$3,207,246	\$1,723,175

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

For the fiscal year ended December 31, 2024, the City recognized pension income of \$51,315, which includes service cost, interest, administrative expense, the impact of investment performance, and amortization of deferred outflows/inflows.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate.

1% Decrease 6.00%	Current Single Discount Rate Assumption 7.00%	1% Increase 8.00%
\$2,299,932	\$1,723,175	\$1,306,331

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net Difference between projected and actual earnings on pension plan investments	\$122,695	\$ -
Contributions subsequent to the Measurement Date	155,000	-
Total	\$277,695	\$ -

The City's contributions of \$155,000 are subsequent to the measurement date, reported as deferred outflows of resources related to pensions, and will be recognized as a reduction of the net pension liability in the year ended December 31, 2025.

The amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Fiscal Year Ending December 31	Net Deferred Outflow/(Inflows) of Resources
2025	\$7,508
2026	41,326
2027	89,026
2028	(15,165)
Total	\$122,695

Retirement Health Savings Plan (VantageCare)

The City enrolls eligible employees in the VantageCare Retirement Health Savings (RHS) Plan, administered by MissionSquare Retirement. This plan allows participants to accumulate tax-free assets to cover qualified medical expenses in retirement, including health insurance premiums and prescription costs. The plan is funded using excess sick leave, which is contributed to the employee's account at the end of each calendar year and upon separation from employment. Funds become available for use after separation and can be used exclusively for medical expenses. Investments are held in trust for the sole benefit of participating employees and may be directed by the participant among a selection of mutual fund options offered through MissionSquare.

Volunteer Firefighter Length of Service Award Defined Contribution Plan (LOSAP 1)

LOSAP 1 is a defined contribution plan established by the City to provide retirement recognition benefits to volunteer firefighters who are not covered by the City's defined benefit pension plan. The plan is administered by Lincoln Financial Group, and individual accounts are held in the name of each eligible participant. The City contributes a fixed dollar amount annually for each qualifying volunteer based on service eligibility and IRS limits. Contributions are fully vested when made, and participants may access the funds upon separation from service. Plan assets are invested at the discretion of each participant among available investment options and are held in trust for the exclusive benefit of plan members.

Volunteer Firefighter Length of Service Award Defined Contribution Plan (LOSAP 2)

LOSAP 2 was established in 2022 as a supplemental service award program for volunteer firefighters who are not eligible for the City's closed pension plan. It operates alongside LOSAP 1 and replaced the former In-Lieu of Pension Program. LOSAP 2 is a non-qualified, unfunded defined benefit-style plan administered by the City. Participants are eligible to receive a lump sum cash benefit based on years of qualified volunteer service, provided they have completed at least 10 years of service. Benefits vest after 10 years; if a participant separates from service before vesting, their benefit is forfeited unless they return to service within five years of separation.

Distributions are made upon separation from service or the participant's 50th birthday, whichever occurs sooner. The plan is supported by annual appropriations to the City's Volunteer Firefighter Pension Alternative Fund, with a minimum funding commitment of \$25,000 per year.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 10 – COMMITMENTS, CONTINGENCIES, AND RISK MANAGEMENT

Water and Sewer Treatment Agreement with Adolph Coors Company

The City entered into an agreement with the Adolph Coors Company (Coors) on December 27, 1979, to jointly manage water and wastewater operations in a manner that maximizes the beneficial use and yield of both parties' Clear Creek water rights and minimizes the City's financial outlay. Under this agreement, Coors treats all sewage from the City that is deliverable to the Coors wastewater treatment system, while the City provides Coors with as much developed nontributary or reusable storage water as possible.

The agreement has been amended multiple times but continues to operate under the original framework, which stipulates that payments to Coors—whether through water provided by the City or through monetary compensation for wastewater treatment—are calculated using established component prices. These prices are adjusted quarterly based on the Consumer Price Index (CPI) published by the U.S. Department of Commerce to account for inflation.

The agreement remains in effect for as long as Coors operates a brewery near Golden. In the event that Coors ceases brewery operations in the area, the City would be obligated to purchase the wastewater treatment system from the company.

For the year ended December 31, 2024, the City sold \$470,915 of water to Coors and incurred \$731,885 in sewage treatment expenses under this agreement. Water sales are reported in the Water Enterprise Fund, and wastewater treatment costs are recorded in the Wastewater Enterprise Fund.

Construction Commitments

The City maintains multi-year capital projects that often extend beyond a single fiscal year due to the time required for design, bidding, and construction. As a result, budget appropriations and contractual commitments may remain outstanding at year-end.

As of December 31, 2024, the City had outstanding commitments for the completion of various capital projects, as reflected below. These commitments are defined as the remaining portion of project appropriations not yet expended or recorded as liabilities. Additional funding from outside sources are shown as a reduction to the amount reported as committed. The City has adequate financial resources, either currently held or authorized, to meet these commitments and complete all active projects.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

	Project Authorizations	Expected Outside Funding Source	Outside Funding Received	Complete at December 30, 2024	City's Remaining Commitment

Total	\$15,652,222	\$1,700,000	\$275,990	\$8,897,342	\$5,330,870

Risk Management

The City of Golden is exposed to various risks of loss including property damage, legal liability, employee injury, cyber threats, and other operational hazards. To manage these risks, the City is a long-standing member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA)—a self-insurance pool formed under Colorado law specifically for municipalities. CIRSA is a nonprofit, member-owned organization that provides liability, property, and workers' compensation coverage to more than 290 public entities across Colorado.

Through CIRSA, the City obtains coverage for general liability, public officials' errors and omissions, law enforcement liability, automobile, property, cyber liability, and workers' compensation. CIRSA is governed by a board of directors elected by its members and is backed by multiple layers of reinsurance from providers including NLC Mutual, GEM Mutual, AIG, and Midwest Employers Casualty.

City of Golden Member Deductibles – 2024:

- Automobile Liability: \$10,000
- Automobile Physical Damage: \$1,000
- All-Risk Property: \$10,000
- General Liability: \$100,000
- Law Enforcement Liability: \$100,000
- Public Officials' Errors and Omissions: \$100,000
- Workers' Compensation: \$150,000 per claim

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

CIRSA Self-Insured Retentions (Pool Level):

- General Liability, Property, Law Enforcement, and Public Officials Liability: \$1,000,000
- Workers' Compensation: \$750,000 per claim
- Crime Coverage: \$150,000 per claim
- Cyber Liability: \$100,000 (first party) and \$500,000 (third party) per claim

No claim settlements exceeded coverage limits during the past three fiscal years, and the City considers current coverages adequate for mitigating major financial losses.

In addition to CIRSA coverage, the City is self-insured for employee medical benefits. Medical claims are processed through a third-party administrator, Cigna, and paid by the City up to a defined threshold. The City maintains a stop-loss policy with Cigna, which provides reimbursement for individual claims exceeding \$100,000 per participant. The City records liabilities for known and incurred-but-not-reported (IBNR) claims at year-end in its internal service fund, based on estimates provided by its health plan consultant and historical claims experience.

The City also maintains internal service funds for workers' compensation and general liability, which are funded through department charges and used to pay claims below deductible thresholds. These funds are reviewed annually for adequacy and adjusted as needed based on actuarial estimates and experience trends.

Changes in claims payable for the years ended December 31, 2023, and 2024, were as follows:

	Property & Liability Insurance	Medical Benefit Plan	Workers' Compensation Insurance
Claims Payable, 12/31/2022	\$318,433	\$248,000	\$90,660
2023 Claims and Changes in Estimate	(89,697)	2,705,445	97,476
Claim Payments	(222,991)	(2,742,445)	(173,755)
Claims Payable, 12/31/2023	5,745	211,000	14,381
2024 Claims and Changes in Estimate	346,337	3,072,738	422,569
Claim Payments	(247,082)	(3,043,738)	(179,866)
Claims Payable, 12/31/2024	<u>\$105,000</u>	<u>\$240,000</u>	<u>\$257,083</u>

Litigation

The City is occasionally involved in claims and legal proceedings arising in the normal course of governmental operations. In the opinion of management and legal counsel, any such matters that are pending as of December 31, 2024, are either adequately covered by insurance or will not have a material adverse effect on the City's financial position, results of operations, or cash flows.

Year Ended December 31, 2024

Federal Grants

The City participates in various federal grant programs, the principal of which are subject to program compliance audits pursuant to the Single Audit Act as amended. Accordingly, the City's compliance with applicable grant requirements will, in some cases, be established at a future date. The dollar amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City anticipates such amounts, if any, will be immaterial.

NOTE 11 – LONG-TERM OBLIGATIONS

The City's long-term liabilities include bonds, certificates of participation (COPs), compensated absences, and pension obligations. These liabilities are generally liquidated through dedicated revenue sources in either governmental or proprietary funds.

2015 Water Revenue Bonds

On December 8, 2015, the City, acting through its Water and Wastewater Enterprise, issued \$3,300,000 in Water Revenue Refunding Bonds, Series 2015, to refinance the 2006B Water Revenue Bonds. The refunding was executed as a direct placement with JPMorgan Chase Bank, N.A. and resulted in net present value savings for the City. The bonds were not offered to the public and were issued as a single physical certificate registered in the name of the purchaser.

The Series 2015 Bonds bear interest at a fixed rate of 2.03%, with principal payable annually on November 15, and interest payable semiannually on May 15 and November 15, through final maturity in 2025. The bonds are payable solely from the net revenues of the Water Enterprise Fund and do not constitute a general obligation of the City. The issue also established a Debt Service Reserve Requirement of \$330,000, funded at closing through a combination of bond proceeds and City contributions.

As of December 31, 2024, the outstanding principal on the Series 2015 Bonds was \$550,000 and the unamortized loss on refunding was \$7,996.

2016 Certificates of Participation (COP)

On December 1, 2016, the City entered into a lease-purchase financing agreement with the Golden Capital Leasing Corporation (GCLC) to issue \$8,795,000 in Certificates of Participation, Series 2016. The proceeds were used to advance refund the City's Series 2006 COPs, which originally financed the construction of the City Shops Facility and renovations to Fire Station No. 1.

The 2016 COPs were privately placed with UMB Bank, N.A., following a competitive solicitation process. While the lease does not constitute an indebtedness of the City for state law purposes because it is subject to annual appropriation, it is treated as a financing lease for financial reporting purposes pursuant to generally accepted accounting principles applicable to governmental units. The rentals under the lease consist of separately identified principal and interest components.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

The Series 2016 COPs bear an interest rate of 1.61% with semiannual base rental payments due each June 1 and December 1 through final maturity in 2031. The City leases the associated property from GCLC and retains a purchase option at any time equal to the remaining lease balance.

As of December 31, 2024, the outstanding principal balance on the Series 2016 COPs is \$1,875,000.

2019 Certificates of Participation (COP)

On October 15, 2019, the City executed a lease-purchase agreement with BOKF, N.A., acting as trustee, to finance the acquisition of the property located at 311 10th Street in downtown Golden for use as a future municipal and civic center. The financing was accomplished through the issuance of \$15,000,000 in Certificates of Participation, Series 2019, representing proportionate interests in base rental payments made by the City under the lease.

The transaction was structured as a site lease and lease-back arrangement between the City and BOKF, with the property serving as collateral. The certificates were sold to ZMFU II, Inc., a subsidiary of Zions Bancorporation, via private placement. Interest is payable semiannually at a fixed rate of 2.32%, with annual principal payments from 2021 through 2031. The site lease extends through June 30, 2036, and the certificates are subject to optional redemption at par beginning in 2029. While the lease does not constitute an indebtedness of the City for state law purposes because it is subject to annual appropriation, it is treated as a capital lease for financial reporting purposes pursuant to generally accepted accounting principles applicable to governmental units. The rentals under the lease consist of separately identified principal and interest components.

Proceeds were used to acquire the property (\$12.13 million), establish a \$2.5 million project fund, and pay issuance costs. Payments are subject to annual appropriation and do not constitute a general obligation of the City. As of December 31, 2024, the outstanding principal on the Series 2019 COPs was \$10,000,000.

Stormwater Revenue Bonds, Series 2024

On December 11, 2024, the City, acting through its Drainage Utility Enterprise, issued Stormwater Revenue Bonds, Series 2024, in the principal amount of \$6,410,000. The bonds were issued to provide the required local match and advance funding for the Lena Gulch Channel Improvement Project, including storm drainage and flood control upgrades along Reach 1 and Reach 4. The total project cost is estimated at \$30 million, partially funded by a \$23.8 million federal PROTECT grant.

The bonds bear interest at 5.00%, payable semiannually on June 1 and December 1, and mature in annual installments through December 1, 2039. The bonds were sold at a premium of \$738,175, resulting in total proceeds of \$7,148,175, which were allocated to the project fund and issuance costs. The all-in true interest cost (TIC) is 3.73%.

The 2024 Bonds are special, limited obligations payable solely from the net pledged revenues of the Drainage Utility Enterprise Fund, which consist primarily of stormwater user charges based on

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

impervious surface area. The bonds do not constitute a general obligation of the City and are not secured by general taxes. A rate covenant requires the City to maintain net pledged revenues equal to at least 125% of annual debt service.

The bonds are callable at par beginning December 1, 2034, and are insured by Assured Guaranty Inc., rated "AA" by S&P. No debt service reserve fund was required to be funded at issuance.

As of December 31, 2024, the total outstanding principal on the Series 2024 Bonds is \$6,410,000, and the unamortized premium is \$738,175.

Summary information – Long-Term Bonds and Contracts

Long-term debt activity for the year ended December 31, 2024, was as follows:

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Compensated Absences

City of Golden employees earn various forms of paid leave including vacation, sick leave, and compensatory time, which are accrued and accounted for as compensated absences.

Vacation Leave:

Full-time employees accrue vacation based on years of continuous full-time employment, ranging from 128 to 200 hours per year. Upon separation from employment, employees are paid for all accrued and unused vacation at their current regular rate of pay. Vacation must be used within defined accrual limits.

Sick Leave:

Full-time employees accrue 96 hours of sick leave annually, up to a maximum of 480 hours. Sick leave in excess of 480 hours at year-end is converted at a rate of 1 hour of pay per 3 hours of excess sick leave and contributed to the employee's VantageCare Retirement Health Savings Account (RHS) if eligible. Upon separation, full-time employees with at least three years of continuous service receive a payout of their accumulated sick leave at a rate of 1 hour of pay for every 3 hours of accrued sick leave, also deposited into the RHS account. Employees with less than three years of service are not eligible for a sick leave payout. In the event of death, all unused sick leave is paid out to the employee's designated beneficiary or estate.

Compensatory Time:

Non-exempt employees may accrue compensatory time in lieu of paid overtime, subject to supervisor approval. Accrual is capped at 40 hours (48 hours for Fire Shift Officers). Upon separation from employment or conversion to exempt status, any unused compensatory time is paid at the employee's current hourly rate of pay.

Part-Time Paid Time Off (PTO):

Part-time employees classified as regular (benefit-eligible) accrue PTO each pay period in lieu of separate vacation and sick leave. Accrual rates are based on scheduled hours worked and are prorated accordingly. Upon separation, unused PTO is paid out to the employee at their regular rate of pay, provided they have completed at least 90 days of employment. PTO balances are monitored for accrual limits and subject to annual usage expectations.

Summary Information – Compensated Absences

The obligation of the City with respect to vested benefits at December 31, 2024, under the vacation policy was \$1,514,322, compensated time policy was \$42,441, sick leave policy was \$766,219, and the Part-Time PTO policy was \$23,465.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

These obligations were recognized in the financial statements as summarized in the following tabulation:

	Governmental Funds	Proprietary Funds
Balances at 12/31/23	\$1,660,858	\$483,652
Additions	409,547	105,832
Payments	(241,028)	(72,414)
Balances at 12/31/24	<u>\$1,829,377</u>	<u>\$517,070</u>

Of the above obligations, \$228,000 in the Government Funds and \$69,000 in the Proprietary Funds are estimated to be current. Compensated absences are expected to be liquidated primarily with revenues of the General Fund.

Summary Information – Long-term Obligations

Long-term liabilities activity for the year ended December 31, 2024, was as follows:

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 12 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The City of Golden has transactions between funds that are classified as interfund receivables and payables for the short-term financing of various fund operations. These balances arise from routine activities where one fund advances money to another or due to timing differences in the recognition of revenue and expenditure transactions.

Interfund Receivables and Payables

As of December 31, 2024, interfund receivables and payables consist of the following:

<u>Receivable Fund:</u>	<u>Payable Fund:</u>		
	Sales & Use Tax Capital Fund	Drainage Fund	Total
Water Fund	\$ -	\$600,000	\$600,000
Wastewater Fund	-	600,000	600,000
General Fund	566,083	-	566,083
Cemetery Perpetual Care Fund	471,751	-	471,751
Total	<u>\$1,037,834</u>	<u>\$1,200,000</u>	<u>\$2,237,834</u>

The balances between the Sales & Use Tax Capital Fund and the General Fund and Cemetery Perpetual Care Fund reflect advances originally made in 2011 to fund the installation of solar panels at various City facilities. These advances are being repaid quarterly from the energy cost savings generated by the solar installations. The Sales & Use Tax Capital Fund pays annual interest on the outstanding balances to both the General Fund and the Cemetery Perpetual Care Fund. The interest rate in 2024 was 3.5%.

In addition, a temporary advance was made from the Water and Wastewater Funds to the Drainage Fund to cover a short-term negative cash position as of year-end. This advance will be repaid as revenues are collected in the Drainage Fund in 2025.

Interfund Transfers

Interfund transfers represent legally authorized movements of resources from one fund to another. These are typically made to support operating or capital activities, to match grant requirements, or to allocate shared costs. For the year ended December 31, 2024, the City had the following interfund transfers:

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

		Transfer Out:					
Transfer In:		General Fund	Sales & Use Tax Capital Fund	Fossil Trace Golf Course Fund	Other Proprietary Funds	Other Governmental Funds	Total
	General Fund	\$ -	\$ -	\$ -	\$ -	\$ 1,303,947	\$ 1,303,947
	Fire Dept Fund	3,038,896	-	-	-	-	3,038,896
	Sales & Use Tax Capital Fund	2,100,000	-	700,000	-	1,570,000	4,370,000
	Community Center Fund	1,200,000	65,000	-	-	-	1,265,000
	Fleet Management Fund	32,499	1,942,145	-	-	-	1,974,644
	Other Nonmajor Proprietary Funds	670,000	-	-	-	-	670,000
	Other Governmental Funds	2,397,378	700,000	-	670,000	2,030,000	5,797,378
		<u>\$ 9,438,773</u>	<u>\$ 2,707,145</u>	<u>\$ 700,000</u>	<u>\$ 670,000</u>	<u>\$ 4,903,947</u>	

In general, interfund transfers are used to: (1) move revenues from the fund that collects them to the fund that expends them; (2) allocate receipts that are restricted or earmarked for debt service from the collecting fund to the debt service fund as payments become due; and (3) use unrestricted revenues in one fund to support operations or capital activities in another fund, as authorized in the annual budget.

NOTE 13 – TAXPAYERS’ BILL OF RIGHTS (TABOR)

In November 1992, Colorado voters approved the Taxpayers’ Bill of Rights (TABOR) as an amendment to the State Constitution (Article X, Section 20). TABOR limits the revenue-raising abilities of state and local governments and requires voter approval for certain tax increases, debt issuances, and new taxes. It also imposes annual limits on the amount of revenue a government may collect and retain, based on inflation and local growth.

To comply with TABOR, the City is required to establish emergency reserves equal to 3% of qualifying expenditures, which cannot be used for any purpose other than declared emergencies. As of December 31, 2024, the City has reserved \$2,120,000 in its General Fund to satisfy this constitutional requirement.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

On November 7, 1995, Golden voters approved a ballot measure permanently authorizing the City to collect and retain all revenues from any source without regard to TABOR limitations. This “de-Brucing” measure allows the City to retain and spend revenues in excess of TABOR caps, so long as the revenues are used for lawful municipal purposes. While exempt from TABOR revenue limits, the City remains subject to TABOR provisions regarding emergency reserves, election requirements for new taxes, and other procedural mandates.

Management believes the City is in compliance with the provisions of TABOR as of December 31, 2024. However, due to inherent complexities and legal uncertainties in interpreting the amendment, it is possible that future legislative or judicial interpretations could affect the City’s compliance status.

NOTE 14 – GOLDEN URBAN RENEWAL AUTHORITY (GURA)

The Golden Urban Renewal Authority (GURA) is a legally separate entity established on June 26, 1989, to promote the revitalization and redevelopment of designated urban renewal areas within the City of Golden. The GURA Board is appointed by City Council and the City is financially accountable for the Authority; therefore, GURA is reported as a discretely presented component unit in the accompanying financial statements.

Property Taxes

GURA receives property tax increment revenue generated from the increase in assessed valuation within its designated urban renewal districts. The base year valuation is held constant, and taxes derived from the incremental valuation above the base are allocated to GURA for the duration of each renewal area’s authorized term. GURA does not levy its own mill rate; rather, it receives a portion of mill levies otherwise due to overlapping taxing entities within the district.

Budgets and Budgetary Accounting

GURA adopts an annual budget that is incorporated into the City’s annual appropriation ordinance. Budgetary control is exercised at the fund level. The Authority’s budget is prepared on a basis consistent with generally accepted accounting principles (GAAP).

Cash, Deposits, and Investments

GURA’s cash is pooled with the City’s and invested in accordance with the City’s investment policy. All deposits are maintained in the City’s custodial accounts and are subject to the Colorado Public Deposit Protection Act (PDPA). GURA does not maintain separate investment accounts or custodial relationships. Its share of the pooled cash and investments is reflected as equity in pooled cash and investments and is reported at fair value. As of December 31, 2024, GURA held \$4,343,888 in pooled cash and investments.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

Deferred Inflows of Resources

Consistent with GAAP and GASB requirements, GURA reports a deferred inflow of resources for property tax revenues that are levied for the subsequent fiscal year. These amounts are recognized as revenue in the year in which they are levied and available for use.

Risk Management

GURA is covered under the City's general liability and property insurance programs through the Colorado Intergovernmental Risk Sharing Agency (CIRSA). The City does not allocate a separate premium or deductible to GURA, and no separate claims were incurred or paid on behalf of GURA during the year ended December 31, 2024.

Other Agreements

Owner Participation Agreements

GURA may enter into redevelopment agreements with private developers to encourage capital improvements and reinvestment within its urban renewal areas. These agreements typically provide for reimbursement of eligible costs using a share of tax increment financing (TIF) revenues over time.

As of December 31, 2024, the Authority had entered into agreements totaling \$16,784,988 in potential reimbursements, of which \$7,154,383 had been remitted. The remaining potential obligation under these agreements is \$9,630,605.

The increase in the total value of agreements during the year is primarily due to a new agreement with Confluence Development (West Colfax Golden LLC), under which GURA will remit 95% of TIF increment for the remainder of the plan area. The agreement includes a \$6 million cap, which reduces to \$5.5 million if the property is sold.

Intergovernmental Co-operating Agreement

GURA has entered into an intergovernmental agreement with the City of Golden under which the City serves as GURA's fiscal agent and provides administrative, financial, and legal support. Under this agreement, the City performs day-to-day management tasks on behalf of GURA, including accounting, reporting, budgeting, procurement, and project oversight. GURA reimburses the City for these services through an annual allocation approved as part of its budget. This agreement helps ensure alignment between the City's redevelopment goals and GURA's operations while providing cost-effective administrative support.

Financial Reporting

GURA does not issue separate audited financial statements. All activity of the Authority is reported within the City's Annual Comprehensive Financial Report.

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

NOTE 15 – NEW GASB PRONOUNCEMENTS

The Governmental Accounting Standards Board (GASB) has issued several new pronouncements that impact the City's financial reporting. The City evaluates each statement to determine its applicability and effective implementation timeline.

GASB Statement No. 99 – Omnibus 2022

This statement addresses a range of practice issues to improve comparability and consistency across prior GASB statements. It includes clarifications related to derivative instruments (GASB 53), lease accounting (GASB 87), public-private partnerships (GASB 94), and subscription-based IT arrangements (GASB 96), among others. Provisions related to financial guarantees and classification/reporting of certain derivatives are effective for fiscal years beginning after June 15, 2023. The City has implemented applicable provisions of this statement during fiscal year 2024.

GASB Statement No. 100 – Accounting Changes and Error Corrections

This standard enhances the transparency and consistency of reporting accounting changes and corrections of errors, aligning recognition and disclosure under a unified model. Effective for fiscal years beginning after June 15, 2023. The City adopted this statement during the current fiscal year.

GASB Statement No. 101 – Compensated Absences

This statement updates the recognition and measurement guidance for compensated absences, such as vacation and sick leave, under a single framework. Effective for fiscal years beginning after December 15, 2023. The City adopted this statement during the current fiscal year.

Upcoming Standards

The City is currently evaluating the impact of the following upcoming standards:

- GASB Statement No. 102, Certain Risk Disclosures, which requires additional disclosures related to concentrations and constraints. This will be effective for reporting periods beginning after June 15, 2024. The City is evaluating disclosure changes and expects no material impact on the financial statements.
- GASB Statement No. 103, Financial Reporting Model Improvements, which proposes significant changes to government-wide and fund financial statement presentation, including a new format for the governmental funds statement of revenues, expenditures, and changes in fund balances. This standard will be effective for reporting periods beginning after June 15, 2025. The City is evaluating this statement and it is expected to result in layout and terminology updates once adopted.
- GASB Statement No. 104, Disclosure of Certain Capital Assets, focuses on improving transparency and consistency in how governments disclose certain capital assets in their

CITY OF GOLDEN, COLORADO
NOTES TO BASIC FINANCIAL STATEMENTS
Year Ended December 31, 2024

financial statements. The statement is fairly limited in scope and focuses primarily on disclosures. This will be effective for reporting periods beginning after June 15, 2025. The City is evaluating disclosure changes and expects no material impact on the financial statements.

The City continues to monitor GASB activity and prepares for implementation through participation in professional development, discussions with auditors, and ongoing policy review. None of the pending pronouncements are expected to materially affect the City's net position or results of operations.

NOTE 16 – SUBSEQUENT EVENTS

Management has evaluated events and transactions that occurred after December 31, 2024, through the date the financial statements were available to be issued. The following subsequent event is considered significant and is disclosed below:

On January 16, 2025, the City issued \$48,605,000 in Certificates of Participation, Series 2025. The proceeds from the issuance will be used to finance the construction, improvement, and equipping of facilities for the City's new police and municipal building and grounds (the "Project"), as well as to pay issuance costs. The Series 2025 Certificates represent proportionate interests in base rental payments made by the City under a lease agreement, subject to annual appropriation. The transaction does not constitute a general obligation of the City.

No other material subsequent events requiring disclosure occurred during the evaluation period.

REQUIRED SUPPLEMENTARY INFORMATION

This section includes financial information required by GASB that, while not part of the Basic Financial Statements, is considered essential for placing the financial statements in context. RSI is presented immediately following the Notes to the Financial Statements and includes:

- Budgetary comparison schedules for the General Fund and any major special revenue funds with legally adopted annual budgets.
- Trend data related to the City's pension plans, including the City's proportionate share of the net pension liability and required contributions.

Note 1 - The City prepares its annual budget on a basis (budget basis) which differs from a GAAP basis. The differences between budget and GAAP basis in the General Fund are that encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP), unrealized investment gain (loss) is recognized for GAAP basis only and interfund loan transactions treated as transfers for budget basis.

^ Includes both employer and State of Colorado Supplemental Discretionary Payment.

SEE INDEPENDENT AUDITOR'S REPORT

NONMAJOR GOVERNMENTAL FUNDS

This section provides detailed financial information for the City's nonmajor governmental funds. These are grouped by fund type: Special Revenue, Capital Projects, and Permanent. While individually they do not meet the threshold for major fund reporting, they are important for understanding the City's use of restricted or designated resources.

Special Revenue Funds

These funds are used to account for revenues that are legally or administratively restricted to specific purposes.

- **Conservation Trust Fund** – Accounts for proceeds received from the Colorado Lottery, restricted for the acquisition, development, and maintenance of parks, open space, and recreational facilities.
- **Golden Downtown General Improvement District (GDGID)** – Used to account for property tax assessments levied within the downtown district to fund parking, streetscape, and other infrastructure improvements benefiting the district.
- **Downtown Development Authority (DDA)** – Supports economic development, public improvements, and maintenance within the DDA boundary using property tax increment and other revenues.
- **Lodging Excise Tax Fund** – Accounts for revenue from the City's lodging tax, which is used to support tourism, special events, visitor services, and cultural programming.
- **Marijuana Excise Tax Fund** – Tracks revenue from the voter-approved excise tax on marijuana cultivation and sales, used primarily to support capital projects and community priorities.
- **Housing Trust Fund** – Used to support affordable housing programs, projects, and partnerships within the City through designated revenue sources and grants.

Capital Projects Funds

These funds are used to account for resources designated for the acquisition or construction of major capital assets, excluding those financed by proprietary funds.

- **Capital Programs Fund** – The primary capital fund used to manage general government capital improvements, including streets, facilities, and equipment. Funded through interfund transfers, grants, and dedicated revenues.
- **Open Space Fund** – Accounts for revenues from Jefferson County Open Space and other sources used for the purchase, development, and maintenance of open space, trails, and related amenities.

Permanent Fund

Permanent funds are used to report resources that are legally restricted so that only earnings—not principal—may be used to support government operations.

- **Cemetery Perpetual Care Fund** – Holds endowment contributions for the long-term maintenance of the City's cemetery. Principal amounts are permanently restricted, and investment earnings are used to support ongoing care and upkeep of cemetery grounds.

NONMAJOR PROPRIETARY FUNDS

Nonmajor proprietary funds account for City operations that are intended to be self-supporting through user fees but are not large enough to be reported as major funds. These funds use full accrual accounting, similar to private-sector businesses.

- **Splash Aquatic Park Fund** – Accounts for the operations of the City-owned outdoor aquatics facility. Revenues come primarily from admissions, concessions, and rentals, and are used to support staffing, maintenance, and programming.
- **Cemetery Operations Fund** – Supports the day-to-day operations of the City's cemetery, including plot sales, burials, and grounds maintenance. Funded through user charges and related fees.
- **Rooney Road Sports Complex Fund** – Accounts for revenues and expenses related to the operation and upkeep of the sports fields located at Rooney Road. Activities include field rentals, tournaments, and maintenance.
- **Museum Operations Fund** – Supports the operations of Golden History Museum & Park, including admissions, educational programming, and special events. Revenue sources include ticket sales, rentals, and contributions.

INTERNAL SERVICE FUNDS

Internal service funds are used to account for operations that provide goods or services to other City departments on a cost-reimbursement basis. These funds help allocate costs more accurately across departments and promote efficient resource management.

- **Insurance Fund** – Accounts for general liability and property insurance coverage, as well as related claims and deductibles. Funded through department contributions based on risk exposure and coverage needs.
- **Medical Benefit Fund** – Supports the City's self-funded employee health insurance program. Tracks premiums, claims, stop-loss reimbursements, and administrative costs.
- **Fleet Management Fund** – Manages the purchase, maintenance, and repair of City vehicles and equipment. Costs are recovered through charges to user departments based on usage and service needs.
- **Information Technology (IT) Fund** – Provides centralized IT support and infrastructure, including network services, cybersecurity, software licensing, and equipment replacement. Departments are charged based on service usage and support levels.
- **Workers' Compensation Fund** – Accounts for the City's self-insured workers' compensation program. Covers claims, medical costs, and administrative expenses, funded through departmental contributions tied to payroll and risk classification.

COMPONENT UNIT

The City reports one discretely presented component unit: the Golden Urban Renewal Authority (GURA). While legally separate from the City, GURA is included in the ACFR because its financial activities are closely tied to the City and the City Council appoints the board.

- **Golden Urban Renewal Authority (GURA)** – GURA is responsible for facilitating redevelopment and reinvestment in designated urban renewal areas throughout the City. It uses tax increment financing (TIF) to fund infrastructure improvements, public-private partnerships, and reinvestment projects that promote economic vitality. GURA's financial statements are presented separately from the City's primary government to reflect its independent legal status and operations.

Statistical Section

STATISTICAL SECTION

This part of the City's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	Schedules	Pages
<u>Financial Trends</u>		
These schedules contain trend information to help the reader understand how the City's financial information and well-being have changed over time.	1-4	129-134
<u>Revenue Capacity</u>		
These schedules contain information to help the reader assess the factors affecting the City's ability to generate its largest revenue source, sales and use taxes.	5-8	135-138
<u>Debt Capacity</u>		
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	9-11	139-141
<u>Demographic and Economic Information</u>		
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time.	12	142
Note: The City of Golden does not track principal employer data. As a result, the Principal Employers schedule has been omitted.		
<u>Operating Information</u>		
These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	13-15	143-145

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Notes and Comments:

**Independent Auditor's Report on Internal Control over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Honorable Mayor and Members of the City Council
City of Golden
Golden, Colorado

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information statement of the City of Golden (the City) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 14, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

TEL: 303.796.1000
FAX: 303.796.1001
www.HinkleCPAs.com

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each
Major Federal Program, Internal Control over Compliance,
and the Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance**

Honorable Mayor and Members of the City Council
City of Golden
Golden, Colorado

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Golden's (the City's) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2024. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Office Locations:

Colorado Springs, CO
Denver, CO
Frisco, CO
Tulsa, OK

Denver Office:

750 W. Hampden Avenue,
Suite 400
Englewood,
Colorado 80110
TEL: 303.796.1000
FAX: 303.796.1001
www.HinkleCPAs.com

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF GOLDEN, COLORADO
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ended December 31, 2024

NOTE 1 – GENERAL

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the activity of all federal awards programs of the City of Golden, Colorado (the City) for the year ended December 31, 2024. The City's reporting entity is defined in Note 1, Summary of Significant Accounting Policies, to the City's financial statements. Federal financial assistance received directly from federal agencies, as well as amounts passed through other governmental entities, is included in the Schedule. The City has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 2 – BASIS OF ACCOUNTING

The accompanying Schedule is presented using the modified accrual basis of accounting, which is described in Note 1, Summary of Significant Accounting Policies, to the City's financial statements.

NOTE 3 – RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

Amounts reported in the accompanying Schedule agree with the amounts reported in the applicable federal financial reports, subject to timing differences related to cash receipts and expenditures.

NOTE 4 – FEDERAL PROGRAMS

The City participates in numerous federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required.

NOTE 5 – PROGRAM COSTS

The amounts presented in the Schedule reflect only the federal share of program expenditures incurred during the year. Total program costs, which may include City matching contributions or other funding sources, are not included in this Schedule.

City of Golden
Schedule of Findings and Questioned Costs
For the Year Ended December 31, 2024
