INTRODUCTORY SECTION

June 26, 2025

To the Honorable Mayor, Members of Council, and Citizens of the City of Sterling, Colorado:

The annual comprehensive financial report of the City of Sterling, Colorado, for the year ended December 31, 2024, has been prepared by the Director of Finance to present a comprehensive overview of the financial condition of the City.

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Colorado Statutes and the City Charter require that a firm of certified public accountants, selected by the City Council, audit the City's financial statements. Lauer, Szabo and Associates, PC, completed the 2024 audit. Their report on the basic and fund financial statements and other required supplemental schedules is included in the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Sterling, the county seat of Logan County, is the largest city in the Northeastern corner of Colorado. Interstate 76, as well as Highways 6, 61, and 138, connect Sterling to the surrounding areas. Colorado Highway 14, Main Street, offers easy access westward to the Fort Collins area and the Northern Front Range. Sterling is located 128 miles from Denver on I-76, 90 minutes from DIA, and 40 minutes from I-80. Colorado's beautiful mountain range is only a 2-hour drive away.

In addition to an ideal location, Sterling can boast the best of both worlds. Its original development as an agricultural community has gifted it with a heritage rich in small town atmosphere, with a beautiful downtown area, friendly neighbors, and the feel of a real community. The distance of Sterling from the rapid growth of the Front Range has enabled the city to keep these positive qualities while developing big city resources rarely found in a community this size.

The area is strongly influenced by an agricultural lifestyle and economy. The City of Sterling serves as the shopping hub for Northeastern Colorado and portions of Kansas and Nebraska.

The City of Sterling, Colorado, incorporated in 1884, adopted a home rule charter in 1950, and operates under the council/manager form of government. The City Council consists of a seven-member council, with one member elected as mayor and six serving as council members. The council is elected on a non-partisan basis. Three council members are elected every two years within their respective Ward, with staggered terms of four years. The Mayor is elected at large for a two-year term. The City Council is the legislative body of the City of Sterling. They are responsible, among other things, for setting policy by passing ordinances and resolutions and adopting the budget. The City Manager is the Chief Executive Officer of the City.

The City of Sterling provides a full range of services, including police and fire protection; EMS service; the construction and maintenance of streets and other infrastructure; recreational activities and utility services of water, sewer and sanitation. The following services are included within the accompanying financial statements:

- General Government – Council, Manager, Finance, Human Resources, Attorney, Information Technology and Municipal Court.
- Public Safety - Police, Dispatch, Fire Protection, and Ambulance Service.
- Parks, Library and Recreation - Recreational Administration, Parks, Forestry, Cemetery, Recreation Center, Library, Museum and Recreational Programs.
- Public Works – Planning and Engineering, Charging Station, Airport, Street, Water Lines, Water Treatment Plant, Sewer, Wastewater, Sanitation and Service Center.

As required by the Home Rule Charter of the City of Sterling, an annual budget, which is the complete financial plan for the ensuing year, is adopted for all funds. The City's budget is consistent with Generally Accepted Accounting Principles (GAAP) except for the enterprise funds and internal service funds wherein depreciation is not budgeted. Also, capital outlay and debt service are budgeted as operating expenses. The year-end financial reports are converted to comply with GAAP.

The Sterling Urban Renewal Authority (SURA) is included in the financial statements as a component unit of the City.

LOCAL ECONOMY

The City saw the economy remain steady in 2024. Sales tax revenue, which was 54% of the General Fund revenue in 2024, was 3.7% higher than that collected in 2023. The City's General Fund saw an 8.5% increase in revenues in 2024 compared to 2023.

During 2024 the unemployment rate increased from 2.6% in 2023 to the current rate of 3.6%.

The City's Code Enforcement Specialist issued 371 permits in 2024, which was 34 permits less than issued in 2023. The construction value for 2024 was estimated at approximately \$2.8 million, of which \$2.5 million was for commercial construction.

Major businesses/employers located within the government's boundaries or in close proximity include Sterling Correctional Facility, Banner Health, RE-1 School District, Wal-Mart and Northeastern Junior College.

MAJOR INITIATIVES 2024

The City of Sterling's staff, following specific directives from the City Council and the City Manager, has been involved in a variety of projects throughout the year. These projects reflect the City of Sterling's commitment to ensuring that its citizens are able to live and work in a desirable environment.

In 2023 the city was able to secure a DOLA grant to help pay for the Waterline Replacement project for the year. This allowed the city to advertise a project that was approximately twice as extensive as previous years. This Project included 1,900 lin.ft. of 8" waterline and 900 lin.ft. of 6" Waterline. The work began in the fall of 2023 and was completed in the Spring of 2024.

The City of Sterling secured another DOLA grant to help pay for a major sanitary sewer line extension on the west side of the city. This project extended the existing 24" sanitary sewer line south along the west side of Ballpark Road from Platte Avenue to the south side of SH 14.

Key facility improvements, including new LED lighting at the Mason softball field funded by Conservation Trust dollars, reflect our commitment to maintaining high-quality recreational spaces. Additionally, community contributions, such as the Bench Donation Program, enhance park aesthetics and provide meaningful memorials.

The Summer Food Service Program, in partnership with RE-1 Valley School District, exemplified our focus on youth engagement by providing nutritious meals and interactive educational activities throughout the summer months. Similarly, the annual Movies in the Park program expanded with upgraded technology, creating memorable family experiences and fostering community spirit.

LONG TERM FINANCIAL PLANNING

A five-year capital improvement plan is prepared each year that serves as a planning document to ensure that the City's facilities, equipment and infrastructure are well maintained and in safe operating conditions. The plan is funded from a combination of dedicated taxes, grants, and reserves.

The Sterling City Council makes decisions and has implemented a policy that in the long term will benefit the City of Sterling. These policies and incentives, which many have been in the form of a sales tax rebate, may help to bring in new businesses that will help to improve the City's long-term financial status.

The City of Sterling, like many Colorado communities, is facing significant challenges due to aging infrastructure and compliance with new wastewater treatment regulations. In addition, Sterling is subject to inflow and infiltration (I&I) of large amounts of groundwater and storm water into the wastewater

The existing wastewater treatment facility will be expanded to 3.0 mgd to meet future wastewater flow based upon projected population growth through the year 2040. The preliminary design for the plant was completed in 2019. The project will take place in three areas: Headworks, Force Main and the Wastewater Treatment Facility. The Headworks started in 2021 and was completed in 2023. The Force Main started work in 2022, with project completion also in 2023. The final portion of the Project is the Wastewater Treatment Facility. The Plant started In October of 2024.

The City of Sterling is working on various improvement projects throughout the City of Sterling, including the East Chestnut Multi-Use trail that received a Transportation Alternatives Program grant to pay for most of the construction of a trail along the north side of East Chestnut from the viaduct to the South Platte River.

Significant progress was made with the Overland Trail Recreation Area Expansion and ongoing development along the Sterling Loop, increasing access to public spaces and supporting the Safe Routes to Schools initiative. This collaborative effort continues to enhance connectivity and encourage active lifestyles.

There was a committee formed to begin processing what a new Recreation Center could look like. There were several very early planning meetings, along with public input. The CU students put together a conceptual design of what it could look like. The public agreed that this is something that wants to move forward with and there will be beginning stages of planning in 2025

RELEVANT FINANCIAL POLICIES

The City Council's policy during budget preparation is that the budgeted fund balance must exceed 10% of the projected expenditures. Due to this policy, expenditures are budgeted high, and revenues are budgeted more conservatively.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Sterling for its annual comprehensive financial report for the fiscal year ended December 31, 2024. This was the thirty-fourth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement for Excellence in Financial Reporting, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Appreciation is acknowledged for the dedicated efforts of all officials and staff involved in managing and accounting for the City's financial operations. The process of financial planning, management, and accounting requires the concerted effort by the City Council and City Staff to successfully accomplish.

Respectfully submitted,

Donald Saling
Interim City Manager

FINANCIAL SECTION

Independent Auditors' Report

To the Honorable Mayor and Members of City Council
City of Sterling
Sterling, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Sterling (the City) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and historical pension information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied

certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, other supplementary information, the local highway finance report, statistical section and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, the local highway finance report and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 30, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Lauer, Szabo & Associates, P.C.

Sterling, Colorado
May 30, 2025

MANAGEMENT DISCUSSION & ANALYSIS

As management of the City of Sterling, we offer readers of the City of Sterling's financial statements this narrative overview and analysis of the financial activities of the City of Sterling for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal at the front of this report and the City's financial statements, which begin on page 21.

FINANCIAL HIGHLIGHTS

- The City's assets and deferred outflows of resources exceed its liabilities and deferred inflows of resources by \$107 million at the close of 2025.
- The City has \$23 million of unrestricted assets that may be used to meet the City's ongoing obligations to citizens and creditors.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Sterling's basic financial statements. The City of Sterling's basic financial statements are comprised of three components (1) Government-wide financial statements; (2) Fund financial statements; and (3) Notes to the financial statements. This report also includes supplementary information intended to furnish additional details to support the basic financial statements themselves.

Government-wide financial statements. The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies.

The statement of net position presents information on all of the City of Sterling's assets, deferred outflows, liabilities, and deferred inflows, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Sterling is improving or deteriorating.

The statement of activities presents information showing how the City of Sterling's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses reported in this statement for some items will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid time off).

Both of the government-wide financial statements separate the functions of the City of Sterling between those supported by taxes and intergovernmental revenues (government activities) from those that recover all or a significant portion of the costs through user type fees (business type activities). Most of the City's basic services are considered government activities, such as the police, fire, ambulance, dispatch, public works, parks, library, recreation, and general administration. Sales and use tax, property tax, franchise tax, intergovernmental revenue and charges for services finance most of these activities. The City charges fees to customers to recover most of the costs of certain services provided in the business type activities. The City's water, sewer, and sanitation systems are included here.

The government-wide financial statements include not only the City of Sterling itself (known as the primary government), but also a legally separate entity, the Sterling Urban Renewal Authority, for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the City itself.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law; however, City Council has established other funds to help control and manage money for particular purposes (the Perpetual Care Fund) or to show that it is properly using certain revenue (the Conservation Trust Fund). All of the funds of the City of Sterling can be divided into three categories: governmental funds, proprietary funds, or fiduciary funds.

Governmental funds. Most of the City's basic services are reported in governmental funds, which focus on how money flows through these funds and the balances left at the year-end are available for future expenditures. The funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statement provides a detailed short-term view of cash, the governmental fund operations and the basic services it provides. Government fund information helps you determine whether there are more or less financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental funds statement is provided, or on the subsequent page, that explains the relationship (or differences) between them.

The City of Sterling maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures, and changes in fund balances for the general fund, which is considered to be a major fund. Data from the other six governmental funds are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City of Sterling adopts an annual appropriated budget for all of its governmental funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found starting on page 28 of this report.

Proprietary funds. When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The City's enterprise funds (a component of proprietary funds) are the same as the business-type activities reported in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds. Internal service funds (the other component of proprietary funds) report activities that provide supplies and services for the City's other programs and activities, such as the City's Service Center, Employee Benefit, Risk Management and Capital Replacement Funds.

The City of Sterling adopts an annual appropriated budget for all of its proprietary funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

The basic proprietary fund financial statements can be found starting on page 32 of this report.

Notes to the financial statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 42 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents the required supplementary information concerning the City of Sterling's progress in funding its obligation to provide pension and other post-employment benefits to its employees. The required supplementary information can be found on page 91 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$107 million at the close of 2025.

The largest portion of the City of Sterling's net position, \$81 million, reflects its investment in capital assets (land, buildings and equipment). The City of Sterling uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

In addition, a portion of the City of Sterling's net position, \$2.4 million, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$23 million, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of 2024, the City of Sterling is able to report positive balances for the three Business-type Activities.

Changes in Net Position

A summary of the City's governmental and business type activities for the period ending December 31, 2024, reflects net position increasing by \$5.4 million. The prior period is also included for comparative purposes.

Governmental activities

Net position of governmental activities increased by \$1.2 million during 2024.

The sales and use tax revenue increased 3.7% in 2024. Investment earnings had a 16.5% decrease in 2024 compared to 2023. This is due to the drop in interest rates. Rates at COLOTRUST+ were 4.59% on December 31, 2024, compared to 5.58% on December 31, 2023.

Expenses Compared to the Revenue presents the cost and revenue of each of the City's four largest programs – general government, public safety, public works and parks, library and recreation. The difference between the revenue and expense shows the financial burden that was placed on the City's taxpayers by each of these functions.

Business-type Activities

The three Enterprise Funds had a combined increase in net position of \$4.2 million. The Sewer Fund increased by \$1.7 million, the Sanitation Funds increased by \$33 thousand, and the Water Fund had an increase of \$2.4 million. The increases in the Water and Sewer Fund are to have funds available for future loan payments to CWRPDA. The Water Fund outstanding debt is \$12.8 million, with the Sewer Fund having an outstanding debt of \$60.9 million.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Sterling uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Sterling's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Sterling's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of Sterling itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of Sterling's Council.

The General Fund is the chief operating fund of the City of Sterling. At the end of 2024, the City of Sterling's General Fund reported an ending fund balance of \$3.5 million, which was a decrease of \$3.3 thousand from January 1, 2024. Of that fund balance, \$3.2 million was unassigned and is available for spending at the City's discretion. The remainder of the fund balance is assigned and is not available for new spending because it is committed to the culture and recreation and prepaid items. The remainder of the Governmental funds had a combined fund balance of \$2.5 million.

Proprietary Funds. The City of Sterling's three proprietary funds, Water, Sewer and Sanitation, provide the same type of information found in the government-wide financial statements, but in more detail.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the course of 2024, the City amended the General Fund budget three times. All recommended amendments for budget changes came through the Finance and City Manager's Department, to the City Council via Ordinance as required by the City Code. The General Fund original budgeted expenditures were \$21.1 million; and the final budgeted amount was \$23.4 million. The main components of the increase were:

- DOLA Housing Grant - \$28 thousand.
- Salary Increases - \$209 thousand.
- Minimum Wage Increase - \$85 thousand.
- Carry over 2023 street improvements not completed - \$924 thousand.

- Purchase of National Guard Armory anticipated for a Police Department - \$579 thousand.
- Demolition of residence due to nuisances - \$45 thousand.
- Increase of utilities and gas due to the economy \$84 thousand.

In order to consider the additional appropriations, the budgeted revenues were also amended. The original budgeted revenues for the General Fund were \$19.1 million; the final budgeted amount was \$19.4 million. The majority of the increased revenue was money anticipated to be received for grants, a portion of the street program that will be reimbursed by the developer, and the cost of a demolition of a building due to a nuisance violation.

The variance between actual expenditures and the final budget amounted to \$975 thousand dollars in unspent appropriation and is summarized below.

- Many departments/divisions in the General Fund had unexpended funds due to the budgeting of personnel costs. Due to turnover, vacancies and the budgeting of medical insurance, there were unspent budgeted funds at the end of the year. The City budgets the total premium for each employee during the budget process; however, there are employees that do not take the City's insurance.
- Airport Maintenance Project \$160 thousand.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The City of Sterling's investment in capital assets for its governmental and business-type activities as of December 31, 2024, amounts to \$117 million (net of accumulated depreciation). This amount includes a broad range of capital assets, including police and fire equipment, streets and drainage, water and wastewater lines, the Municipal airport, other infrastructure.

The City remains committed to the upkeep and maintenance of the City's largest assets. More detailed information about the City's capital assets is presented in Note E, pages 56-59, of the financial statements.

The major capital asset additions during 2024 for the Governmental Activities were:

Contract Street Paving	\$2.2 million
Airport Runway Project	\$1.7 million

Business-type Activities continued the major improvement to the Wastewater Treatment Plant, with Construction in Progress increasing \$10.7 million dollars in 2024.

Long-term debt. The City had \$74.8 million in debt outstanding at year-end 2024. More detailed information about the City's long-term debt is presented in Note F to the financial statements.

ECONOMIC FACTORS AND THE 2025 BUDGET

In preparing the 2025 Budget, the City took into consideration the current economy. The 2025 adopted expenditure budget was appropriated at \$19.6 million for the General Fund, which was \$3.8 million less than the final 2024 budget. The adopted revenue budget for 2025 was \$19.6 million, which was \$226 thousand less than the final budget for 2024.

The City is being cautious with its spending in 2025. The budget is being monitored on a monthly basis; the 2025 revenues and expenditures to the same month in 2024.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds and assets it receives. If you have questions about this report, or should you need additional financial information, contact the City of Sterling Director of Finance, 421 N 4th Street, Sterling, CO 80751.

Basic Financial Statements

The basic financial statements of the City include the following:

Government-wide financial statements. The government-wide statements display information about the reporting government as a whole.

Fund financial statements. The fund financial statements display information about major funds individually and nonmajor funds in the aggregate for governmental and proprietary funds.

Notes to the financial statements. The notes communicate information essential for fair presentation of the financial statements that is not displayed on the face of the financial statements. As such, the notes are an integral part of the basic financial statements.

CITY OF STERLING, COLORADO**Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position
December 31, 2024**

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance - governmental funds	\$ 5,946,961
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	33,635,439
Certain receivables will be collected in the next fiscal year, but are not available soon enough to pay for the current period's expenditures, and therefore are unearned revenues in the governmental funds.	120,905
Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds.	(881,669)
Pension liabilities and deferrals used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	784,076
Internal service funds are used by management to charge the costs of certain activities to individual funds, such as insurance, fleet and service center management. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net position.	<u>6,899,222</u>
Net position of the governmental activities	<u><u>\$ 46,504,934</u></u>

The accompanying notes are an integral part of these financial statements.

CITY OF STERLING, COLORADO**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances
of Governmental Funds to the Statement of Activities****For the Year Ended December 31, 2024**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - governmental funds \$ (3,098,455)

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays (\$5,137,788) exceeded depreciation (\$1,208,126) in the current period. 3,929,662

Pension expense at the fund level represents cash contributions to the defined benefit plan. For the activity level presentation, the amount represents the actuarial cost of the benefits for the fiscal year. 94,809

In the statement of activities, certain operating expenses - compensated absences - are measured by the amounts incurred or earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). (163,166)

Because some revenues will not be collected for several months after the fiscal year ends, they are not considered "available" revenues in the governmental funds. They are, however, recorded as revenues in the statement of activities. 120,905

Internal service funds are used by management to charge the costs of certain activities to individual funds, such as insurance, fleet and service center management. The net revenue (expense) of the certain internal service funds is reported with governmental activities. 286,331

Change in net position of governmental activities \$ 1,170,086

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies

This summary of the City of Sterling's significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. The policies are considered essential and should be read in conjunction with the accompanying financial statements.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles.

The more significant of the City's accounting policies are described below.

A.1 – Reporting entity

The financial reporting entity consists of (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The reporting entity's financial statements should present the funds of the primary government (including its blended component units, which are, in substance, part of the primary government) and provide an overview of the discretely presented component units.

The City has examined other entities that could be included as defined in number 2 and 3 above. Based on these criteria, the Sterling Urban Renewal Authority (SURA) is included in the financial statements as a component unit of the City. The SURA was created by ordinance passed in 1978 by the City Council under authorization of State Statutes. The purpose of SURA is to acquire and develop or redevelop certain areas in the City to maintain public welfare. The financial statements of the SURA are included in the City's financial statements using discrete presentation, because the City officials appoint a voting majority of the organization's governing body and its tax increment financing indicates financial interdependency; however, the presentation is in a separate column to recognize legal separation from the City. Legal counsel is of the opinion that under State Statutes, the City is not liable with respect to any debt of the SURA. Complete financial statements of the SURA are not available as the entity is not required by Colorado Local Government Audit Laws to issue audited financial statements.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.2 – Fund accounting

The City uses funds to report its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked funds (special revenue funds), major capital projects (capital projects fund), and the servicing of general long-term debt (debt service fund). The following is the City's major governmental fund:

General Fund – The General Fund is the operating fund of the City. It is used to account for most of the day-to-day operations of the City which are financed from sales and use taxes, property taxes and other general revenues. Activities financed by the general fund include those of line and staff departments within the City, except for activities of the enterprise funds.

The following are the City's nonmajor governmental funds:

Conservation Trust Fund – This fund is a special revenue fund established to account for state lottery proceeds and allowable expenditures.

Perpetual Care Fund – This fund is a special revenue fund established for the purpose of using revenues generated from investments for operations and care of the cemetery.

Karl Falch Library Trust Fund – This fund is a special revenue fund established to account for resources held by the City in a fiduciary capacity as willed by Karl Falch to be used for library purposes.

Hotel Tax Fund – This fund is a special revenue fund established to account for the hotel lodging tax revenues and allowable expenditures.

Sunset Memorial Gardens Fund – This fund is a special revenue fund established to account for contributions and expenditures related to operations and care of the cemetery.

Demo Fund – This fund is a special revenue fund established to account for the proceeds of nuisance cleanups and related expenditures.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Capital Improvement Fund – This fund is a capital projects fund established to account for rental and sales proceeds from City owned land, with the proceeds being used to pay for capital improvements.

Proprietary funds focus on the determination of the changes in net position, financial position and cash flows and are classified as either enterprise or internal service. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major proprietary funds:

Water Fund – This fund was established to account for all operations of the water utility services provided by the City.

Sanitation Fund – This fund was established to account for all operations of the sanitation services provided by the City.

Sewer Fund – This fund was established to account for all operations of the sewer utility services provided by the City.

Fiduciary Funds focus on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations or other governments and are therefore not available to support the City's own programs. The City does not have any fiduciary funds.

Additionally, the City reports the following fund type:

Internal Service Funds – These funds account for insurance, fleet and service center management services provided to other departments or agencies of the City on a cost reimbursement basis.

Note A.3 – Basis of presentation

Government-wide financial statements – The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with a brief explanation to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function or program of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund financial statements – Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources management focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balance, which reports the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (revenues) and decreases (expenses) in net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.4 – Basis of accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting.

Revenues – exchange and non-exchange transactions – Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of fiscal year-end, except for state and federal grant revenues, which are considered available if collection is expected within six months of year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Property taxes, sales taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period.

Deferred outflows/inflows of resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Unearned revenue - Unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to meeting eligibility requirements. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized.

Expenses/expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

A.5 – Encumbrances

Encumbrance accounting is utilized by the City to record purchase orders, contracts and other commitments for the expenditure of monies to assure effective budgetary control and accountability. Encumbrances outstanding at year-end are canceled and reappropriated in the ensuing year's budget, therefore no amounts are reported in the financial statements. The City does not have any significant encumbrances outstanding at year-end.

A.6 – Cash and cash investments

The City has pooled the cash resources of its funds in order to maximize investment opportunities. Short-term investments, including government securities and certificates of deposit, are purchased with pooled cash. Interest earned is allocated to individual funds based on their proportional equity in each investment purchased. Certain funds have made disbursements for investments in excess of the fund's individual equity. The deficit balances of these funds are reported as a liability "due to other funds."

A.7 – Cash and cash equivalents

For the purposes of the statement of cash flows, the City considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

A.8 – Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as internal balances on the government-wide statement of net position, and are classified as due from other funds or due to other funds on the balance sheet.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A - Summary of significant accounting policies (Continued)

A.9 - Receivables

Monthly charges for water, sanitation and sewer services are included with monthly utility billings. No allowance for doubtful accounts has been provided in the accompanying financial statements since substantially all accounts are deemed by management to be collectible.

A.10 - Prepaid items

Prepaid items in governmental funds are accounted for using the consumption method, thereby deferring recognition of the expenditure until the period in which the prepaid items are used or consumed.

A.11 - Inventories

Inventories in the proprietary funds consist of supplies and are recorded at cost.

A.12 - Capital assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective fund financial statements.

All capital assets with a unit cost greater than \$5,000 are capitalized at cost (or estimated historical cost, if actual cost is not available) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. Improvements to assets are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not. Infrastructure assets, consisting of certain improvements other than buildings (such as parking facilities, sidewalks, landscaping and lighting systems) have been capitalized on a prospective basis beginning in 2004.

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of borrowing until project completion with interest earned on invested proceeds over the same period. No interest was capitalized during the year.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

All reported capital assets are depreciated with the exception of land costs. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Buildings	50 years	40 years
Equipment	10-25 years	3-10 years
Improvements other than buildings	10-50 years	25-50 years
Infrastructure	6-50 years	n/a

A.13 – Compensated absences

The City reports compensated absences in accordance with the provisions of GASB Statement No. 101, "Compensated Absences." In recognition of the varying work schedules of city employees and each employee's diverse needs for time away from work, the City provides a general leave policy of paid time off (PTO) for its employees. Paid time off shall be accrued by regular employees and is determined by the work period that each employee is scheduled.

Employees with a regular work period of forty (40) hours per week shall accrue the following amount of PTO on a biweekly basis for twenty-six (26) pay periods each year:

<u>Years of service</u>	<u>Annual accrual hours</u>	<u>Maximum accrual</u>
0-5 years	192 hours	288 hours
6-9 years	216 hours	288 hours
10-19 years	240 hours	288 hours
20 & over	264 hours	288 hours

Employees with a regular work period of one hundred seventy one (171) hours per month shall accrue the following amounts of PTO on a biweekly basis for twenty-six (26) pay periods each year:

<u>Years of service</u>	<u>Annual accrual hours</u>	<u>Maximum accrual</u>
0-5 years	210.94 hours	327.42 hours
6-9 years	236.68 hours	327.42 hours
10-19 years	262.42 hours	327.42 hours
20 & over	328.16 hours	327.42 hours

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Employees with a regular work period of two hundred twelve (212) hours per month shall accrue the following amount of PTO on a biweekly basis for twenty-six (26) pay periods each year:

<u>Years of service</u>	<u>Annual accrual hours</u>	<u>Maximum accrual</u>
0-5 years	254.28 hours	383.04 hours
6-9 years	286.26 hours	383.04 hours
10-19 years	317.98 hours	383.04 hours
20 & over	349.96 hours	383.04 hours

Regular part-time employees working between twenty (20) and thirty (30) hours per week will receive a proportionate amount of PTO equivalent to the number of hours worked, with the exception that there will be no days granted as holidays to these persons. Employees working between thirty (30) and forty (40) hours per week will earn a proportionate amount of PTO at the same rate as other earnings.

Upon separation, employees will be paid for accrued but unused PTO up to the maximum limits as established by the City as follows:

<u>Scheduled Work Periods</u>	<u>Maximum Hours Paid</u>
40 hours	288.00 hours
171 hours	327.42 hours
212 hours	383.04 hours

The entire compensated absences liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "accrued compensated absences" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of the compensated absences is reported as a fund liability.

The amounts recorded as liabilities for all applicable compensated absences include salary-related payments associated with the payment of compensated absences, using the rates in effect at the balance sheet date.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.14 – Accrued liabilities and long-term obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. Compensated absences are reported as accrued in the government-wide and proprietary fund financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees. Bonds payable and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

A.15 – Net position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are liabilities imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

A.16 – Operating revenues and expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are service charges for water, sanitation and sewer utility services. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

A.17 – Interfund transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund services

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

provided and used, and reimbursements, are reported as transfers. In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services that are provided and used are not eliminated in the process of consolidation.

A.18 – Extraordinary and special items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the city council and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the year.

A.19 – Fund balance

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different type of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

- *Nonspendable*, such as fund balance associated with inventories, prepaid expenditures, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned),
- *Restricted* fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,
- *Committed* fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the city council (the City's highest level of decision-making authority),
- *Assigned* fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and
- *Unassigned* fund balance is the residual classification for the City's general fund and includes all spendable amounts not contained in the other classifications. The General Fund is the only fund that reports a positive unassigned fund balance amount.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Committed fund balance is established by a formal passage of a resolution. Assigned fund balance is established by the city council through adoption or amendment of the budget as intended for specific purpose (such as purchase of capital assets, construction, debt service or for other purposes).

When both restricted and unrestricted resources are available in governmental funds, the City applies expenditures against restricted fund balance first, and followed by committed fund balance, assigned fund balance and unassigned fund balance.

Fund balances in the governmental funds are reported as restricted or committed for the following purposes:

	<u>Restricted Fund Balance</u>	<u>Committed Fund Balance</u>
Culture and recreation – parks	\$ 148,971	\$ -
Culture and recreation – library	34,847	-
Culture and recreation - beautification	1,604,770	-
Capital improvements	-	463,113
Culture and recreation – museum	-	65,202
Culture and recreation – playground	-	5,201
Culture and recreation – library	-	1,267
Culture and recreation – arts	-	55,701
Health and welfare – cemetery	-	252,492
Totals	<u>\$ 1,788,588</u>	<u>\$ 842,976</u>

Note B – Cash and investments

Cash and deposits

Colorado State statutes govern the City's deposit of cash. The Public Deposit Protection Acts (PDPA) for banks and savings and loans require state regulators to certify eligible depositories for public deposits. The PDPA require eligible depositories with public deposits in excess of federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the State of Colorado or Colorado local governments and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group and not held in any individual government's name. The fair value of the assets in the pool must be at least equal to 102% of the aggregate uninsured deposits.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note B – Cash and investments (Continued)

Custodial credit risk – deposits – Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have deposit policy for custodial credit risk. As of year-end, the city had total deposits of \$1,494,497, of which \$250,000 were insured and \$1,244,497 was collateralized with securities held by the pledging institution's trust department or agent in the City's name.

Investments

Authorized investments – Investment policies are governed by Colorado State Statutes and the City's own investment policies and procedures. Investments of the City may include:

- Obligations of the United States Government, such as treasury bills, notes and bonds
- Certain international agency securities
- General obligation and revenue bonds of United States local government entities
- Bankers acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

During the year, the City invested in Colotrust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commission administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. As of December 31, 2024, the City had invested \$28,145,754 in COLOTRUST PLUS+, an SEC Rule 2a7-like investment pool. Investments are valued at the net asset value (NAV) of \$1.00. The investment pools are routinely monitored by the Colorado Division of Securities with regard to operations and investments.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note B - Cash and investments (Continued)

At year-end, the City had the following investments:

<u>Investment type</u>	<u>Fair value</u>	<u>Investment maturities (in years)</u>		
		<u>Less than 1</u>	<u>1-5</u>	<u>6-10</u>
State investment pool	<u>\$28,145,754</u>	<u>\$28,145,754</u>	<u>\$ -</u>	<u>\$ -</u>

Credit risk – State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the highest rating from at least one nationally recognized rating agency at the time of purchase. The City has no investment policy that would further limit its investment choices. At year-end, the City's investment in Colotrust was rated AAAM by Standard and Poor's.

Note C - Receivables

Receivables at year-end consist of the following:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>	<u>Total Receivables</u>
Utility accounts	\$ -	\$ 1,254,058	\$ 1,254,058
Grants	-	1,093,271	1,093,271
Property taxes	1,308,404	-	1,308,404
Other taxes	1,084,544	-	1,084,544
Other	<u>464,292</u>	<u>-</u>	<u>464,292</u>
Total	<u>\$ 2,857,240</u>	<u>\$ 2,347,329</u>	<u>\$ 5,204,569</u>

Property taxes are levied on December 15th and attach as a lien on property the following January 1st. They are payable in full by April 30th or are due in two equal installments on February 28th and June 15th. Logan County bills and collects property taxes for all taxing entities within the County.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note D – Interfund transactions

The following is a summary of interfund borrowings and transfers for the year as presented in the fund financial statements:

	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
<u>Governmental Funds</u>		
General Fund	\$ 45,000	\$ -
Other Governmental Funds	-	45,000
Totals	<u>\$ 45,000</u>	<u>\$ 45,000</u>

All balances resulted from the lag between the dates that (1) interfund reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>
General Fund	Other Governmental Funds	<u>\$ 17,970</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them. The City annually transfers funds from the Other Governmental Funds (Perpetual Care and Sunset Memorial Gardens Funds) to the General Fund to provide support for the maintenance of the cemetery.

Note E – Capital assets

Capital asset activity for the year was as follows:

	<u>Beginning Balance</u>	<u>Additions/ Adjustments</u>	<u>Deletions/ Adjustments</u>	<u>Ending Balance</u>
Governmental activities				
Capital assets, not being depreciated:				
Land	\$ 2,227,771	\$ -	\$ -	\$ 2,227,771

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note F – Long-term debt (Continued)

Notes payable

Water Fund - The City entered into a \$28,558,845 note agreement with the Colorado Water Resources and Power Development Authority (the Authority) dated March 1, 2011, due in semi-annual installments ranging from \$275,515 to \$931,388 through 2032. The agreement provides for the disbursement of funds at the City's request to facilitate the construction of a 9.6 MGD water treatment plant, pumping facilities, raw water piping to convey raw water to the new treatment plant, finish water piping to convey potable water from the plant to the City's distribution system, and piping to convey concentrate from the plant to a deep injection well.

The loan agreement contains various covenants including the establishment and maintenance of an operations and maintenance reserve fund in an amount equal to three months of operation and maintenance expenses as set forth in the annual budget for the current fiscal year. Based on the current annual budget, three months of operations and maintenance expenses totaled \$1,584,083 (limited to \$1,250,000 as set forth in the loan agreement), which the City has funded with unobligated fund balances. The City must establish, impose and collect, rents, rates and other charges for the products and services provided by the system, which shall be at least sufficient, together with other amounts available therefore, and after meeting the operations and maintenance expenses of the system, to pay 110% of debt service coming due in such calendar year. The net operating revenues of the Water Fund were 212% of the current year's debt service.

Sewer Fund - The City entered into a \$33,466,640 note agreement with the Colorado Water Resources and Power Development Authority (the Authority) dated November 18, 2020, due in semi-annual installments ranging from \$338,421 to \$703,223 through 2050. The agreement provides for the disbursement of funds at the City's request to facilitate the expansion and improvements of the existing wastewater treatment facility including improvements and upgrades to the headworks facilities, influent pump station and force main, equalization basin, biological treatment processes, secondary clarifiers, process pumping system, and process control facilities.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note F – Long-term debt (Continued)

Sewer Fund - The City entered into a \$26,000,000 note agreement with the Colorado Water Resources and Power Development Authority (the Authority) dated August 1, 2023, due in semi-annual installments ranging from \$415,395 to \$1,947,500 through 2055. The agreement provides for the disbursement of funds at the City's request to facilitate the expansion and improvements of the existing wastewater treatment facility including improvements and upgrades to the headworks facilities, influent pump station and force main, equalization basin, biological treatment processes, secondary clarifiers, process pumping system, disinfection system, and process control facilities.

Sewer Fund - The City entered into a \$3,000,000 note agreement with the Colorado Water Resources and Power Development Authority (the Authority) dated November 7, 2023, due in semi-annual installments of \$62,259 through 2053. The agreement provides for the disbursement of funds at the City's request to facilitate the expansion and improvements of the existing wastewater treatment facility including improvements and upgrades to the headworks facilities, influent pump station and force main, equalization basin, biological treatment processes, secondary clarifiers, process pumping system, disinfection system, and process control facilities.

Sewer Fund - The City entered into a \$1,500,000 note agreement with the Colorado Water Resources and Power Development Authority (the Authority) dated November 7, 2023, due in semi-annual installments of \$39,303 through 2053. The agreement provides for the disbursement of funds at the City's request to facilitate the expansion and improvements of the existing wastewater treatment facility including improvements and upgrades to the headworks facilities, influent pump station and force main, equalization basin, biological treatment processes, secondary clarifiers, process pumping system, disinfection system, and process control facilities.

The loan agreements contain various covenants including the establishment and maintenance of an operations and maintenance reserve fund in an amount equal to three months of operation and maintenance expenses as set forth in the annual budget for the current fiscal year. Based on the current annual budget, three months of operations and maintenance expenses totaled \$1,374,670 (limited to \$1,250,000 as set forth in the loan agreement), which the City has funded with unobligated fund balances. The City must establish, impose and collect, rents, rates and other charges for the products and services provided by the system, which shall be at least sufficient, together with other amounts available therefore, and after meeting the operations and maintenance expenses of the system, to pay 110% of debt service coming due in such calendar year. The net operating revenues of the Sewer Fund were 146% of the current year's debt service.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note F – Long-term debt (Continued)

The City's outstanding notes from direct borrowings related to business-type activities are secured with collateral from the net revenue from operations and use of the system as defined in the loan agreements. The outstanding notes contain a provision that in an event of default as defined in the loan agreements, the Authority shall have the right to direct the Trustee to take any action permitted or required pursuant to the loan agreements and to take whatever other action at law or in equity may appear necessary or desirable to collect the amounts then due and thereafter to become due hereunder or to enforce the performance and observance of any duty, covenant, obligation or agreement of the City hereunder, including, without limitation, to obtain ex parte the appointment of a receiver of the system.

The following schedule represents the City's debt service requirements to maturity for the outstanding long-term debt in its Business-Type Activities at year-end:

<u>Year ended December 31,</u>	<u>Notes from Direct Borrowings</u>	
	<u>Principal</u>	<u>Interest</u>
2025	\$ 2,569,722	\$ 2,161,335
2026	2,949,901	2,124,306
2027	3,004,285	2,063,273
2028	3,058,722	2,007,788
2029	3,103,269	1,966,872
2030-2034	13,486,932	8,320,175
2035-2039	9,377,451	7,085,968
2040-2044	10,706,264	5,757,630
2045-2049	12,558,894	3,906,384
2050-2054	10,090,746	1,794,251
2055	<u>1,900,000</u>	<u>95,000</u>
Totals	<u>\$ 72,806,186</u>	<u>\$ 37,282,982</u>

Note G – Risk management

Employee Benefits Fund

Employee health and dental program – The City changed its health and dental program from a partially self-funded plan to a fully funded plan through County Health Pool. Current provisions of the plan provide benefits subject to a deductible ranging from \$0 - \$1,000, with an annual maximum out-of-pocket expense ranging from \$2,000 to \$2,500 per individual, and \$5,000 to \$6,000 per family. Employees are required to pay 10% of the Plan B premium, with the City paying the remaining 90%. If the employee chooses Plan A coverage, they will pay the 10% of the Plan B cost, as well as any additional costs of the premium for Plan A.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note G – Risk management (Continued)

Life – All eligible employees receive life insurance coverage with a policy face value of \$20,000. All spouses are covered for \$2,000 and dependents are covered for \$1,000. This coverage is purchased through an outside insurance carrier.

Employee disability programs – The City has established a program which provides covered employees with disability benefits. The City contributes, on behalf of its employees who work a minimum of thirty (30) hours per week, sufficient amounts to provide for both short-term and long-term disability benefits as defined by the plan. Contributions are determined annually, and were initially established at \$.32 per \$10 of earnings for short-term disability coverage, and .81% of total covered payroll per month for long-term disability coverage.

Short-term disability – Current provisions of this plan provide for disability payments of 70% of weekly earnings up to a maximum of \$900 per week, less any amounts the employee receives, or is entitled to receive, under any state compulsory benefit act or law.

Long-term disability – Current provisions of this plan provide for disability payments of 60% of basic monthly earnings, not to exceed the maximum monthly benefit of \$3,500, less other income benefits. The maximum benefit period for employees who had not reached the age of 60 at the date of disability runs through age 65, with benefit periods ranging from sixty (60) months at age 60 to twelve (12) months for individuals age 69 and over.

Risk Management Fund

During 1990, The City joined the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a public entity risk pool that provides member municipalities defined liability and property as well as workers compensation coverages through self-insurance, insurance, re-insurance or any combination thereof, and to assist members in loss prevention measures. The City pays an annual contribution to CIRSA for its insurance coverage. For the year, the City's financial contribution to CIRSA was \$965,791. CIRSA was organized to be self-sustaining through member contributions with excess coverages being purchased from commercial companies.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note G – Risk management (Continued)

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 1990, the City established a Risk Management Fund (an internal service fund) to account for and finance its uninsured risks of loss which amount to \$1,000 for property and liability claims. Under this program, the fund provides coverage up to \$150,000 per person and \$600,000 per occurrence for each property or general liability claim. All departments of the City participate in the program and make payments to the Risk Management Fund based on a historical cost basis of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophe losses. The City does not believe any accrued liability in excess of insurance limits is warranted at year-end based upon previous history of insurance claims. Settled claims resulting from any of the above risks have not exceeded the insurance coverages provided in any of the past three years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.

Note H – Pension plans

The City is covered under five separate pension plans. In addition, employees may also make voluntary contributions to the deferred compensation plan discussed in Note I. The City's General Fund has been used in prior years to liquidate any net pension obligation. The assets under these plans are not considered property of the City and are held by a third party administrator for the exclusive benefit of the plan participants and their beneficiaries. The City has little administrative involvement and does not perform the investing functions for the plans. Therefore, these assets are not included as part of the financial statements of the City.

Below is a summary of the deferred inflows/outflows, net pension assets and liabilities, and pension expense for the defined benefit plans.

	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>	<u>Net Pension Liability</u>	<u>Net Pension Asset</u>	<u>Pension Expense</u>
SRP – Police	\$ 870,403	\$ 23,509	\$ -	\$ -	\$ 125,091
SRP – Fire	824,742	43,658	-	-	146,898
Volunteer – Fire	31,936	-	-	11,752	2,463
Old Hire - Fire	<u>134,622</u>	<u>-</u>	<u>1,022,212</u>	<u>-</u>	<u>46,415</u>
Total	<u>\$ 1,861,703</u>	<u>\$ 67,167</u>	<u>\$ 1,022,212</u>	<u>\$ 11,752</u>	<u>\$ 320,867</u>

The City's five retirement plans and related disclosures are as follows:

Statewide Retirement Plan - Police

Summary of significant accounting policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fire & Police Statewide Retirement Plan and additions to/deductions from Fire & Police Statewide Retirement Plan's fiduciary net position have been determined on the same basis as they are reported by the Fire & Police Pension Association of Colorado. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General information about the pension plan

Plan description. The Plan is a cost-sharing multiple-employer defined benefit pension plan. The Plan consists of four components: Defined Benefit Component, Hybrid Defined Benefit Component, Social Security Component and Money Purchase Component. The Plan currently has 230 participating employer fire and police departments.

The Defined Benefit Component and Social Security Component cover substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978, provided that they are not already covered by a statutorily exempt plan. Employers once had the option to withdraw from the Plan, but a change in state statutes eliminated this option effective January 1, 1998, unless the employer elects and is determined to be eligible to participate in the Statewide Money Purchase Plan.

In 2003, legislation was enacted that allows department who cover their firefighters and police officers in money purchase plans to elect coverage under the Plan. As of August 5, 2023, clerical and other personnel from fire districts whose services are auxiliary to fire protection may also participate in the Plan. As of January 1, 2020, Colorado police and sheriff departments who participate in Social Security have the option of affiliating for coverage under the Plan.

The Plan assets are in the Fire & Police Members' Benefit Investment Fund Long-Term Pool and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Money Purchase Component assets). The Long-Term Pool is designed primarily for open plans with a longer time horizon, appropriate risk tolerance, and lower liquidity needs. The investment return assumption is 7.00 percent.

Members participating in DROP or in the Money Purchase Component choose among various investment options offered by an outside investment manager.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The Plan is administered by the Fire & Police Pension Association of Colorado (FPPA). FPPA issues a publicly available annual comprehensive financial report that can be obtained on FPPA's website at <http://www.FPPAco.org>.

Benefits provided. The FPPA Board of Directors may change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The Normal Retirement Age should not be less than age 55 or more than age 60. Any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Members with combined age and years of service totaling 80 or more, with a minimum age of 50 also qualify for a normal retirement pension.

A member is eligible for retirement after attainment of age 55 with at least five years of credited service.

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis.

The annual retirement benefit is 2.0 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent of the average of the member's highest three years' base salary for each year of service thereafter.

Beginning January 1, 2007, the annual normal retirement benefit for the Social Security Component is 1.0 percent of the average of the member's highest three years base salary for each year of credited service up to ten years plus 1.25 percent of the average of the member's highest three years' base salary for each year thereafter. Prior to 2007, the benefit for members of the Social Security Component will be reduced by the amount of social security income the member receives annually, calculated as if the social security benefit started as of age 62.

The annual retirement benefit of the Hybrid Defined Benefit Component is 1.9 percent of the average of the member's highest three years' base salary for each year of credited service through December 31, 2022 and 1.5 percent of the average of the member's highest three years' base salary for each year of credited service after January 1, 2023.

Benefits paid to retired members and beneficiaries may be increased annually on October 1 via cost of living adjustment (COLA). COLAs may be compounding or non-compounding. The increase in benefits, if any, is based on the FPPA Board of Director's discretion. Compounding COLAs can range from 0 percent to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers. Non-compounding COLAs take into consideration the investment returns, compounding COLAs and other economic factors. COLAs may begin once the retired member has been receiving retirement benefits for at least 12 calendar months prior to October 1.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Upon termination, the vested account balance within the Money Purchase Component becomes available to the member.

Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution in lieu of a retirement benefit.

Contributions. Contribution rates for the Plan are set by statute. The FPPA Board of Directors may further increase the required contributions, equally between employer and member, upon approval through an election by both the employers and members.

Members of the Defined Benefit Component contribute 12.0 percent of base salary. In 2020, legislation was enacted to increase the employer contributions rate to the Plan beginning in 2021. Employer contribution rates will increase 0.5 percent annually through 2030 to a total of 13.0 percent of base salary. These increases result in a combined contribution rate of 25.0 percent of base salary in 2030. In 2023, the total combined member and employer contribution was 21.5 percent.

Contributions from Defined Benefit Component members and employers of plans reentering the Defined Benefit Component are established by resolution and approved by the FPPA Board of Directors. The continuing rate of contribution for reentry groups is determined for each reentry group. The additional contribution amount is determined locally and may be paid by the member, the employer or split 50/50. Per the 2020 legislation, the required employer contribution rate for reentry departments also increases 0.5 percent annually. These increases result in a minimum combined contribution rate of 25.2 percent in 2030. In 2023, the total minimum required member and employer contribution rate was 21.7 percent.

Members of the Social Security Component contribute 6.0 percent of base salary. Per the 2020 legislation, employer contribution rates will increase 0.25 percent annually through 2030 to a total of 6.5 percent of base salary. These increases result in a combined contribution rate of 12.5 percent of base salary in 2030. In 2023, the total combined member and employer contribution rate was 10.75 percent.

The Hybrid Defined Benefit Component and Money Purchase Component members and their employers are currently each contributing at the rate determined by the individual employer. Effective January 1, 2023, the employer and member minimum contribution rates will increase by 0.125 percent annually until they reach a minimum rate of 9 percent each and at least a combined rate of 18 percent in 2030. In 2023, the total minimum combined member and employer contribution rate was 16.25 percent.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The Hybrid Defined Benefit Component sets contribution rates at a level that enables the defined benefits to be fully funded at the member's retirement date. The amount allocated to the Hybrid Defined Benefit Corporation is set annually by the FPPA's Board of Directors. The Hybrid Defined Benefit Component contribution rate from July 1, 2023 through June 30, 2024 is 14.24 percent. The Hybrid Defined Benefit Component contribution rate from January 1, 2023 through June 30, 2023 was 13.90 percent. Contributions in excess of those necessary to fund the defined benefit are allocated to the member's self-directed account in the Money Purchase Component.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Within the Money Purchase Component, members are always fully vested in their own contribution, as well as the earnings on those contributions. Vesting in the employer's contributions within the Money Purchase Component, and earnings on those contributions occurs according to the vesting schedule set by the plan document at 20 percent per year after the first year of service and to be 100 percent vested after five years of service or the attainment of age 55. Employer and member contributions are invested in funds at the discretion of members.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Contributions to the Plan from the City during the year ended December 31, 2024 were \$163,610.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the City reported a liability of \$0 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2023, the City's proportion was .1439 percent, which was a decrease of .0013 percent from its proportion measured as of December 31, 2022.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

For the year ended December 31, 2024, the City recognized pension expense of \$125,091. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net difference between projected and actual investment earnings	\$ 185,893	\$ -
Changes in assumptions and other inputs	170,840	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	58,133	9,753
Difference between expected and actual experience	291,927	13,756
Contributions subsequent to measurement date	<u>163,610</u>	<u>-</u>
Totals	<u>\$ 870,403</u>	<u>\$ 23,509</u>

\$163,610 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as an addition to the net pension asset in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Amount</u>
2025	\$ 121,732
2026	170,018
2027	236,885
2028	43,239
2029	46,245
2030	32,368
2031	28,601
2032	<u>4,196</u>
Totals	<u>\$ 683,284</u>

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Actuarial assumptions. The actuarial valuations for the Statewide Retirement Plan were used to determine the total pension liability and actuarially determined contributions for the fiscal year ended December 31, 2023. The valuations used the following actuarial assumption and other inputs:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial valuation date	January 1, 2024	January 1, 2023
Actuarial method	Entry age normal	Entry age normal
Amortization method	N/A	Level % of payroll, open
Amortization period	N/A	30 years
Long-term investment rate of return, net*	7.0%	7.0%
Projected salary increases*	4.25% - 11.25%	4.25% - 11.25%
Cost of living adjustments (COLA)	0%	0%
* Includes inflation at	2.5%	2.5%

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables for males and females, amount-weighted, and then projected using the ultimate values of the MP-2020 projection scale for all years. The pre-retirement mortality assumption uses Pub-2010 Safety Healthy Employee Mortality Tables for males and females, amount-weighted, and then projected with the MP-2020 Ultimate projection scale. The pre-retirement non-duty mortality tables are adjusted to 60% multiplier. The on-duty mortality rate is 0.00015.

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The pre-retirement off-duty mortality tables are adjusted to 60% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2022 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Company, based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2023. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Global Equity	35%	8.33%
Equity Long/Short	6%	7.27%
Private Markets	34%	10.31%
Fixed Income – Rates	10%	5.35%
Fixed Income – Credit	5%	5.89%
Absolute Return	9%	6.39%
Cash	1%	4.32%
Total	<u>100%</u>	

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Statewide Retirement Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

As of the measurement period ending December 31, 2023, the COLA assumption, which was previously 0.00%, was revised to reflect the true nature of Board's Benefit Policy which includes a variable COLA and supplemental payments. Consistent with Board's policy, the new COLA assumption will fluctuate from year to year depending on plan experience and is the long-term COLA assumption which results in no Net Pension Asset. If current assets do not support Total Pension Liabilities using a COLA assumption of greater than 0.00%, then a COLA assumption of 0.00% will be used and a Net Pension Liability will be reported.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00 percent; the municipal bond rate is 3.77 percent (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00 percent.

Sensitivity of the City's proportionate share of the net pension liability/(asset) to changes in the discount rate. Regarding the sensitivity of the net pension liability/(asset) to changes in the single discount rate, the following presents the City's proportionate share of the net pension liability/(asset), calculated using a single discount rate of 7.00 percent, as well as what the City's proportionate share of the net pension liability/(asset) would be if it were calculated using a single discount rate that is one percent lower or one percent higher:

	1% Decrease (6.00%)	Current Discount (7.00)	1% Increase (8.00)
Proportionate share of the net pension liability (asset)	\$ 806,941	\$ -	\$ -

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Fire & Police Pension Association of Colorado financial report.

Payables to the pension plan

The City did not report any payables to the pension plan at year-end.

Statewide Retirement Plan - Fire

Summary of significant accounting policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fire & Police Statewide Retirement Plan and additions to/deductions from Fire & Police Statewide Retirement Plan's fiduciary net position have been determined on the same basis as they are reported by the Fire & Police Pension Association of Colorado. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General information about the pension plan

Plan description. The Plan is a cost-sharing multiple-employer defined benefit pension plan. The Plan consists of four components: Defined Benefit Component, Hybrid Defined Benefit Component, Social Security Component and Money Purchase Component. The Plan currently has 230 participating employer fire and police departments.

The Defined Benefit Component and Social Security Component cover substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978, provided that they are not already covered by a statutorily exempt plan. Employers once had the option to withdraw from the Plan, but a change in state statutes eliminated this option effective January 1, 1998, unless the employer elects and is determined to be eligible to participate in the Statewide Money Purchase Plan.

In 2003, legislation was enacted that allows department who cover their firefighters and police officers in money purchase plans to elect coverage under the Plan. As of August 5, 2023, clerical and other personnel from fire districts whose services are auxiliary to fire protection may also participate in the Plan. As of January 1, 2020, Colorado police and sheriff departments who participate in Social Security have the option of affiliating for coverage under the Plan.

The Plan assets are in the Fire & Police Members' Benefit Investment Fund Long-Term Pool and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Money Purchase Component assets). The Long-Term Pool is designed primarily for open plans with a longer time horizon, appropriate risk tolerance, and lower liquidity needs. The investment return assumption is 7.00 percent.

Members participating in DROP or in the Money Purchase Component choose among various investment options offered by an outside investment manager.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The Plan is administered by the Fire & Police Pension Association of Colorado (FPPA). FPPA issues a publicly available annual comprehensive financial report that can be obtained on FPPA's website at <http://www.FPPAco.org>.

Benefits provided. The FPPA Board of Directors may change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The Normal Retirement Age should not be less than age 55 or more than age 60. Any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Members with combined age and years of service totaling 80 or more, with a minimum age of 50 also qualify for a normal retirement pension.

A member is eligible for retirement after attainment of age 55 with at least five years of credited service.

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis.

The annual retirement benefit is 2.0 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent of the average of the member's highest three years' base salary for each year of service thereafter.

Beginning January 1, 2007, the annual normal retirement benefit for the Social Security Component is 1.0 percent of the average of the member's highest three years base salary for each year of credited service up to ten years plus 1.25 percent of the average of the member's highest three years' base salary for each year thereafter. Prior to 2007, the benefit for members of the Social Security Component will be reduced by the amount of social security income the member receives annually, calculated as if the social security benefit started as of age 62.

The annual retirement benefit of the Hybrid Defined Benefit Component is 1.9 percent of the average of the member's highest three years' base salary for each year of credited service through December 31, 2022 and 1.5 percent of the average of the member's highest three years' base salary for each year of credited service after January 1, 2023.

Benefits paid to retired members and beneficiaries may be increased annually on October 1 via cost of living adjustment (COLA). COLAs may be compounding or non-compounding. The increase in benefits, if any, is based on the FPPA Board of Director's discretion. Compounding COLAs can range from 0 percent to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers. Non-compounding COLAs take into consideration the investment returns, compounding COLAs and other economic factors. COLAs may begin once the retired member has been receiving retirement benefits for at least 12 calendar months prior to October 1.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Upon termination, the vested account balance within the Money Purchase Component becomes available to the member.

Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution in lieu of a retirement benefit.

Contributions. Contribution rates for the Plan are set by statute. The FPPA Board of Directors may further increase the required contributions, equally between employer and member, upon approval through an election by both the employers and members.

Members of the Defined Benefit Component contribute 12.0 percent of base salary. In 2020, legislation was enacted to increase the employer contributions rate to the Plan beginning in 2021. Employer contribution rates will increase 0.5 percent annually through 2030 to a total of 13.0 percent of base salary. These increases result in a combined contribution rate of 25.0 percent of base salary in 2030. In 2023, the total combined member and employer contribution was 21.5 percent.

Contributions from Defined Benefit Component members and employers of plans reentering the Defined Benefit Component are established by resolution and approved by the FPPA Board of Directors. The continuing rate of contribution for reentry groups is determined for each reentry group. The additional contribution amount is determined locally and may be paid by the member, the employer or split 50/50. Per the 2020 legislation, the required employer contribution rate for reentry departments also increases 0.5 percent annually. These increases result in a minimum combined contribution rate of 25.2 percent in 2030. In 2023, the total minimum required member and employer contribution rate was 21.7 percent.

Members of the Social Security Component contribute 6.0 percent of base salary. Per the 2020 legislation, employer contribution rates will increase 0.25 percent annually through 2030 to a total of 6.5 percent of base salary. These increases result in a combined contribution rate of 12.5 percent of base salary in 2030. In 2023, the total combined member and employer contribution rate was 10.75 percent.

The Hybrid Defined Benefit Component and Money Purchase Component members and their employers are currently each contributing at the rate determined by the individual employer. Effective January 1, 2023, the employer and member minimum contribution rates will increase by 0.125 percent annually until they reach a minimum rate of 9 percent each and at least a combined rate of 18 percent in 2030. In 2023, the total minimum combined member and employer contribution rate was 16.25 percent.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The Hybrid Defined Benefit Component sets contribution rates at a level that enables the defined benefits to be fully funded at the member's retirement date. The amount allocated to the Hybrid Defined Benefit Corporation is set annually by the FPPA's Board of Directors. The Hybrid Defined Benefit Component contribution rate from July 1, 2023 through June 30, 2024 is 14.24 percent. The Hybrid Defined Benefit Component contribution rate from January 1, 2023 through June 30, 2023 was 13.90 percent. Contributions in excess of those necessary to fund the defined benefit are allocated to the member's self-directed account in the Money Purchase Component.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Within the Money Purchase Component, members are always fully vested in their own contribution, as well as the earnings on those contributions. Vesting in the employer's contributions within the Money Purchase Component, and earnings on those contributions occurs according to the vesting schedule set by the plan document at 20 percent per year after the first year of service and to be 100 percent vested after five years of service or the attainment of age 55. Employer and member contributions are invested in funds at the discretion of members.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

Contributions to the Plan from the City during the year ended December 31, 2024 were \$161,488.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the City reported a liability of \$0 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2023, the City's proportion was .1464 percent, which was an increase of .0026 percent from its proportion measured as of December 31, 2022.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

For the year ended December 31, 2024, the City recognized pension expense of \$146,898. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net difference between projected and actual investment earnings	\$ 189,836	\$ -
Changes in assumptions and other inputs	163,864	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	33,756	30,492
Difference between expected and actual experience	275,798	13,166
Contributions subsequent to measurement date	<u>161,488</u>	<u>-</u>
Totals	<u>\$ 824,742</u>	<u>\$ 43,658</u>

\$161,488 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as an addition to the net pension asset in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Amount</u>
2025	\$ 113,663
2026	158,302
2027	223,143
2028	32,743
2029	37,369
2030	25,816
2031	25,077
2032	<u>3,483</u>
Totals	<u>\$ 619,596</u>

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Actuarial assumptions. The actuarial valuations for the Statewide Retirement Plan were used to determine the total pension liability and actuarially determined contributions for the fiscal year ended December 31, 2023. The valuations used the following actuarial assumption and other inputs:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial valuation date	January 1, 2024	January 1, 2023
Actuarial method	Entry age normal	Entry age normal
Amortization method	N/A	Level % of payroll, open
Amortization period	N/A	30 years
Long-term investment rate of return, net*	7.0%	7.0%
Projected salary increases*	4.25% - 11.25%	4.25% - 11.25%
Cost of living adjustments (COLA)	0%	0%
* Includes inflation at	2.5%	2.5%

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables for males and females, amount-weighted, and then projected using the ultimate values of the MP-2020 projection scale for all years. The pre-retirement mortality assumption uses Pub-2010 Safety Healthy Employee Mortality Tables for males and females, amount-weighted, and then projected with the MP-2020 Ultimate projection scale. The pre-retirement non-duty mortality tables are adjusted to 60% multiplier. The on-duty mortality rate is 0.00015.

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The pre-retirement off-duty mortality tables are adjusted to 60% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2022 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Company, based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2023. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Global Equity	35%	8.33%
Equity Long/Short	6%	7.27%
Private Markets	34%	10.31%
Fixed Income – Rates	10%	5.35%
Fixed Income – Credit	5%	5.89%
Absolute Return	9%	6.39%
Cash	1%	4.32%
Total	<u>100%</u>	

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Statewide Retirement Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

As of the measurement period ending December 31, 2023, the COLA assumption, which was previously 0.00%, was revised to reflect the true nature of Board's Benefit Policy which includes a variable COLA and supplemental payments. Consistent with Board's policy, the new COLA assumption will fluctuate from year to year depending on plan experience and is the long-term COLA assumption which results in no Net Pension Asset. If current assets do not support Total Pension Liabilities using a COLA assumption of greater than 0.00%, then a COLA assumption of 0.00% will be used and a Net Pension Liability will be reported.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00 percent; the municipal bond rate is 3.77 percent (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00 percent.

Sensitivity of the City's proportionate share of the net pension liability/(asset) to changes in the discount rate. Regarding the sensitivity of the net pension liability/(asset) to changes in the single discount rate, the following presents the City's proportionate share of the net pension liability/(asset), calculated using a single discount rate of 7.00 percent, as well as what the City's proportionate share of the net pension liability/(asset) would be if it were calculated using a single discount rate that is one percent lower or one percent higher:

	1% Decrease (6.00%)	Current Discount (7.00)	1% Increase (8.00)
Proportionate share of the net pension liability (asset)	\$ 821,084	\$ -	\$ -

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Fire & Police Pension Association of Colorado financial report.

Payables to the pension plan

The City did not report any payables to the pension plan at year-end.

CITY OF STERLING, COLORADO

Sterling Volunteer Fire Department Pension Fund

Summary of significant accounting policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Sterling Volunteer Fire Department Pension Fund and additions to/deductions from Sterling Volunteer Fire Department Pension Fund's net position have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General information about the pension plan

Plan administration. The City's defined benefit pension plan for volunteers provides retirement and disability benefits and death benefits to plan members and beneficiaries. The plan is affiliated with the Fire and Police Member's Benefit Fund, an agent multiple-employer pension plan administered by the Fire and Police Pension Association (FPPA) of Colorado. Title 31, Article 30 of the Colorado Revised Statutes assigns the authority to establish and amend the benefit provisions of the plans that participate in FPPA to the respective member entities. The FPPA issues a publicly available financial report that includes financial statements and required supplementary information for Public Employee Retirement System (PERS) Affiliated Local Plans that can be obtained at <http://www.FPPAco.org>.

Management of the Sterling Volunteer Fire Department Pension Fund is vested in the local Pension Board, which consists of the City Mayor, City Clerk, two persons appointed by the governing body of the City, and three representatives of the local fire department serving the City.

Plan membership. At December 31, 2023, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	15
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	<u>-</u>
Total	<u>18</u>

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Benefits provided. The plan provides retirement and death benefits. Any firefighter who has both reached the age of 50 and completed 20 years of active service shall be eligible for a monthly pension (currently \$300 per month). Vesting for reduced monthly pension benefits begins at 10 years of service, with full pension after 20 years. The plan also provides for a long-term disability for line of duty injury lifetime benefit of \$300, survivor benefits (currently \$150 per month) and a lump-sum funeral benefit of \$500 upon the death of an active or retired firefighter

Contributions. Contribution requirements of the plan are established under Title 31, Article 30 of the Colorado Revised Statutes. The plan is noncontributory regarding participants. Contributions to the plan for the year ended December 31, 2024 included \$12,493 from the State of Colorado matching funds and \$13,881 from the City.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the City reported a net pension asset of \$11,752. The net pension asset was measured as of December 31, 2023, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2023.

For the year ended December 31, 2024, the City recognized pension expense of \$2,463. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	\$ 18,055	\$ -
Contributions subsequent to measurement date	13,881	-
Totals	<u>\$ 31,936</u>	<u>\$ -</u>

\$13,881 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

<u>Year Ended</u> <u>December 31,</u>	<u>Amount</u>
2025	\$ 1,202
2026	6,038
2027	13,113
2028	<u>(2,298)</u>
Totals	<u>\$ 18,055</u>

Actuarial assumptions. The total pension liability in the January 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method	Entry age normal
Amortization method	Level dollar, open*
Remaining amortization period	20 years*
Asset valuation method	5-year smoothed fair value
Inflation	2.50%
Salary increases	N/A
Investment rate of return	7.00%
Retirement age	50% per year of eligibility until 100% at age 65.
Mortality	Pre-retirement: 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality. Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years. Disabled: 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.

* Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic nominal rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Cash	1.00%	4.32%
Fixed Income - Rates	10.00%	5.35%
Fixed Income - Credit	5.00%	5.89%
Absolute Return	9.00%	6.39%
Long Short	6.00%	7.27%
Global Equity	35.00%	8.33%
Private Markets	<u>34.00%</u>	10.31%
Total	<u>100.00%</u>	

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's fiduciary net position is not sufficient to pay benefits).

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

For purposes of this valuation, the long-term expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 3.77% (based on the weekly rate closest to but not later than the measurement date of the “state and local bonds” rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Changes in the net pension liability

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Position	Net Pension Liability (Asset)
	(a)	(b)	(a)-(b)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Sterling Volunteer Fire Department Pension Fund financial report.

Payables to the pension plan

The City did not report any payables to the pension plan at year-end.

City of Sterling Old Hire Fire Pension Fund

Summary of significant accounting policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Sterling Old Hire Fire Pension Fund and additions to/deductions from City of Sterling Old Hire Fire Pension Fund's net position have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General information about the pension plan

Plan administration. The City contributes to the Fire Old Hire Pension Plan which is an affiliated local plan of the Public Employees Retirement System (PERS), an agent multiple-employer defined benefit pension plan administered by the Fire and Police Pension Association (FPPA) of Colorado. The pension plan provides retirement benefits, postretirement death and disability benefits, and annual cost-of-living adjustments to plan members and beneficiaries. Currently the plan's membership consists of four retired members. The City has elected to affiliate with FPPA to manage the pension plan's assets for plan administration and investment purposes only. The FPPA Board of Directors is responsible for formulating official rules and regulations to implement state statutes governing fire and police pensions. These statutes may be found in Title 31, Article 30.5 of the *Colorado Revised Statutes (CRS)*, as amended. The FPPA issues a publicly available financial report that includes financial statements and required supplementary information for Public Employee Retirement System (PERS) Affiliated Local Plans that can be obtained at <http://www.FPPAco.org>.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Plan membership. At December 31, 2022, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	3
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	-
Total	<u>3</u>

Benefits provided. The plan provides normal retirement and certain post-retirement death and disability benefits. Any firefighter who has both reached the age of 55 and completed 20 years of active service or, upon completing 25 years of active service, if earlier, shall be eligible for a monthly pension benefit equal to one-half of the average monthly salary received one year before retirement. The plan also provides a post-retirement death and disability benefit to the surviving spouse of a deceased retired firefighter in the amount of one-half of the monthly pension the officer was entitled to receive prior to death.

Contributions. The authority for establishing and amending the plan's funding policy is governed by Title 31, Article 30.5 of the CRS, as amended. The City contributed \$76,696 to the plan in accordance with actuarially determined requirements based on the January 1, 2024 valuation. No contributions are required of plan members.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024 the City reported a net pension liability of \$1,022,212. The net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024.

For the year ended December 31, 2024, the City recognized pension expense of \$46,415. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	\$ 57,926	\$ -
Contributions subsequent to measurement date	<u>76,696</u>	<u>-</u>
Totals	<u>\$ 134,622</u>	<u>\$ -</u>

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

\$76,696 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended</u> <u>December 31,</u>	<u>Amount</u>
2025	\$ 19,218
2026	23,048
2027	17,631
2028	<u>(1,971)</u>
Totals	<u>\$ 57,926</u>

Actuarial assumptions. The total pension liability in the January 1, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method	Entry age normal
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	5-year smoothed fair value
Inflation	2.50%
Salary increases	N/A
Investment rate of return	4.50%
Retirement age	Any remaining actives are assumed to retire immediately.
Mortality	Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years. Disabled (pre-1980): Post-retirement rates set forward three years.

* Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic nominal rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Cash	10.0%	5.5%
Fixed Income - Rates	70.0%	5.4%
Fixed Income - Credit	10.0%	5.9%
Diversifiers	0.0%	7.4%
Long Short	0.0%	7.0%
Global Public Equity	10.0%	8.3%
Private Markets	<u>0.0%</u>	10.2%
Total	<u>100.00%</u>	

The discount rate used to measure the total pension liability was 4.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's fiduciary net position is not sufficient to pay benefits).

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

For purposes of this valuation, the long-term expected rate of return on pension plan investments is 4.50%; the municipal bond rate is 3.77% (based on the weekly rate closest to but not later than the measurement date of the “state and local bonds” rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 4.50%.

Changes in the net pension liability

Sensitivity of the City’s net pension liability/(asset) to changes in the discount rate. Regarding the sensitivity of the net pension liability/(asset) to changes in the Single Discount Rate, the following presents the plan’s net pension liability/(asset), calculated using a Single Discount Rate of 4.50%, as well as what the plan’s net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	<u>1% Decrease</u>	<u>Current</u>	<u>1% Increase</u>
	<u>(3.50%)</u>	<u>(4.50%)</u>	<u>(5.50%)</u>
Net pension liability	<u>\$ 1,155,313</u>	<u>\$ 1,022,212</u>	<u>\$ 906,406</u>

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note H – Pension plans (Continued)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued City of Sterling Old Hire Fire Pension Fund financial report.

Payables to the pension plan

The City did not report any payables to the pension plan at year-end.

Defined Contribution Plan

The City contributes to the General Employees' Retirement Plan (the Plan), a defined contribution plan administered by Great West Retirement Services.

Benefit terms, including contribution requirements, for the Plan are established and may be amended by City Council. The City's contribution is 5.37% of annual covered payroll. No contributions are required of employees. For the year, the City recognized pension expense of \$275,167.

Employees are immediately vested in City contributions and earnings on those contributions.

Note I – Deferred compensation plans

The City has three deferred compensation plans created in accordance with the Internal Revenue Code Section 457. The plans are administered by independent plan administrators through administrative service agreements. The plans are available to all permanent City employees. Employees defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, death or financial hardship.

Amendments to the laws governing Section 457 deferred compensation plans substantially became effective January 1, 1997. The City approved plan amendments such that plan assets are held in trust for the exclusive benefit of the plan participants and their beneficiaries. The assets will not be diverted to any other purpose.

Note J – Stewardship, compliance and accountability

Throughout the year the city council revised the budget through ordinances by adjusting revenue budgets and appropriations in many budgeted funds. The city council appropriated the budget as provided in its home rule charter, whereby the aggregate sum of \$69,188,477 was appropriated for all funds. Original and revised budgets, with corresponding actual expenditures on the budget basis of accounting are as follows:

Note K – Commitments and contingencies

TABOR Amendment

In November 1992, Colorado voters passed an amendment, commonly known as the Taxpayer's Bill of Rights (TABOR), to the State Constitution (Article X, Section 20) which limits the revenue raising and spending abilities of state and local governments. The limits on property taxes, revenue, and "fiscal year spending" include allowable annual increases tied to inflation and local growth. Fiscal year spending as defined by the amendment excludes spending from certain revenue and financing sources such as federal funds, gifts, property sales, fund transfers, damage awards, and fund reserves (balances). The amendment requires voter approval for any increase in mill levy or tax rates, new taxes, or creation of multi-year debt. Revenue earned in excess of the "spending limit" must be refunded or approved to be retained by the City under specified voting requirements by the entire electorate. On November 5, 1996, the voters of the City approved a ballot initiative permitting the City to retain, appropriate, and utilize, by retention for reserve, carryover fund balance, or expenditure, the full proceeds and revenues received from every source whatsoever, without limitation, in this fiscal year and all subsequent fiscal years notwithstanding any limitation of Article X, Section 20 of the Colorado Constitution. TABOR is complex and subject to judicial interpretation. The City believes it is in compliance with the requirements of TABOR. However, the City has made certain interpretations of TABOR's language in order to determine its compliance. The City has restricted funds in the Risk Management Fund in the amount of \$555,000 for the emergency reserve.

CITY OF STERLING, COLORADO
Notes to Financial Statements

Note K – Commitments and contingencies (Continued)

Federal and state funding

The City receives revenues from various federal and state grant programs which are subject to final review and approval by the grantor agencies. The amount, if any, of expenditures related to other grant programs which may be disallowed by the granting agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Contingent liabilities

The City is a defendant in various threatened or pending legal action for property damages and other miscellaneous claims. The ultimate liability that might result from the financial resolution of these matters is not presently determinable. Adequate insurance is carried to cover actual damages in most cases. Management and legal counsel are of the opinion that the final outcome of the claims will not have a material adverse effect on the City's financial statements.

Note L – Deficit fund balance

The Demo Fund reported a deficit fund balance of \$45,000 at year-end. The City intends to recover these costs through collection of nuisance fines in the ensuing years.

CITY OF STERLING, COLORADO
Notes to Required Supplementary Information

Note A – Budgets and budgetary accounting

Annual budgets are established for all funds of the City, except for the pension trust funds, as required by its local charter. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles except for the enterprise funds (water, sanitation and sewer) and two internal service funds (capital replacement and service center) in which capital and principal retirement expenses are treated as operating expenses and depreciation expense is not budgeted.

An appropriated budget for the entity as a whole is prepared on a detailed basis. Revenues are budgeted by source. Expenditures are budgeted by department and the major divisions thereof and by each independent office and agency and by the principal objects of expenditure. The legal level of control is considered to be the entity as a whole and expenditures may not exceed appropriations at this level. All budget revisions at this level are subject to final review and approval by city council. Within these control levels, management may transfer appropriations without city council approval. Revisions to the budget were made throughout the year.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before September 20th of each year, or in conformity with the general state law, the city manager submits to the city council a budget which shall be a complete financial plan for the ensuing fiscal year.
- The budget may provide an additional amount as a reserve to meet and care for expenditures to be made from such fund during the months of January to April in the year following the year for which the budget and appropriation ordinance shall apply but the amount which may be included in such reserve shall not exceed 20 percent of the total amount appropriated and authorized to be expended during the budget year.
- At the same time the budget is submitted, the city manager shall also prepare an appropriation ordinance making a levy in mills upon all taxable property within the City for the ensuing fiscal year. A public hearing on the budget shall be held by city council two weeks after its submission. Notice of the time and place of said hearing shall be published within three days after the submission of the budget.
- Prior to December 15th, or in conformity with the general state law, the city council shall adopt the budget and the tax levy ordinance.

CITY OF STERLING, COLORADO
Notes to Required Supplementary Information

Note A – Budgets and budgetary accounting (continued)

- Appropriations in addition to those contained in the budget shall be made only on the recommendation of the city manager and only if the director of finance certifies that there is available a cash surplus to meet such appropriations.
- Any portion of any annual appropriation remaining unexpended and unencumbered at the close of the budget year shall be declared surplus and included in the budget for the ensuing year as those appropriations lapse at year-end.

Note B – Factors affecting trends in amounts reported in the pension schedules

Information about factors that significantly affect trends in the amounts reported in the pension schedules is available in FPPA's annual comprehensive financial report which can be obtained at www.fppaco.org/annual-reports.html.

Other Supplementary Information

Other supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- General Fund – Budgetary Comparison Schedules of Revenues and Expenditures
- Combining Statements and Budgetary Comparison Schedules – Nonmajor Governmental Funds
- Budgetary Comparison Schedules – Enterprise Funds
- Combining Statements and Budgetary Comparison Schedules – Internal Service Funds
- Budgetary Comparison Schedule – Component Unit Fund

This page intentionally left blank.

General Fund

The General Fund accounts for all transactions of the City not required to be accounted for in other funds. This fund represents an accounting of the City's ordinary operations financed primarily from tax dollars and intergovernmental aid. It is the most significant fund in relation to the City's overall operations. The schedules of revenues and expenditures are included to provide a greater level of detail to the reader of the financial statements.

**Combining Statements and Budgetary Comparison Schedules
Nonmajor Governmental Funds**

The City reports the following nonmajor governmental funds:

Special Revenue Funds – These funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

- Conservation Trust Fund – This fund was established to account for the state lottery proceeds and allowable expenditures.
- Perpetual Care Fund – This fund was established for the purpose of using revenue generated from investments and fees for operations and care of the cemetery.
- Karl Falch Library Trust Fund – This fund was established to account for resources held by the City of Sterling in a fiduciary capacity as willed by Karl Falch to be used for library purposes.
- Hotel Tax Fund – This fund was established to account for the hotel lodging tax revenues and allowable expenditures.
- Sunset Memorial Gardens Fund – This fund was established to account for resources and expenditures related to operations and care of the cemetery.
- Demo Fund – This fund is a special revenue fund established to account for the proceeds of nuisance cleanups and related expenditures.

Capital Projects Fund – These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

- Capital Improvement Fund – This fund was established to account for rental and sales proceeds from City owned land, with the proceeds being used to pay for capital improvements.

**Combining Statements and Budgetary Comparison Schedules -
Internal Service Funds**

Internal Service Funds -- These funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis.

The City reports the following internal service funds:

- Capital Replacement Fund -- This fund was established to account and provide for equipment for the General Fund. Each division within the General Fund will provide monies via transfers based on the current asset holdings and provide for future year purchases.
- Employee Benefits Fund -- This fund was established to provide medical and life insurance benefits for City benefits.
- Risk Management Fund -- This fund was established to account for and finance the City's uninsured risk of loss. The City is exposed to various risks of loss related to theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. This fund provides coverage up to \$150,000 per person and \$600,000 per occurrence for each property or general liability claim. There are various other limits carried depending upon the circumstances. All departments of the City participate in the program and make payments to the Risk Management Fund based on historical cost basis of amounts needed and to pay prior and current year claims and to establish a reserve for that and catastrophe losses.
- Service Center Fund -- This fund was established to account for warehouse services to various funds of the City.

**Colorado Department of Highways
Local Highway Finance Report**

This calendar-year report of receipts and expenditures is required by the Colorado Department of Highways to maintain Statewide accountability for moneys used for highway and street purposes. To ensure data accuracy, House Bill 1008 mandates that this report be included in the City's financial statements.

LOCAL HIGHWAY FINANCE REPORT

CITY OF STERLING, COLORADO
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2024

Note A – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of City of Sterling, Colorado under programs of the federal government for the year ended December 31, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of City of Sterling, Colorado, it is not intended to and does not present the financial position, changes in net position, or cash flows of City of Sterling, Colorado.

Note B – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual or full accrual basis of accounting, as appropriate. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the financial statement(s) of the federal program. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note C – Indirect Cost Rate

City of Sterling, Colorado has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Note D – Subrecipients

City of Sterling, Colorado did not pass through any federal grants to subrecipients.

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

To the Honorable Mayor and Members of City Council
City of Sterling
Sterling, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of City of Sterling, Colorado (the City), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 30, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Sterling, Colorado
May 30, 2025

**Independent Auditors' Report on Compliance for Each Major Program and on Internal
Control Over Compliance Required by the Uniform Guidance**

To the Honorable Mayor and Members of City Council
City of Sterling
Sterling, Colorado

Report on Compliance of Each Major Federal Program

Opinion on Each Major Federal Program

We have audited City of Sterling, Colorado's (the City) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2024. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF STERLING, COLORADO
Schedule of Findings and Questioned Costs
For the Year Ended December 31, 2024

Summary of auditors' results

1. The auditors' report expresses an unmodified opinion on the financial statements of City of Sterling, Colorado (the City).
2. No significant deficiencies relating to the audit of the basic financial statements are reported in the Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
3. No instances of noncompliance material to the financial statements of the City were disclosed during the audit.
4. No significant deficiencies relating to the audit of the major federal award programs are reported in the Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance.
5. The auditors' report on compliance for the major federal award programs of the City expresses an unmodified opinion on all major federal award programs.
6. The audit did not disclose any findings relative to the major federal award programs of the City.
7. The program tested as major programs included:

Airport Improvement ProgramAL No. 20.106
8. The threshold for distinguishing Types A and B programs was \$750,000.
9. The City did not qualify as a low-risk auditee.

Findings -- financial statement audit

We noted no findings that are required to be reported under *Government Auditing Standards*.

Findings and questioned costs -- major federal award programs audit

We noted no findings or questioned costs that are required to be reported in accordance with the Uniform Guidance.
