INDEPENDENT AUDITOR'S REPORT

Board of Directors
Harvest Crossing Metropolitan District No. 3
Arapahoe County, Colorado

Report on the Audit of the Financial Statements

Opinions

I have audited the accompanying financial statements of the governmental activities and each major fund of Harvest Crossing Metropolitan District No. 3 as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Harvest Crossing Metropolitan District No. 3 as of December 31, 2025, and the changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the **Auditor's Responsibilities for the Audit of the Financial Statements** section of my report. I am required to be independent of Harvest Crossing Metropolitan District No. 3 and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis and the budgetary comparison schedule for the General Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Management has omitted the management discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board. I have not performed

any procedures with respect to this required supplementary information. My opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The supplementary budget comparison schedules identified in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

The financial statements of Harvest Crossing Metropolitan District No. 3 (District) have been prepared in conformity with generally accepted accounting principles (GAAP) generally accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting board for establishing governmental accounting and financial reporting principles. The following notes are an integral part of the District's financial statements.

Note 1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

As required by GAAP, these financial statements present the activities of Harvest Crossing Metropolitan District No. 3, i.e., the primary government. The District does not have any component units for which the District is considered financially accountable, nor is the District a component unit of any other primary governmental entity.

Primary Government. The District, a quasi-municipal corporation and a political subdivision of the State of Colorado was organized by order and decree of the District Court of Arapahoe County, Colorado, on February 13, 2007, and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District was originally organized under the name Villages at Murphy Creek Metropolitan District No. 1, which was inactive beginning December 15, 2010, through March 31, 2021. On January 20, 2022, an Order Granting Petition for Name Change was recorded in Arapahoe County changing the District's name in order to represent the District's development plan more accurately. The District was established to furnish certain public facilities and services, including, but not limited to, streets, limited water, limited sanitation, parks and recreation, traffic and safety control, transportation, mosquito control, safety protection, security, limited fire protection and television relay and translation improvements that benefit the citizens of the District. The District's primary revenues are property taxes. An elected Board of Directors governs the District. The District has no employees, and all operations and administrative functions are contracted. The more significant accounting policies of the District are described as follows:

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements. The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the District. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or business segment are offset by program revenues and helps identify the extent to which each is self-financing or draws from the general revenues of the District. Direct expenses are those that are clearly identifiable with a specific function or business segment. Program revenues include (1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

capital requirements of a particular function or business segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements. Fund financial statements report detailed information about the District with the focus on major funds rather than on reporting funds by type. Separate financial statements are provided for governmental funds. The District has no proprietary or fiduciary funds. Individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement Focus and Basis of Accounting. The government-wide financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when the liability is incurred regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (60 days). The major sources of revenue which are susceptible to accrual are property taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. Expenditures generally are recorded when the liability is incurred, as under full accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Financial Statement Presentation – Fund Accounting. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts which are segregated for the purpose of accounting for specific activities. The District uses funds to report results of operations and financial position, and demonstrate compliance with legal, contractual, and regulatory requirements.

The District reports the following major governmental funds:

- *General Fund* - This is the District's primary operating fund. It is used to account for all activities of the District not required to be accounted for in another fund.
- *Debt Service Fund* - This fund is used to account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.
- *Capital Project Fund* - This fund is used to account for the acquisition and/or construction of major capital facilities and infrastructure.

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

D. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents the consumption of net position that applies to a future period(s) that will not be recognized as an outflow of the resources (expenditure) until the future period. At the end of the current fiscal year, the District did not have any items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category - unavailable property tax revenues.

The governmental funds also reported deferred inflows of resources representing unavailable property tax revenues.

Deferred outflows of resources are presented below the total assets on the government-wide and governmental fund statements. Deferred inflows of resources are presented below the total liabilities on the government-wide and governmental fund statements.

E. Cash, Cash Equivalents, and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within 3 months of the date acquired by the District. Colorado State Statutes authorize the District to invest its excess funds in direct U.S. Government treasury and agency securities, bonds and other obligations of states and political subdivisions, corporate bonds, and local government investment pools. Investments are stated at fair value.

F. Long-term Obligations

In the government-wide Statement of Net Position long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

G. Fund Balance / Net Position

The District utilizes the fund balance presentation as required under GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund balances are categorized as nonspendable, restricted, committed, assigned, or unassigned. These fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in a spendable form (such as inventory or prepaid/deferred charges) or are legally or contractually required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose but is neither restricted nor committed; intent can be expressed by the governing body or an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that do not meet any other of the above criteria and are available for any purpose; positive amounts are reported only in the general fund.

The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of Directors through adoption or amendment of the budget as intended for specific purposes (such as the purchase of capital assets, construction, debt service, or other purposes).

When fund balance resources are available for a specific purpose in more than one classification, it is the District's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. The District considers all unassigned fund balances to be "reserves" for future operations or capital replacement as defined within Article X, Section 20 of the Constitution of the State of Colorado (see Note 7).

H. Budgetary Information

Budgets are adopted on a basis consistent with GAAP for all funds. According to Local Government Budget Law, the legal level of appropriations is at the total fund expenditures

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

level and lapse at year-end. During the year, the District's Board of Directors can modify the budget by line item within a fund's total appropriation without notification.

Upon meeting notification and publication requirements, supplemental amendments increasing appropriations may be passed by resolution of the Board of Directors. Budgeted amounts reported in the accompanying financial statements are as originally adopted and as amended by the Board of Directors.

I. Property Taxes

The District's Board of Directors levies property taxes. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15th by certification to the County Commissioners to put the tax lien on the individual properties as of January 1st of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and, generally, sale of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District. Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Note 2. Deposits and Investments

Cash and investments as of December 31, 2025, are classified in the accompanying financial statements as follows:

Cash and Cash Equivalents	\$ 24,836
Restricted Assets- Cash and Cash Equivalents	<u>738</u>
Total	<u>\$ 25,574</u>

Cash and investments as of December 31, 2025, consist of the following:

Deposits With Financial Institutions	\$ 24,836
Deposits With Corporate Trust Institutions	<u>738</u>
Total	<u>\$ 25,574</u>

Deposits

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District would not be able to recover its deposits or would not be able to recover collateral securities that are in the possession of an outside party.

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

The District's deposits are entirely covered by federal deposit insurance or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The Federal Deposit Insurance Corporation (FDIC) insures the first \$250,000 of the District's deposits at each financial institution. Deposit balances over \$250,000 are collateralized as required by PDPA. PDPA requires that cash be deposited in eligible public depositories and deposits in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds with the District being a named participant in the single institution collateral pool. The minimum pledging requirement is 102% of the uninsured deposits. The Colorado State Banking Board verifies the market value at least monthly. Bank assets (usually securities) are required by PDPA to be delivered to a third-party institution for safekeeping and pledged to the Colorado Division of Banking. Based on the above, the Colorado State Auditor has concluded that there is no custodial risk for public deposits collateralized under PDPA.

In addition to deposits with depository financial institutions, other District deposits held at December 31, 2025, consisted of bond proceeds held with UMB Bank (UMB), a corporate bond trustee, and an escrow deposit with Land Title Guaranty Company pursuant to an Offsite Improvement and Escrow Agreement. A corporate bond trustee is a financial institution that is granted trust powers, such as a commercial bank or trust company. This entity, in turn, has a duty to the bond issuer to enforce the terms of a bond indenture. A trustee sees that bond interest payments and principal repayments are made as scheduled and protects the interests of the bondholders if the issuer defaults. UMB is a nationally recognized and ranked provider of corporate trust and escrow services.

Local Government Investment Pools

Local government investment pools are trusts established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the trusts. A designated custodian bank serves as custodian pursuant to a custodian agreement. The custodian acts as safekeeping agent for the trusts' investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the trusts. The District participates in UMB's Corporate Trust FDIC Sweep program whereby the District has instructed UMB to nightly sweep its assets on deposit into the Colorado Local Government Liquid Asset Trust's COLOTRUST PLUS+ fund omnibus account. The PLUS+ fund may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities as well as in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. The PLUS+ fund is a stable \$1.00 net asset value (NAV) fund that offers daily liquidity.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

Investments

Credit Risk. Colorado State Statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. These investments include local government investment pools and certain obligations of the United States government. State law limits investments in commercial paper, corporate bonds, and money market mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. The District has no investment policy that would further limit its investment choices. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk. The District places no limit on the amount it may invest in any one issuer.

Fair Value of Investments. The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

At December 31, 2025, the District had no investments measured at fair value and there were no unrealized losses reflective of changes in the fair market value of investments.

Note 3. Legal Compliance – Budgets

No later than October 15, the District Manager submits to the Board of Directors a proposed budget for the calendar year commencing the following January 1. The budget is prepared by fund and line item and includes information on the prior year, current year estimates and requested appropriations and estimated revenues for the upcoming year.

The Board of Directors holds public hearings and must adopt the budget by resolution prior to December 15. Once adopted, the Board may at any time, by resolution, amend the budget. The District had two supplemental budget amendments during the year ended December 31, 2025.

Expenditures may not legally exceed budgeted appropriations at the fund level. Budgetary comparisons in the accompanying required supplemental information are presented with a higher level of detail than legally required to facilitate closer financial analysis.

Tax, Spending and Debt Limitations. Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer’s Bill of Rights (TABOR) contains tax, spending, revenue, and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

HARVEST CROSSING METROPOLITAN DISTRICT NO. 3

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2025

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District has established an emergency reserve for the year ended December 31, 2025, in the amount of \$100,714.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including interpretation of how to calculate Fiscal Year Spending limits, may require judicial interpretation.

Note 8. Related Parties

Management believes that all potential conflicts, if any, have been disclosed to the Board.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION DECEMBER 31, 2025

Budgetary Information

The District follows the requirements of the Colorado Local Government Budget Law in establishing the budgetary data reflected in the financial statements. The Board of Directors adopts an annual budget for the General Fund prior to December 31 of the preceding year. The budget includes estimated expenditures and the means of financing them. A public hearing is held prior to adoption of the budget, and the budget is legally enacted by resolution. Appropriations are adopted at the fund level. The budget is prepared on the modified accrual basis of accounting, which is consistent with the basis of accounting used in the governmental fund financial statements.

Budget Amendments

During the year ended December 31, 2025, no amendments to the original appropriations were made. Accordingly, the original and final budgets are identical.

Explanation of Variances – Original Budget to Final Budget

There were no differences between the original and final budgets for the year ended December 31, 2025.

Explanation of Variances – Final Budget to Actual

Actual revenues fell short of estimated revenues due to property tax abatements and smaller than anticipated developer advances. General and administrative costs were \$27,125 under budget due to lower than anticipated audit, legal, and District management costs and budgeted contingency costs that did not need to be utilized.

TABOR Emergency Reserve

Under the Colorado Taxpayer's Bill of Rights, the District is required to maintain an emergency reserve equal to 3% of fiscal year spending, excluding bonded debt service. The emergency reserve is included in the annual budget under Total Budgetary Expenditures and Reserves, but the reserve is not available for general spending.
