# INTRODUCTORY SECTION

# Elected Board

Dr. Tom Autobee

Dr. Autobee has been an elected Board member since 2004. He has operated a dental practice in Pueblo since 1977. His great-great-great grandfather, Charles Autobee, was one of the original settlers in the Pueblo area in 1828. His term runs through 2027.

Mike Cafasso

Mr. Cafasso was appointed to fill a Board vacancy in March of 2007 and then was elected to the Board in November of that same year. He has served ever since. He is the CEO of St. Mary-Corwin Hospital. His current term runs through 2031.

Celeste Arellano

Ms. Arellano is a retired educator with a background in science, math, and banking. She obtained her degree in Chemistry from (now) Colorado State University Pueblo and has helped underprivileged students through her work. Her current term runs through 2029.

Sam Krage

Mr. Krage founded Krage Manufacturing in 2000 and has since grown the company from six employees to more than 50, with sales in excess of \$15 million annually. He is active in several organizations and causes in Pueblo. His current term runs through 2027.

Chris Woodka

Mr. Woodka was a long-time water journalist and currently is the Senior Policy and Issues Manager for the Southeastern Colorado Water Conservancy District. Currently the board president, he deals with the storage and movement of water in the Arkansas River basin. His current term runs through 2031.

## Board of Water Works of Pueblo, Colorado

319 W. 4th Street ▪ P.O. Box 400 ▪ Pueblo, Colorado 81002-0400 ▪ 719/584-0250

March 11, 2026

### **To the Board of Water Works of Pueblo, Colorado and To Those We Serve:**

We are pleased to transmit the Annual Comprehensive Financial Report of the Board of Water Works, of Pueblo, Colorado (“Pueblo Water”) for the year ended December 31, 2025. This report is presented in three sections as follows:

#### Introductory Section

Included in this section is the letter of transmittal, principal officials, organizational chart, excerpts from the City of Pueblo charter, and awards.

#### Financial Section

This section includes the independent auditors’ report on the accompanying financial statements, Management’s Discussion and Analysis, the basic financial statements, and supplementary information.

#### Statistical Section

The Statistical section encompasses information related to: financial trends, revenue capacity, debt capacity, demographics and the economic situation of the City and County of Pueblo, and operating information generally presented on a multi-year basis.

Responsibility for the accuracy of the data as well as the thoroughness of the presentation rests with the management of Pueblo Water. To the best of our knowledge, the enclosed data are accurate in all material respects and adequately present the financial position of Pueblo Water.

Baker Tilly, LLP has issued an unmodified (“clean”) opinion on Pueblo Water’s financial statements for the years ended December 31, 2025 and 2024. The independent auditors’ report is located at the front of the financial section.

Management’s Discussion and Analysis (“MD&A”) immediately follows the independent auditors’ report. The MD&A will present an objective and easily readable analysis of the financial performance of Pueblo Water. The MD&A is made up of several categories: Financial Highlights; provides a summary of Pueblo Water’s significant 2025 financial activity. Condensed Financial Statements; provides an analysis of significant activity in the basic financial statements. Budgetary Highlights; provides an analysis of Pueblo Water’s budget procedures as well as the 2025 budget -vs- actual results and the 2026 budget. Finally, Currently Known Facts, Decisions or Conditions; outlines currently known facts, decisions, or conditions as of the date of the auditors’ report that may have an effect on Pueblo Water’s financial position. The MD&A is followed by the basic financial statements, notes to the financial statements, and supplementary information.

## **Profile of the Board of Water Works of Pueblo, Colorado**

In Pueblo, a five-member Board is charged with the formulation of policy, review and approval of the budget, setting rates and long-range planning that will ensure Pueblo's water system is operated and maintained in an efficient and cost-effective manner. This Board is comprised of community and business leaders elected by the citizens of Pueblo. Board members serve staggered six-year terms.

Pueblo Water has 138 employees who specialize in the many skills needed to manage, engineer, operate and maintain Pueblo's water system and sources of supply.

Pueblo's water supply originates high in the Rocky Mountains above Leadville, Colorado. Water from these high mountain watersheds flows into canals, streams and eventually into the Arkansas River. Pueblo's supply is then diverted from the Arkansas River through intake structures located within Pueblo Reservoir and transferred via pipeline to the Whitlock Treatment Plant where it is treated and filtered. The finished water is pumped through a system of transmission mains to various storage tanks and adjoining pump stations throughout the city. Water is carried from these pump stations by a vast network of interconnecting pipes to the citizens and businesses of Pueblo. There are approximately 595 miles of water mains (including both transmission and distribution mains) in the system. The water supply, treatment and distribution process continue 24 hours a day, 365 days a year.

The mission of the Board of Water Works is as follows:

*The Board of Water Works is committed to providing the highest quality of water at the lowest possible cost. We are equally committed to the workforce that helps achieve that goal. We strive to create and maintain an environment that encourages and recognizes teamwork, individual contribution, and the integrity of each employee.*

## **Planning**

Planning has been an important visionary component throughout Pueblo Water's history. This is evidenced through the maintenance of long-term financial, capital, main replacement, operation and maintenance, water resource, and work force succession plans.

### **Financial, Capital, and Operation & Maintenance**

Each year, as part of the budget process, updates are performed to Pueblo Water's financial, capital, and operation and maintenance 10-year plans. Since it is Pueblo Water's practice to finance routine improvements within its normal rate structure, these plans are an integral part of that success. As a consequence, small steady rate increases are implemented each year, which is essential to ensuring adequate revenue and avoiding "rate-shock" for customers. As is the case with many water utilities around the United States, Pueblo Water recognizes the coming challenge of replacing its infrastructure and works to continually refine its supplemental 30-year capital plan. This expanded capital plan affords Pueblo Water the ability to make crucial decisions surrounding replacement of its infrastructure.

### **Main Replacement Program**

Pueblo Water's main replacement program was started in the late 1960's and consists of a formal twenty-year plan that is updated approximately every ten years through cooperation with Pueblo Water's internal engineering staff and its consulting engineer. During the intervening ten-year period, Pueblo Water's internal engineering staff regularly updates the plan to ensure customer needs are met. Through this program Pueblo Water has greatly reduced the number of main breaks experienced each year. In 1972, 196 main breaks occurred, while in 2025 there were just 54. On average, Pueblo Water will spend close to \$4 million every year in connection with the program.

## Water Resource Plan

In 2007, Pueblo Water updated the water resource plan to project and meet the needs of the community for the next fifty years. That process has continued on a less formal basis each year since 2007. Pueblo Water's current Water Efficiency Plan was prepared in accordance with the Colorado Water Conservation Act of 2004. This plan identifies water efficiency measures to provide a reasonable cost savings for the utility and our customers by reducing water demand.

## Key Financial Policies

Along with deliberate and structured planning, Pueblo Water has adopted sound financial policies. Some of the key policies that have helped to shape their financial results for recent years are listed below:

- Small annual rate increases that are supported by customers.
- Reinvestment in system infrastructure.
- Issuance of debt, only for major projects.
- Continued investment in new technologies.
- Maintain a minimum 5% of operating revenue as General Fund unrestricted and undesignated balance.
- One-time revenues are not used to off-set rate increases, but instead are designated for future expansion.
- Maintain an operation and maintenance reserve equal to at least a sixty-day equivalent of personnel and O&M expense.
- Maintain a capital reserve of no less than \$1 million.

## Revenue Growth and Rates

### Significant One-time Revenue

Since 2005, Pueblo Water has received one-time revenue consisting of sales of transmountain water rights, the capacity fee for the future Arkansas Valley Conduit project, long-term contracts to serve power plants located in the Pueblo area and related earnings on these funds. Pueblo Water has elected to use these funds to minimize the effect of rate increases for projects to enhance the water portfolio, increase storage capacity and make distribution system improvements. Pueblo Water has used the funds to purchase water rights, construct a 1.5 million gallon tank along with transmission and distribution mains to serve customers in a new industrial park south of Pueblo and professional fees related to Pueblo Water's storage capacity and water portfolio. The balance reserved for future projects was \$25.69 million as of December 31, 2025.

### Consumption Trends & Customer Demographics

As a result of the drought experienced by the area over the past two decades, the consumption patterns of Pueblo Water's customers have changed. Through conservation, residential customer per capita demands have decreased by approximately 30% over the past twenty years. Pueblo Water's practice of temporarily leasing its excess non-potable water supply has proved successful in mitigating the change in potable water sales. During the past ten years Pueblo Water has received \$130.48 million in revenue from these contracts. For 2026, it is expected that non-potable water sales will account for 34% of Pueblo Water's operating revenue. This practice allows Pueblo Water to make good use of short-term excess supply while providing for the ability to plan for future water needs in the community.

The following table compares several ratios, depicting fiscal health, for 2016 and 2025:

Ratio	2025	2016
Current ratio	5.63	3.66
Debt/ equity	0.09	0.27
Number of days of working capital	869.65	505.96

As a consequence of the factors stated above, Pueblo Water has maintained its modest projected consumption throughout its 10-year financial plan. It is currently estimated that, in a year during which Pueblo receives average precipitation, potable water consumption will be approximately 8 billion gallons compared with pre-drought levels of nearly 9 billion gallons.

Additional, more detailed customer and revenue related information is provided in the statistical section of this report.

### **Operating and Capital Expenditures**

During the period 2016 through 2025, Pueblo Water's operating expense increased 37% driven predominantly by costs associated with: personnel, electricity, health insurance, chemicals, maintenance, and fuel. In addition, the amount Pueblo Water spends on annual capital improvements has increased from \$3 to \$5 million annually to \$6 to \$9 million during this time period. Associated with increased operating costs and capital expenditures, Pueblo Water has raised rates 29.5% during the period 2016 through 2025.

As part of Pueblo Water's succession planning efforts, staffing levels of the organization fluctuate based upon the different phases of the plan. Over the past ten years 38 employees have retired, taking with them over 1,000 years of combined service. Currently, Pueblo Water's 138 full-time, highly skilled, employees have an average age of 43 and Pueblo Water anticipates the number of retirements to be lower over the next ten years.

Aside from personnel costs, electricity is the single largest operating expense for Pueblo Water. Since 2004, electricity costs related to pumping and treating have risen 80%. This has motivated Pueblo Water to consider all avenues for increased efficiency with its electrical use including installing hydroelectric power at the Whitlock Treatment Plant. Pueblo Water broke ground on the building in 2022 and began using new hydroelectric facility in 2025. By using the new hydroelectric source at the treatment plant and working with the utility company to revise Pueblo Water's rate classification, Pueblo Water has significantly reduced utility expenses.

Pueblo Water's 10-year capital plan provides a detailed and flexible structure by which Pueblo Water is able to ensure the reliability of its system and equipment. While each year includes different requirements, Pueblo Water plans to spend between \$6 and \$9 million annually on capital improvement or replacement expenditures and up to \$21 million in years that water storage tanks are scheduled to be replaced.

### **Closing**

While the intent of the transmittal letter is to provide more subjective aspects of topics related to the fiscal health of Pueblo Water, information contained in other sections of this report provide more detailed insight. The MD&A provides a view, from Management's perspective, of more recent activity. This information can be used along with the basic financial statements and notes to gain an understanding of Pueblo Water's performance for the years ended December 31, 2025 and 2024. MD&A begins on page II-4.

In connection with Pueblo Water’s outstanding debt, certain disclosures pursuant to Section (b)(5)(i) of the Securities and Exchange Commission Rule 15c2-12 (17 CFR Part 240, § 240.15c2-12) are required. The disclosures consist of the following:

- |                                      |                                |
|--------------------------------------|--------------------------------|
| ▪ Audited Financial Statements       | Section II – Financial Section |
| ▪ Annual Financial Information       |                                |
| ○ Customer Information               | Section II – MD&A – Page II-5  |
| ○ Largest Customers                  | Section II – MD&A – Page II-6  |
| ○ Historical Connection Fees         | Section II – MD&A – Page II-7  |
| ○ Historical Changes in Net Position | Section II – MD&A – Page II-8  |
| ○ Budget Summary and Comparison      | Section II – MD&A – Page II-14 |

In closing, we would very much like to express our appreciation to all who contributed to the preparation of this report. We would also like to commend the elected Board for their continued guidance, support, and professionalism in the management of Pueblo’s Water System.

Sincerely,

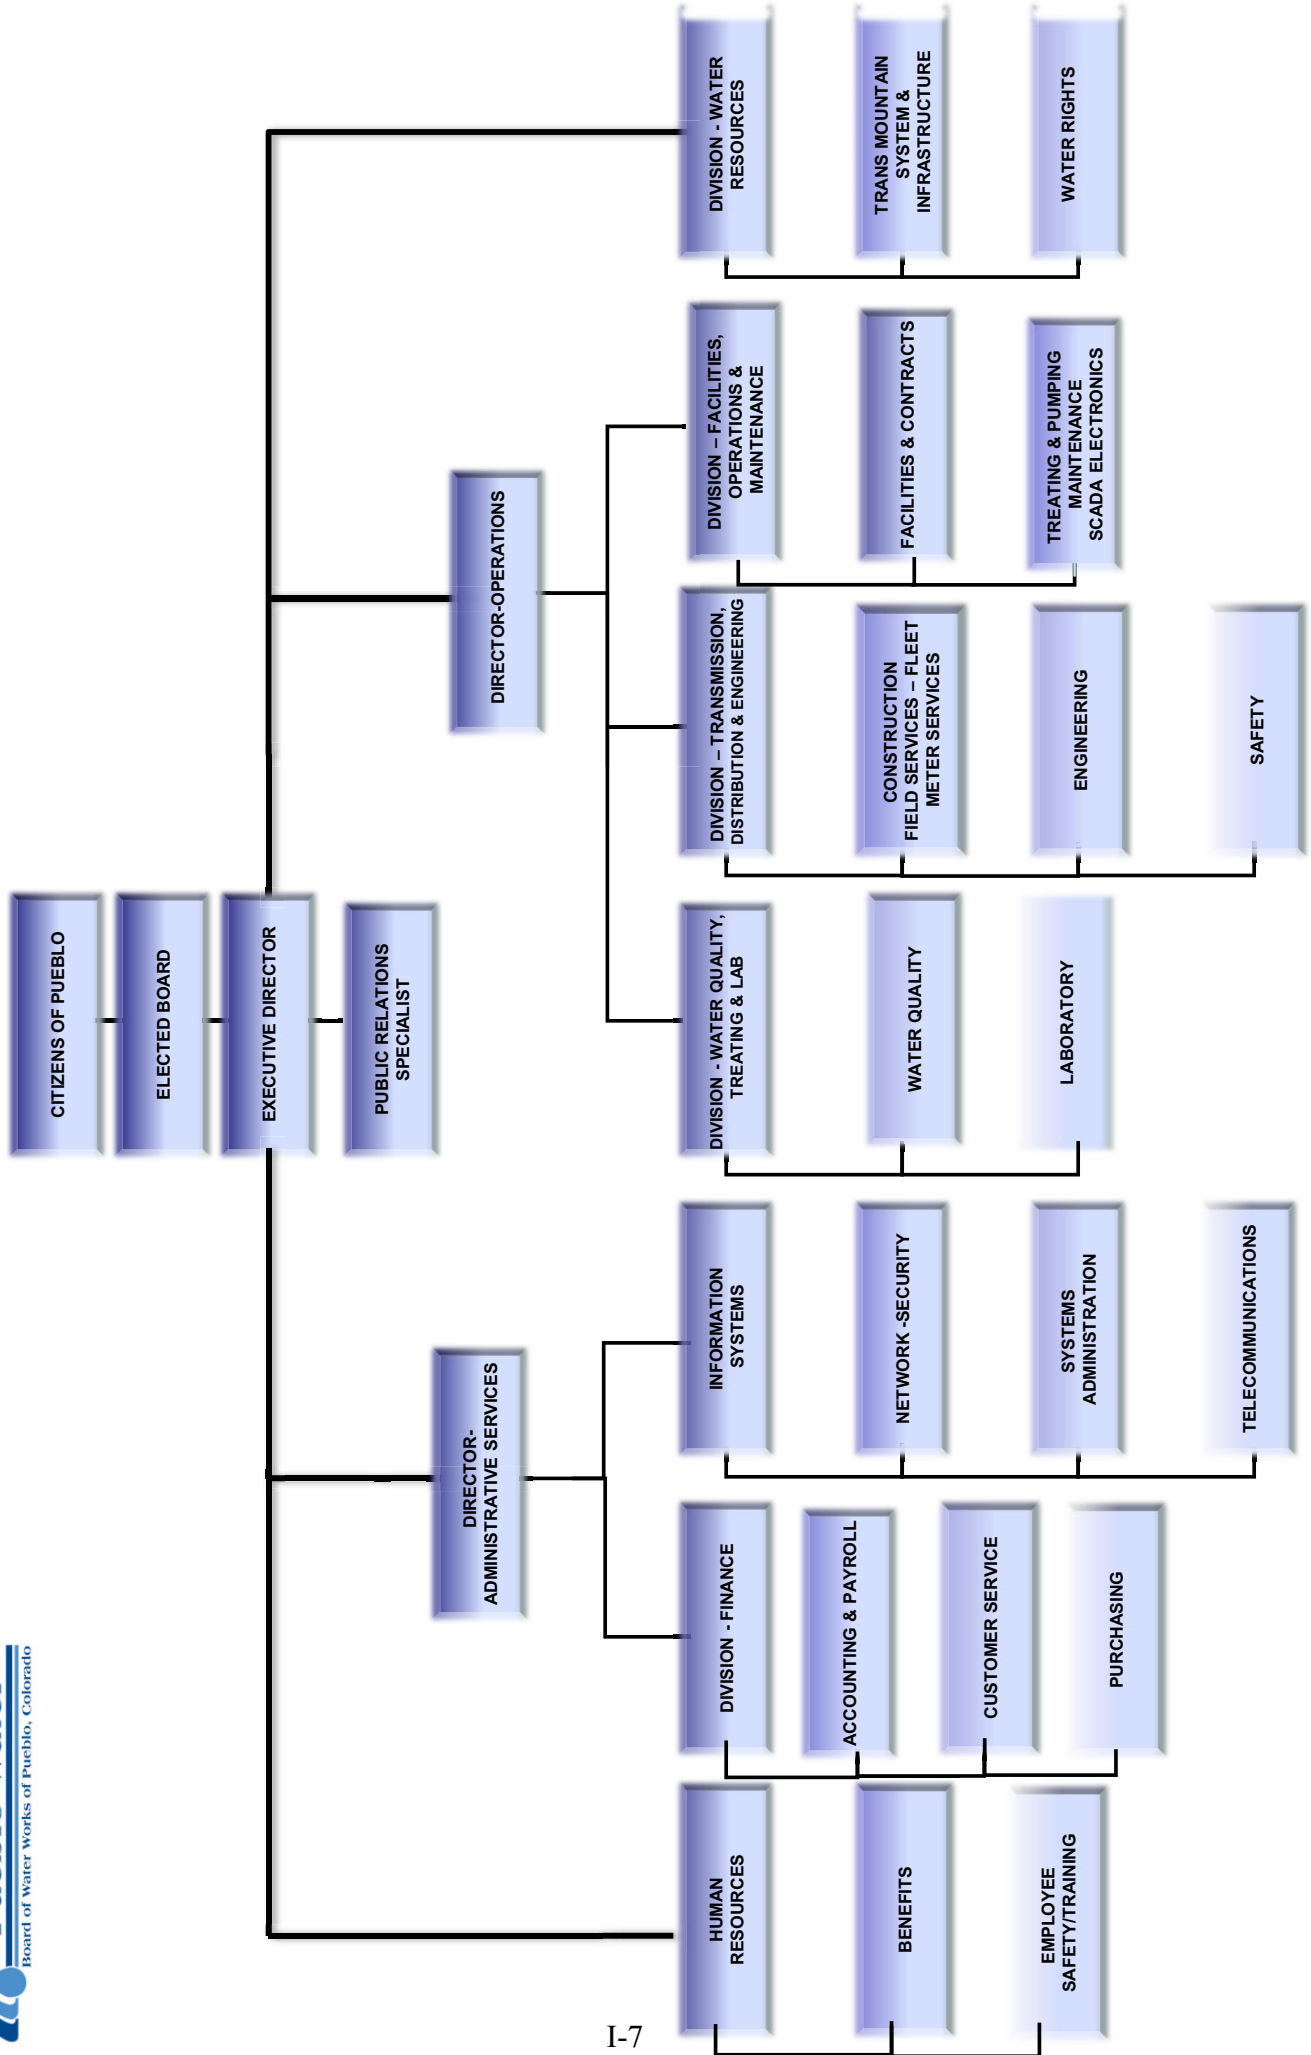

Seth J. Clayton  
Executive Director

Kristen J. Spicola  
Director of Administrative Services

## Water and Water Works

**Section 15-1. Consolidation\*** - Consolidation of the water works systems and properties managed and controlled by the Trustees of the Pueblo Water Works and by the Board of Commissioners of Pueblo Water Works District No. 2, may be effected upon a plan submitted by the Council, or upon such terms and conditions as may be agreed upon between the Trustees of the Pueblo Water Works and the Board of Commissioners of Public Water Works District No. 2, provided that no such plan or agreement for consolidation shall become effective until the same shall have been approved at a general city election, or at a special city election, by a majority of qualified taxpaying electors of each district voting thereon; PROVIDED, that all bonds and indebtedness of any kind of either of the Districts outstanding at the time of such consolidation shall remain the sole indebtedness and obligation of such District as contracted the indebtedness, and shall not become the indebtedness or obligation of the Consolidated District or of the City, but the property located in the District which contracted the indebtedness shall be and remain subject to the payment thereof as if such consolidation had not been effected.

\* CONSOLIDATED EFFECTIVE JUNE 11, 1957.

**Section 15-2. Board of Water Works of Pueblo, Colorado\*** - Title to the properties of the former districts now consolidated and any property of the water works is in the City of Pueblo. The entire control, management and operation thereof shall be exercised by an independent Board named "Board of Water Works of Pueblo, Colorado," over which the Council shall have no jurisdiction or control, but shall adopt all ordinances requested by said Board which shall be reasonably necessary to assist the Board in the management of the water works system and property, or to enable said Board to purchase or condemn additional water, water rights, reservoirs, reservoir sites or property of any kind, needed to supply water to the City or its inhabitants. The Board shall consist of five members all elected at large for six year terms as hereafter provided. The Board shall initially consist of the following five members: one previously elected holding a six year term expiring December 31, 1965; one previously elected holding a six year term expiring December 31, 1967; one holding a six year term expiring December 31, 1969, elected at the November 1963 election; one appointed by the City Council from January 1, 1964 to December 31, 1965, and one appointed by the City Council from January 1, 1964 to December 31, 1967. As the term of each member expires, a member to fill a new term of six years shall be elected, said terms to commence the first day of January next after their election. The Board of Water Works shall have and exercise all powers which are granted to cities of the first class by the Constitution and Laws of the State of Colorado, except the power to levy and collect taxes directly or indirectly. Surplus water may be supplied to territories outside the City until same is needed by the inhabitants of the City. It shall have power to make and execute contracts in the name of the City, institute and defend all litigation affecting its powers and duties or in relation to the water works system, and as to all other property under its management. The members of the Board shall continue to receive their present salaries until changed by ordinance of the Council. This amendment shall become effective January 1, 1964.

\* As AMENDED NOVEMBER 5, 1963, BY VOTE OF 8,704 TO 5,201; ALSO AS AMENDED NOVEMBER 7, 1995, BY VOTE OF 13,064 TO 8,731.

**Section 15-3. District No. 2** - The water plant together with all other property belonging to Public Water Works District No. 2 shall continue to belong to the District, and be held, managed and operated in the same manner as at present, until the ownership, control and management shall be changed pursuant to the provisions of this Charter, and no change shall be made except as herein provided unless such change be approved by a vote of the majority of the qualified taxpaying electors of the District voting thereon.

The Commissioners of Public Water Works District No. 2 shall continue to hold office until January 1, 1956. Except in the event of consolidation, three Commissioners of the Public Water Works District No. 2 shall be elected at each general city election, and shall hold office for a term of two years from the first day of January following each election. The Commissioners shall possess the same powers as are now possessed by the Commissioners of Public Water Works District No. 2.

**Section 15-4. Pueblo Water Works** - The Trustees of the Pueblo Water Works now in office shall continue to hold office until January 1, 1956. Except in the event of consolidation, three Trustees of the Pueblo Water Works shall be elected at each general city election, and shall hold office for a term of two years from the first day of January following each election. The trustees shall possess the same powers as are now possessed by the present Trustees of the Pueblo Water Works.

**Section 15-5. Election** - The nomination and election of the Commissioners and Trustees and members of the Board of Water Works of Pueblo shall be conducted in the same manner as is herein provided for the nomination and election of members of the Council.

**Section 15-6. Contracts\*** - No contract shall be entered into, and no purchase shall be made by the Trustees or Commissioners of the existing water districts, or by the Board of Water Works of Pueblo, involving the expenditure of a sum in excess of One Thousand Dollars (\$1000.00), except for personal, professional or technical services not lending themselves to competitive bidding, until a proposal for bids for the materials or services covered by such contracts or purchase shall have been advertised by one publication in a daily newspaper of general circulation in Pueblo at least ten days prior to the making of such contract or purchase.

\* As AMENDED NOVEMBER 4, 1967, BY VOTE of 10,038 To 5,793.

## Independent Auditors' Report

To the Board of Water Works of  
Pueblo, Colorado

### Report on the Audit of the Financial Statements

#### ***Opinions***

We have audited the accompanying financial statements of the business-type activities and fiduciary activities of the Board of Water Works of Pueblo, Colorado, as of and for the years ended December 31, 2025, and 2024, and the related notes to the financial statements, which collectively comprise the Board of Water Works of Pueblo, Colorado's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the Board of Water Works of Pueblo, Colorado, as of December 31, 2025 and 2024 and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board of Water Works of Pueblo, Colorado and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board of Water Works of Pueblo, Colorado's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board of Water Works of Pueblo, Colorado's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board of Water Works of Pueblo, Colorado's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Water Works of Pueblo, Colorado's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual comprehensive financial report. The introductory and statistical sections comprise the other information included in the annual comprehensive financial report but do not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 11, 2026 on our consideration of the Board of Water Works of Pueblo, Colorado's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board of Water Works of Pueblo, Colorado's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board of Water Works of Pueblo, Colorado's internal control over financial reporting and compliance.

March 11, 2026

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)

The following is management’s discussion and analysis (“MD&A”) of the financial activities of the Board of Water Works of Pueblo, Colorado (“Pueblo Water”) for the years ended December 31, 2025 and 2024. This information should be read in conjunction with the following basic financial statements.

**2025 Review**

**Major Repairs and Replacements**

During 2025, Pueblo Water continued with its main replacement program spending \$5.53 million replacing 1.64 miles of mains.

Construction of Water Works Park at the Arkansas River southside diversion dam began in 2024. The total cost of the park was \$13.50 million and was completed in 2025.

Construction on the Kevin G. McCarthy Hydroelectric Power Plant at the Whitlock Treatment Plant (Hydro Plant) was nearly completed in 2025. The cost of the project is \$10.7 million. The Hydro Plant will help to reduce energy consumption and lower peak demand reducing Pueblo Water’s cost to power its treatment plant which averages \$3 million annually.

Pueblo Water began construction on a new fleet maintenance shop and remodel of the Transmission, Distribution and Engineering offices in 2025. The total anticipated cost of both projects is \$5.21 million and expected to be completed in 2026.

Pueblo Water continued to strengthen and secure its technology infrastructure with an upgrade of critical network switches and routers, network cabling upgrades and camera security at the Whitlock Treatment Plant and the Transmission, Distribution and Engineering sites in 2025.

**Water Rights**

In 2025, Pueblo Water spent another \$2.3 million to continue the rehab of the tunnel used by the Busk Ivanhoe Water System Authority to transport water from the western slope to storage facilities on the eastern slope. It is expected that the rehab of the tunnel will significantly increase the flow through the tunnel. In 2025, Pueblo Water purchased 160 acres of land for the future enlargement of its Clear Creek Reservoir located near Granite.

**Transmission, Distribution and Engineering**

The Construction/Maintenance Department replaced approximately 3,246 lineal feet of 8”, 12” and 42” water main during the year. Additionally, routine maintenance was performed on 5,122 of 17,060 water valves and 619 of 3,871 fire hydrants in 2025. The Meter Services Department replaced 5,266 meters and MTU’s with an additional 206 meters and 218 MTU’s replaced due to damage or inoperability. In 2025, 99 of the 260 large meters were tested and calibrated.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)**

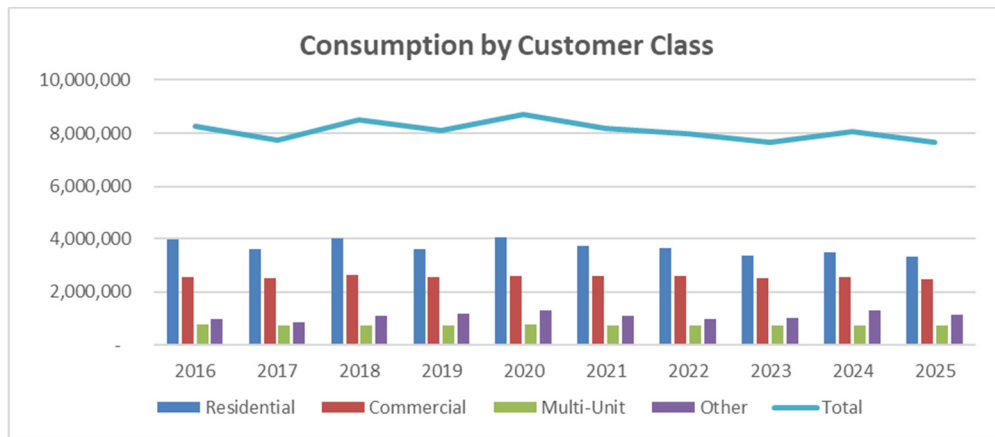

**Customer Service Enhancements**

The Service Line Replacement Program (SLRP) that began in 2015, continued to provide great value for customers. The SLRP protects residential customers from bearing the cost to repair or replace damaged service lines from Pueblo Water’s main to their meter. The cost of the program is \$1 per month for all customers eligible to participate in the program. In 2025, Pueblo Water repaired or replaced 71 water service lines, none of which were lead. Pueblo Water’s “Get the Lead Out” initiative is funded through the SLRP. The total cost of all service line replacements for 2025 was \$446,955. The average cost to replace a service line was \$6,295. In accordance with the EPA’s Lead and Copper Rules Revision, Pueblo Water created an online tool for customers to self-report the make-up of their service line, and an interactive map to search and view their service line composition on file. Pueblo Water notified over 19,535 customers to self-report their service line composition online or schedule an in-house visit from a Pueblo Water employee. This initiative will continue until all unknown service line compositions are verified to be non-lead or scheduled for replacement. Property owners can request for the replacement to be covered through the SLRP by notifying Pueblo Water prior to June 30, 2026.

**2025 Financial Highlights**

During 2025, Pueblo received just over 10.5 inches of precipitation, which was slightly below average since 1996. Although precipitation was lower than the historical average, the difference occurred during the winter months when consumption typically is not affected. With summer precipitation above average and temperatures near average, Pueblo Water customers consumed less than average at just over 7.6 billion gallons. This generated \$30.11 million of potable water sales.

Pueblo Water customers consumed approximately 5% less water in 2025 compared with 2024, the largest decrease as a percent was other customers (mostly consisting of irrigation customers) with a decrease of approximately 12% in 2025. The following is a chart illustrating consumption trends by customer class over the past ten years:

**BOARD OF WATER WORKS OF PUEBLO, COLORADO  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)**

The following table illustrates certain factors related to potable water sales for the past five years:

**Customer Information**

Year	Customers <sup>1</sup>	Consumption (000s gal.)	Water Pumped (000s gal.)	Percent Unaccounted Water <sup>2</sup>	Average Pumped Per Day (000s gal.)	Peak Day Pumpage (000s gal.)	Annual Rainfall Inches <sup>3</sup>
2021	41,283	8,181,953	8,710,185	6.1%	23,864	46,631	16.33
2022	41,510	7,980,092	8,690,658	8.2%	23,810	42,976	9.39
2023	41,643	7,656,528	8,184,174	6.4%	22,422	41,563	11.61
2024	41,657	8,074,184	8,515,002	5.2%	23,329	40,618	14.26
2025	41,753	7,635,543	8,301,673	8.0%	22,744	44,044	10.54

<sup>1</sup>Based on customers at December 31.

<sup>2</sup>The unaccounted for water includes water used or lost in seepage, system storage, fire protection, street cleaning and water distribution flushing.

<sup>3</sup>Reported by the United States Weather Bureau as measured at Pueblo Municipal Airport.

Consumption from Pueblo Water’s ten largest customers in 2025 was approximately 3.5% less than 2024. The decrease is less than the 5% decrease in consumption system wide, however the percent of total revenue remains consistent from the previous year. The following tables illustrate consumption and revenue generated from Pueblo Water’s ten largest potable water customers for 2025 and 2024 and includes only metered water revenue:

**Largest Customers - Treated Water  
For the Year Ended December 31, 2025**

Customer	Total Consumption (000s gal.)	<sup>1</sup> Percent of Total Consumption	Amount Billed	<sup>2</sup> Percent of Total Revenue

Total	<u>2,124,384</u>	27.82%	<u>\$ 5,791,432</u>	19.34%

<sup>1</sup>Based on total consumption of 8.074 million gallons

<sup>2</sup>Based on total billing in 2024 of \$29,481,319

<sup>3</sup>City Government includes free and reduced water at a value of \$1,631,716

**Non-potable water sales:**

Leases of non-potable water continues to be an important tool for Pueblo Water to manage changes in customer demands. During 2025, \$22.70 million was generated from approximately 40,000-acre feet of contracted non-potable water leases. Comparably, in 2024, \$17.79 million was generated from approximately 34,000-acre feet of contracted non-potable water leases.

**Connection fees:**

Connection fees represent the investment paid by customers and developers to connect to Pueblo Water’s system. The difference in revenue from one year to the next reflects both residential and commercial new projects each year.

The following table illustrates revenue collected from connection fees for the past five years:

<u>Year</u>	<u>Revenue Collected</u>
2025	\$ 1,382,731
2024	1,651,845
2023	705,963
2022	1,449,888
2021	1,414,583

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
**DECEMBER 31, 2025 and 2024 (Unaudited)**

The statements of revenues, expenses and changes in net position presents the financial activity of Pueblo Water for the years ended December 31, 2025 through 2021. Operating expenses include personnel services and operation and maintenance costs by activity. Operating costs of risen by 34% primarily due to inflation. The table below is for reference per revenue bond covenants.

<sup>1</sup>Includes adjustment for beginning balance of net Executive Supplemental Pension liability and associated assets of \$36,651.

**Statement of Net Position**

The statement of net position is a financial snapshot of Pueblo Water as of December 31, 2025, 2024 and 2023. It presents the fiscal resources of Pueblo Water (assets), the claims against those resources (liabilities), the deferred inflows and deferred outflows of resources, and the residual available for future operations (net position). Assets and liabilities are classified by liquidity as either current or non-current. Net position is separated into three categories. The first category, net investment in capital assets, consists of capital assets (net of depreciation and amortization) less related outstanding debt incurred to purchase or produce those assets. The second category, restricted, consists of restricted assets less accrued interest on construction related long-term debt. Finally, the third category, unrestricted, consists of current assets plus other assets less all liabilities unrelated to acquisitions of capital assets.

Total liabilities and deferred inflows	49,576,621	55,107,029	49,083,246	(5,530,408)	(12)	6,023,783	12
<b>NET POSITION</b>							
Net investment in capital assets	254,732,754	251,636,514	245,226,538	3,096,240	7	6,409,976	3
Restricted	3,230,933	2,644,289	1,967,658	586,644	22	676,631	34
Unrestricted	75,700,312	58,423,892	49,767,100	17,276,420	6	8,656,792	17
Total net position	\$ 333,663,999	\$ 312,704,695	\$ 296,961,296	\$ 20,959,304	7%	\$ 15,743,399	5%

- **Current Assets** in 2025 increased \$4.17 million, or 5%. They increased \$9.28 million, or 12% between 2024 and 2023. The increase in 2025 was primarily due to an additional non-potable water contract at the end of the year that resulted in a higher accounts receivable balance. The increase in 2024 was primarily due to loan proceeds for a construction project that resulted in higher cash balances.
- **Noncurrent Assets** in 2025 increased \$11.70 million, or 4% from 2024 and increased \$13.99 million, or 5% between 2024 and 2023. The increase in both years was due to additions, offset by increased accumulated depreciation and asset retirements. Information on the Board's capital assets can be found in Note 4 to the basic financial statements. In 2025, Pueblo Water made nonutility property improvements of \$13.50 million, which are included in noncurrent assets.
- **Deferred Outflows** in 2025 decreased by \$.44 million, or 23% from 2024. They decreased by \$1.51 million, or 44% between 2024 and 2023. The change in both years was a result of pension and other post-employment benefits related to economic/demographic losses, net difference between projected and actual earnings associated with pension plan investments, the amortization of the bond discount and amortization of the deferred loss on refunding interest expense.
- **Current Liabilities** in 2025 decreased \$1.23 million, or 7% from 2024. They increased \$.70 million, or 4% between 2024 and 2023. The decrease in 2025 was the result of a decrease in retainage withheld on construction contracts when a large construction project was completed during the year and a decrease in construction deposit as work progressed on another construction project. The increase in 2024 was mostly the result of an increase in retainage withheld on construction contracts.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)

- **Long-term Liabilities** in 2025 decreased \$6.31 million, or 18% from 2024. They increased \$5.73 million, or 19% between 2024 and 2023. The decrease in 2025 was primarily due to principal payments on revenue bonds and a decrease in the net pension liability. The increase in 2024 was the net result of new borrowings of \$9.75 million, principal payments on revenue bonds and a decrease in the net pension liability.
- **Deferred Inflows** in 2025 increased \$2.02 million, or 84% from 2025 because of pension and other postemployment benefits related investment gains from differences between actual and expected plan earnings used in the calculation of the net pension and other postemployment benefits liabilities. They decreased \$.41 million, or 15% between 2024 and 2023 because of pension and other postemployment benefits related investment gains from differences between actual and expected plan earnings used in the calculation of the net pension and other postemployment benefits liabilities.

**Statements of Revenues, Expenses and Changes in Net Position**

While the statements of net position display the Board's assets, deferred outflow of resources, liabilities, deferred inflow of resources and net position at year-end, the statements of revenues, expenses, and changes in net position provide information about the source of the change in net position during the year. Net position increased \$20.96 million in 2025 consisting of income before capital contributions of \$18.41 million and capital contributions of \$2.55 million. Net position increased \$15.74 million in 2024 consisting of income before capital contributions of \$15.45 million and capital contributions of \$.29 million.

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
**DECEMBER 31, 2025 and 2024 (Unaudited)**

A decrease in consumption of 5.0%, in 2025 and a general rate increase of 4.0%, effective January 1, 2025, led to an increase in water sales to general customers of 1.83%. Changes in water consumption from year to year are generally directly related to changes in temperature and inversely related to changes in precipitation. Longer term changes in consumption are the result of changes in conservation habits on the part of customers and changes in the customer base.

In 2024, an increase in consumption of 5.0%, in 2024 and a general rate increase of 4.0%, effective January 1, 2024, led to an increase in water sales to general customers of 7.02%.

**Operating Expenses**

Over the past five years Pueblo Water has experienced a 34% increase in total operating costs. This represents a dollar increase of \$10.57 million when comparing operating expenses for 2025 with those in 2021. The largest portion of Pueblo Water’s variable costs are attributed to energy costs and chemical costs for treating and pumping potable water.

There are three main categories of operating expenses. First, personnel services, which consists of salaries and benefits paid or accrued to or for Pueblo Water employees. Second, operation and maintenance, and third other operating expense which consists primarily of depreciation. The percentage of these categories as a relation to total operating expense has changed very little over the past five years. The following table illustrates the relationship of each category to total operating expense as a percentage for the past five years:

Operating Expenses	2025	2024	2023	2022	2021
Personnel services	44%	44%	44%	45%	46% <sup>1</sup>
Operation and maintenance	40%	39%	39%	37%	34%
Other operating expense	16%	17%	17%	18%	20%

<sup>1</sup>Includes an additional contribution to Pueblo Water's defined benefit pension plan of \$.50 million.

**Nonoperating Revenues and Expenses**

Nonoperating revenues and expenses include investment income, the sale of assets and interest expense on bonded indebtedness. Net nonoperating revenues and expenses decreased by \$.54 million in 2025 compared to 2024 because of lower investment income. Nonoperating revenues and expenses increased by \$.45 million in 2024 compared to 2023 because of higher investment income.

**Other Revenues**

Other revenues represent the contribution of infrastructure to the System by developers and system development fees. The value of contributed infrastructure increased by \$2.26 million in 2025 when compared to 2024. The value of contributed infrastructure increased by \$30 thousand in 2024 when compared to 2023. Normally, differences from year to year are caused by the general level of construction activity in the Pueblo area. In 2025, Pueblo Water received an additional \$1.60 million through an intergovernmental agreement related to storage capacity.

**Long-Term Debt Activity**

For the periods ending December 31, 2025 and 2024, the only transactions involving long-term debt were the scheduled debt payments for the revenue bonds, and construction loan in the amount \$9.75 million. Information on the Board’s long-term debt can be found in Notes 8 and 9 to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)

**Fiduciary Funds**

Pueblo Water is the trustee, or fiduciary for other assets that, because of a trust arrangement, can be used only for the trust's beneficiaries. Pueblo Water is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of Pueblo Water's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. The changes from year to year within the Statements of Fiduciary Net Position and Statements of Changes in Fiduciary Net Position are directly related to annual employer contributions, benefit payments to retirees and performance of investments within the trust.

**Budgetary Process**

Pueblo Water's budget is determined by a variety of methods. The process begins in early August when divisional budget requests are submitted to the Director of Administrative Services. These requests are reviewed by senior management and subsequently used by the Director of Administrative Services to prepare a preliminary budget. The preliminary budget is then submitted to the Executive Director for review and input. In early October the preliminary budget is submitted to the Board of Directors for their input at which time it is made available for public inspection. The final budget, including all appropriate resolutions, is usually adopted at Pueblo Water's November Board meeting, and subsequently submitted to the State of Colorado Department of Local Affairs. The following table is provided to meet revenue bond covenant requirements:

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2025 and 2024 (Unaudited)

**Currently Known Facts, Decisions or Conditions**

This section outlines currently known facts, decisions, or conditions as of the date of the auditors' report that may have an effect on Pueblo Water's financial position (net position) or results of operations (revenue, expenses, and other changes in net position).

Below is a summary of material capital projects Pueblo Water anticipates will be completed in 2026 or later:

- Main improvement or expansion projects totaling \$7.93 million.
- Annual meter replacement program totaling approximately \$1.37 million.
- New coating of exterior paint for the carbon silo tank totaling approximately \$.25 million.
- Refurbishment of the Whitlock 5 MG tank totaling \$2.4 million.
- Replacement of the Whitlock filter plant roof totaling \$600,000.
- Installation of a new generator at the La Vista pump station totaling \$.73 million.

**Requests for Information**

This report is provided as a general overview of Pueblo Water's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to:

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The five-member board (“Elected Board”) of the Board of Water Works of Pueblo, Colorado (“Pueblo Water”) is elected by the citizens of Pueblo and operates a municipal water works system that provides water service to the City of Pueblo, Colorado and adjacent areas. The City’s charter provides that title to the properties of the system is in the name of the City of Pueblo, Colorado, but that the entire control, management, and operation of the system shall be exercised by Pueblo Water, over which the City Council shall have no jurisdiction or control. In addition, the charter provides that the City of Pueblo, Colorado shall adopt all ordinances requested by Pueblo Water which shall be reasonably necessary in the management of the system.

Pueblo Water’s mission statement commits the utility to provide the highest quality of water at the lowest possible cost, with an equal commitment to the work force that helps achieve that goal. The utility strives to create and maintain an environment that encourages and recognizes teamwork, individual contribution, and the integrity of each employee.

In November 1995, voters approved an amendment to the Charter of the City of Pueblo, Colorado that makes explicit the fact that Pueblo Water does not have directly, or indirectly, the right to levy taxes. Throughout its history, Pueblo Water has never levied taxes, always operating from revenues raised from the provision of water to the citizens of Pueblo, other municipalities, and to industries and farmers.

By removing the authority to levy taxes, the voters affirmed the enterprise status in relation to Amendment One, also known as the Taxpayer’s Bill of Rights (TABOR). Amendment One was never intended to apply to enterprise activities such as Pueblo Water but some confusion existed as to whether a governmental entity having the ability to levy a tax could also be considered an exempt entity under TABOR provisions. Pueblo Water’s status is now very clear following the citizens’ affirmative vote.

Pueblo Water has a five-member governing body, which is elected by the citizens of Pueblo for overlapping six-year terms. In evaluating how to define Pueblo Water, for financial reporting purposes, management has considered all potential component units. In accordance with Governmental Accounting Standards Board (“GASB”) Statements No. 14, *The Financial Reporting Entity*, and 39, *Determining Whether Certain Organizations Are Component Units*, an amendment of GASB Statement No. 14, Pueblo Water is classified as an “other stand-alone government” since Pueblo Water is a legally separate and distinct entity from the City of Pueblo under the Charter of the City, and the City is not financially accountable for Pueblo Water.

Pueblo Water has no component units as defined in GASB Statements No. 14 and 39 and amended by Statement No. 61. However, Pueblo Water is party to an Intergovernmental Agreement with the City of Aurora, Colorado forming the Busk-Ivanhoe Water System Authority (originally referred to as the Busk-Ivanhoe Water System). The Busk-Ivanhoe Water System was originally created in 1971 as a joint venture, when Pueblo Water and the City of Aurora, Colorado each bought approximately fifty percent of the water rights of the High Line Canal Company. Although originally no formal organization was established, the System was created as a joint venture between the two purchasers for the purpose of maintaining the water collection system and collecting and distributing the water pertaining to the water rights acquired by the two parties. Effective January 1, 2008, an Intergovernmental Agreement was established to create the Busk-Ivanhoe Water System Authority as a governmental entity separate from Pueblo Water and Aurora, pursuant to Section 18(2)(a) and (b) of Article XIV, Constitution of the State of Colorado, and to Part 2 of Article 1 of Title 29, Colorado Revised Statutes, to effect the development, operation, maintenance, and capital improvement of the Busk-Ivanhoe Water System. Pueblo Water and the City of Aurora each pay an annual assessment to the Authority. For the years ended December 31, 2025 and 2024, Pueblo Water paid assessments of \$2,288,000. Complete financial statements for the Busk-Ivanhoe Water System Authority can be obtained from Pueblo Water.

Fund Accounting

Pueblo Water’s financial report presents the activities of Pueblo Water on a fund basis. In governmental accounting, a fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. Pueblo Water uses two types of funds: a proprietary (enterprise) fund and fiduciary (pension trust) fund.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Proprietary (Enterprise) Fund

Except for pension activity, the proprietary (enterprise) fund accounts for all of Pueblo Water's operations, similar to a commercial enterprise, using the economic resources measurement focus and the accrual basis of accounting. Accordingly, revenues are recorded when earned and expenses are recorded when a liability is incurred. Pueblo Water adheres to all applicable financial accounting and reporting standards of the GASB. The intent of Pueblo Water is to establish water rates sufficient to provide for payment of general operations and maintenance expenses, as well as required debt service and capital expenditures.

Fiduciary Fund

The Pueblo Water Pension Plan fund accounts for the assets, liabilities, and changes in net position of Pueblo Water's defined benefit pension plan in accordance with GASB Statement No. 67, *Financial Reporting for Pension Plans*. The fiduciary pension trust fund is accounted for in essentially the same manner as the proprietary (enterprise) fund using the same measurement focus and basis of accounting.

Measurement Focus and Basis of Accounting

Pueblo Water's financial statements are accounted for on the flow of economic resources measurement focus, using the accrual basis of accounting. Under this method, all assets, deferred outflows and liabilities, and deferred inflows associated with operations are included on the statement of net position, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred.

Accounting Standards

The financial statements of Pueblo Water have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to proprietary and fiduciary funds of governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Annual Budget

Pueblo Water annually adopts a budget for the following year. This process begins in early August when divisional budget requests are submitted to the Director of Administrative Services. These requests are reviewed by senior management, following which the Director of Administrative Services prepares a preliminary budget for the entire entity and submits it to the Executive Director for review and input in relation to the anticipated revenues and Pueblo Water's ten-year plan. In early October, the preliminary budget is submitted to the Elected Board for its input, and it is also made available for public inspection at that time. The final budget, including all of the appropriate resolutions, is usually adopted at the Elected Board's November meeting, and it is then submitted to the State of Colorado Department of Local Affairs. The actual results of operations are presented in accordance with generally accepted accounting principles which differ in certain respects from those practices used in the preparation of the budget. For purposes of preparing budget comparisons in this report, actual results of operations have been adjusted to a basis consistent with the budgeted revenues and expenditures.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
 NOTES TO FINANCIAL STATEMENTS  
 DECEMBER 31, 2025 AND 2024

Restricted for Debt Service

Net assets restricted for debt service consist of the revenue bonds debt service fund included in cash. The revenue bonds debt service fund is used to pay principal and interest on the revenue bonds as they come due.

Cash and Equivalents

For purposes of the statements of cash flows, certificates of deposit and money market funds are considered to be cash equivalents.

Inventory

Inventories are valued on the weighted average method, which approximates lower of cost or market.

Insurance Contracts Receivable

Pueblo Water has life insurance on certain individuals who are covered under the Executive Supplemental Pension Plan. Pueblo Water is the beneficiary of these policies, and the policies are reported at their current cash surrender values.

Capital Assets

Purchased and constructed capital assets are recorded at cost. Donated capital assets are recorded at their acquisition value on the date received. Assets are capitalized if they have a cost of \$5,000 or more and have a useful life of more than one year. Depreciation or amortization of capital assets is computed on the straight-line method based on estimated service lives of properties by classes.

Estimated useful lives used in computing depreciation or amortization are as follows:

	<u>Years</u>
Structures and improvements, reservoirs, intakes and mains	40-50
Pumping equipment	40
Meters, valves, hydrants, taps, water treating equipment and wells	25
Heavy equipment, office furniture and equipment, computer equipment, pump plant controller, cathodic protection for lines and tanks, miscellaneous department equipment	5-10
Transportation equipment	4
Intangible software	10

Maintenance and repairs are charged to expense as incurred, whereas major betterments are capitalized and depreciated or amortized. At the time of retirement or disposition of depreciable property, the related cost and accumulated depreciation are removed from the accounts, and the resulting gain or loss is reflected in either nonoperating expense (loss) or nonoperating revenues (gain).

Costs of certain engineering, feasibility, environmental and other studies are capitalized until the related projects become operational. When projects become operational, the costs are transferred to property, plant, and equipment and depreciated over the estimated useful life of the asset. In the event the projects do not become operational, or the costs do not benefit future projects, all accumulated costs are expensed in the period such determination is made.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Nonutility Property

Property improvements that are made for the purpose of public safety, recreation and environmental reasons and not for the benefit of the utility, are classified as nonutility property. Nonutility property are noncurrent assets and Pueblo Water does not depreciate these assets.

Capital Contributions

Capital contributions consist of capital infrastructure received from property owners, governmental agencies, and customers who receive benefit from such assets. Contributions are recognized in the statement of revenues, expenses, and changes in net assets as capital contributions, when earned. Contributions are recognized at acquisition value at the time of contribution.

Employee Compensated Absences

Pueblo Water's policy is to accrue as an expense and liability employee vacation, sick leave and other compensated absences when the employee vests in such benefits.

Pensions

For purposes of measuring the net and total pension liability and deferred outflows/ inflows of resources related to pensions, and pension expense, information about the net position of the Retirement Plan for Employees of the Board of Water Works of Pueblo, Colorado (Plan) and additions to/deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, and determining the pension expense, there is no fiduciary net position of the Executive Supplemental Pension Plan. The Executive Supplemental Pension Plan recognizes benefit payments when due and payable in accordance with the benefit terms. See Note 12 for additional information.

Operating Revenues and Expenses

Operating revenues consist primarily of charges to customers for potable and non-potable water. Operating expenses consist of the cost of providing water, including administrative expenses and depreciation on capital assets and amortization. All other revenues and expenses are classified as nonoperating. Unbilled revenue, which results from cycle billing practices, is recorded in the following year.

Deferred Outflow of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

Construction Deposit

A construction deposit consists of a payment from a third party to cover the cost of a construction project for the benefit of the third party. Expenses are applied to the balance of the deposit as they are incurred. Any remaining balance of the deposit at the end of construction is returned.

Unearned Revenue

Unearned revenue consists of payments for potable and non-potable water that are to be delivered to the customer in a future year.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Customer Meter Deposits

Deposits may or may not be required of residential and commercial class customers, at the option of the Board. When required, the deposit shall typically be based upon the estimated cost of three (3) months water service, but in no event less than \$75.00. Deposits will be held for not less than twelve (12) months and are held to guarantee payment of all bills assessed to a property by the Board. Deposits will be reviewed for return to the depositor following twelve (12) months of service. To qualify for a refund, the account must not have been delinquent within the preceding twelve (12) months. When a customer requests a discontinuance of service, deposits shall not be refunded until a final meter reading is taken and the final bill computed.

Other Post-Employment Benefits (OPEB)

For purposes of measuring the total OPEB liability, and determining the OPEB expense, there is no fiduciary net position of the OPEB Plan. The OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. See Note 13 for additional information. The current portion of the OPEB liability is immaterial, therefore the entire balance is shown as non-current.

Loss on Refunding

The deferred change resulting from the refunding of debt is amortized over the shorter of the term of the refunding issue or the original term of the refunded debt.

Long-Term Obligations

Long-term debt and other obligations are reported as liabilities. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Gains or losses on prior refundings are amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter. The balance at year end for premiums and discounts is shown as an increase or decrease in the liability section of the statement of net position.

Rates and Fees

Consumption and service charges:

On November 18, 2025, Pueblo Water approved a rate increase, effective January 1, 2026, of 4.00%.

On November 19, 2024, Pueblo Water approved a rate increase, effective January 1, 2025, of 4.00%.

On November 21, 2023, Pueblo Water approved a rate increase, effective January 1, 2024, of 4.00%.

Plant Water Investment Fees:

On January 20, 2026, Pueblo Water approved a rate increase, effective May 1, 2026, of 4.00%.

On December 17, 2024, Pueblo Water approved a rate increase, effective May 1, 2025, of 4.00%.

On December 19, 2023, Pueblo Water approved a rate increase, effective May 1, 2024, of 4.00%.

Employee Relations

Pueblo Water and Local 1045 of the American Federation of State, County and Municipal Employees (AFL-CIO) adopted a working policy for the period of January 1, 2026 through December 31, 2026. Approximately 65% of the Board's employees are members of Local 1045.

Recently Issued Accounting Standards

In 2025, Pueblo Water implemented GASB Statement No. 102, *Certain Risk Disclosures*. This statement requires disclosure information about exposure to some risks due to certain concentrations or constraints that is essential to analyses for making decisions or assessing accountability. Pueblo Water has assessed the possible risks and do not believe there are any such risks to be disclosed at this time.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Effect of New Accounting Standards on Current Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

Statement No. 103, *Financial Reporting Model Improvements*  
Statement No. 104, *Disclosure of Certain Capital Assets*  
Statement No. 105, *Subsequent Events*

When they become effective, application of these standards may restate portions of these financial statements.

Note 2 – DEPOSITS AND INVESTMENTS

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, Pueblo Water's deposits may not be returned. All Pueblo Water deposits are either insured by FDIC or covered by the Colorado Public Deposit Protection Act ("PDPA") and are therefore not exposed to custodial credit risk. The PDPA requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by the State of Colorado. Amounts in excess of Federal insurance must be collateralized. The eligible collateral is determined by the Public Deposit Protection Act. This act allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102% of the uninsured deposits.

Cash equivalents shown as restricted assets on the statement of net position consist of funds restricted for the service of long-term debt.

Colorado Statutes and Pueblo Water's investment policy authorize Pueblo Water to purchase the following type of investments:

- U.S. Government direct obligations and unconditionally guaranteed federal agency securities
- Other Federal agency securities that have a liquid market with a readily determinable market value
- Certificates of deposit at financial institutions
- Commercial paper, rated in the highest tier
- Investment-grade obligations of state, provincial and local governments and public authorities
- Money market mutual funds and local government investment pools

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2025 AND 2024**

Pueblo Water's investments (current and long-term) at December 31, 2025 and 2024, and their maturities were as follows:

Current and Long-Term Investments As of December 31, 2025				
Investment Type	Fair Value	Investment Maturities (in years)		
		Less Than 1	1 - 5	6 - 10
Money market funds (not considered securities)	\$ 49,777,782	\$ 49,777,782	\$ -	\$ -
Non-negotiable certificates of deposit	21,462,240	21,462,240	-	-
Total	<u>\$ 71,240,022</u>	<u>\$ 71,240,022</u>	<u>\$ -</u>	<u>\$ -</u>

*For purposes of the statement of cash flows, certificates of deposit and money market funds are considered to be cash equivalents*

Current and Long-Term Investments As of December 31, 2024				
Investment Type	Fair Value	Investment Maturities (in years)		
		Less Than 1	1 - 5	6 - 10
Money market funds (not considered securities)	\$ 53,331,074	\$ 53,331,074	\$ -	\$ -
Non-negotiable certificates of deposit	20,535,564	20,535,564	-	-
Total	<u>\$ 73,866,638</u>	<u>\$ 73,866,638</u>	<u>\$ -</u>	<u>\$ -</u>

*For purposes of the statement of cash flows, certificates of deposit and money market funds are considered to be cash equivalents*

**Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates, Pueblo Water's investment policy provides for structuring the portfolio so that securities mature concurrent with cash flow requirements. Interest rate risk refers to the risk that changes in interest rates may adversely affect an investment's fair value. Pueblo Water had no direct investments subject to interest rate risk. Unless matched to a specific cash flow, Pueblo Water will not directly invest in securities maturing more than five years from the date of purchase.

**Credit Risk**

Pueblo Water limits the purchase of commercial paper and corporate bonds to those rated in the highest tier by a nationally recognized rating agency. As of December 31, 2025 and 2024, Pueblo Water had no direct investments in commercial paper or corporate bonds.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2025 AND 2024**

As of December 31, 2025 and 2024, Pueblo Water had the following money market fund investments:

<u>Money Market Fund</u>	<u>2025</u>	<u>2024</u>	<u>Ratings</u>		
			<u>Moody's</u>	<u>Fitch</u>	<u>S&amp;P</u>
Colostrust Plus+	\$ 46,669,174	\$ 47,573,466	Aaa	AAA/VI+	AAAm
Wells Fargo Governmt MMKT	<u>3,108,608</u>	<u>5,757,608</u>	Aaa	AAA/VI+	AAAm
Total Money Market Funds	<u>\$ 49,777,782</u>	<u>\$ 53,331,074</u>			

Concentration of Credit Risk

Pueblo Water places no limit on the amount invested in any one issuer. The amount of investments that represent 5% or more of Pueblo Water's investments as of December 31, 2025 (\$3,562,001) and December 31, 2024 (\$3,693,332) can be determined from the above information.

Board of Water Works of Pueblo Fiduciary Funds

The fiduciary statements include funds related to the Retirement Plan for Employees of the Board of Water Works of Pueblo, Colorado. In 2021, Pueblo Water amended the investment policy for the Retirement Plan to invest 2% - 8% of its assets in fixed income securities, 53% - 89% of its assets in equity securities, 7% - 13% of its assets in real estate assets, 4% - 10% in energy infrastructure assets and 4% - 10% of its assets in liquid low correlated hedge funds. The Retirement Plan utilizes an investment consultant to assist in establishing investment policy, objectives, and guidelines; selecting funds and fund managers; reviewing such funds and fund managers over time; measuring and evaluating investment performance; and other tasks as deemed appropriate.

The following table summarizes fiduciary fund investments at December 31, 2025 and 2024.

<u>Investment type</u>	<u>12/31/2025</u>	<u>12/31/2024</u>
Collective and pooled funds		
Domestic equity	\$ 36,559,435	\$ 33,306,569
Domestic debt	-	-
Money market funds (measured at net asset value)	702,107	305,148
Private equity	<u>2,471,619</u>	<u>2,294,685</u>
Total investments	<u>\$ 39,733,161</u>	<u>\$ 35,906,402</u>

Money market funds are reported as Cash and equivalents in the Statements of Fiduciary Net Position.

Fair Value

Pueblo Water categorizes its fair value measurements within the fair value hierarchy. The Fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Domestic equity securities classified in Level 1 of the fair value hierarchy were valued using prices quoted in active markets for those securities. Money market mutual funds classified in Level 1 were valued using one dollar per share. Private equity securities classified in Level 2 of the fair value hierarchy were valued using institutional evaluations based on various market and industry inputs.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

The following tables summarize fiduciary fund investments by the fair value hierarchy as of December 31, 2025 and 2024.

Investments Measured at Fair Value As of December 31, 2025				
Investment type	12/31/2025	Fair Value Measurements Using		
		Level 1	Level 2	Level 3

Note 3 – ACCOUNTS RECEIVABLE

Accounts receivable at December 31, 2025 and 2024 are as described below. Receivables for City charges include wastewater and stormwater fees for which Pueblo Water bills, collects and remits to the City on a monthly basis. The uncollected sewer and stormwater fees charged to customers are carried as a receivable, and unremitted and uncollected sewer and stormwater fees are carried as a liability on the statement of net position. Other receivables include, non-potable water sales and construction related receivables. The allowance for uncollectible accounts is computed at one percent of customer receivables without considering receivables for City charges and customer overpayments at year end.

Accounts Receivable		
	December 31,	
	2025	2024
Receivables for treated water sales	\$ 882,847	\$ 925,007
Receivables for City charges	2,264,799	2,454,831
Receivables for nonpotable water sales	9,283,098	3,974,041
Other receivables	678,981	573,458
Allowance for uncollectible accounts	(106,422)	(53,171)
Total	\$ 13,003,303	\$ 7,874,166

**Note 5 – DEFERRED OUTFLOWS OF RESOURCES**

Pueblo Water has two items, one of which is included in net investment in capital assets. Included with the May 3, 2005 issuance of \$28,575,000 in Water Revenue Refunding Bonds, Pueblo Water recorded an original deferred amount on refunding of \$2,574,088. The unamortized portion of the deferred amount on refunding as of December 31, 2014 was \$1,066,036. As explained further in Note 7, these bonds were refunded in 2015 and consequently the unamortized portion of the original deferred amount on refunding became a part of the calculation for the deferred amount on refunding of the refunding bonds issued in 2015. In connection with the August 6, 2015 issuance of \$16,430,000 in Water Revenue Refunding Bonds, Pueblo Water recorded an original deferred amount on refunding of \$731,312. In connection with May 15, 2019 issuance of \$18,595,000 in Water Revenue Refunding Bonds, Pueblo Water recorded an original deferred amount on refunding of \$623,890.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2025 AND 2024**

The unamortized portion of the deferred amount on refunding as of December 31, 2025 and 2024 is shown in the following table:

	Unamortized Deferred Amount on Refunding	
	December 31,	
	2025	2024
Series 2019	<u>\$ 213,163</u>	<u>\$ 275,552</u>

**Note 6 – RISK MANAGEMENT**

Pueblo Water is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. These risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial liability in any of the past three years. There were no significant reductions in coverage compared to the prior year.

**Note 7 – DEFERRED REVENUE**

In 1990 and 1995, Pueblo Water acquired water rights from the State of Colorado and the City of Pueblo, Colorado, respectively, in exchange for supplying a certain amount of water each future year. In 1992 and 2004, Pueblo Water acquired water rights from individuals in exchange for supplying a certain amount of water each future year. The value of these water rights was determined based upon the fair value of the rights acquired. The deferred income from these acquisitions is being amortized over forty years and, pursuant to GASB statement No. 65, is classified as a deferred inflow of resources.

**Note 8 – BONDS PAYABLE**

Revenue Bonds

The bond agreements contain various restrictive covenants and requirements, including a rate covenant, maintenance of a three month operating reserve, debt service requirements and compliance with an additional bond and /or indebtedness test.

Series 2009

On October 22, 2009, Pueblo Water issued \$25,870,000 in Taxable Water Revenue Bonds (Build America Bond – Direct Payment to Issuer); Series 2009 were issued in three term bonds with rates between 4.3% and 5.7%. The Bonds were issued, together with proceeds from the sale of the Columbine Ditch, to purchase water rights from various shareholders of the Bessemer Irrigating Ditch Company. Interest payments are due semi-annually on May 1 and November 1 through 2029 with principal payments due annually on November 1. As stated above \$24,245,000 of these bonds were advance refunded on May 15, 2019. The amount of defeased debt outstanding as of December 31, 2025 and 2024 was \$16,880,000.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2025 AND 2024**

A summary of debt maturity for the revenue bonds as of December 31, 2025, is as follows:

Revenue Bonds As of December 31, 2025			
	Principal	Interest	Total
<u>Year of Maturity:</u>			
Current	\$ 2,670,000	\$ 574,500	\$ 3,244,500
Long-term:			
2027	2,800,000	441,000	3,241,000
2028	2,935,000	301,000	3,236,000
2029	3,085,000	154,250	3,239,250
Total revenue bonds	8,820,000	896,250	9,716,250
Plus premium	1,272,291	-	1,272,291
Total long-term	10,092,291	896,250	10,988,541
Total revenue bonds and premium	\$ 12,762,291	\$ 1,470,750	\$ 14,233,041

Loan Agreement

On August 28, 2023, Pueblo Water entered into a loan agreement with Colorado Water Conservation Board (CWCB) for \$9,750,000 with a 1% loan origination fee of \$97,500 for a total loan amount of \$9,847,500. Interest at 2.25% and principal payments are due annually on February 1, through 2045. During the construction period, interest was accrued only for the principal amount outstanding at the time. As of December 31, 2024, the origination fee was added to the loan on February 1, 2025.

A summary of debt maturity for the loan agreement as of December 31, 2025, is as follows:

Loan Agreement As of December 31, 2025			
	Principal	Interest	Total
<u>Year of Maturity:</u>			
Current	\$ 395,299	\$ 221,569	\$ 616,868

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 10 – PENSION PLAN

Plan Description

Pueblo Water contributes to the Retirement Plan for Employees of the Board of Water Works of Pueblo, Colorado, a single-employer defined benefit retirement plan that is administered by Innovest Portfolio Solutions, with benefit payments administered by AXA Equitable. At the November 21, 2017 board meeting, Pueblo Water engaged the services of Innovest Portfolio Solutions to manage the Plan’s portfolio and subsequently moved the custodian of plan assets from LPL Financial to Charles Schwab Institutional effective December 29, 2017. The Plan provides retirement benefits to plan members and or their beneficiaries. Members of the Plan include substantially all regular full-time employees of Pueblo Water. The Plan does not issue a separate financial report.

Benefits Provided

Pueblo Water provides retirement benefits to eligible employees and beneficiaries. The amount of the ultimate retirement benefit is based upon annual accruals equal to either 2.3% or 2.1% of base monthly salary. Effective April 1, 2015 only those employees who were eligible to retire as of March 31, 2015 continue to accrue at a rate of 2.3% of base monthly salary. The accrual rate for all other employees was reduced to 2.1%. In addition, for those that qualify for annual accruals equal to 2.1% of monthly base salary, future salary increases, for the purpose of calculating the benefit cannot exceed 3.5%. Employees are vested in the Plan after five years of credited service. Members with fifteen years of service are eligible to retire at either age 60 or age 55 with reduced benefits depending on the date they became vested. Members who have either reached age 65 or the total of their age and credited years of service is equal to or greater than 90 are eligible for their full benefit.

The Plan provides the opportunity of a “bonus” based upon the annualized return of the Plan’s investments. If the annualized return for the previous five-year period exceeds 7.5%, retirees receive a one-time bonus equal to a minimum of \$100 or a maximum of 3% of the annual pension amount.

Employees Covered

At December 31, 2025 and 2024, the following employees were covered by the benefit terms of the Plan:

Employees Covered	2025	2024
Inactive employees or beneficiaries currently receiving benefits	120	117
Inactive employees entitled to but not yet receiving benefits	20	16
Active employees	136	134
Total	276	267

Contributions

Pueblo Water’s funding policy is established and may be amended by the Elected Board, which acts as trustee of the Plan. The Plan’s funding policy provides for periodic Pueblo Water contributions of actuarially determined amounts sufficient to accumulate the necessary assets to pay benefits when due. Pueblo Water solicits an actuary to determine the contribution amounts on a biennial basis. These required contributions may vary over time and are not expressed in terms of fixed dollar amounts or as a percentage of annual covered payroll. Plan members are not required to make contributions. It is the intention of Pueblo Water to continue the Plan and make contributions that are necessary to maintain the Plan on a sound actuarial basis. Currently Pueblo Water intends to contribute no less than \$1,300,000 to the plan annually through 2025, then reverting to annual amounts equal to the actuarial determined contribution. However, subject to the provisions of Article 10 of the Plan, Pueblo Water may discontinue contributions for any reason at any time. Pueblo Water’s contribution to the Plan for the years ended December 31, 2025 and 2024 was \$1,300,000 and \$1,300,000, respectively.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Net Pension Liability

Pueblo Water’s net pension liability for the Plan is measured as the total pension liability, less the Plan’s fiduciary net position. The net pension liability of the Plan is measured as of December 31, 2025 and 2024, using an actuarial valuation as of January 1, 2025. A summary of principal assumptions and methods used to determine the net pension liability is shown below:

Actuarial Assumptions	
Valuation Date	January 1, 2025 and 2024
Measurement Date	December 31, 2025 and 2024
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rate	7.5%
Inflation	Wage inflation 3.0%. Price inflation not explicit
Projected Salary Increase <sup>1</sup>	3.5% to 7.4%
Investment Rate of Return	7.5%
Mortality <sup>2</sup>	Varies

<sup>1</sup>Includes inflation and varies on age, service and type of employment

<sup>2</sup>Mortality (Pre-retirement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Post-retirement) - Pub-2010 Headcount-Weighted General Healthy Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Pre-Disablement) - Pub-2010 Headcount-Weighted General Disabled Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan’s fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan’s projected fiduciary net position is not sufficient to pay benefits). For the purpose of the Plan’s valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate for December 31, 2025 and 2024 is 4.83% and 4.08%, respectively (based on the daily rate closest to but not later than the measurement date of the Fidelity “20-Year Municipal GO AA Index”); and the resulting Single Discount Rate is 7.50%.

Note 11 – OTHER RETIREMENT PLANS

Plan Description

Pueblo Water has entered into various agreements with its senior executives to provide a supplemental retirement benefit. This single employer defined benefit plan provides for an annual benefit equivalent to 10% of the retiree’s average salary over their final three years of employment. In addition, some senior executives are entitled to a death benefit ranging from \$100,000 to one times annual salary, should they become deceased while still employed by Pueblo Water. The Plan does not issue a separate financial report.

Employees Covered

At December 31, 2025 and 2024, the following employees were covered by the benefit terms of the Plan:

Employees Covered	2025	2024
Inactive employees or beneficiaries currently receiving benefits	8	8
Inactive employees entitled to but not yet receiving benefits	-	-
Active employees	3	3
Total	11	11

Funding Policy

Pueblo Water’s funding policy is established and may be amended by the Elected Board, which acts as trustee of the Plan. Currently, the Plan is funded through the issuance of separate “whole life” insurance policies, on which Pueblo Water pays an annual premium.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Total Pension Liability

Pueblo Water’s total pension liability for the Plan is measured as of December 31, 2025, using an actuarial valuation as of January 1, 2026. A summary of principal assumptions and methods used to determine the net pension liability is shown below:

2025 Actuarial Assumptions	
Valuation Date	January 1, 2026
Measurement Date	December 31, 2025
Actuarial Assumptions:	
Discount Rate	4.83%
Inflation	Not explicit
Projected Salary Increase	3.5%
Investment Rate of Return	4.83%
Mortality <sup>1</sup>	Varies

Discount Rate

Per paragraph 31 of GASB Statement No. 73, the discount rate should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. A discount rate of 4.83% and 4.08% was used to measure the total pension liability as of December 31, 2025 and 2024, respectively.

DECEMBER 31, 2025 AND 2024

Pension Expense

The table below illustrates Pueblo Water’s pension expense for the year ended December 31, 2025:

Service cost	\$	19,300
Interest on the total pension liability		47,994
Current-period benefit changes		-
Pension Plan Administrative Expense		-
Recognition of outflow (inflow) of resources due to liabilities		(6,560)
Recognition of outflow (inflow) of resources due to assets		(43,771)
Total pension expense	\$	<u>16,963</u>

The table below illustrates Pueblo Water’s pension expense for the year ended December 31, 2024:

Service cost	\$	19,669
Interest on the total pension liability		45,349
Current-period benefit changes		-
Pension Plan Administrative Expense		-
Recognition of outflow (inflow) of resources due to liabilities		(25,507)
Recognition of outflow (inflow) of resources due to assets		(6,439)
Total pension expense	\$	<u>33,072</u>

Pueblo Water offers its employees deferred compensation plans created in accordance with Internal Revenue Code Section 457. The plans permit employees to defer a portion of their salary to future years. Participation in the plan is optional. Pueblo Water matches employee contributions up to 3% of annual compensation. The deferred compensation is not available to the employees until termination, retirement, death, or qualifying emergency. Pueblo Water has no liability for losses under the plans but does have the duty of due care that would be required of an ordinary prudent investor. Investments are managed by the plan’s trustees under one of several investment options, or a combination thereof. The choice of the investment option(s) is made by the participants.

Data concerning Pueblo Water’s deferred compensation plans follows:

Balance, December 31, 2024	\$	33,209,202
2025 employee contributions		1,032,628
2025 employer contributions		344,108

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 12 – OTHER POSTEMPLOYMENT BENEFITS

Plan Description

Pueblo Water provides two types of other postemployment benefits (“OPEB”) as follows. Neither OPEB plan issues a separate report:

a. *Postemployment Healthcare Benefits*

Pueblo Water provides a postemployment healthcare benefit through a single-employer, defined benefit plan. The benefit is in the form of subsidized health care costs for retired members and eligible dependents, up to member age 65. Employees who retire under early retirement (rule of 90) can enroll in the plan, with Pueblo Water paying approximately 79% of the insurer required premium, and the member paying the remaining approximately 21%. The Board has both an explicit (due to premium subsidy) and implicit (due to the retirees being included with the active members in the setting of the premium rates) subsidy.

b. *Life Insurance*

All retirees of Pueblo Water and their spouses participate in a life insurance plan. The Plan provides a death benefit of \$25,000 for future retirees and \$2,000 for the spouse and dependent (up to age 21). The death benefit for current retirees varies depending on when they retired and the plan in place at that time. Coverage ranges from 50% to 100% of final salary or \$25,000.

Employees Covered

At December 31, 2025 and 2024, the following employees were covered by the benefit terms of the Plan:

	2025	2024
Inactive plan members or beneficiaries currently receiving benefits	83	83
Inactive plan members entitled to but not yet receiving benefits	-	-
Active plan members	137	135
Total	220	218

Roll forward of Actuarial Data

The actuarial valuation was performed as of January 1, 2025. Update procedures were used to roll forward the total OPEB liability to December 31, 2025.

Funding Policy

Pueblo Water’s funding policy is established and may be amended by the Elected Board. Pueblo Water is not required to establish an irrevocable trust fund to accumulate assets for payment of future OPEB benefits and has elected not to do so for 2025 and 2024. Pueblo Water may review its funding policy in the future. Currently, payments of OPEB benefits are made on a pay-as-you-go basis in amounts necessary to provide current benefits to recipients. For the years ended December 31, 2025 and 2024, Pueblo Water contributed, irrespective of applicable subsidies, \$48,600 and \$40,109, respectively to the postemployment benefit plans.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**

**DECEMBER 31, 2025 AND 2024**

Total OPEB Liability

Pueblo Water's total OPEB liability for the Plan is measured as of December 31, 2025 and 2024, using an actuarial valuation as of January 1, 2025 and 2024. A summary of principal assumptions and methods used to determine the total OPEB liability is shown below:

Actuarial Assumptions	
Valuation Date	January 1, 2025
Measurement Date	December 31, 2025
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rate	4.83%
Inflation	2.5%
Projected Salary Increase <sup>1</sup>	3.0% to 7.4%
Mortality <sup>2</sup>	Varies
Healthcare Trend Rates	Initial rate of 7.00% declining to an ultimate rate of 4.25% after 15 years

<sup>1</sup>Includes inflation and varies on age, service and type of employment

<sup>2</sup>Mortality (Pre-retirement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Post-retirement) - Pub-2010 Headcount-Weighted General Healthy Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Pre-Disablement) - Pub-2010 Headcount-Weighted General Disabled Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

The discount rate changed from 4.08% as of December 31, 2024 to 4.83% as of December 31, 2025.

Actuarial Assumptions	
Valuation Date	January 1, 2024
Measurement Date	December 31, 2024
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rate	4.08%
Inflation	2.5%
Projected Salary Increase <sup>1</sup>	3.0% to 7.4%
Mortality <sup>2</sup>	Varies
Healthcare Trend Rates	Initial rate of 7.00% declining to an ultimate rate of 4.25% after 15 years

<sup>1</sup>Includes inflation and varies on age, service and type of employment

<sup>2</sup>Mortality (Pre-retirement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Post-retirement) - Pub-2010 Headcount-Weighted General Healthy Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

<sup>2</sup>Mortality (Pre-Disablement) - Pub-2010 Headcount-Weighted General Disabled Retiree Mortality Tables projected with the Ultimate rates from MP-2020 Scale.

The discount rate changed from 3.77% as of December 31, 2023 to 4.08% as of December 31, 2024.

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2025 AND 2024**

Note 13 – SICK AND VACATION LEAVE

Effective July 1, 1984, all full-time employees accumulate paid sick leave at the rate of twelve hours per month. All employees who, at that date, had accumulated in excess of 720 hours were, at their option, paid for the excess hours. Any employee who did not select the optional payoff on July 1, 1984, can do so at a later date. As of January 1, 1996, new employees accumulate paid sick leave at the rate of eight hours per month. All employees who have accumulated in excess of 720 hours are paid for the excess hours in July of each year. The sick leave hours are valued at the employee’s regular rate of pay in effect at the time. At termination, employees are paid for any accumulated sick pay. The liability of accumulated sick pay at December 31, 2025 and 2024 is \$2,293,385 and \$2,394,856.

Each employee may accrue up to a maximum of 248 hours of vacation leave. At the employee’s request, a payoff for a maximum of 56 hours of accumulated vacation leave can be made during the anniversary year. The vacation leave hours are valued at the employee’s regular rate of pay in effect at the time. In addition, each employee receives eight hours of personal holiday annually which is not available for carryover. The liability for accumulated vacation pay at December 31, 2025 and 2024 is \$573,996 and \$620,906.

Employees are entitled to accrue vacation leave for the twelve-month period, following their date of hire (anniversary date) according to the following scale:

Years of Service	Hours
1 to 5	96
6 to 10	120
11 to 15	144
15 and over	168

Note 14 – TERMINATION BENEFITS

In compliance with federal law, Pueblo Water provides healthcare continuation under the Consolidated Omnibus Budget Reconciliation Act (“COBRA”). At December 31, 2025 and 2024 there was no COBRA liability. Pueblo Water does not offer early retirement incentives or involuntary termination benefits.

Note 15 – ACCOUNTS PAYABLE

Accounts payable are comprised of outstanding bills for expenses, materials and capital assets related to the budget for the years ended December 31, 2025 and 2024. Included in outstanding bills at December 31, 2025 is \$5,778,450 owed to the City of Pueblo, Colorado for collection of the City’s sewer and storm water. Included in outstanding bills at December 31, 2024 is \$5,279,330 owed to the City of Pueblo, Colorado for collection of the City’s sewer and storm water.

Note 16 – LIABILITIES PAYABLE FROM RESTRICTED ASSETS

Liabilities payable from restricted assets consists of current maturities and accrued interest on long-term debt in connection with various water system improvement projects. As of December 31, 2025 and 2024, the amounts payable were \$3,364,153 and \$2,801,506, respectively.

Note 17 – CONCENTRATIONS

Pueblo Water has a contract with Public Service Company to provide the Comanche Power Station with nonpotable water for power generation. For the years ended December 31, 2025 and 2024, the contract accounted for 13% and 14% operating revenues, respectively.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 18 – RECONCILIATION OF BUDGETARY DIFFERENCES

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

**Funding Sources**

Actual amounts (budgetary basis) "total funding sources" from the budgetary comparison schedule	
General Fund	\$ 48,072,986
Debt Service Fund	4,033,922
Water Development Fund	<u>1,247,284</u>
Total funding sources	53,354,192

Adjustments:

Contributions to capital assets are recorded as revenue for GAAP but are not considered a budgetary resource.	950,119
Sale of assets is recorded as sales price less net book value for GAAP, but for budgetary purposes only proceeds are recognized.	(34,091)
Current year gain on insurance contracts is recorded as revenue for GAAP but is not considered a budgetary resource.	74,368
Current year portion of deferred revenue is recorded as revenue for GAAP but is not considered a budgetary resource.	23,869
Allocation of Service Line Repair program is recorded as revenue for GAAP but is not considered a budgetary resource.	160,028
Contributions to reserves are considered a budgetary resource but are not considered revenue for GAAP reporting.	10,591,377
Transfers from other funds are inflows of budgetary resources but are not a current year revenue for GAAP reporting.	<u>(3,863,243)</u>

Total of all revenues as reported on the Statement of Revenues, Expenses, and Changes in Net Position	<u>\$ 61,256,619</u>
----------------------------------------------------------------------------------------------------------	----------------------

Total revenues as reported on the Statement of Revenues, Expenses, and Changes in Net Position is comprised of:	
Operating revenues	\$ 57,062,196
Interest income	3,105,309
Realized gain (loss) on investments	74,368
Sale of assets	64,627
Contributions	<u>950,119</u>
	<u>\$ 61,256,619</u>

**Funding Uses**

Actual amounts (budgetary basis) "total uses"	
from the budgetary comparison schedule	
General Fund	\$ 48,072,987
Debt Service Fund	4,033,922
Water Development Fund	<u>7,901,732</u>
Total uses	60,008,641
Adjustments:	
Capital items are treated as expenditures for budgetary purposes but are capitalized for financial reporting	(12,267,937)
Labor used to construct capital assets is capitalized for GAAP and classified as personnel services for budgetary purposes	(439,862)
Capital items with an original cost less than \$5,000 are treated as an operating expense for GAAP and shown as a capital item for budgetary purposes	640,515
Expenditures are encumbered for 2025 budget but are not expensed for financial reporting	(5,656,812)
Allocation of Service Line Repair program is recorded as expense for GAAP but is not considered a budgetary resource.	160,028
Outflows for budgetary purposes not recognized for financial reporting purposes:	
Transfers	(3,863,243)
Contributions to reserves	(170,679)
Principal payments on long-term debt	(2,970,026)
Expense items shown for financial reporting not treated as budgetary outflows:	
Difference between cash and non-cash other postemployment benefits	(63,768)
Difference between cash and non-cash pension contributions	(263,394)
Depreciation	6,930,940
Amortization	18,150
Bad debts	69,169
Loss on abandonment of assets	33,747
Interest expense on capital obligation	592,290
Interest expense for budget reporting purposes is based upon monthly transfers to the Debt Service Fund while interest expense for the financial statements reflect GAAP	<u>(893,217)</u>
Total of all expenses as reported on the Statement of Revenues, Expenses, and Changes in Net Position	<u>\$ 41,864,542</u>
Total expenses as reported on the Statement of Revenues Expenses and Changes in Net Position is comprised of:	
Operating expenses	\$ 41,272,252
Interest expense on bonded indebtedness	<u>592,290</u>
	<u>\$ 41,864,542</u>

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 19 – CONTRACT COMMITMENTS

As of December 31, 2025, the Board had a contract with Miller Pipeline, LLC to replace a transmission main. The total amount contracted is \$1,111,855, which had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had a contract with H.W. Houston Construction, LLC for remodel of facilities and construction of a fleet maintenance shop at Transmission, Distribution and Engineering. The total contract amount is \$5,130,018, of which \$3,936,425 had yet to be paid as of December 31, 2025 and \$5,130,018 as of December 31, 2024.

As of December 31, 2025, the Board had contracts with Cummins Sales & Service for the purchase and installation of an emergency generator at the La Vista tank site. The total amount contracted is \$1,161,675, of which had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had contracts with Demmon Design Studios, Inc. for engineering and design services related to a remodel of facilities at Transmission, Distribution and Engineering. The total amount contracted is \$302,401, of which \$35,546 had yet to be paid as of December 31, 2025 and \$82,103 as of December 31, 2024.

As of December 31, 2025, the Board had contracts with GEI Consultants, Inc. for reservoir enlargement investigation and planning. The total amount contracted is \$408,342, of which \$91,238 had yet to be paid as of December 31, 2025 and \$201,179 as of December 31, 2024.

As of December 31, 2025, the Board had contracts with Gugler Water Turbines GMBH and other vendors for the construction and installation of hydroelectric power at the Treatment Plant. The total contract amount is \$9,984,553, of which \$73,101 had yet to be paid as of December 31, 2025 and \$463,925 as of December 31, 2024.

As of December 31, 2025, the Board had a contract with Johnson Environmental Consulting for reservoir enlargement investigation and planning. The total amount contracted is \$109,263, of which \$70,529 had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had contracts with various contractors to install 16” main from a pump site to the other side of Fountain Creek. The total amount contracted is \$3,042,291, of which \$3,033,125 had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had a contract with Russ Grading and Excavating to complete citywide main replacement. The total amount contracted is \$2,548,735, of which \$214,402 had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had a contract with Stertil-Koni USA, Inc. for a large truck lift. The total amount contracted is \$198,354, which had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had contracts with 21<sup>st</sup> Century Equipment, McCandless Truck Center and 4 Rivers Equipment, LLC to provide a mid size excavator, a tandem axle dump truck and a large equipment trailer. The total amount contracted is \$349,447, which had yet to be paid as of December 31, 2025.

As of December 31, 2025, the Board had a contract with Bailey Valve, Inc. for a PDB sleeve valve replacement. The total amount contracted is \$679,100, which had yet to be paid as of December 31, 2025.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 20 – NET INVESTMENT IN CAPITAL ASSETS

In the net position sections of the *Statements of Net Position*, Net Investment in Capital Assets is comprised of the following as of December 31, 2025 and 2024:

	Net Investment in Capital Assets	
	December 31,	
	2025	2024
Net capital assets	\$ 277,789,608	\$ 279,595,414
Retainage withheld on construction contracts	(328,337)	(1,027,064)
Construction deposit	(429,389)	(1,777,718)
Current maturities of long-term debt	(3,065,299)	(2,545,000)
Revenue bonds	(8,820,000)	(11,490,000)
Loan and repayment contract	(9,354,701)	(9,750,000)
Deferred amount on refunding	213,163	275,552
Unamortized bond premium	(1,272,291)	(1,644,670)
	\$ 254,732,754	\$ 251,636,514

Note 21 – CAPITAL CONTRIBUTIONS

Inception-to-date and current year proceeds from capital contributions were as follows:

Capital Contributions	
Inception through December 31, 2023	\$ 26,016,960
2024 Additions	289,514
Inception through December 31, 2024	26,306,474
2025 Additions	2,551,093
Inception through December 31, 2025	\$ 28,857,567

Note 22 – CLOSURE AND POST-CLOSURE CARE COSTS

In 2013 the Colorado Department of Public Health and Environment (CDPHE) issued new regulations for water treatment plants that produce a coagulant sludge during the water treatment process. According to Section 9 of the Hazardous Waste Regulations (6 CCR 1007-2, part I, p. 166-181.16) Pueblo Water’s Whitlock Water Treatment Facility is defined as a class “A” Waste Impoundment facility, and accordingly is subject to the provisions of the regulation that require a closure plan. Included with the regulations is the requirement that Pueblo Water disclose certain items from GASB Statement No. 18 within the notes to Pueblo Water’s financial statements.

The impoundments covered in Pueblo Water’s closure plan are used exclusively to dry alum sludge which is a by-product of the water treatment process utilized at the plant. The impoundments are temporary storage locations and are cleaned by physically removing the sludge and transporting it to an approved landfill on an annual basis. Since the impoundments are not of the same nature as a Municipal Solid Waste Landfill (MSWLF) Pueblo Water does not believe it is subject to all of the requirements promulgated in GASB Statement No. 18. Consequently, Pueblo Water does not recognize an annual cost and associated liability related to the contemplated closure and post-closure care costs, rather these costs are shown below in compliance with the regulations set forth by the CDPHE.

Pueblo Water currently anticipates total closure costs of \$492,320 and post-closure costs of \$15,847.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2025 AND 2024

Note 23 – SUBSEQUENT EVENTS

Pueblo Water has evaluated subsequent events through March 11, 2026, which is the date the financial statements were available to be issued. As of that date there were no material subsequent events affecting Pueblo Water's financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

**BOARD OF WATER WORKS OF PUEBLO, COLORADO**  
**REQUIRED SUPPLEMENTARY INFORMATION (Unaudited)**  
**DECEMBER 31, 2025 AND 2024**

**Required Supplementary Information**

As part of implementing GASB Statement No. 68, *Accounting and Financial Reporting for Pensions: an amendment of GASB Statement No. 27*, Pueblo Water is required to include supplementary information showing the ten-year history of:

1. Sources of changes in the net pension liability.
2. Information about the components of the net pension liability and related ratios, including the Plan’s fiduciary net position as a percentage of the total pension liability, and the net pension liability as a percent of covered-employee payroll.
3. A comparison of actual employer contributions to the actuarially determined contributions based on the Plan’s funding policy.

A schedule of changes in net pension liability and related ratios for the past ten years is shown below:

Schedule of Changes in Net Pension Liability and Related Ratios Multiyear										
Fiscal year ending December 31,	2025	2024	2023	2022	2021	2020	2019	2018	2017	2016
<b>Total pension liability</b>										
Service Cost	\$ 701,752	\$ 626,187	\$ 607,949	\$ 592,600	\$ 575,340	\$ 512,039	\$ 497,125	\$ 520,681	\$ 503,074	\$ 500,567
Interest on the total pension liability	3,003,957	2,899,250	2,827,429	2,807,555	2,732,824	2,536,499	2,483,508	2,393,870	2,326,414	2,166,514

<sup>1</sup>Changes in assumptions reflect the effects of changes in the mortality rate tables used each measurement period.

The following are the mortality rate tables used in each measurement period:

Fiscal year ending December 31, 2021	Mortality rates (pre- and post-retirement) - Combined RP-2000 Mortality Tables projected with scale AAA to 2028 for members not receiving benefits and projected to 2020 for members receiving benefits. Mortality rates (post-disablement) - 1983 Railroad Board Disabled Mortality Table.
Fiscal year ending December 31, 2020	Mortality rates (pre-retirement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from the MP-2020 Scale. Mortality rates (post-retirement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from the MP-2020 Scale. Mortality rates (post-disablement) - Pub-2010 Headcount-Weighted General Employee Mortality Tables projected with the Ultimate rates from the MP-2020 Scale.

BOARD OF WATER WORKS OF PUEBLO, COLORADO  
 REQUIRED SUPPLEMENTARY INFORMATION (Unaudited)  
 DECEMBER 31, 2025 AND 2024

A comparison of actual employer contributions to the actuarially determined contributions based on the Plan's funding policy for the past ten years is shown below:

Schedule of Contributions					
Year Ended December 31,	Actuarially Determined Contribution	Actual Contribution <sup>2</sup>	Contribution Deficiency (Excess)	Covered Payroll <sup>1</sup>	Actual Contribution as a % of Covered Payroll
2025	\$ 1,122,683	\$ 1,300,000	\$ (177,317)	\$ 12,166,742	10.68%
2024	1,069,563	1,300,000	(230,437)	10,634,204	12.22%
2023	1,069,563	1,300,000	(230,437)	10,324,470	12.59%
2022	1,295,267	1,300,000	(4,733)	10,162,723	12.79%
2021	1,295,267	1,817,404	(522,137)	9,866,721	18.42%
2020	1,317,404	2,067,404	(750,000)	9,881,993	20.92%
2019	1,317,404	2,164,710	(847,306)	9,594,168	22.56%
2018	1,414,710	3,164,710	(1,750,000)	9,497,751	33.32%
2017	1,414,710	2,976,479	(1,561,769)	9,211,967	32.31%
2016	1,252,794	1,379,559	(126,765)	8,934,679	15.44%

<sup>1</sup> Covered payroll is the amount in force as of the valuation date and differs from actual payroll paid during the year

<sup>2</sup> Actual contributions include advisor fees not paid by the Plan

<sup>1</sup>Changes in assumptions reflect the effects of changes in the discount rate each measurement period.

Notes to schedule

There are no assets accumulated in a trust that meet the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the plan.

The following are the discount rates used in each measurement period:

Fiscal year ending December 31, 2025	4.83%
Fiscal year ending December 31, 2024	4.08%
Fiscal year ending December 31, 2023	3.77%
Fiscal year ending December 31, 2022	4.05%
Fiscal year ending December 31, 2021	1.84%
Fiscal year ending December 31, 2020	2.00%
Fiscal year ending December 31, 2019	2.75%
Fiscal year ending December 31, 2018	3.71%

<sup>2</sup>FYE 21 - The demographic and spouse coverage assumptions were updated.

<sup>3</sup>FYE 23 - The healthcare trend assumption was updated.

# STATISTICAL SECTION

# Board of Water Works of Pueblo, Colorado

## Statistical Section Contents and Explanation

The statistical section of the Board of Water Works of Pueblo, Colorado's ("Pueblo Water") comprehensive annual financial report presents detailed information to provide context for users of the Pueblo Water's financial statements. The information presented allows users to obtain a better understanding of the Pueblo Water's overall financial health and stability.

While care has been taken to provide adequate explanation of the information provided, should questions remain please direct them to:

Director of Administrative Services  
Board of Water Works of Pueblo, Colorado  
P.O. Box 400  
Pueblo, Colorado 81002-0400

### Financial Trends Information

This section provides information related to Pueblo Water's net position, revenues, expenses, and changes in net position for the years ended 2016 through 2025. Also included in this section is information related to Pueblo Water's performance based upon several financial health ratios. During the period 2016 to 2025, Pueblo Water received significant one-time revenues, an explanation of this revenue can be found in the transmittal letter in section I of this report.

### Revenue Capacity Information

Information provided in this section is intended to provide users with information about Pueblo Water's customers, revenue concentrations, service area, and historical consumption.

### Debt Capacity Information

Retaining sufficient debt capacity is of major importance for companies that operate in capital intense environments. This section provides information related to Pueblo Water's outstanding debt, coverage ratios, and debt per capita over the past ten years.

### Demographic and Economic Information

The information in this section is intended to provide the user with an idea of the overall economy in which Pueblo Water operates. Where possible information for the past ten years has been provided, otherwise information has been limited to what is available.

## Statistical Section Contents and Explanation (Continued)

### Operating Information

This section shows information intended to provide additional insight into Pueblo Water's operation. The section focuses on the following:

- Number of full time employees at December 31 for the years 2016 through 2025.
- Customer payment demographics.
- Purchasing statistics.
- Capital assets by function.
- Facts pertaining to Pueblo Water's water supply for the years 2016 through 2025.
- A map of Pueblo Water's water collection system.
- Pump station capacities.
- Potable Water pumped and related energy costs for the years 2016 through 2025.
- Facts related to water quality.
- Facts related to Pueblo Water's transmission and distribution system.

(Cash+receivables/ Avg. daily operational exp.)										

<sup>1</sup>For purposes of ratios involving current assets, investments classified as long-term have been included since they are available for sale.

<sup>2</sup>Net Revenue for this purpose is calculated as: operating revenue plus investment income and proceeds from the sale of assets less operating expenses excluding noncash items such as depreciation and amortization, consistent with the Board's debt covenants.

<sup>3</sup>For purposes of this ratio all unrestricted investments are included with cash.

<sup>4</sup>Daily operational expense is calculated as operating expense less noncash items divided by 365 days.

<sup>5</sup>Beginning in 2012 the Board implemented GASB 65 retroactively to 2011. Consequently, in 2011 and all future years the amount deferred on advance refundings is shown as a deferred outflow on the asset side of the balance sheet. This change affects the balance of long-term liabilities

The following chart compares customer payment demographics for 2021-2025.

Pueblo Water makes purchases using various methods including check, electronic funds transfer, and procurement card. Purchases made with procurement cards are eligible for a rebate through a program issued by Bank of America. The chart above illustrates purchases made during 2025 on a monthly basis by sources eligible for the rebate.

Listed above are regulated and unregulated contaminants detected in Pueblo's drinking water in 2025.

*All are below regulated levels.*

**Drinking water produced by the Whitlock Treatment Facility meets all Health and Safety Standards as mandated by the Safe Drinking Water Act and the State of Colorado.**

### Terms and Definitions Used in the Above Data Table

**P/A** - Presence/Absence - The determination of whether or not there is coliform bacteria present in a water sample.

**Primary Standards** - Mandatory Health Related Standards

**Secondary Standards** - Aesthetic Standards

**MCL** - Maximum Contaminant Level - The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the MCLG's as feasible using the best available treatment technology.

**MCLG** - Maximum Contaminant Level Goal - The level of a contaminant in drinking water below which there is no known or expected risk to health.

**MRDL** - Maximum Residual Disinfection Level - The maximum level of disinfectant residual allowed in a distribution system. Total chlorine (chloramine) in the table was measured at the Treatment Plant. Distribution chlorine levels are lower.

**Turbidity** - Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our plant's filtration system.

**NTU** - Nephelometric Turbidity Unit - A unit of measurement of turbidity in water.

**Oocysts** - A life cycle stage of a parasitic organism.

**µg/L** - microgram per liter or one part per billion

**mg/L** - milligram per liter or one part per million

**AL** - Action Level - Results over the action level require changes in water treatment technique.

**µmho/cm** - a unit of measurement of the conductivity of the water

**<** - Less Than

**r** - THM and HAA values are an average of all DBP collection points in the distribution system.

\* Public notification is required if fluoride concentration exceeds 2.0 mg/L.

\*\* Total coliform and E. coli bacteriological samples are collected at designated locations throughout the distribution system each month.

\*\*\*\* SOCs analyzed in 2024

° Radiologicals analyzed in 2020.

Please contact the Board of Water Works Water Quality Laboratory for any information regarding water quality at (719) 584-0266. Hours are 7:00 am - 3:30 pm Monday through Friday.

Total Organic Carbon	mg/L	2.1	3.2	2.47	7

Listed above are regulated and unregulated contaminants detected in the raw water in 2024.

**Terms and Definitions Used in the Above Data Table**

**Turbidity** - Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our plant's filtration system.

**NTU** - Nephelometric Turbidity Unit - A unit of measurement of turbidity in the water.

**MPN/100 mL** - Most Probable Number per 100 milliliter - The most probable number of bacterial colonies per 100 milliliters of a water sample.

**ND** - Not Detected

**µg/L** - microgram per liter or one part per billion

**mg/L** - milligram per liter or one part per million

**µmho/cm** - a unit of measurement of the conductivity of the water

**<** - Less Than

Please contact the Board of Water Works Water Quality Laboratory for any additional information regarding water quality at (719)584-0266. Hours are 7:00 am - 3:30 pm Monday through Friday.

## 2025 Analytical Results Summary for Pueblo's Raw Water Pipeline
