INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
West Fort Collins Water District
LaPorte, Colorado

Opinions

We have audited the accompanying financial statements of West Fort Collins Water District (the District), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of December 31, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information as identified in the table of contents is presented for purposes of additional analysis and legal compliance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

West Fort Collins Water District

NOTES TO FINANCIAL STATEMENTS

December 31, 2025

Note 1 – Definition of reporting entity

West Fort Collins Water District (the District), a quasi-municipal corporation and political subdivision of the State of Colorado (the State), is governed pursuant to the provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District is governed by a five-member Board of Directors elected by property owners of the District pursuant to the provision of the Colorado Special District Act. The District's service area is located in Larimer County, Colorado.

The District's primary function is to provide water services for the benefit of the residents of the District.

The District is financially accountable for organizations within the legal entity of the District, provided that they satisfy the criterion for reporting entities per the guidance of the Governmental Accounting Standards Board (GASB) accounting pronouncements. The definition of the reporting entity is based primarily on financial accountability. Financial accountability includes but is not limited to: appointment of a voting majority of the organization's governing body, ability to impose its will on the organization and a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

Note 2 – Summary of significant accounting policies

The more significant accounting policies of the District are described as follows:

The accounting policies of the District conform to generally accepted accounting principles (GAAP) applicable to governmental units defined as proprietary enterprise funds. The enterprise fund is used because the District's powers operate in a manner similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Basis of accounting

The District's financial statements are reported using the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Depreciation is computed and recorded as an operating expense. Expenditures for capital assets are shown as increases in assets and payments on long-term obligations are recorded as reductions in liabilities. Tap fees are recorded as capital contributions when received or collectible.

West Fort Collins Water District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

Operating revenues and expenses

The District distinguishes between operating revenues and expenses from nonoperating items in the Statement of Revenues, Expenses and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's purpose of providing water services to its customers. Operating revenues consist of charges to customers for services provided. Operating expenses include the cost of service, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions.

Budgets

In accordance with the State Budget Law, the District's Board of Directors (the Board) holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements.

Cash equivalents

For the purposes of the Statement of Cash Flows, the District considers cash deposits and highly liquid investments with original maturities of three months or less from the date of acquisition to be cash equivalents.

Accounts receivable, allowance for doubtful accounts

User fees and tap fees constitute a perpetual lien on or against property served until paid. Such liens may be foreclosed upon as provided by the State of Colorado. Therefore, no provision for uncollectible receivables has been made in the financial statements.

Property taxes

Property taxes are levied by the Board based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows of resources in the year they are levied and measurable. The property tax revenues are recorded as revenue in the year they are available or collected. The District did not levy any mills for the 2024 tax year, to be collected in 2025 or for the 2025 tax year, to be collected in 2026.

West Fort Collins Water District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2025

Capital assets

Capital assets include land, water rights, water systems, equipment and vehicles. Capital assets are defined by the District as those assets with an initial, individual cost of \$5,000 or greater. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Building and improvements	20-30 years
Water distribution system	20-50 years
Equipment and software	5-20 years

Compensated absences

District employees earn a general leave benefit at the rate of 18 to 30 days per year based on length of service which is to be used for vacations, medical leave and holidays. Employees are generally allowed to accrue and carryover 80 hours of vacation each year.

The District is subject to GASB Statement No. 101, Compensated Absences, which establishes guidance for the accounting and financial reporting of compensated absences and associated salary-related payments. The District has evaluated the impact of GASB 101 and has determined that the District's potential liabilities are immaterial. As such, as permitted under US GAAP, the District's potential liability is not reflected in the financial statements.

Contributed capital

Tap fees are generally recorded as capital contribution revenue when received. Lines contributed to the District by developers are recorded as capital contributions and additions to the systems at the developer's cost which approximates estimated fair market value at the date of donation.

Use of estimates

The preparation of financial statements in conformity with GAAP requires that District management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

West Fort Collins Water District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2025

Note 3 – Cash and investments

Cash and investments are reflected on the Statement of Net Position at December 31, 2025 as follows:

Cash and investments	\$ 4,218,521
Cash and investments - restricted	<u>63,000</u>
Total cash and investments	<u>\$ 4,281,521</u>

Cash and investments as of December 31, 2025 consist of the following:

Cash on hand	\$ 313
Deposits with financial institutions	76,518
Investments	<u>4,204,690</u>
Total cash and investments	<u>\$ 4,281,521</u>

At December 31, 2025, the District's cash deposits had bank balances of \$79,493 and a carrying balance of \$76,518.

Deposits with financial institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. As of December 31, 2025, the federal insurance limit was \$250,000. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

West Fort Collins Water District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

Custodial credit risk - deposits

Custodial credit risk is the risk that in the event of a bank failure, deposits may not be returned to the District. The District follows state statute regarding custodial credit risk for deposits. As of December 31, 2025, none of the District's bank balances were exposed to custodial credit risk, as amounts were either insured or collateralized. The District carried no bank balances in excess of federally insured amounts at December 31, 2025.

Investments

The District has not adopted a formal investment policy; however the District follows the State statutes regarding investments. The District generally limits its investments to certain U.S. government agency securities, money market funds and local government investments pools, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to custodial credit risk for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest including the following:

- . Obligations of the United States and certain U.S. government agency securities
- . Certain international agency securities
- . General obligation and revenue bonds of U.S. local government entities
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- . Local government investment pools

Fair value measurement and application

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series); money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee); CSAFE which records their investments at amortized cost, and COLOTRUST which is recorded at net asset value.

West Fort Collins Water District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2025

As of December 31, 2025, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	
Colorado Liquid Asset Trust (Colotrust)	Weighted average under 60 days	<u>\$ 4,204,690</u>

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all state statutes governing the Trust. The Trust currently offers three portfolios – COLOTRUST PRIME, COLOTRUST PLUS+, and COLOTRUST EDGE.

COLOTRUST PRIME and COLOTRUST PLUS+, which operate similarly to a money market fund and each share is equal in value to \$1.00, offer daily liquidity. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under CRS 24-75-601.

COLOTRUST EDGE, a variable Net Asset Value (NAV) Local Government Investment Pool, offers weekly liquidity and is managed to approximate a \$10.00 transactional share price. COLOTRUST EDGE may invest in securities authorized by CRS 24-75-601, including U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under CRS 24-75-601.

A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST PRIME and COLOTRUST PLUS+ are rated AAAM by Standard & Poor's. COLOTRUST EDGE is rated AAAs1 by Fitch Ratings. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value as determined by fair value. There are no unfunded commitments, the redemption frequency is daily or weekly, and there is no redemption notice period.

The District holds all its investments in the COLOTRUST PLUS+ portfolio.

West Fort Collins Water District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

Note 5 – Agreements

Memorandum of agreement

The District and the City of Fort Collins (the City) entered into a Memorandum of Agreement on August 20, 1964 concerning the City furnishing treated water to the District. The Memorandum of Agreement was subsequently amended pursuant to Addendums to Agreement dated June 23, 1977, August 12, 1985 and June 1, 1993 as well as a Transfer Agreement dated October 18, 1988 (collectively, the Agreements). The Agreements delineate responsibilities for system maintenance, information collection, rates for water provided and the volume of water to be provided to the District.

Intergovernmental agreement

On September 17, 2012 the City and the District entered into an Intergovernmental Agreement Wholesale/Consecutive Water System (Intergovernmental Agreement). The Intergovernmental Agreement specifies the City of Fort Collins as a wholesale system and the District as a consecutive system as defined by the State of Colorado, Colorado Department of Health and Environment, Water Quality Control Commission, Colorado Primary Drinking Water Regulations (CPDWR). The Intergovernmental Agreement delineates various responsibilities and standards of operation for the purpose of maintaining and protecting drinking water quality.

Note 6 – Net position

The District has net position consisting of three components – net investment in capital assets, restricted net position and unrestricted net position.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2025, the District had net investment in capital assets of \$10,497,922.

Restricted net position includes assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The District had restricted net position at December 31, 2025 of \$63,000.

The District's unrestricted net position as of December 31, 2025 is \$4,297,576.

Note 7– Deferred compensation plan

The District offers employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Service Code Section 457. The plan is available to all full-time District employees and permits them to defer a portion of their salaries until future years. The District contributes 3% of the employee's base wage and matches up to an additional 3% of employee

West Fort Collins Water District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

contributions. All contributions vest at the time such contributions are made. Employees contributed \$12,962 and the District contributed \$9,100 for the year ended December 31, 2025. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency. The assets under the Plan are not property of the District and are held by a second-party administrator for the exclusive benefit of the Plan participants and their beneficiaries.

Note 8 – Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees or natural disasters. The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by an intergovernmental agreement to provide property, liability, public official's liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property and public officials liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

Note 9 – Tax, spending and debt limitations

Article X, Section 20 of the Colorado constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The District's management believes its water and sewer operations, and all activities related thereto, fulfill the requirements of an enterprise within the definition of TABOR and the Enterprise Act, C.R.S. 37-45-1-01 et seq. The District's annual budget and financial statements are deemed by the District to be the annual budget and financial statements of the enterprise.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualification as an Enterprise will require judicial interpretation.
