INDEPENDENT AUDITORS' REPORT

The Board of Directors
Southern Teller County Health Services District
Cripple Creek, Colorado

Opinion

We have audited the accompanying financial statements of Southern Teller County Health Services District (the District), as of and for the years ended December 31, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of December 31, 2025 and 2024, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Restatement of Prior Period Financial Statements

As discussed in Note 8 to the financial statements, the District has restated its December 31, 2024, financial statements to correct errors identified in the revenue recognition related to grants receivable. As a result of these corrections, the previously reported change in net position and related financial statement line items have been adjusted. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Other Supplemental Information

Our audit were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The supplemental combining financial statements and the budgeted and actual revenues and expenses, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

SOUTHERN TELLER COUNTY HEALTH SERVICES DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

This management's discussion and analysis of the financial performance of Southern Teller County Health Services District (the District) provides an overview of the District's financial activities for the years ended December 31, 2025 and 2024. It should be read in conjunction with the accompanying financial statements of the District.

Financial Highlights

- Net position increased by \$328,945 in 2025 compared with an increase of \$756,431 in 2024.
- Operating revenues decreased by \$238,482 in 2025.
- Operating expenses increased by \$200,633 in 2025.
- Property tax revenue increased by \$104,949 in 2025.
- Non-capital gifts and grants revenue decreased by \$88,511 in 2025.

Financial Statements

The District's financial statements are prepared using proprietary fund accounting that focuses on the determination of changes in financial position and cash flows in a manner similar to private-sector businesses. The District is accounted for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting. The District's financial statements consist of three statements: a *statement of net position*, a *statement of revenues, expenses and changes in net position* and a *statement of cash flows*.

The *statement of net position* presents information on the District's assets, deferred outflows, liabilities and deferred inflows, with the net difference reported as net position. Over time, increases or decreases in net position may indicate whether the financial position of the District is improving or deteriorating.

The *statement of revenues, expenses and changes in net position* presents both the operating revenues and expenses and non-operating revenues and expenses along with other changes in net position for the year. This statement is an indication of the success of the District's operations over the past year.

The *statement of cash flows* presents the change in cash and cash equivalents for the year resulting from operating activities, non-capital financing activities, capital and related financing activities and investing activities. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments during the year.

Financial Position

The following presents the District's financial position as of December 31:

	2025	(Restated) 2024	2023
Assets			
Current assets	\$ 4,977,850	\$ 4,624,835	\$ 5,189,286
Capital assets, net	<u>3,272,274</u>	<u>3,085,791</u>	<u>1,794,132</u>
Total assets	<u>\$ 8,250,124</u>	<u>\$ 7,710,626</u>	<u>\$ 6,983,418</u>

	2025	(Restated) 2024	2023
Liabilities, deferred inflows and net position			
Current liabilities	\$ 144,413	\$ 140,277	\$ 350,032
Deferred inflows	<u>1,763,956</u>	<u>1,557,539</u>	<u>1,377,007</u>
Net position:			
Net investment in capital assets	3,272,274	3,085,791	1,794,132
Restricted for emergency reserve	83,569	74,613	84,724
Unrestricted	<u>2,985,912</u>	<u>2,852,406</u>	<u>3,377,523</u>
Total net position	<u>6,341,755</u>	<u>6,012,810</u>	<u>5,256,379</u>
Total liabilities, deferred inflows and net position	<u>\$ 8,250,124</u>	<u>\$ 7,710,626</u>	<u>\$ 6,983,418</u>

Capital assets increased due primarily to purchases of vehicles and equipment. See information on capital assets below under capital assets.

Operating Results and Changes in the District's Net Position

The District's net position increased by \$328,945 in 2025, compared with an increase of \$756,431 in 2024. The operating results and change in net position, is as follows for the years ended December 31:

	2025	(Restated) 2024	2023
Operating revenues:			
Net patient service revenue	\$ 654,421	\$ 654,993	\$ 576,589
Other operating revenues	<u>39,159</u>	<u>277,069</u>	<u>173,168</u>
Total operating revenues	<u>693,580</u>	<u>932,062</u>	<u>749,757</u>
Operating expenses:			
Salaries and wages	1,432,438	1,293,616	1,286,560
Employee benefits	610,769	536,239	537,766
Depreciation	269,452	162,266	110,659
Purchased services and professional fees	146,618	125,735	148,770
Loss on disposal of assets		97,878	
Other	<u>326,351</u>	<u>369,261</u>	<u>529,614</u>
Total operating expenses	<u>2,785,628</u>	<u>2,584,995</u>	<u>2,613,369</u>
Non-operating income	<u>2,420,993</u>	<u>2,409,364</u>	<u>2,386,551</u>
Excess of revenues over expenses before grants restricted for capital assets	<u>328,945</u>	<u>756,431</u>	<u>522,939</u>
Grants restricted for capital assets			<u>2,656</u>
Change in net position	<u>\$ 328,945</u>	<u>\$ 756,431</u>	<u>\$ 525,595</u>

The decrease in the change in net position is primarily the result of decrease in other operating revenues and increased operating expenses. Operating revenues decreased \$238,482 and expenses increased \$200,633 from 2024 to 2025, due primarily to less insurance reimbursements in 2025 and increased employee expenses in 2025.

The District's Cash Flows

Changes in the District's cash flows are consistent with changes in operating income and non-operating income discussed above.

Capital Assets

At December 31, 2025 and 2024, the District had \$3,272,274 and \$3,085,791, respectively, invested in capital assets, net of accumulated depreciation. During 2025 and 2024, the District acquired capital assets of \$455,935 and \$1,551,803, respectively. Depreciation expense totaled \$269,452 and \$162,266 during 2025 and 2024, respectively.

Budgetary Comparison

During 2025, the District's increase in net position of \$328,945 and increase in 2024 of \$756,431, was under budget by \$367,746 and over budget by \$310,100, respectively. See further information on page 17.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances. If you have any questions about this report or need additional financial information, contact District Administration at (719) 505-7360.

SOUTHERN TELLER COUNTY HEALTH SERVICES DISTRICT

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General — Southern Teller County Health Services District (the District) is located in Cripple Creek, Colorado. The District operates S.W.T.C. Emergency Medical Services (EMS). The District also includes a fund which accounts for the Mill Levy and Board of Director (Mill Levy) bank accounts and related activity. The District is governed by a Board of Directors consisting of individuals elected by residents of the District. The District does not have component units and is not a component unit of another governmental entity.

Basis of Presentation — The financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America, including all applicable statements of the Governmental Accounting Standards Board (GASB). The financial statements have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated non-exchange transactions (principally federal and state grants) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated non-exchange transactions. Government-mandated non-exchange transactions that are not program specific, property taxes, investment income, and interest expense are included in non-operating revenues and expenses. The District first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Equivalents — The District considers all liquid investments with the original maturities of three months or less to be cash equivalents.

Property Taxes — The District received approximately 51% and 44% of its financial support from property taxes during 2025 and 2024, respectively. These funds were used to support operations.

Property taxes are levied on December 15 based on the assessed value of property as certified by the County Assessor on October 1. Assessed values are an approximation of market value. Under Colorado law, all property taxes attach as an enforceable lien on the property as of January 1 in the year following that in which they are levied. Taxes are levied for the current year prior to November 1 and are payable in full April 30 of the subsequent year or in two installments on February 28 and June 15. Revenue from property taxes is recognized in the year for which the taxes are levied.

Inventory — Inventory is stated at the lower of cost, determined using the first-in, first-out basis, or net realizable value.

Capital Assets — Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation if acquired by gift. The District capitalizes all capital assets exceeding \$5,000. Depreciation is computed using the straight-line method over the estimated useful life of each asset. Assets under capital lease obligations and leasehold improvements are depreciated over the shorter of the lease term or their respective estimated useful lives. The following estimated useful lives are being used by the District:

Land improvements	5 – 20 years
Buildings and leasehold improvements	4 – 40 years
Equipment	3 – 20 years

Compensated Absences — The District accrues leave for compensated absences as an expense and a liability, based on the District's estimated usage patterns and future payouts in compliance with GASB issued Statement No. 101, *Compensated Absences*. The District's policies permit employees to accumulate paid time off benefits. Expense and the related liability are recognized as benefits are earned. Compensated absence liabilities are computed using the regular pay rates in effect at the balance sheet date, plus an additional amount for compensation-related payments, such as Social Security and Medicare taxes computed using rates in effect at that date. The maximum allowable balance of vacation time for each employee is the amount of his or her annual accrual. All employees who terminate their employment will be paid unused vacation hours at their regular rate of pay up to 100% of their balance.

Net Position — The District's net position is classified in the following components:

- **Net Investment in Capital Assets:** This component consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Restricted:** This component consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Restricted assets are assets which have restrictions placed on the use of the assets through external constraints imposed by creditors (such as through debt covenants), contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- **Unrestricted:** This component consists of the net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Income Taxes — The District is exempt from income taxes under the Internal Revenue Code and State law.

Reclassifications — Certain amounts in the 2024 financial statements have been reclassified to conform with the current year format.

Subsequent Events — The District has evaluated subsequent events for recognition or disclosure through the date of the Independent Auditors' Report, which is the date the financial statements were available for issuance.

2. PATIENT ACCOUNTS RECEIVABLE, NET

The District reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The District provides an allowance for credit losses based upon a review of outstanding receivables, historical collection information and existing economic conditions. As a service to the patient, the District bills third-party payors directly and bills the patient when the patient's liability is determined. Patient accounts receivable are due in full when billed.

Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluation and specific circumstances of the patient or third-party payor. The District grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payor agreements. The mix of receivables from third-party payers and patients at December 31 is as follows:

	2025	2024
Medicaid	3%	4%
Other third-party payors	14%	43%
Private pay	66%	43%
Medicare	<u>17%</u>	<u>10%</u>
Total	<u>100%</u>	<u>100%</u>

Patient accounts receivable are net of allowances for credit losses and contractual adjustments of \$235,792 and \$431,286 as of December 31, 2025 and 2024, respectively.

3. NET PATIENT SERVICE REVENUE

The District has agreements with third-party payers that provide for payments to the District at amounts different from its established rates.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and include estimated retroactive revenue adjustments and a provision for bad debts.

The District has agreements with third-party payers that provide for payments to the District at amounts different from its established rates. A summary of the payment arrangements with major third-party payers follows:

Medicare: The District is reimbursed on a cost basis. The District is reimbursed at tentative rates with final settlement determined after submission of annual cost reports by the District and audit thereof by the Medicare fiscal intermediary.

Medicaid Services rendered to Medicaid program beneficiaries are reimbursed at prospectively determined rates and cost reimbursement methodologies. The District is reimbursed at a tentative rate with final settlement determined after audits by the Medicaid fiscal intermediary.

Approximately 28% and 38% of net patient service revenues are from participation in the Medicare and Medicaid programs for the years ended December 31, 2025 and 2024, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term. Net patient service revenue increased by approximately \$225,100 and \$241,800 during 2025 and 2024, respectively, as the result of prior-year settlements.

The District has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the District under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

The State of Colorado has implemented a provider fee on Medicaid providers which generates additional federal matching funds.

4. DEPOSITS

The Colorado Public Deposit Protection Act, (PDPA) requires that all units of local government deposit cash into eligible public depositories as determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA which allows the institution to create a single collateral pool for all public funds.

The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

At December 31, 2025 and 2024, the carrying amount of the District's cash is \$2,156,565 and \$2,009,491, and the bank balances of these accounts total \$2,184,605 and \$2,059,545, respectively. Of the bank balances, \$694,985 and \$491,434 was covered by federal depository insurance and \$1,489,620 and \$1,568,111 is collateralized with securities held by the pledging financial institution as of December 31, 2025 and 2024, respectively.

5. CAPITAL ASSETS

Capital assets activity is as follows for the years ended December 31:

	Balance at January 1,	Additions	Decreases	Balance at December 31,
2025:

6. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for these risks of loss. There were no claims resulting from these risks that exceeded commercial insurance coverage during 2025 and 2024.

The District purchases medical malpractice insurance under a claims-made policy on a fixed premium basis. Further, the District is subject to the provisions of the Colorado Government Immunity Act which provides a limitation on the liability of the District. The District is not aware of any unasserted claims, unreported incidents or claims outstanding which are expected to exceed malpractice insurance coverage limits as of December 31, 2025 and 2024.

7. TAX, SPENDING AND DEBT LIMITATIONS

In 1999 Colorado voters approved Amendment 1 to the state Constitution which is commonly known as the Taxpayer's Bill of Rights or the TABOR Amendment. The amendment applies to all units of local governments and limits taxes, spending, revenue, and multi-year debt (excepting bond refundings to lower interest rates and adding employees to pension plans). The District believes that it is in compliance with the provisions of TABOR, as it is currently understood. Many of the provisions may not become fully understood without judicial review. The District has recorded an emergency reserve of 3% of its annual spending as required by TABOR.

8. RESTATEMENT OF PRIOR PERIOD FINANCIAL STATEMENTS

The accompanying financial statements for the year ended December 31, 2024, have been restated to correct errors identified in the revenue recognition related to grants receivable. Management determined that restatement was necessary to ensure the financial statements are presented in conformity with U.S. generally accepted accounting principles (GAAP). As of December 31, 2024, an adjustment to increase grants receivable and non-capital grants and gifts by \$763,391 has been recorded. The net effect of this correction is an increase in total assets, change in net position, and net position of \$763,391 as of and for the year ended December 31, 2024.
