INDEPENDENT AUDITORS' REPORT

To the Board of Education
Monte Vista School District No. 8
Monte Vista, Colorado

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Monte Vista School District No. 8 (the District), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a

substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, pension, and other postemployment information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial schedules, the Colorado School Districts Auditor's Integrity Report, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the

underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial schedules, the Colorado School District's Auditor's Integrity Report, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Monte Vista School District C-8
Management's Discussion & Analysis
For the Fiscal Year Ended June 30, 2025**

As management of the Monte Vista School District C-8, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements, which immediately follow this section.

Financial Highlights

Key financial highlights for the fiscal year ended June 30, 2025, are as follows:

- In total, net position for the District is \$15,259,430, a slight increase of \$76,726.
- As required by *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and GASB Statement No. 71, Pension Transition for Contributions made subsequent to the Measurement Date*. This statement revised and established new financial reporting requirements for governments that provide their employees with pension benefits. The pension adjustment for FY2025 was \$(111,245) the OPEB (Other Post-Employment Benefits) was \$(123,867).
- General Revenues accounted for \$12,936,059 in revenue or 77% of all revenues. Program specific revenues in the form of charges for services and sales, grants, and contributions, accounted for \$3,835,028 or 23% of total revenues of \$16,771,087.
- The District had \$16,694,361 in expenses related to governmental activities. Of these expenses \$3,835,028 were offset by program specific charges for services, grants, and contributions.

Governmental Funds

The District has three major governmental funds as determined by Governmental Accounting Standards Board Statement No. 34 (GASB 34). The major funds are the General Fund, the Projects Fund, and the Bond Redemption Fund.

- The General Fund had \$14,474,291 in revenues and \$15,100,628 in expenditures. The General Fund's fund balance decreased \$880,337 to \$5,350,380 from \$6,230,717 in 2023-2024. A portion of the ending fund balance was set aside to meet other obligations as follows:

Restricted:	
TABOR 3% Reserve	450,000
Committed:	
Multi-year Contracts	150,203
Insurance Reserve	6,867
Pre-School Fund	90,228
Assigned:	
Pupil Count Audit	60,000
Designated:	
Subsequent years	1,643,150
Unassigned:	<u>2,949,932</u>
Total Fund Balance	<u>\$ 5,350,380</u>

Monte Vista School District C-8
Management's Discussion & Analysis
For the Fiscal Year Ended June 30, 2025

- The Projects Fund reflects State and Federal source revenues, which are to be used for specific purposes as defined in the grant documents. In fiscal year 2025, the District expended \$651,381.
- The Bond Redemption Fund had revenues from property taxes and earnings on investments of \$609,350 and debt service payments of \$571,460. The fund balance increased by \$37,890 to \$1,052,785. The District passed a bond issue in November 2008 for \$8.4 million. As of June 30, 2022, a total of \$8,397,301 of the \$8.4 million have been sold. The mill levies of 11.300 mills reflected the funding needed to meet the new obligations. The current fund balance is adequate to meet the current obligations of the bond issue.

Business-Type Fund

- In Fiscal year 2015, an Internal Service Fund was created to handle costs associated with the level-funding self-insurance medical insurance plan.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis, the basic financial statements and supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as instruction were financed in the short-term as well as what remains for future spending.
- The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and its component units, or to other governmental units, on a cost-reimbursement basis.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplemental information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Monte Vista School District C-8 Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2025

Government-wide Statements

The government-wide statements report information about the District using accounting methods like those used by private-sector companies. The statement of net position presents information on all the district's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the four reported as net position. All the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are categorized as governmental funds:

- ***Governmental activities:*** Most of the District's basic services are included here, such as instruction, transportation, maintenance and operations, and administration. The School Finance Act of 1994, as amended, made up of property taxes and state equalization, finances most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The District has three kinds of funds:

- ***Governmental funds:*** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional schedules explain the relationship (or differences) between them.

Monte Vista School District C-8
Management's Discussion & Analysis
For the Fiscal Year Ended June 30, 2025

- *Internal Service Fund:* The District uses an internal service fund to account for services provided to the different departments on a cost-reimbursement basis. The District is the only participant in the activity.
- *Fiduciary funds:* The District is the agent, or *fiduciary*, for assets that belong to others, such as small scholarship funds and student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the financial statements and accompanying notes, this report also contains other supplemental information concerning the District's non-major governmental funds. The combining statements of the non-major governmental funds are presented after the notes to the financial statements.

Financial Analysis of the District as a Whole

Government-wide Analysis

The assets of the District are classified as current assets and capital assets. Cash, investments, receivables, inventories and prepaid expenses are current assets. These assets are available to provide resources for the near-term operations of the District. The majority of the current assets are the result of the property tax collection process; the District receives about 90% of the annual property tax assessment in the first half of the calendar year.

Capital Assets are used in the operation of the District. These assets are land, improvements, buildings, equipment and vehicles. Capital assets are discussed in greater detail in the section titled, Capital Assets and Debt Administration, elsewhere in this analysis.

Current and long-term liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, accrued salaries and benefits, unearned revenues, and current debt obligations. The liquidation of current liabilities is anticipated to be either from currently available resources, current assets or new resources that become available during fiscal year 2025. Long-term liabilities such as long-term debt obligations and compensated absences payable will be liquidated from resources that will become available after fiscal year 2025.

Governmental Activities

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal, federal and state requirements.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, designated and undesignated fund balance may serve as a useful measure of the net resources available for spending at the end of the fiscal year. The fund balance for the General Fund that has not been restricted or committed is \$2,949,932. The Taxpayer Bill of Rights (TABOR) Reserve, required by state statute was \$450,000. This reserve is based on 3% of specific revenue sources. The District's TABOR Reserve is held in cash with C Safe.

The primary source of operating revenue for school districts comes from the School Finance Act of 1994 (SFA). Under the SFA, total program funding was \$12,226 per student or \$11,816,616. This is an increase of \$1,304 or 12% over the previous year. The funded pupil count for fiscal year 2025 was 966.5. The District's funded pupil count was lower than the prior year. Funding for the SFA comes from property taxes, specific ownership tax and state equalization.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table III shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by unrestricted state equalization and property taxes. Other governmental revenues, from property taxes, state equalization, and interest on investments, were adequate to cover the excess costs.

General Fund Budgetary Highlights

The District's budget is prepared according to Colorado law and is based on accounting for certain transactions on the modified accrual basis. Therefore, the District budgets each year for actual salaries for nine- and ten-month employees, based on salaries for the school term of September to May, but paid out over twelve months (September to August). The July and August salaries are accrued in the budgeted financial statements. The Board of Education can make final changes to the fiscal year adopted budget on or before January 31st. These adjustments reflect information as of December 31st. After that, all changes must be approved by supplemental budget resolution.

The original 2024-2025 adopted General Fund budget was amended in January 2025, for the following reasons:

- The adopted budget for 2024-2025 reflected an estimated funded pupil count of 999 (Average), while the actual funded pupil count was 966.5. The revised budget in January 2025 included an adjustment to equalization, reflecting an increase in funded pupil count of \$236,554.
- The audited beginning fund balance reflects a decrease of \$880,337.
- Major adjustments to the General Fund revenues primarily were to reduce the estimated revenues to more realistic amounts.
- Major adjustments to General Fund expenditures include the recalculation of salaries and benefits, and various reclassifications of individual line items.

Adjustments to other funds reflected final FY25 ending fund balances and final numbers for grant funds.

The Monte Vista School Board approved the following supplemental budgets:

- EASI CoHort 6 - Grant #5010 \$33,000
- EASI Supplemental Grant for Improvement Efforts - Grant #5010 \$106,500

District General Fund revenues were lower than total budgeted expenditures by \$880,337 as is reflected in the budgeted carryover of \$5,350,380.

Management's Discussion & Analysis
For the Fiscal Year Ended June 30, 2025

On December 16, 2010, the District issued general obligation bonds series 2010D-F matching money bonds in the amount of \$3,752,301 with an interest rate of 4.082%, to be paid in full on December 1, 2030. The bonds were issued for the District's match for the Building Excellent Schools Today Act (BEST) grant for the construction of the new high school and the construction and renovation of the Bill Metz elementary school. The principal balance outstanding at June 30, 2025, was \$1,451,627.

On August 10, 2016, the District issued \$4,120,000 in Series 2016 General Obligation Refunding Bonds to refund \$2,630,000 of the District's outstanding Series 2009 Bonds, issued in the original aggregate principal amount of \$3,000,000 and currently outstanding in the aggregate principal amount of \$2,820,000 and \$1,215,000 of its Series 2010 Bonds, issued in the original aggregate principal amount of \$1,645,000. The principal balance outstanding at June 30, 2025, was \$2,945,000.

The District entered into a financed purchase agreement between Signature Public Funding Corp, as lessor, and the District, as lessee, for the purchase of energy performance improvements. The agreement, dated June 28, 2022, was for \$1,134,253 with an interest rate of 3.35%. The agreement has a term of 10 annual payments from the General Fund, with final payment due on July 15, 2032. The cost of the performance improvements was \$1,345,400 and accumulated depreciation was \$112,117 at June 30, 2025. The principal balance outstanding at June 30, 2025, was \$937,710.

Factors Bearing on the District's Future

At the time these financial reports were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future.

- District has been experiencing fluctuating enrollment since fiscal year 2000. The School Finance Act, as changed in 2008, averages student counts for the previous four years plus the current year to determine the *funded pupil count (FPC)*. In the past three years it was advantageous for the District to use the actual FTE. The actual FTE for 2024-2025 is 966.5. The trend in current FTE numbers is an indication that the District may once again benefit from using the averaging method. It should be noted that as the new funding formula is implemented over the next 3 years, averaging will decrease by one year, each year.
- Starting in FY 2010-11, an additional factor was included in the school finance formula. This factor acts as a reduction to other existing factors and shall not reduce any base per pupil funding districts receive through the school finance formula. In general, this factor is calculated by first determining the total program prior to application of the Budget Stabilization Factor (BS). The BS factor in FY 2018-2019 was 9%, FY 2019-2020 was 7%, FY 2020-2021 was 6%, 2021-2022 was 5%, 2022-2023 is 3.6%, and not BS Factor was applied in 2023-24. The BS Factor was not applied to the 2024-2025 funding.
- Professional level staffing continues to be a major concern due to extreme teacher shortages locally and statewide. The ability to attract just applicants for some historically easy to fill positions has become increasingly difficult. Additionally, the Colorado retirement system proposed changes will put additional pressure on the district resources to meet the statutory funding obligations, which, short of additional state revenue, will further erode local instructional support resources.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2025

Net change in fund balances - total governmental funds \$ (684,721)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the difference between capital outlay and depreciation in the current period.

Fixed asset additions	\$ 1,516,981	
Depreciation expense	<u>(1,495,113)</u>	21,868

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. The bond premium provides a current financial resource to governmental funds, but must be capitalized and amortized over the life of the bonds in the government-wide financial statements.

Principal payment on general obligation bonds	404,834	
Principal payment on financed purchase agreement	100,773

NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the District reflected in the accompanying financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board (GASB) in *Governmental Accounting and Financial Reporting Standards*. The District's significant accounting policies are described below.

REPORTING ENTITY

Primary Government

Monte Vista School District No. 8 is a public school as established by Colorado State Statute. The District is declared to be a corporate body with perpetual existence and in its name may hold property, sue and be sued, and be a party to contracts for any purpose authorized by law. Members of the school board are voted on at large by the registered, qualified electors of the District. Taxes are levied upon all taxable property within the District's boundaries by the County Commissioners. The County Treasurer collects the taxes and remits them to the school district. The District also receives State and Federal funds. The school board has the authority to issue bonds up to 20% of the latest assessed valuation of the taxable property in the District. The board also has authority to select the depository of school funds and acquire short-term loans.

Component Units

The District's combined financial statements include the accounts of all District operations. The criteria for including organizations as component units within the District's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether:

- The organization is legally separate (can sue and be sued in their own name)
- The District holds the corporate powers of the organization
- The District appoints a voting majority of the organization's board
- The District is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the District
- There is fiscal dependency by the organization on the District
- The organization is financially accountable to the District
- The organization receives or holds funds that are for the benefit of the District; and the District has access to a majority of the funds held; and the funds that are accessible are also significant to the District

Based on the aforementioned criteria, the Monte Vista School District No. 8 has no component units.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the District, except for District fiduciary activity. The effect of interfund transfers has been removed from the government-wide statements but continues to be reflected on the fund statements. Mainly taxes and intergovernmental revenues support governmental activities.

The statement of activities reflects the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include:

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

- Charges to customers or applicants who purchase, use, or directly benefit from services, or privileges provided by a given function or segment and
- Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. The emphasis of fund financial statements is on major governmental funds and enterprise funds, each reported as a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. This measurement is also used for the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants are recognized as revenue when all applicable eligibility requirements, imposed by the provider, are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The District reports the following major governmental funds:

- The **General Fund** is the general operating fund of the District. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The **Bond Redemption Fund** is used to account for the accumulation of resources for the payment of principal, interest, and related expenses on long-term general obligation debt or long-term voter-approved lease-purchase debt.
- The **Projects Fund** is used to record financial transactions for grants received for designated programs funded by federal, state, or local governments.

Proprietary fund financial statements are used to account for activities, which are similar to those often found in the private sector. The measurement focus is upon determination of net income, financial position, and cash flows.

The District's only proprietary fund is the Internal Service Fund, used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, generally, on a cost reimbursement basis. The District accounts for its self-funded health insurance in an internal service fund.

The proprietary fund is accounted for using the accrual basis of accounting as follows:

- Revenues are recognized when earned, and expenses are recognized when the liabilities are incurred.
- Current-year contributions, administrative expenses, and premium payments, which are not received or paid until the subsequent year, are accrued.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The fiduciary fund financial statements consist of private-purpose trust funds that are fiduciary in nature and present changes in fiduciary net position. Fiduciary funds are accounted for using the economic resources measurement and accrual basis of accounting. These funds are used to account for assets that the District holds for others in a fiduciary capacity.

The District reports the following fiduciary funds:

- The ***Private Purpose Trust Fund*** accounts for transactions relating to the Ritchey Scholarship Trust for the purpose of providing scholarships to District students.
- The ***Custodial Fund*** accounts for transactions relating to assets held by the District as a custodian for student organizations and scholarships.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables, and receivables. All internal balances in the statement of net position have been eliminated except those representing balances between governmental activities and business-type activities, which are presented as internal balances and eliminated in the total primary government column.

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION/FUND BALANCE

Cash

The District's cash and cash equivalents are considered to be cash in bank, certificates of deposit, and liquid investments with maturity of three months or less.

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1 each year. The taxes are payable in two installments on February 28 and June 15 or in full on April 30. The District's property taxes are collected by the County Treasurer who remits monthly receipts to the District. Property tax revenue is recognized when received by the County Treasurer.

Uncollected property taxes that became an enforceable lien January 1, 2025, have been recorded in the financial statements as an asset and a corresponding deferred inflow of resources.

Receivables/Payables From Other District Funds

Balances that originate from current lending/borrowing arrangements between funds are referred to as "Due To/From Other Funds".

Inventories

Purchased inventories are stated at cost and consist of supplies and food to be used within one year. Donated inventory is priced at the U.S. Department of Agriculture established values.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

USDA Commodities

The Food Service Fund receives donated commodities to use in meal preparation from the U.S. Department of Agriculture. The value of these commodities received during the year is shown as income, and the value of commodities used is shown as expense.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital Assets, which include land, land improvements, buildings, equipment, vehicles, and construction in progress are reported in the applicable governmental activities column in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Land Improvements	15-50
Buildings	10-50
Equipment	5-20
Vehicles	8-12

Leases

Lessor: The District recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

Long-Term Obligations

Long-term debt and other long-term obligations are recorded as liabilities in the government-wide financial statements. In the fund financial statements for governmental fund types, debt proceeds are reported as an other financing source and debt payments are reported as debt service expenditures.

Voluntary Early Retirement Bonus Plan

All employees shall be eligible to participate upon completion of 20 years of service, the last 15 of which are to be uninterrupted service to the District. Depending on years of service, an employee can receive a bonus of 20% to 70% of their last salary, excluding extra pay, paid out in January following retirement over the term of one to five years.

Compensated Absences

Teachers and administrative staff of the District receive 10, 11, or 12 days each contract year for personal leave based on the number of months worked each year. Personal leave may accumulate up to 40 days; any days earned over 40 days is paid to employees in June of each year and the balance is paid upon retirement or resignation from the District at a rate of \$150 per day for full-time certified employees and \$120 per day for full-time classified employees. Part-time employees are paid based upon the length of day worked. A liability is accrued in the government-wide financial statements.

Unearned Grant Revenue

Revenues on grants, which are restricted by the grant document for specific purposes, are recognized as revenue only after eligible grant costs have been incurred. Grant funds received in excess of grant expenditures are recorded as unearned revenues.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This represents a consumption of net position that applied to a future period(s) and will not be recognized as an outflow of resources (as either an expense or expenditure) until that period.

In addition to liabilities, the balance sheet reports a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

Certain amounts related to pensions must be deferred.

Pensions

The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position should be displayed in the following three components:

- *Net investment in capital assets* – consists of capital assets, net accumulated depreciation, reduced by the outstanding balances of any borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt should be included in this component of net position.
- *Restricted* – consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Restricted assets consist of assets that have limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

- *Unrestricted* – consists of the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

Fund Balance

Fund balances are reported by classification based on the extent to which the District is bound to honor constraints for the specific purposes on which amounts in the fund can be spent. Fund balances are classified in one of the following five categories:

- *Nonspendable Fund Balance* – amounts that cannot be spent because they are not in spendable form, such as inventory and prepaid expenditures.
- *Restricted Fund Balance* – amounts restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.
- *Committed Fund Balance* – amounts that can only be used for specific purposes as a result of constraints imposed through adopted resolution by the Board of Education, the highest level of decision making authority. Committed amounts cannot be used for any other purpose unless the Board removes those constraints by taking the same type of action. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.
- *Assigned Fund Balance* – amounts a government intends to use for a specific purpose; intent can be expressed by the Board of Education or by an official or body to which governing body delegates the authority.
- *Unassigned Fund Balance* – amounts that are available for any purpose; these amounts are reported only in the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted net position/fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, and unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Education has provided otherwise in its commitment or assignment actions.

Encumbrances

The District does not record purchase orders in the accounting system until invoices are ready for payment. Unfulfilled purchase commitments outstanding at the end of the budget year are rebudgeted in the succeeding year. End of the year fund balance intended to be used in the succeeding year is reported as designated fund balance.

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS

New Accounting Pronouncements

During fiscal year 2025, the District adopted the provisions of GASB Statement No. 101, *Compensated Absences*, that aligns the recognition and measurement guidance for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means under a unified model. In addition, it amended certain previously required disclosures. There is no effect on beginning net position as a result of the implementation of this standard.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets and Budgetary Accounting

Monte Vista School District No. 8 follows the procedures set forth in the Colorado School District Budget Law when preparing annual budgets for each fund. Budget procedures include:

- 1) Preparation of budget documents by administrative staff shall be submitted to the Board no later than June 1 of each year.
- 2) Publication of a notice stating that the budget is available for public inspection.
- 3) Discussion of the budget in a meeting open to the public.
- 4) Adoption of the budget in a public meeting by appropriate resolution.

Formal budgetary integration is employed as a management control device for all funds of the District. All fund budgets are adopted on a basis consistent with U.S. generally accepted accounting principles (GAAP).

The total expenditures for each fund cannot exceed the budgeted amount unless a supplemental appropriation is adopted. The Board of Education adopted supplemental appropriations during fiscal year 2025.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the final amended budget, if applicable.

NOTE 3 CASH AND CASH EQUIVALENTS

A summary of cash and cash equivalents for the District are as follows:

Cash in Banks	\$ 5,846,099
Cash with Fiscal Agent	82,203
Cash on Hand	1,000
Short Term Investments	3,521,921
Less: amounts related to Custodial Funds	<u>(16,315)</u>
Total cash and cash equivalents on the Statement of Net Position	<u><u>\$ 9,434,908</u></u>

Cash and Deposits

Colorado State Statutes govern the District's deposits of cash. The statutes specify eligible depositories for public cash deposits, which must be Colorado institutions and must maintain federal insurance (FDIC) on deposits held.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

The Colorado Public Deposit Protection Act (PDPA), requires that all units of local government deposit cash in eligible public depositories, determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized in accordance with the PDPA. PDPA allows the institution to create a single collateral pool for all public funds to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of year-end, \$5,519,868 of the District’s bank balance of \$6,271,552 was exposed to custodial credit risk. Deposits exposed to credit risk are collateralized with securities held by the pledging financial institution through PDPA.

Investments

Colorado Statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest, which include the following:

- Obligations of the United States and certain U.S. government agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Banker’s acceptance of certain banks
- Commercial paper holding the highest credit rating category and with a maturity within 180 days
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Corporate or bank debt issued by eligible corporations or banks

Fair Value

Fair value investments classified at Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fair value investments classified as Level 2 of the fair value hierarchy are valued using the active market rates for the underlying securities. Fair value investments classified as Level 3 of the fair value hierarchy are valued using non-observable inputs.

As of June 30, 2025, the District has the following investments:

Investments	Maturity	Total	Rating
CSAFE	Less than 1 year	\$3,521,921	AAAm

The Colorado Surplus Asset Fund Trust (CSAFE) Core Fund investments are valued using the net asset value (NAV) per share provided by the pool. The NAV is calculated daily and participant transactions may occur daily. The investments do not have any unfunded commitments, redemption restrictions or redemption notice periods. CSAFE investments conform to Colorado Statutes CRS 24-75-601 et. seq. and therefore invests primarily in securities of the United States Treasury, United States Agencies, Primary Dealer Repurchase Agreements, highly rated commercial paper, highly rated corporate bonds, Colorado depositories collateralized at 102% of market value according to the guidelines of the Public Deposit Protection Act. CSAFE measures all of its investments at amortized cost. CSAFE is rated AAAs/1 by Fitch Ratings, reflecting the highest underlying credit quality of the portfolio and very low sensitivity to market risk.

NOTE 7 INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund Receivables/Payables

The District reports interfund balances between many of its funds. The balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Interfund balances are generally expected to be repaid within one year of the financial statement date.

Interfund receivable and payable balances at June 30, 2025, were as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Projects Fund	\$ 291,939
General Fund	Building Fund	5,775
General Fund	Internal Service Fund	1,570
Food Service Fund	General Fund	40,498
Pupil Activity Fund	Private Purpose Trust Fund	7,500

Interfund Transfers

Interfund transfers for the year ended June 30, 2025, were as follows:

Transfer In	Transfer Out	Amount
Pupil Activity Fund	General Fund	\$ 60,000
Building Fund	General Fund	67,000
		\$ 127,000

The General Fund transfers were made to subsidize the Pupil Activity Fund, increase the BEST Capital Renewal Reserve, and for capital improvement projects in the Building Fund.

NOTE 9 ACCRUED SALARIES AND BENEFITS

The teachers, administrators, and the administrative staff are employed under nine, ten, and eleven month contracts. All District employees are paid on a twelve-month basis, therefore, a difference exists between the actual amount of salaries earned under the contract and the amount paid. The difference between salaries earned and paid, including the District's share of benefits, has been accrued in the financial statements in the amount of \$1,578,129.

NOTE 10 LONG-TERM LIABILITIES

Changes in Long-Term Liabilities

Long-term liability balances for the year ended June 30, 2025, were as follows:

General Obligation Bonds Payable

Series 2010D-F Matching Money Bonds

On December 16, 2010, the District issued general obligation bonds series 2010D-F matching money bonds in the amount of \$3,752,301 with an interest rate of 4.082% to be paid in full on December 1, 2030. The bonds were issued for the District's match for the Building Excellent Schools Today Act (BEST) grant for the construction of the new high school and the construction and renovation of the Bill Metz elementary school. The principal balance outstanding at June 30, 2025, was \$1,451,627.

Series 2016

On August 10, 2016, the District issued general obligation refunding bonds series 2016 in the amount of \$4,120,000 with an interest rate of 3.33% to be paid in full on December 1, 2034. The bonds were issued to refund \$2,630,000 of the District's outstanding Series 2009 Bonds callable December 1, 2019 and \$1,215,000 of its Series 2010 Bonds callable December 1, 2020. The principal balance outstanding at June 30, 2025, was \$2,945,000.

Financed Purchase Agreements

The District entered into a financed purchase agreement between Signature Public Funding Corp, as lessor, and the District, as lessee, for the purchase of energy performance improvements. The agreement, dated June 28, 2022, was for \$1,134,253 with an interest rate of 3.35%. The agreement has a term of 10 annual payments from the General Fund, with final payment due on July 15, 2032. The cost of the performance improvements was \$1,345,400 and accumulated depreciation was \$112,117 at June 30, 2025. The principal balance outstanding at June 30, 2025, was \$937,710.

The annual debt service for the financed purchase agreement is as follows:

NOTE 11 DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan description. Eligible employees of the District are provided with pensions through the SCHDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at www.copera.org/forms-resources/financial-reports-and-studies.

Benefits provided as of December 31, 2024. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of highest average salary and cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007 will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of June 30, 2025. Eligible employees of the District and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Eligible employees are required to contribute 11.00% of their PERA-includable salary during the period of July 1, 2024 through June 30, 2025. Employer contribution requirements are summarized in the table below:

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

	July 1, 2024 Through June 30, 2025
Employer Contribution Rate	11.40%

Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	5.50%
Total employer contribution rate to the SCHDTF	20.38%

*Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$1,638,266, for the year ended June 30, 2025.

For purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation. As specified in C.R.S. § 24-51-414, the State is required to contribute a \$225 million direct distribution each year to PERA starting on July 1, 2018. For 2024, a portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the SCHDTF was measured as of December 31, 2024, and the total pension liability (TPL) used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll forward the TPL to December 31, 2024. The District's proportion of the net pension liability was based on the District contributions to the SCHDTF for the calendar year 2024 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At June 30, 2025, the District reported a liability of \$17,328,575 for its proportionate share of the net pension liability that reflected an increase for support from the State as a nonemployer contributing entity. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

Monte Vista School District's proportionate share of the net position liability	\$	17,328,575
The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the Monte Vista School District		1,556,381
Total	\$	18,884,956

At December 31, 2024, the District's proportion was 0.1004%, which was a decrease of 0.012% from its proportion measured as of December 31, 2023.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

For the year ended June 30, 2025, the District recognized pension expense of (\$111,245) and revenue of \$142,051 for support from the State as a nonemployer contributing entity. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 981,291	\$ -
Net difference between projected and actual earnings on pension plan investments	326,942	-
Changes of assumptions or other inputs	129,914	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,335,651	1,498,369
Contributions subsequent to the measurement date	841,979	-
Total	\$ 3,615,777	\$ 1,498,369

\$841,979 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,		
2026	\$	1,191,265

¹ Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

All mortality assumptions are developed on a benefit-weighted basis and apply generational mortality. Note that in all categories, displayed as follows, the mortality tables are generationally projected using scale MP-2019.

	Mortality Rate	Adjustments, as Applicable
Pre-Retirement	PubT-2010 Employee	N/A
Post-Retirement (Retiree), Non-Disabled	PubT-2010 Healthy Retiree	Males: 112% of the rates prior to age 80/ 94% of the rates age 80 and older Females: 83% of the rated prior to age 80/ 106% of the rates age 80 and older

Disabled	PubNS-2010 Disabled Retiree	99% of the rates for all ages

The actuarial assumptions used in the December 31, 2023, valuation were based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by the PERA Board on November 20, 2020.

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA’s Board on January 17, 2025, and were effective as of December 31, 2024. The following assumptions were reflected in the roll forward calculation of the total pension liability from December 31, 2023, to December 31, 2024.

Salary increases, including wage inflation: 4.00%-13.40%

Salary scale assumptions were altered to better reflect actual experience.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.

The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%.

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. All mortality assumptions are developed on a benefit-weighted basis. Note that in all categories, displayed as follows, the mortality tables are generationally projected using the 2024 adjusted MP-2021 projection scale.

The long-term expected return on plan assets is monitored on an ongoing basis and reviewed as part of periodic experience studies prepared every four years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the November 15, 2019, meeting, and again at the Board's September 20, 2024, meeting. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
Global Equity	51.00%	5.00%
Fixed Income	23.00%	2.60%
Private Equity	10.00%	7.60%
Real Estate	10.00%	4.10%
Alternatives	6.00%	5.20%
Total	<u>100.00%</u>	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the TPL was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in Senate Bill (SB) 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessment. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessment. Employer contributions also include the current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the SCHDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine the TPL. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.25%) or one-percentage-point higher (8.25%) than the current rate:

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan description. Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at www.copera.org/forms-resources/financial-reports-and-studies.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member’s years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient’s eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare.

Enrollment in the PERACare health benefits program is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$81,994 for the year ended June 30, 2025.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the District reported a liability of \$307,458 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2024, and the total OPEB liability (TOL) used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll-forward the TOL to December 31, 2024. The District’s proportion of the net OPEB liability was based on the District’s contributions to the HCTF for the calendar year 2024 relative to the total contributions of participating employers to the HCTF.

At December 31, 2024, the District proportion was 0.064%, which was a decrease of 0.003% from its proportion measured as of December 31, 2023.

For the year ended June 30, 2025 the District recognized OPEB expense of (\$123,867). At June 30, 2025, District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

\$42,140 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Actuarial assumptions. The TOL in the December 31, 2023 actuarial valuation was determined using the following actuarial cost method, and key actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.40%-11.00%
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 %
PERACare Medicare plans ¹	16.00% in 2024, then 6.75% in 2025, gradually decreasing to 4.50% in 2034
MAPD PPO #2	105.00% in 2024, then 8.55% in 2025, gradually decreasing to 4.50% in 2034
Medicare Part A premiums	3.50% in 2024, gradually increasing to 4.50% in 2033

As of the December 31, 2024, measurement date, the FNP and related disclosure components for the HCTF reflect additional payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

Each year the per capita health care costs are developed by plan option. As of the December 31, 2023, actuarial valuation, costs are based on 2024 premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1, the UnitedHealthcare MAPD PPO plan #2, and the Kaiser Permanente MAPD HMO plan. Actuarial morbidity factors were then applied to estimate individual retiree and spouse costs by age, gender, and health care cost trend. This approach applies for all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A for the PERA benefit structure.

The 2024 Medicare Part A premium is \$505 (actual dollars) per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models, and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. PERACare Medicare plan rates are applied where members have no premium-free Part A and where those premiums are already exceeding the maximum subsidy. MAPD PPO #2 has a separate trend

because the first year rates are still below the maximum subsidy and to reflect the estimated impact of the Inflation Reduction Act for that plan option.

The PERA benefit structure health care cost trend rates that were used to measure the TOL are summarized in the table below:

Mortality assumptions used in the December 31, 2023, valuation for the Division Trust Funds as shown in the following table, reflect generational mortality and were applied, as applicable, in the December 31, 2023, valuation for the HCTF, but developed using a headcount-weighted basis. Note that in all categories, displayed as follows, the mortality tables are generationally projected using scale MP-2019. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

	Mortality Rate	Adjustments, as Applicable
Pre-Retirement	PubT-2010 Employee	N/A
Post-Retirement (Retiree), Non-Disabled	PubT-2010 Healthy Retiree	Males: 112% of the rates prior to age 80/ 94% of the rates age 80 and older Females: 83% of the rates prior to age 80/ 106% of the rates age 80 and older

Disabled	Pub-2010 Disabled Retiree	99% of the rates for all ages

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Per capita health care costs in effect as of the December 31, 2023, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to be age 65 and older and are not eligible for premium-free Medicare Part A benefits have been updated to reflect costs for the 2024 plan year.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

- The health care cost trend rates applicable to health care premiums were revised to reflect the current expectation of future increases in those premiums. A separate trend rate assumption set was added for MAPD PPO #2 as the first-year rate is still below the maximum subsidy and also the assumption set reflects the estimated impact of the Inflation Reduction Act for that plan option.
- The Medicare health care plan election rate assumptions were updated effective as of the December 31, 2023, valuation date based on an experience analysis of recent data.

The actuarial assumptions used in the December 31, 2023, valuations were based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020.

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA's Board on January 17, 2025, and were effective as of December 31, 2024. The following assumptions were reflected in the roll forward calculation of the total OPEB liability from December 31, 2023, to December 31, 2024.

Salary increases, including wage inflation: 4.00%-13.40%

The following health care costs assumptions were used in the roll forward calculation for the HCTF:

- Salary scale assumptions were altered to better reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- Participation rates were reduced.
- MAPD premium costs are no longer age graded.

Plan	With Medicare Part A	Without Medicare Part A
MAPD PPO #1	\$ 1,824	\$ 6,972
MAPD PPO #2	624	4,524
MAPD HMO (Kaiser)	2,040	7,596

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. Note that in all categories, the mortality tables are generationally projected using the 2024 adjusted MP-2021 project scale. These assumptions updated for the Division Trust Funds, were also applied in the roll forward calculations for the HCTF using a headcount-weighted basis. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

The actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed annually and updated, as appropriate, by the PERA Board’s actuary.

The long-term expected return on plan assets is reviewed as part of regularly scheduled experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the November 15, 2019, meeting, and again at the Board's September 20, 2024, meeting. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
Global Equity	51.00%	5.00%
Fixed Income	23.00%	2.60%
Private Equity	10.00%	7.60%
Real Estate	10.00%	4.10%
Alternatives	6.00%	5.20%
Total	<u>100.00%</u>	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the TOL was 7.25%. The basis for the projection of liabilities and the FNP used to determine the discount rate was an actuarial valuation performed as of December 31, 2023, and the financial status of the HCTF as of the current measurement date (December 31, 2024). In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2024, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection year, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- As of the December 31, 2024, measurement date, the FNP and related disclosure components for the HCTF reflect additional payments related to the disaffiliation of Tri-County Health as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

Based on the above assumptions and methods, the FNP for the HCTF was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the TOL. The discount

rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

NOTE 13 DEFINED CONTRIBUTION PENSION PLAN

Voluntary Investment Program (PERAPlus 401(k) Plan)

Plan Description - Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available ACFR which includes additional information on the Voluntary Investment Program. That report can be obtained at www.copera.org/forms-resources/financial-reports-and-studies.

Funding Policy – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions, employer contributions, and investment earnings. For the year ended June 30, 2025, program members contributed \$34,154 for the Voluntary Investment Program.

NOTE 14 JOINT VENTURES AND RELATED PARTIES

The District participates in the following entities. These joint ventures and related parties do not meet the criteria for inclusion within the reporting entity because the following entities:

- are financially independent and responsible for its own financing deficits and entitled to its own surpluses,
- have a separate governing board from that of the District,
- have a separate management which is responsible for day-to-day operations and is accountable to the separate governing board,
- have governing boards and management with the ability to significantly influence operations by approving budgetary requests and adjustments, signing contracts, hiring personnel, exercising control over facilities and determining the outcome for disposition of matters affecting the recipients of services provided, and

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

- have absolute authority over all funds and fiscal responsibility including budgetary responsibility and reporting to state agencies and controls fiscal management.

San Luis Valley Board of Cooperative Educational Services (BOCES)

The BOCES is an organization that provides member districts educational services at a shared lower cost per district. The Board of the BOCES is selected from the elected members of the District Boards. The District has one member on the Board. This Board has final authority for all budgeting and financing of the joint venture. The District's share of the joint venture is approximately 7% at June 30, 2025. Complete separate financial statements may be obtained from BOCES.

Colorado School Districts' Self-Insurance Pool

The District belongs to the Colorado School Districts' Self-Insurance Pool. The Pool was established by the Colorado Association of School Boards (CASB) to provide insurance coverage to participants in the areas of General Liability, Errors and Omissions, Automobile Liability, Auto Physical Damage, Auto Personal Injury Protection, Real and Personal Property, Crime, and other coverage. The Board of Directors is composed of eight persons, several of who are appointed by the Board of Directors of CASB and the Executive Director of CASB. The pool is managed by an independent manager chosen by the Board of Directors. Each member's initial contribution and subsequent contributions are determined by the Pool based on factors including, but not limited to, the aggregate Pool claims, the cost of administrative and other operating expenses, the number of participants, the adequacy of both Operating and Reserve Funds and other factors touching on the status of the Pool or an individual participant, and as approved by the Colorado Insurance Commissioner.

As the District did not exercise oversight responsibility nor have sufficient control over Pool activities, the Pool is not a component unit of the District and only the District's share of contributions to the Pool is recorded as expenditures in the General Fund. The District's share in the Pool is not determinable from current information, but is estimated to be less than 1%. The District's share, if calculated, would not be material to the Pool's financial information at June 30, 2025. Complete separate financial statements may be obtained from the Colorado School Districts' Self-Insurance Pool.

NOTE 15 COMMITMENTS AND CONTINGENCIES

The District participates in federal grant programs subject to program compliance audits by the grantors or their representatives. The amount, if any, of expenses which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

NOTE 16 TABOR EMERGENCY RESERVE

Colorado voters passed an amendment to the State constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the amendment.

Fiscal year spending and revenue limits are determined based on the prior year's spending adjusted for inflation and local growth. Revenue in excess of the limit must be refunded unless the voters approve retention of such revenue. On November 6, 2001 voters approved a ballot measure authorizing the District to collect, retain and expend all revenues including grants and other funds collected during 2000-01 budget year and each subsequent year from any

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2025

source, notwithstanding the limitations of Article X, Section 20 of the Colorado constitution, provided, however, that no property tax mill levy be increased at any time nor shall any new tax be imposed without the prior approval of the voters.

The amendment also requires that Emergency Reserves be established. These reserves must be at least three percent of fiscal year spending. This Emergency Reserve has been presented as restricted fund balance in the General Fund balance sheet and a restricted net position in the government-wide statement of net position. The entity is not allowed to use the Emergency Reserve to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

NOTE 17 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by Colorado School District's Self Insurance Pool. There have been no significant reductions in insurance coverage. Settled claims from these risks have not exceeded commercial insurance coverage for the current year or the three prior years.

Self-Insurance Funds

Internal Service - Health Insurance Fund

Effective July 1, 2014, the District began a level-funding self-insurance program to internally provide services previously purchased through a third party contract. The purpose of the program is to pay medical and prescription claims of the District employees and minimize annual medical insurance costs to the District. Medical claims exceeding \$40,000 per covered individual claim liability is covered by a private insurance carrier.

The costs associated with the self-insurance plan are reported as interfund transactions. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the other funds. The District does not report a liability based on the requirements of Governmental Accounting Standards Board No. 10, as the plan is a level-funding health plan in which monthly payments to the Third Party Administrator are fixed.

MONTE VISTA SCHOOL DISTRICT NO. 8

REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements, a budgetary comparison schedule is required for the General Fund and each of the District's major special revenue funds. In addition, pension and OPEB plan contributions and the District's proportionate share of the net pension and OPEB liability are required to supplement the basic financial statements.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2025

NOTE 1 PENSION PLAN - COLORADO PERA SCHDTF

Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

2024

- There were no changes made to the plan provisions.

2023

- Senate Bill (SB) 23-056, enacted and effective June 2, 2023, intended to recompense PERA for the remaining portion of the \$225 million direct distribution originally scheduled for receipt July 1, 2020, suspended due to the enactment of House Bill (HB) 20-1379, but not fully repaid through the provisions within HB 22-1029. Pursuant to SB 23-056, the State Treasurer issued a warrant consisting of the balance of the PERA Payment Cash Fund, created in §24-51-416, plus \$10 million from the General Fund, totaling \$14.561 million.
- As of the December 31, 2023, measurement date, the total pension liability (TPL) recognizes the change in the default method applied for granting service accruals for certain members, from a "12-pay" method to a "non-12-pay" method. The default service accrual method for positions with an employment pattern of at least eight months but fewer than 12 months (including, but not limited to positions in the School and DPS Divisions) receive a higher ratio of service credit for each month worked, up to a maximum of 12 months of service credit per year.

2022

- HB 22-1029, effective upon enactment in 2022, required the State Treasurer to issue, in addition to the regularly scheduled \$225,000 direct distribution, a warrant to PERA in the amount of \$380,000 with reductions to future direct distributions. The July 1, 2023, direct distribution will be reduced by \$190,000 to \$35,000. The July 1, 2024, direct distribution will not be reduced from \$225,000 due to a negative investment return in 2022.

2021

- The following changes reflect the anticipated adjustments resulting from the 2020 automatic adjustment provision (AAP) assessment, statutorily recognized July 1, 2021, and effective July 1, 2022:
 - Member contribution rates increase by 0.50%.
 - Employer contribution rates increase by 0.50%.
 - Annual increase (AI) cap is lowered from 1.25% per year to 1.00% per year.

2020

- HB 20-1379, enacted on June 29, 2020, suspended the \$225,000 direct distribution payable on July 1, 2020 for the State's 2020-21 fiscal year.

2019

- SB 18-200 was enacted on June 4, 2018, which included the adoption of the AAP. The following changes reflect the anticipated adjustments resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020:
 - Member contribution rates increase by 0.50%.
 - Employer contribution rates increase by 0.50%.
 - AI cap is lowered from 1.50% per year to 1.25% per year.

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2025

2018

- The following changes were made to the plan provisions as part of SB 18-200:
 - Member contribution rates increase by 0.75% effective July 1, 2019, an additional 0.75% effective July 1, 2020, and an additional 0.50% effective July 1, 2021.
 - Employer contribution rates increase by 0.25% effective July 1, 2019
 - An annual direct distribution of \$225,000 from the State of Colorado, recognized as a nonemployer contributing entity, is distributed between the State, School, Judicial, and DPS Divisions proportionally based on payroll.
 - AI cap is lowered from 2.00% per year to 1.50% per year.
 - Initial AI waiting period is extended from one year after retirement to three years after retirement.
 - AI payments are suspended for 2018 and 2019.
 - The number of years used in the Highest Average Salary calculation for non-vested members as of January 1, 2020, increases from three to five years.

2017 – no changes

2016 – no changes

Significant Changes in Assumptions or Other Inputs Affecting Trends in Actuarial Information

2024

- Salary scale assumptions were altered to better reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The Pub-2010 Public Retirement Plans Mortality base tables were retained for purposes of active, retired, disabled, and beneficiary lives, with revised adjustments for credibility and gender, where applicable. In addition, the applied generational projection scale was updated to the 2024 adjusted scale MP-2021.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%.

2023 – no changes

2022 – no changes

2021

- The assumption used to value the AI cap benefit provision was changed from 1.25% to 1.00%.

2020

- The price inflation assumption was lowered from 2.40% to 2.30%.
- The wage inflation assumption was lowered from 3.50% to 3.00%.
- The real rate of investment return assumption was increased to 4.95% per year, net of investment expenses from 4.85% per year, net of investment expenses.
- Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2025

actual experience.

- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption for the School and DPS Divisions was changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the School Divisions was changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:
 - Males: 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
 - Females: 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The disabled mortality assumption for the Division Trust Funds was changed to the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.
- The mortality tables are generational mortality tables developed on a benefit-weighted basis.

2019

- The assumption used to value the AI cap benefit provision was changed from 1.50% to 1.25%.

2018

- The single equivalent interest rate (SEIR) was increased from 4.78% to 7.25% to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.

2017

- The SEIR for the School Division was lowered from 5.26% to 4.78% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The municipal bond index rate used in the determination of the SEIR changed from 3.86% on the prior measurement date to 3.43% on the measurement date.

2016

- The investment return assumption was lowered from 7.50% to 7.25%.
- The price inflation assumption was lowered from 2.80% to 2.40%.
- The wage inflation assumption was lowered from 3.90% to 3.50%.
- The post-retirement mortality assumption for healthy lives was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93% factor applied to ages below 80 and a 113% factor applied to age 80 and above, projected to 2018, for males, and a 68% factor applied to ages below 80 and a 106% factor applied to age 80 and above, projected to 2020, for females.
- For disabled retirees, the mortality assumption was changed to reflect 90% of RP-2014 Disabled Retiree Mortality Table.
- The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70% factor applied to male rates and a

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2025

55% factor applied to female rates.

- The rates of retirement, withdrawal, and disability were revised to reflect more closely actual experience.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.35% to 0.40%.
- The SEIR for the State and School Divisions was lowered from 7.50% to 5.26% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate of 3.86% on the measurement date.

Subsequent Events

SB 25-310, enacted June 2, 2025, and effective immediately, allows PERA to accept a series of warrants from the State Treasurer totaling \$500 million (actual dollars) on or after July 1, 2025, and before October 1, 2025. These dollars are to be proportioned over time to replace reductions to future direct distributions intended to fund the Peace Officer Training and Support Fund and, at that time, will be allocated to the appropriate Division Trust Fund(s) within PERA. SB 25-310 also allows for an alternative actuarial method to allocate the direct distribution if the allocation, based on the reported payroll of each participating division, results in an AAP assessment ratio below the 98% benchmark.

NOTE 2 OTHER POST-EMPLOYMENT BENEFIT PLAN - COLORADO PERA HCTF

Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

2024

- As of the December 31, 2024, measurement date, the FNP and related disclosure components for HCTF reflect additional payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

2023

- As of the December 31, 2023, measurement date, the fiduciary net position (FNP) and related disclosure components for the Health Care Trust Fund (HCTF) reflect payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1,033 and \$24,967, respectively.

2022

- The total OPEB liability for the HCTF, as of the December 31, 2022, measurement date, was adjusted to reflect the disaffiliation, allowable under C.R.S. § 24-51-313, of Tri-County Health, effective December 31, 2022. As of the close of the 2022 fiscal year, no disaffiliation payment associated with Tri-County Health was received, and therefore no disaffiliation dollars were reflected in the FNP as of the December 31, 2022, measurement date.

2021 – no changes

2020 – no changes

MONTE VISTA SCHOOL DISTRICT NO. 8
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2025

2019 – no changes

2018 – no changes

2017

- The Cunningham Fire Protection District (CFPD) disaffiliated from the Local Government Division, thereby ending participation in the HCTF on December 2, 2017. For the purpose of disclosure as of the December 31, 2017, measurement date, liabilities were determined assuming no additional service accruals impacting possible future premium subsidies for the disaffiliated membership of the CFPD that had not refunded their PERA member contribution accounts. The total disaffiliation payment of \$1,159 was allocated to the Local Government Division Trust Fund and the HCTF in the amount of \$1,063 and \$96, respectively.

Significant Changes in Assumptions or Other Inputs Affecting Trends in Actuarial Information

2024

- Salary scale assumptions were altered to better reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on experience. In addition, the mortality projection scale was updated to the 2024 adjusted scale MP-2021 to reflect future improvements in mortality for all groups.
- Participation rates were reduced.
- MAPD premium costs are no longer age graded.

2023 – no changes

2022

- The timing of the retirement decrement was adjusted to middle-of-year.

2021 – no changes

2020

- The price inflation assumption was lowered from 2.40% to 2.30%.
- The wage inflation assumption was lowered from 3.50% to 3.00%.
- The real rate of investment return assumption was increased to 4.95% per year, net of investment expenses from 4.85% per year, net of investment expenses.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption was changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption was changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:

MONTE VISTA SCHOOL DISTRICT NO. 8

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended June 30, 2025

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available. Monte Vista School District No. 8 did not elect to use the 15-percent or 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance for the year ended June 30, 2025. In addition, the District did not pass-through federal funds to subrecipients.

NOTE 2: BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Monte Vista School District No. 8 under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Monte Vista School District No. 8, it is not intended to and does not present the financial position or changes in net position of Monte Vista School District No. 8.

NOTE 3: FOOD DISTRIBUTION

Nonmonetary assistance is reported in the Schedule at the fair market value of commodities received and disbursed.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

To the Board of Education
Monte Vista School District No. 8
Monte Vista, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Monte Vista School District No. 8 (the District), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 25, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit the attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as Finding 2025-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs and the corrective action plan. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Monte Vista School District No. 8's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2025. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Certified Public Accountants

3001 Adcock Circle PO Box 809 Alamosa, CO 81101 | 719-589-3619 | f 719-589-5492 | www.wsbcpa.com

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a

material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2025

Section II – Financial Statement Findings

**Finding 2025-001: Internal Control over Financial Reporting
(Repeat of Finding 2024-001 and 2023-001)**

Type of finding: Internal Control (significant deficiency)

Criteria: A system of internal controls includes the design, documentation, and monitoring of control activities over the application of accounting principles, non-routine transactions, and financial statement preparation.

Condition: The District's system of internal control did not detect and correct financial misstatements.

Cause: A reconciliation and review process was not completed accurately to properly state year-end account balances and interfund activity.

Effect: Audit adjustments were proposed to properly state the financial statements as of June 30, 2025, in accordance with generally accepted accounting principles.

Recommendation: The District should continue to strengthen its internal controls with adopted policies and procedures over reconciliations of the balance sheet and interfund activity to ensure transactions and reconciling items are properly recorded.

Management's Response: See corrective action plan.

Section III – Federal Award Findings and Questioned Costs

Section II – Financial Statement Findings

Finding 2024-001: Internal Control over Financial Reporting
(Repeat of Finding 2023-001)

Type of finding: Internal Control (significant deficiency)

Condition: The District’s system of internal control did not detect and correct financial misstatements or ensure compliance with budget laws.

Recommendation: The District should continue to strengthen its internal controls with adopted policies and procedures over reconciliations of the balance sheet to ensure transactions and reconciling items are properly recorded. In addition, the District should implement policies and procedures to ensure a budget is adopted for every District Fund and incorporate a review process over budget to actual statements and adopt supplemental appropriations as necessary.

Status: Partially Implemented. (See Finding 2025-001).

Section III – Federal Award Findings and Questioned Costs

CORRECTIVE ACTION PLAN

Oversight Agency: U.S. Department of Education

Monte Vista School District No. 8 respectfully submits the following corrective action plan for the year ended June 30, 2025.

Independent Accountants: Wall, Smith, Bateman Inc.
Certified Public Accountants
3001 Adcock Circle
Alamosa, CO 81101

Audit period: Year ended June 30, 2025

The findings from the June 30, 2025 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule. Section I of the schedule, Summary of Auditors' Results, does not include findings and is not addressed.

Section II – Financial Statement Findings

Finding 2025-001: Internal Control over Financial Reporting
(Repeat Finding of 2024-001 and 2023-001)

Type of Finding: Internal Control (significant deficiency)

Recommendation: The District should continue to strengthen its internal controls with adopted policies and procedures over reconciliations of the balance sheet and interfund activity to ensure transactions and reconciling items are properly recorded.

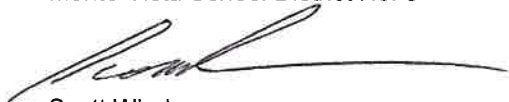

Action Taken: The internal control policies and procedures will continue to be reviewed to ensure interfund activities are reconciled properly. As a measure to limit multiple accounting entries, the District will work with the Auditor to move to a Pooled Cash System, eliminating physical transfers of funds.

If there are questions regarding this plan, please call the responsible parties listed below.
