Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Weld County School District RE-2 (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the basic financial statements of the District, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Weld County School District RE-2's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Change in Accounting Principle

As described in Note 11 to the financial statements, in 2024, the District adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and budgetary comparison schedules and the auditor's integrity report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the EMMA continuing disclosure section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**WELD COUNTY SCHOOL DISTRICT RE-2
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2025**

As management of Weld County School District RE-2 (the District), we offer readers of the District's financial statements this narrative and analysis of the financial activities of the District for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with the basic financial statements and the notes to the financial statements to enhance their understanding of the District's performance.

Financial Highlights – Financial Statements as of June 30, 2025

- Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at the close of June 30, 2025, by \$51,392,468 (Total Net Position) as reported in the government-wide financial statements.
- The District's government-wide total net position increased by \$2,810,178 over the prior fiscal year.
- Expenses from governmental activities of \$38,578,942 were offset by program specific charges, grants, and contributions of \$4,139,977. General revenues from property taxes, interest and investment earnings and other sources amounted to \$37,249,143.
- At the close of June 30, 2025, the District reported \$55,058,268 combined fund balances (budget basis) for the Governmental Funds, a decrease of \$1,100,701 primarily due to the decrease in fund balance in Fund 07 Total Program Reserve Fund, \$4,813,056, as the District started the building maintenance and other initiatives. Fund 41 Building Fund decreased by \$1,860,944 with the continuation of bond funds being spent on district bond initiatives.
- The District's debt from General Obligation Bonds totals \$114,740,000 (excluding related premiums) as a result of the Series 2019 bonds sold in December 2019.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the District's basic financial statements. The basic financial statements comprise of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information about all the District's assets and liabilities, with the difference between the two reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating, keeping in mind that this net position includes the District's proportionate share of the PERA pension and OPEB liabilities for which it has no means of control.

The statement of activities presents information showing how the District's net position changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows.

**WELD COUNTY SCHOOL DISTRICT RE-2
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2025**

Both of the government-wide financial statements distinguish functions of the District that are supported by taxes from other functions that are intended to recover all or most of their costs through user fees and charges. The governmental activities of the District include instruction, supporting services, and food services of the District.

The government-wide financial statements can be found on pages 4 through 5 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the District's near-term financing requirements. The annual budget is provided on the basis of the governmental fund financial statements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains twelve individual governmental funds. The major funds are the General Fund, Debt Service Fund, and the Capital Reserve Fund. They are presented separately in the fund financial statements with the remaining governmental funds labeled other governmental funds. Individual fund information for the non-major governmental funds is reported in the form of combining and individual statements in supplementary schedules within this report.

The District adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for all funds to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the district. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The fund financial statements can be found on pages 6 through 11 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 12 through 36 of this report.

Other information. The combining and individual fund statements referred to earlier in connection with non-major governmental funds are presented after the notes to the financial statements on pages 44 through 57. A budget comparison is provided for each non-major fund.

**WELD COUNTY SCHOOL DISTRICT RE-2
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2025**

The additional schedules required as part of the Colorado Public School Finance Act can also be found after the notes to the financial statements on pages 12 through 36.

Government-wide Financial Analysis

The assets of the District are classified as current assets and capital and non-current assets. Cash, investments, receivables, inventories, and other assets are current assets. These assets are available to provide resources for the near-term operations of the District. A good portion of the current assets are the result of the property tax collection process; the District receives approximately 99% of the annual property tax assessment between January and June.

Capital Assets are used in the operations of the District. These assets are land, improvements, buildings, equipment, and vehicles. Capital assets are discussed in greater detail in the section titled Capital Assets and Debt Administration, elsewhere in this analysis.

Current and long-term liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, retainage payable, accrued salaries and benefits, unearned grant revenue and accrued interest payable. The liquidation of current liabilities is anticipated to be either from currently available resources, current assets or new resources that become available during fiscal year 2024-25. Non-current liabilities such as long-term debt obligations and compensated absences payable will be liquidated from resources that will become available after fiscal year 2024-25.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at the close of June 30, 2025, by \$51,392,468 at the close of the most recent fiscal year.

Net Position - Ending	\$ 51,392,468	\$ 50,309,506

Governmental activities. The primary source of operating revenue for school districts comes from the School Finance Act of 1994. Under this act, the District received \$11,052 per funded student, representing a 7.0 percent funding increase from the previous year. Funding for the School Finance Act comes from property taxes, and specific ownership tax. Governmental activities increased the District's net position in 2025 by \$2,810,178 and increased the District's net position in 2024 \$10,614,968.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

**WELD COUNTY SCHOOL DISTRICT RE-2
MANAGEMENT’S DISCUSSION AND ANALYSIS
June 30, 2025**

Ad valorem taxes collected under a specific levy to meet debt-service requirements of the long-term general obligation bonds are reported in the Bond Redemption Debt Service Fund. The fund has adequate resources accumulated to make the December 2025 principal and interest payments.

General Fund Budgetary Highlights

The General Fund is the major operating fund of the District. At the end of the fiscal year, fund balance increased by \$835,001. The main contributing factor was \$1,500,000 in Mill Levy Override monies received in fiscal years 2020-2021 to 2022-2023 but is restricted for 2024-2025 expenditures. Property taxes and specific ownership taxes accounted for 94% of the revenue received. Direct instruction and student support services were 99% of total expenditures for the year. Expenditures in the General Fund were under budget within several categories which accounted for some of the fund increase. Unassigned Fund Balance represents 47% of expenditures and other financing sources and uses.

The District is required to adopt a budget by June 30 for the following fiscal year. The Board of Education may make final changes to the previously adopted budget by January 31. The District did adopt changes to the various funds as a result of updated revenue, expenditures, and beginning fund balance information.

Capital Asset and Debt Administration

Capital assets. The District’s investment in capital assets for governmental activities as of June 30, 2025, amounts to \$160,159,731 (net of accumulated depreciation). This investment in capital assets includes land, buildings, service vehicles, buses, and equipment.

	2025	2024
Governmental Activities - Capital Assets		
Land	1,628,735	1,628,735
Construction in Progress	1,401,408	-
Land Improvements	3,792,052	2,843,052
Site and Building	174,952,852	174,952,852
Machinery and Equipment	7,957,728	6,305,561
Less: Accumulated Depreciation	<u>(29,573,044)</u>	<u>(25,011,836)</u>
Total Governmental Activities - Capital Ass	<u><u>160,159,731</u></u>	<u><u>160,718,364</u></u>

Additional information on capital assets can be found in the notes to financial statements.

As of June 30, 2025, the District had outstanding long-term debt of \$138,098,855. Of this amount, \$114,740,000 is general obligation bonded debt.

Debt Administration. The debt is backed by the full faith and credit of the District. The Series 2019 bonds, \$128,500,000, were approved by voters in November 2019 and issued December 2019. Moody’s Investors Services, Inc. assigned a stable credit profile and affirmed the underlying rating of A1 as of October 1, 2018. The rating outlook was a result from a history of strong financial performance

**WELD COUNTY SCHOOL DISTRICT RE-2
MANAGEMENT’S DISCUSSION AND ANALYSIS
June 30, 2025**

evidenced by prudent financial management, the mill levy override provides additional financial stability and more cash than debt outstanding. Moody’s Investors Services concern over the high-level concentration of the District’s tax base being in oil and natural gas production. On May 16, 2018, Standard and Poor assigned a long- term debt rating of AA.

Economic Factors and Next Year’s Budget

- In September 2024, the Joint Budget Committee received its quarterly economic forecast briefing, and the news was discouraging. Due to a combination of factors—lower than anticipated state revenue collection and increasing budget demands such as rising Medicaid costs—Colorado is looking at a deficit of more than \$900 million in the General Fund for fiscal year 2025-26.
- The latest forecast paints a picture of competing elements. On one hand, consecutive tax cuts, increasing unemployment rates, and a slowing of wage growth and consumer spending mean that the state is taking in less revenue. But at the same time, Colorado faces growing costs in healthcare and K-12 funding, and there simply isn’t enough money to bridge the gap. Add to that the end of dollars from the American Recovery Plan Act (ARPA) and a statutory requirement that Colorado maintain a 15% reserve, and it’s clear that the Legislature will face a challenging outlook when crafting the next budget.
- Specific to public education, there is some question about whether there will be enough state funds to implement House Bill 24-1448, which created a new school finance formula. Under the new formula, total program funding is expected to increase by \$95 million in 2025-26, and by about \$571 million in the last year of its implementation (2030-31). Additionally, at current spending rates, the State Education Fund is likely to hit zero in three to four years, which creates more budget pressures.
- Several Joint Budget Committee members cited Colorado’s overall strong economy and lack of recession indicators as a reason to be optimistic, though it’s a certainty that even if the forecast is improved, the state will still face some shortfall in the coming year.

Requests for Information

This financial report is designed to provide the District’s citizens, taxpayers, customers, investors, and creditors with a general overview of District’s finances and to demonstrate the District’s accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Eaton School District RE-2, 211 1st Street, Eaton, Colorado 80615.

WELD COUNTY SCHOOL DISTRICT RE-2
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2025

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES ARE DIFFERENT BECAUSE:

Net Change in Fund Balances of Governmental Funds	\$ (1,100,701)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as follows:	
Depreciation Expense	(4,607,031)
Capital Outlay	4,080,434
Loss on Disposal of Capital Assets	(32,036)
Revenues that do not provide current financial resources are deferred in the governmental fund financial statements but are recognized in the government-wide financial statements. This amount represents the change in deferred property taxes.	
	123,256
The repayment of long-term debt principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position and does not affect the statement of activities.	
	3,305,000
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. This is the effect of these differences in the treatment of long-term debt and related items as follows:	
Amortization of Bond Premiums	1,840,203
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This includes the changes in the following:	
Accrued Interest Payable	13,771
Accrued Compensated Absences	(478,297)
Net Pension Liability	2,030,887
Pension-Related Deferred Outflows of Resources	(3,163,527)
Pension-Related Deferred Inflows of Resources	602,154
Net OPEB Liability	242,583
OPEB-Related Deferred Outflows of Resources	(3,864)
OPEB-Related Deferred Inflows of Resources	<u>(42,654)</u>
Change in Net Position of Governmental Activities	<u>\$ 2,810,178</u>

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1: Summary of Significant Accounting Policies

The accounting policies of the Weld County School District RE-2 (the District) conform to generally accepted accounting principles as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the District's more significant policies.

Reporting Entity

The financial reporting entity consists of the District, organizations for which the District is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the District. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are part of the District. Legally separate organizations for which the District is financially accountable are considered part of the reporting entity. Financial accountability exists if the District appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization has the potential to provide benefits to, or impose financial burdens on, the District.

The financial statements of the District do not include any separately administered organizations.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these financial statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities*, which are supported by taxes and intergovernmental revenues, are reported in a single column.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or other customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for the governmental funds and the fiduciary fund, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and other significant funds identified by management are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the fund financial statements, the District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

The *Debt Service Fund* is used to account for the proceeds of specific revenue sources that are legally restricted for the payment of general obligation debt.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1: Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The *Building Fund* is used to account for the resources accumulated for the funding of the District's school improvements and construction of new school buildings, primarily the proceeds obtained from the issuance of the general obligation bonds. Building fund was reclassified from major to nonmajor during the fiscal year ended June 30, 2025.

The *Capital Reserve Fund* is used to account for the resources accumulated to acquire capital assets. District has elected to present this fund as a major fund.

Additionally, the District reports the following fund type:

Fiduciary Funds account for assets held by the District as an agent for individuals, private organizations, and other governments. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The fiduciary fund reported by the District is a private-purpose trust fund, the Scholarship Trust Fund.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the District considers property tax revenues to be available if they are collected within 60 days of the end of the current year. The District considers all other revenues to be available if they are collected within 180 days of the end of the current year.

Taxes, intergovernmental revenues, grants, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

When both restricted and unrestricted resources are available for a specific use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balances / Net Position

Cash and Investments – The District utilizes the pooled cash concept whereby cash balances of each of the District's funds are pooled and invested by the District. Investments are reported at fair value.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1: Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balances / Net Position (Continued)

For purposes of the statement of fiduciary net position, cash equivalents include investments with original maturities of three months or less.

Receivables – Receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Property taxes levied for the current year but not received at year end are reported as taxes receivable and are presented net of an allowance for uncollectible taxes.

Interfund Receivables and Payables – Certain transactions between individual funds result in receivables and payables, which are classified on the balance sheet as *interfund receivables* and *interfund payables*.

Inventories - Food Service Fund inventories are recorded as an asset when individual items are purchased and as an expenditure when consumed. Inventories are stated at cost on a first-in, first-out (FIFO) basis, and consist of purchased and donated commodities. Purchased inventories are recorded at cost. Donated inventories, received at no cost under a program supported by the federal government, are valued at the cost furnished by the federal government.

Capital Assets – Capital assets, which include property and equipment, are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives.

Land Improvements	20 years
Sites and Buildings	15 - 50 years
Machinery and Equipment	5 - 15 years

Accrued Salaries and Benefits – Salaries and retirement benefits of certain contractually employed personnel are paid over a twelve-month period from September to August but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, are reported as a liability in the financial statements.

Unearned Revenue – Unearned revenues include grants that have been collected but the corresponding expenditures have not been incurred and the eligibility criteria have not been met.

Deferred Inflows of Resources – Deferred inflows of resources in the governmental fund financial statements include property taxes earned but not available as current financial resources.

Long-Term Debt – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt premiums, discounts and accounting losses resulting from debt refundings are deferred and amortized over the life of the debt using the effective interest method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1: Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balances / Net Position (Continued)

Debt issuance costs, whether or not withheld from the debt proceeds, are reported as current expenses or expenditures.

Compensated Absences – Classified personnel accrue up to 20 days of vacation depending on their years of experience with the District. Unused vacation benefits are paid upon termination at the per diem rate. Sick leave may be accumulated to a maximum of 90 days. After accumulating the maximum number of days, a full-time employee may be reimbursed at the current rate of substitute pay for one-half of the unused sick leave days accumulated during the current school year, not to exceed six days of reimbursement. A full-time employee who has been employed by or assigned to the district for 10 continuous years or more who resigns or retires shall be reimbursed at the current rate of substitute pay for unused sick days not to exceed 30 days. In accordance with GASB 101, the District also recognizes a liability for sick leave more likely than not to be used.

These compensated absences are recognized as expenditures in the governmental funds when due. A long-term liability is reported in the government-wide financial statements for the accrued compensated absences when earned.

Pensions – The District participates in the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to and deductions from the SDTF's fiduciary net position have been determined using the economic resources measurement focus and the accrual basis of accounting, the same basis of accounting used by the SDTF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Employer contributions are recognized when the compensation is payable to the employees. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB) – The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position, and additions to and deductions from the HCTF's fiduciary net position have been determined using the economic resources measurement focus and the accrual basis of accounting, the same basis of accounting used by the HCTF. For this purpose, the HCTF recognizes benefit payments when due and payable in accordance with the benefit terms. Employer contributions are recognized when the compensation is payable to the employees. Investments are reported at fair value.

Net Position/Fund Balances – In the government-wide and fund financial statements, net position and fund balances are restricted when constraints placed on the use of resources are externally imposed. In the fund financial statements, governmental funds report committed fund balances when the Board of Education formally commits resources for a specific purpose through passage of a resolution. The Board of Education has delegated to the Superintendent and his designee the authority to assign fund balances to be used for specific purposes.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications, District policy requires restricted fund balance to be used first, followed by committed, assigned, and unassigned balances.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1: Summary of Significant Accounting Policies (Continued)

Property Taxes

Property taxes attach as an enforceable lien on property on January 1, are levied the following December, and are collected in the subsequent calendar year. Taxes are payable in full on April 30, or in two installments on February 28 and June 15. The County Treasurer’s Office collects property taxes and remits to the District on a monthly basis. When taxes become delinquent, the property is sold on the tax sale date.

NOTE 2: Cash and Investments

At June 30, 2025, the District had the following cash and investments:

Cash on Hand	\$ 3,300
Deposits	6,269,437
Investments	52,264,053
Total	\$ 58,536,790

Cash and investments are reported in the financial statements as follows:

Governmental Activities	\$ 58,011,471
Fiduciary Fund	525,319
Total	\$ 58,536,790

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. At June 30, 2025, the District had bank deposits of \$7,057,522 collateralized with securities held by the financial institution’s agent but not in the District’s name.

Investments

The District is required to comply with State statutes which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers’ acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 2: Cash and Investments (Continued)

Investments (Continued)

Fair Value Measurements - At June 30, 2025, the District's investments in the local government investment pool reported at the net asset value per share.

Interest Rate Risk - State statutes generally limit investments to an original maturity of five years from the date of purchase unless the governing board authorizes the investment for a period in excess of five years.

Credit Risk - State statutes limit investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with the Securities and Exchange Commission's Rule 2a-7, and either have assets of one billion dollars or the highest rating issued by one or more nationally recognized statistical rating organizations (NRSROs).

Concentration of Credit Risk - State statutes do not limit the amount the District may invest in a single issuer of investment securities, except for corporate securities.

Local Government Investment Pool - At June 30, 2025, the District had \$52,264,053 invested in the Colorado Local Government Liquid Asset Trust Plus (Colotrust). Colotrust is an investment vehicle established for local government entities in Colorado to pool surplus funds. The Colorado Division of Securities administers and enforces the requirements of creating and operating Colotrust. Colotrust operates in conformity with the Securities and Exchange Commission's Rule 2a-7. Colotrust is measured at the net asset value per share, with each share valued at \$1. Colotrust is rated AAAM by Standard and Poor's. Investments of Colotrust is limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

NOTE 3: Interfund Balances and Transfers

At June 30, 2025, the General Fund temporarily subsidized a negative cash balance of the Grants Fund in the amount of \$2,384 with an amount due from the General Fund \$137,811, net of \$135,427, which was repaid after year-end. The General Fund also temporarily subsidized expenditures of the Student Activity Fund in the amount of \$2,523, also repaid after year-end.

During the year ended June 30, 2025, the District transferred \$6,455,033 from the General Fund to the Capital Reserve Fund to finance future capital projects. The District also transferred \$5,140,527 from the Total Program Reserve Fund to the General Fund to cover operating expenditures, as permitted in accordance with C.R.S. Section 22-45-103(k).

WELD COUNTY SCHOOL DISTRICT RE-2

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2025

NOTE 5: Long-Term Debt (Continued)

On December 11, 2019, the District issued General Obligation Bonds, Series 2019, in the amount of \$128,500,000 to upgrade the safety and security in all District schools; construct, furnish, and equip a new high school; remodel and furnish the existing high school into a middle school; remodel and furnish an existing middle school into an elementary school; and construct, furnish, and equip a new transportation facility. Principal payments are due annually on December 1, through 2044. Interest payments are due semi-annually on June 1st and December 1st, with interest accruing at rates ranging from 3% to 5% per annum. The full faith and credit of the District is pledged for the payment of the principal and interest on these bonds with ad valorem taxes on all of the taxable property in the District.

Bond payments to maturity are as follows:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2026	\$ 3,470,000	\$ 5,650,250	\$ 9,120,250
2027	3,645,000	5,472,375	9,117,375
2028	3,825,000	5,285,625	9,110,625
2029	4,015,000	5,089,625	9,104,625
2030	4,220,000	4,883,750	9,103,750
2031-2035	24,470,000	20,951,750	45,421,750
2036-2040	31,230,000	14,022,500	45,252,500
2041-2045	39,865,000	5,177,375	45,042,375
Total	<u>\$ 114,740,000</u>	<u>\$ 66,533,250</u>	<u>\$ 181,273,250</u>

NOTE 6: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District participates in the Colorado School Districts Self Insurance Pool for all risks of loss except workers' compensation, for which it utilizes a commercial insurance carrier.

The Colorado School Districts Self Insurance Pool (CSDSIP) operates as a self-insurance pool comprised of various school districts and other related public educational entities within the State of Colorado. The CSDSIP is administered by a governing board. The District pays an annual premium to the CSDSIP for various types of property and liability insurance coverage. The CSDSIP's agreement provides that the CSDSIP will be self-sustaining through member premiums and will reinsure through a duly authorized insurer. The reinsurance covers claims against the CSDSIP in excess of specific claim amounts and in the aggregate in an amount and at limits determined by the CSDSIP to be adequate to protect the solvency of the CSDSIP.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plan

General Information

Plan Description - The District contributes to the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). All employees of the District participate in the SDTF. Title 24, Article 51 of the Colorado Revised Statutes (CRS), administrative rules set at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code assign the authority to establish and amend plan provisions to the State Legislature. PERA issues a publicly available annual comprehensive financial report, that includes information on the SDTF, which may be obtained at <https://www.copera.org/forms-resources/financial-reports-and-studies>.

Benefits Provided as of December 31, 2024 - The SDTF provides retirement, disability, and survivor benefits to plan participants or their beneficiaries. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure in place, the benefit option selected at retirement, and age at retirement. The retirement benefit is the greater of the a) highest average salary over five years multiplied by 2.5% and then multiplied by years of service credit, or b) the value of the participant's contribution account plus an equal match on the retirement date, annualized into a monthly amount based on life expectancy and other actuarial factors. In all case can the benefit amount exceed the highest average salary, or the amount allowed by applicable federal regulations.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers, while waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date of employment was terminated, whether five years of service credit has been obtained and the benefit structure under which contributions were made.

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the CRS Subject to the automatic adjustment provision (AAP) under CRS § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, will receive the maximum annual increase (AI) or AI cap of 1% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA's Annual Increase Reserve (AIR). The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in CRS § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and meet the definition of a disability. The disability benefit amount is based on the retirement benefit formula described previously, considering a minimum of 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure in place, and the qualified survivor receiving the benefits.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2025

NOTE 7: Defined Benefit Pension Plan (Continued)

General Information (Continued)

Contributions provisions as of June 30, 2025 - The District, State, and eligible employees are required to contribute to the SDTF at rates established by Title 24, Article 51, Part 4 of the CRS. These contribution requirements are established and may be amended by the State Legislature. The contribution rate for employees was 11% for the period from July 1, 2024, through June 30, 2025. The District's contribution rate for the fiscal year was 21.40% of covered salaries. However, a portion of the District's contribution (1.02% of covered salaries) is allocated to the Health Care Trust Fund (Note 8). The District's contributions to the SDTF for the year ended June 30, 2025, were \$2,899,440, equal to the required contributions at a contribution rate of 20.38%.

For the purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SDTF and is considered to meet the definition of a special funding situation. As specified in CRS § 24-51-414, the State of Colorado is required to contribute a \$225 million direct distribution each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SDTF based on the proportionate amount of annual payroll of the SDTF to the total annual payroll of the SDTF.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured at December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll forward the total pension liability to December 31, 2024. The District's proportion of the net pension liability was based on the District's contributions to the SDTF for the calendar year ended December 31, 2024, relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At December 31, 2024, the District's proportion was 0.1751655130%, which was a decrease of 0.0072398991% from its proportion measured at December 31, 2023.

At June 30, 2025, the District reported a liability for its proportionate share of the net pension liability that reflected an increase for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 30,224,632
State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the District	<u>2,714,590</u>
Total	<u><u>\$ 32,939,222</u></u>

For the year ended June 30, 2025, the District recognized pension expense of \$3,428,596 and a revenue of (\$247,761) for support from the State as a nonemployer contributing entity. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 7: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,711,577	\$ -
Changes of assumptions and other inputs	226,598	-
Net difference between projected and actual earnings on plan investments	570,255	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	2,621,561	1,139,982
Contributions subsequent to the measurement date	1,474,573	-
Total	\$ 6,604,564	\$ 1,139,982

District contributions subsequent to the measurement date of \$1,474,573 be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30,

2026	\$ 2,915,556
2027	2,448,212
2028	(967,058)
2029	(406,701)
Total	\$ 3,990,009

Actuarial Assumptions - The actuarial valuation as of December 31, 2023, determined the total pension liability using the following actuarial assumptions and other inputs.

Actuarial cost method	Entry age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.40% - 11.00%
Long-term investment rate of return, net of plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post-retirement benefit increases:	
Hired prior to 1/1/07	
thereafter, compounded annually	1.00%
Hired after 12/31/06	Financed by the AIR

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 7: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Post-retirement benefit increases are provided by the annual increase reserve, accounted for separately in SDTF, and subject to resources being available. Therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Mortality assumptions were developed on a benefit-weighted basis and apply generational mortality, as follows. All categories of the mortality tables are generationally projected using scale MP-2019.

- Pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table.
- Post-retirement (retiree) non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows: 1) males: 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, and 2) females: 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older.
- Post-retirement (beneficiary) non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows: 1) males: 97% of the rates for all ages, and 2) females: 105% of the rates for all ages.
- Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages.

The actuarial assumptions used in the December 31, 2023, valuation were based on the results of the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by the PERA Board of Directors at their November 20, 2020, meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared at least every five years and asset/liability studies performed every three to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA's Board of Directors on January 17, 2025, and were effective as of December 31, 2024. The following assumptions were reflected in the roll-forward calculation of the total pension liability from December 31, 2023, to December 31, 2024.

Salary scale assumptions were altered to better reflect actual experience. Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%.

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. All mortality assumptions are developed on a benefit-weighted basis. All of the following categories for the mortality tables are generationally projected using the 2024 adjusted MP-2021 projected scale.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 7: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

- Pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table.
- Post-retirement (retiree) non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows: 1) males: 106% of the rates for all ages, and 2) females: 86% of the rates prior to age 85 and 115% of the rates for ages 85 and older.
- Post-retirement (beneficiary) non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows: 1) males: 92% of the rates for all ages, and 2) females: 100% of the rates for all ages.
- Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 95% of the rates for all ages.

The long-term expected return on plan assets is monitored on an ongoing basis and reviewed as part of periodic experience studies prepared every four years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, PERA’s Board of Directors reaffirmed the assumed rate of return at the PERA Board of Director's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation, and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	51.00%	5.00%
Fixed Income	23.00%	2.60%
Private Equity	10.00%	7.60%
Real Estate	10.00%	4.10%
Alternatives	6.00%	5.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 7: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate applied to the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in Senate Bill (SB) 18-200, required adjustments resulting from the 2018 and 2020 AAP assessments. Employee contributions for future plan participants were used to reduce the estimated amount of total service costs for future plan members.
- District contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, required adjustments resulting from the 2018 and 2020 AAP assessments. District contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated District contributions reflect reductions for the funding of the annual increase reserve and retiree health care benefits. For future plan members, District contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the state, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million, commencing July 1, 2018, that is proportioned between the PERA Division Trust Funds, including SDTF, based upon the covered payroll. The annual direct distribution ceases when all PERA Division Trust Funds are fully funded.
- District contributions and the amount of total service costs for future plan participants were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The annual increase reserve balance was excluded from the initial fund net position, as, per statute, annual increase reserve amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. Annual increase reserve transfers to the fiduciary net position and the subsequent annual increase reserve benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the SDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current participants. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

NOTE 7: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as the District's proportionate share of the net pension liability if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, as follows:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	\$ 40,977,597	\$ 30,224,632	\$ 21,217,522

Pension Plan Fiduciary Net Position - Detailed information about the SDTF's fiduciary net position is available in PERA's separately issued annual comprehensive financial report, which may be obtained at <https://www.copera.org/forms-resources/financial-reports-and-studies>.

NOTE 8: Postemployment Healthcare Benefits

General Information

Plan Description - All employees of the District are eligible to receive postemployment benefits other than pensions (OPEB) through the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Public Employees' Retirement Association of Colorado (PERA). Title 24, Article 51, Part 12 of the Colorado Revised Statutes (CRS), as amended, and sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. CRS provisions may be amended by the Colorado General Assembly. PERA issues a publicly available financial report, that includes information on the HCTF, which may be obtained at <https://www.copera.org/forms-resources/financial-reports-and-studies>.

Benefits Provided - The HCTF provides a healthcare premium subsidy to eligible participating benefit recipients and retirees who choose to enroll in one of the PERA health care plans. However, the subsidy is not available if benefit recipients or retirees are only enrolled in the dental and/or vision plan(s). Eligibility to enroll is voluntary and includes benefit recipients, their eligible dependents and surviving spouses, among others. Eligible benefit recipients may enroll in the HCTF upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period. The health care premium subsidy is based on the benefit structure under which the member retires and the member's years of service credit. The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contributions account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

CRS § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

General Information (Continued)

Enrollment in the PERACare health benefits program is voluntary and available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure - The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare, and \$115 per month for benefit recipients who are over 65 years of age or who are under 65 years of age and entitled to Medicare. The maximum subsidy is based on 20 or more years of service. The subsidy is reduced by 5% for each year of service less than 20 years. The benefit recipient pays the remaining portion of the premium not covered by the subsidy.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, CRS § 24-51-12-6(4) provides an additional subsidy. According to the State statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF on behalf of recipients not covered by Medicare Part A.

Contributions - As established by Title 24, Article 51, Section 208(1)(f) of the CRS, as amended, 1.02% of the District's contributions to the School Division Trust Fund (SDTF) (Note 7) are apportioned to the HCTF. No employee contributions are required. These contribution requirements are established and may be amended by the State Legislature. The District's apportionment to the HCTF for the year ended June 30, 2025, was \$145,114, equal to the required amount.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the District reported a net OPEB liability of \$536,258, representing its proportionate share of the net OPEB liability of the HCTF. The net OPEB liability was measured at December 31, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2024. The District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year ended December 31, 2024, relative to the contributions of all participating employers.

At December 31, 2024, the District's proportion was 0.1121487741%, which was an increase of 0.0030255016% from its proportion measured at December 31, 2023.

For the year ended June 30, 2025, the District recognized OPEB expense of (\$50,459). At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 118,293
Changes of assumptions and other inputs	6,147	171,413
Net difference between projected and actual earnings on plan investments	1,818	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	52,056	8,439
Contributions subsequent to the measurement date	73,801	-
Total	\$ 133,822	\$ 298,145

District contributions subsequent to the measurement date of \$73,801 will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

<u>Year Ended June 30,</u>	
2026	\$ (73,264)
2027	(42,069)
2028	(56,875)
2029	(31,521)
2030	(21,574)
2031	(12,821)
Total	\$ (238,124)

Actuarial Assumptions - The actuarial valuation as of December 31, 2023, determined the total OPEB liability using the following actuarial cost method, actuarial assumptions, and other inputs, applied to all periods included in the measurement.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Actuarial Cost Method	Entry Age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.40% - 11.00%
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates:	
Service-based premium subsidy	0.0%
PERACare Medicare plans	
16% in 2024, then 6.75% in 2025, gradually decreasing to 4.5% in 2034	
MAPD PPO #2	
105% in 2024, then 8.55% in 2025, gradually decreasing to 4.50% in 2034	
Medicare Part A premiums:	
3.5% in 2024, gradually increasing to 4.5% in 2033	

The total OPEB liability for the HCTF, as of the December 31, 2024, measurement date, was adjusted to reflect the disaffiliation of Tri-County Health Department (Tri-County Health), effective December 31, 2022. The additional employer disaffiliation payment allocation to the HCTF and the Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

Annually, the per capita health care costs are developed by plan option. At December 31, 2023, actuarial valuation and costs are based on 2024 premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1, the UnitedHealthcare MAPD PPO plan #2, and the Kaiser Permanente MAPD HMO plan. Actuarial morbidity factors are then applied to estimate individual retiree and spouse costs by age, gender, and health care cost trend. This approach applies to all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A for the PERA benefit structure.

Age-Related Morbidity Assumptions		
Participant Age	Annual Increase (Male)	Annual Increase (Female)
65-68	2.2%	2.3%
69	2.8%	2.2%
70	2.7%	1.6%
71	3.1%	0.5%
72	2.3%	0.7%
73	1.2%	0.8%
74	0.9%	1.5%
75-85	0.9%	1.3%
86 and Older	0.0%	0.0%

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2023, valuation, the following monthly costs/premium are assumed for 2024 for the PERA Benefit Structure:

Sample Age	MAPD PPO #1 with Medicare		MAPD PPO #2 with Medicare		MAPD HMO (Kaiser) with Medicare	
	Part A for Retiree / Spouse		Part A for Retiree / Spouse		Part A for Retiree / Spouse	
	Male	Female	Male	Female	Male	Female
65	\$ 1,710	\$ 1,420	\$ 585	\$ 486	\$ 1,897	\$ 1,575
70	\$ 1,921	\$ 1,589	\$ 657	\$ 544	\$ 2,130	\$ 1,763
75	\$ 2,122	\$ 1,670	\$ 726	\$ 571	\$ 2,353	\$ 1,853

Sample Age	MAPD PPO #1 without Medicare		MAPD PPO #2 without Medicare		MAPD HMO (Kaiser) without Medicare	
	Part A for Retiree / Spouse		Part A for Retiree / Spouse		Part A for Retiree / Spouse	
	Male	Female	Male	Female	Male	Female
65	\$ 6,536	\$ 5,429	\$ 4,241	\$ 3,523	\$ 7,063	\$ 5,866
70	\$ 7,341	\$ 6,073	\$ 4,764	\$ 3,941	\$ 7,933	\$ 6,563
75	\$ 8,110	\$ 6,385	\$ 5,262	\$ 4,143	\$ 8,763	\$ 6,900

The 2024 Medicare Part A premium is \$506 per month. All costs are subject to the health care cost trend rates.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Medicare plan rates are applied where members have no premium-free Part A and where those premiums are already exceeding the maximum subsidy. MAPD PPO #2 has a separate trend, because the first year rates are still below the maximum subsidy and reflect the estimated impact of the Inflation Reduction Act for that plan option.

The PERA benefit structure health care cost trend rates used to measure the total OPEB liability are summarized in the table below:

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Measurement Year	PERACare Medicare Plans *	PERACare Medicare Plans *	Medicare Part A Premiums
2024	16.00%	105.00%	3.50%
2025	6.75%	8.55%	3.75%
2026	6.50%	8.10%	3.75%
2027	6.25%	7.65%	4.00%
2028	6.00%	7.20%	4.00%
2029	5.75%	6.75%	4.25%
2030	5.50%	6.30%	4.25%
2031	5.25%	5.85%	4.25%
2032	5.00%	5.40%	4.25%
2033	4.75%	4.95%	4.50%
2034+	4.50%	4.50%	4.50%

Mortality assumptions used in the December 31, 2023, valuation for the determination of the total pension liability, reflect generational mortality and were applied, as applicable, in the December 31, 2023, valuation for the HCTF, but developed using a headcount-weighted basis. SDTF participates in the HCTF (Note 7). All categories of the mortality tables are generationally projected using scale MP-2019. Mortality assumptions used were as follows:

- The pre-retirement mortality assumptions for the SDTF were based upon the PubT-2010 Employee Table.
- Post-retirement non-disabled mortality assumptions for the SDTF were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows: 1) males: 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, and 2) females: 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older.

The health care costs assumptions were updated and used in the roll-forward calculation for the HCTF. Per capita health care costs as of the December 31, 2023, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the costs for the 2024 plan year. The healthcare cost trend rates applicable to health care premiums were revised to reflect the then-current expectation of future increases in those premiums. A separate trend rate assumption set was added for MAPD PPO #2 as the first-year rate is still below the maximum subsidy and also the assumption set reflects the estimated impact of the Inflation Reduction Act for that plan option. The Medicare health care plan election rate assumptions were updated effective as of the December 31, 2023, valuation rate based on an experience analysis of recent data.

The actuarial assumptions used in the December 31, 2023, valuations were based on the results of the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board of Directors at their November 20, 2020, meeting.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA’s Board of Directors on January 17, 2025, and were effective as of December 31, 2024. The following assumptions were reflected in the roll forward calculation of the total OPEB liability from December 31, 2023, to December 31, 2024.

The following health care costs assumptions were used in the roll-forward calculation for the HCTF.

- Salary increases, including wage inflation for the SDTF were 4% - 13.40%.
- Salary scale assumptions were altered to better reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- Participation rates were reduced.
- MAPD premium costs are no longer age graded.

Plan	With Medicare Part A	Without Medicare Part A
MAPD PPO#1	\$ 1,824	\$ 6,972
MAPD PPO #2	\$ 624	\$ 4,524
MAPD HMO (Kaiser)	\$ 2,040	\$ 7,596

The long-term expected return on plan assets is reviewed as part of regular experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. All categories in the mortality tables are generationally projected using the 2024 adjusted MP-2021 project scale. These assumptions updated for the Division Trust Funds, were also applied in the roll-forward calculations for the HCTF using a headcount-weighted basis. Affiliated employers of the SDTF participate in the HCTF (Note 7).

- The pre-retirement mortality assumptions for the SDTF were based upon the PubG-2010 Employee Table.
- Post-retirement non-disabled mortality assumptions for the SDTF were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows: 1) males: 106% of the rates for all ages, and 2) females: 86% of the rates prior to age 85 and 115% of the rates for ages 85 and older.

The actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed annually and updated, as appropriate, by the PERA Board of Director’s actuary.

The long-term expected return on plan assets is monitored on an ongoing basis and reviewed as part of periodic experience studies prepared every four years, and asset/liability studies, performed every three-to-five years for PERA. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the PERA Board of Director’s meetings on November 15, 2019, and the September 20, 2024.

As of the most recent reaffirmation of the long-term rate of return, the target asset allocation, and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	51.00%	5.00%
Fixed Income	23.00%	2.60%
Private Equity	10.00%	7.60%
Real Estate	10.00%	4.10%
Alternatives	6.00%	5.20%
Total	<u>100.00%</u>	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

Discount rate - The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2024, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2025

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- As of December 31, 2023, measurement date, the fiduciary net position, and related disclosure components for the HCTF reflect payments related to disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. As of December 31, 2023, PERA recognized two additions for accounting and financial reporting purposes: a \$24 million payment received on December 4, 2023, and a \$2 million receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1.033 million and \$24.967 million, respectively.

Based on the above assumptions and methods, the HCTF’s fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District’s proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates (7.25%)	1% Increase in Trend Rates
Initial PERACare Medicare trend rate	5.75%	6.75%	7.75%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.50%	3.50%	4.50%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	\$ 521,810	\$ 536,258	\$ 552,610

** For the January 1, 2025, plan year.

Sensitivity of the District’s proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$ 657,193	\$ 536,258	\$ 431,998

NOTE 8: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

OPEB Plan Fiduciary Net Position - Detailed information about the HCTF's fiduciary net position is available in PERA's separately issued annual comprehensive financial report, which may be obtained at <https://www.copera.org/forms-resources/financial-reports-and-studies>

NOTE 9: Commitments and Contingencies

Claims and Judgments

The District participates in a number of federal, state, and local programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. At June 30, 2025, significant amounts of grant expenditures have not been audited but management believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the District.

Tabor Amendment

In November 1992, Colorado voters passed Article X, Section 20 (the Amendment) to the State Constitution which limits state and local government taxing powers and imposes spending limits. The District is subject to the Amendment.

In November 1997, voters within the District authorized the District to collect and to expend the full revenues received by the District from any source in the current fiscal year and in each fiscal year thereafter, notwithstanding the limits of the Amendment effective January 1, 1998. The Amendment is subject to many interpretations, but the District believes it is in substantial compliance with the Amendment.

The Amendment requires the District to establish a reserve for emergencies, representing 3% of qualifying expenditures. At June 30, 2025, the District's emergency reserve was reported as restricted fund balance in the General Fund, in the amount of \$920,000.

Litigation

The District from time to time is involved in various legal matters. In the opinion of the District's counsel, there are no pending legal issues that would have a material adverse effect on the financial condition of the District.

NOTE 10: Jointly Governed Organization

The District, in conjunction with other surrounding districts, participates in the Centennial Board of Cooperative Educational Services (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per district. The BOCES board is comprised of one member from each participating district. During the year ended June 30, 2025, the District contributed \$86,790 to the BOCES. Separate financial statements for the BOCES are available at 2020 Clubhouse Drive, Greeley, Colorado 80634, or online at www.cboces.org.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 10: Jointly Governed Organization (Continued)

BOCES includes the District in a consolidated federal grant application for certain grants awarded to the BOCES passed through from the Colorado Department of Education. Total federal dollars passed through from BOCES to the District was \$983,327 for the year ended June 30, 2025, which are not reported on the District's schedule of expenditures of federal awards.

NOTE 11: Change in Accounting Principle

At June 30, 2025, the District applied a change in accounting principle as a result of the required implementation of Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. The implementation of GASB Statement No. 101, *Compensated Absences*, required a retroactive application that involved a restatement to the beginning net position for a single period for the fiscal year ended June 30, 2024. The District allows for sick leave to accumulate for full-time and part-time employees, which required a calculation of the liability and impact to the beginning net position for the financial statements as follows.

	Governmental Activities
Net Position, Beginning, as Originally Stated	\$ 50,309,506
Compensated Absences	(1,727,216)
Net Position/Fund Balance, Beginning, as Restated	\$ 48,582,290

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2025

NOTE 1: Stewardship, Compliance, and Accountability

Budgetary Information

Budgets are adopted for all funds on a basis consistent with generally accepted accounting principles. The District adheres to the following procedures to establish the budgetary information reflected in the financial statements.

- Management submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted by the School Board of Education to obtain taxpayer comments.
- Prior to June 30, the budget is adopted by formal resolution.
- Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budget amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent. Revisions that alter the total expenditures of any fund must be approved by the Board of Education.
- All budget appropriations lapse at fiscal year-end.

NOTE 2: Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

STDF Plan - Senate Bill (SB) 23-056, enacted and effective June 2, 2023, intended to recompense PERA for the remaining portion of the \$225 million direct distribution originally scheduled for receipt July 1, 2020, suspended due to the enactment of House Bill (HB) 20-1379, but not fully repaid through the provisions within HB 22-1029. Pursuant to SB 23-056, the State Treasurer issued a warrant consisting of the balance of the PERA Payment Cash Fund, created in §24-51-416, plus \$10 million from the General Fund, totaling \$14.561 million.

As of the December 31, 2023, measurement date, the total pension liability (TPL) recognizes the change in the default method applied for granting service accruals for certain members, from a "12-pay" method to a "non-12-pay" method. The default service accrual method for positions with an employment pattern of at least eight months but fewer than 12 months (including, but not limited to, positions in the School and DPS Divisions) receive a higher ratio of service credit for each month worked, up to a maximum of 12 months of service credit per year.

HCTF Plan - As of the December 31, 2023, measurement date, the fiduciary net position (FNP), and related disclosure components for the Health Care Trust Fund (HCTF) reflect payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24 million payment received on December 4, 2023, and a \$2 million receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1.033 million and \$24.967 million, respectively.

As of the December 31, 2024, measurement date, the fiduciary net position, and related disclosure components for HCTF reflect additional payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

For RSI disclosures reported in previous years, refer to the PERA's annual comprehensive financial report (ACFR) notes to the required supplementary information at the following link: <https://www.copera.org/forms-resources/financial-reports-and-studies>.

WELD COUNTY SCHOOL DISTRICT RE-2
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2025

NOTE 3: Changes in Assumptions and Other Inputs

STDF Plan – Salary scale assumptions were altered to better reflect actual experience. Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. The Pub-2010 Public Retirement Plans Mortality base tables were retained for purposes of active, retired, disabled, and beneficiary lives, with revised adjustments for credibility and gender, where applicable. In addition, the applied generational projection scale was updated to the 2024 adjusted scale MP-2021. The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%.

SB 25-310 was enacted on June 2, 2025, and effective immediately, allows PERA to accept a series of warrants from the State Treasurer totaling \$500 million on or after July 1, 2025, and before October 1, 2025. These dollars will be proportioned over time to replace reductions to the future direct distributions intended to fund the Peace Officer Training and Support Fund and, at that time, will be allocated to the appropriate Division Trust Fund(s) within PERA. SB 25-310 also allows for an alternative actuarial method to allocate the direct distribution if the allocation, based on the reported payroll of each participating division, results in an AAP assessment ratio below the 98% benchmark.

HCTF Plan – Salary scale assumptions were altered to better reflect actual experience. Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on experience. In addition, the mortality projection scale was updated to the 2024 adjusted scale MP-2021 to reflect future improvements in mortality for all groups. Participation rates were reduced. MAPD premium costs are no longer age graded.

For RSI disclosures reported in previous years to the PERA's annual comprehensive financial report (ACFR) notes to the required supplementary information may be obtained as follows: <https://www.copera.org/forms-resources/financial-reports-and-studies>.
