INDEPENDENT AUDITORS' REPORT

Members of the Board of Trustees
Town of Keenesburg
Keenesburg, Colorado

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Keenesburg (the Town) as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Keenesburg, as of December 31, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of a Matter

As disclosed in Note 12 to the financial statements, beginning net position for governmental activities and beginning fund balance for the general fund were restated due to a correction of an error in the application of accounting principles generally accepted in the United State of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, and the GASB required pension schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The budgetary comparison schedules and local highway finance report are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, budgetary comparison schedules and local highway finance report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Adams Group, LLC

Greenwood Village, Colorado
August 7, 2026

Town of Keenesburg, Colorado's (the Town) discussion and analysis offers readers of the Town's financial statements a narrative overview and analysis of the Town's financial activities for the fiscal year ended December 31, 2025. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements and the notes to the financial statements.

Financial Highlights

- The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at December 31, 2025 by $42,392,980. Of this amount, $22,663,933 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens, creditors, and enterprise fund customers.

- The Town's total net position increased by $4,910,056 over the previous year. The increase was a result of capital contributions conveyed to the Town, tax revenues and utility revenues collected sufficient to cover operating expenses.

- At December 31, 2025, the Town's governmental fund balance sheet reported a combined ending fund balance of $13,548,984, an increase of $3,172,877 when compared to the prior year.

- The General Fund reported a fund balance of $8,588,432, an increase of $2,239,417 from the prior fiscal year as a result of increased tax and building permit revenues.

- The Town's total outstanding long-term debt increased by $422,082 in fiscal year 2025 as a result of draws on the new CWCB loan.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year.

All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (such as, uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government, public safety, public works, health and welfare, and parks and recreation. The Town's business-type activities include a water and wastewater utility system.

Fund financial statements. A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains four individual governmental funds. Information is presented separately in the
governmental funds balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Impact Fee Fund, Capital Improvements Fund, and the Conservation Trust Fund. The General Fund, Impact Fee Fund and the Capital Improvements Fund are all considered to be major funds in the current year.

The Town adopts an annual appropriated budget for all funds, as required by State Statues. Budgetary comparison statements have been provided for governmental funds to demonstrate compliance with the budget.

Proprietary funds. The Town maintains one type of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its water and wastewater utility system.

Financial statements of proprietary funds provide the same type of information as the government- wide financial statements, but in greater detail. The proprietary fund financial statements provide separate information for the Town's water and wastewater, each of which is considered to be major fund of the Town.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning budgetary comparison information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indication of a government's financial position. The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by $42,392,980 at the close of the most recent fiscal year, representing an increase in total net position for the year amounting to $4,910,056.

One of the largest portions of the Town's net position (46%) reflects its investment in capital assets (for example, land, buildings, infrastructure, and machinery and equipment); less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources because the capital assets themselves cannot be used to liquidate these liabilities.

Town of Keenesburg Statement of Net Position

	Governmental Activities		Business-Type Activities		Total	
	2025	2024 (as restated)	2025	2024	2025	2024 (as restated)
Assets

Deferred property taxes	4,408,829	4,388,056	-	-	4,408,829	4,388,056
Total deferred inflows	4,563,138	4,566,704	-	-	4,563,138	4,566,704
Net position:						
Net investment in capital assets	10,611,528	9,976,820	8,721,063	8,500,074	19,332,591	18,476,894
Restricted	381,917	306,571	14,539	12,487	396,456	319,058
Unrestricted	13,186,066	10,129,262	9,477,867	8,557,710	22,663,933	18,686,972
Total net position	$ 24,179,511	$ 20,412,653	$ 18,213,469	$ 17,070,271	$ 42,392,980	$ 37,482,924

An additional portion of the Town's net position (1%) represents resources that are subject to restrictions on how they may be used, most of which are restrictions imposed from external sources. The remaining (53%) of total net position, $22,663,933, represents unrestricted net position that may be used to meet the government's ongoing obligations to citizens, creditors, and customers within the respective governmental and business-type activities.

At the end of the current fiscal year, as in the prior year, the Town is able to report positive balances in all three categories of net position as a whole and individually within the governmental and business-type activities. Unrestricted net position increased by $3,976,961 compared with the prior year, largely due to increase in revenues associated with increase in tax collections and building permits. The Town's finances are strong, sound, and stable because of solid, dedicated and committed financial management.

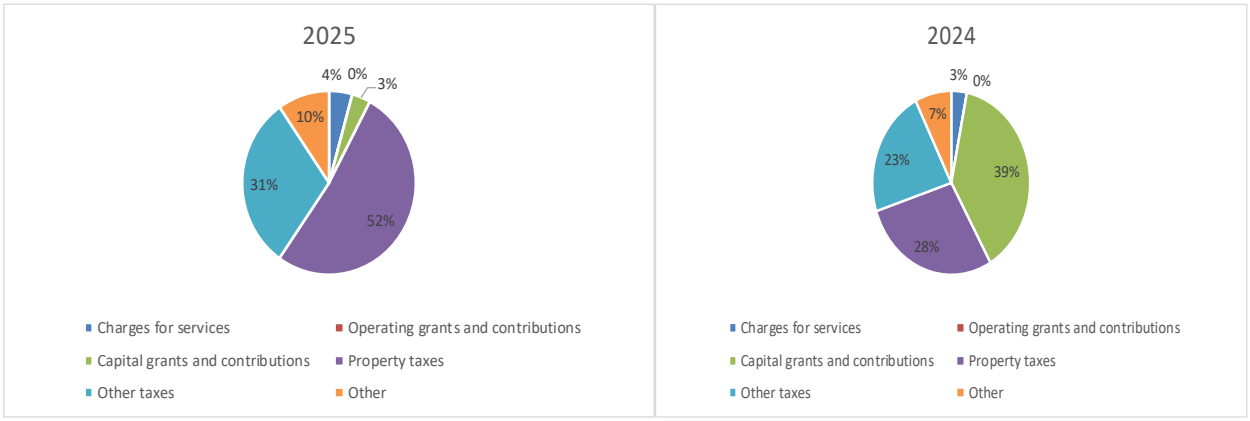

The changes in net position displayed subsequently shows the governmental and business-type activities during the previous two fiscal years. The increase in net position for each year represents the extent to which expenses were less than revenues during the year.

Graphic presentations of selected data from the summary tables follow to assist in the analysis of the Town's activities for fiscal years 2025 and 2024.

GOVERNMENTAL REVENUES

As portrayed above and discussed earlier, the Town is heavily reliant on sales and use taxes as well as property taxes to support governmental operations. These tax revenue streams accounted for 83% of total revenues as compared to 51% in the prior year. The biggest categorical increase was property taxes.

GOVERNMENTAL FUNCTIONAL EXPENSES

Total expenses for governmental activities was $4,657,103 in 2025 when compared to the 2024 balance of $3,270,493. Public safety was the largest operating service for 2025 for the Town. Total public safety expenses was $1,863,828 in 2025 as compared to $1,147,784 in 2024. General government was the second largest functional expense in 2025 with total expenses of $1,316,295 as compared to $1,004,115 in 2024.

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may be a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2025, the Town's governmental funds reported combined fund balances of $13,548,984, an increase of $3,172,877 compared with the prior year balances. There is $6,133,555 of unassigned fund balance, which is available for spending at the Town's discretion. The remainder of fund balance falls into the categories of either nonspendable, restricted, committed or assigned.

These categories indicate that the funds are not available for new spending because they have already been designated for a specific purpose either by action of the Town, statutory or debt-based requirements.

The General Fund is the chief operating fund of the Town. At December 31, 2025, total fund balance in the General Fund was $8,588,432. As a measure of the General Fund's liquidity, the total fund balance amount exceeds total general fund expenditures at December 31, 2025. The fund balance of the General Fund increased by $2,239,417 during the current fiscal year due to an increase in sales tax and building permit revenues.

The Impact Fund has a total fund balance of $2,028,290. This fund was started in 2017 and in 2025, the funds only expenditures were related to capital outlay. The main sources of revenue are impact fees assessed by the Town.

The Capital Improvement has a total fund balance of $2,850,345 of which $48,000 is restricted for payment of debt service. The $869,424 increase in fund balance for the year is due to an increase in sales tax revenues.

The Conservation Trust special revenue fund has a total restricted fund balance of $81,917. This fund balance increased $25,346 during the current fiscal year as the fund incurred no expenditures during 2025.

Proprietary Funds. The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in greater detail. At December 31, 2025, total net position amounted to $18,213,469 for enterprise funds, an increase of $1,143,198 from the prior year.

Total net position of the Wastewater Fund amounted to $5,017,123 at the end of the fiscal year, representing a $429,064 increase from the prior year amount of $4,588,059. Operating revenues increased 6%, or $45,200, compared to fiscal year 2024 due to an increase usage by customers within the Town. Operating expenditures had a decrease of $201,673, which is directly related to a decrease in maintenance costs on the system during 2025.

The Waterworks Fund total net position increased by $714,134 during the year. (50%) of the fund's net position reflects its investment in capital assets, less any related outstanding debt used to acquire those assets. Unrestricted net position of the fund increased by $504,812 to $6,735,570. This increase was a result of a decrease in operating expenses compared to 2024.

General Fund Budgetary Highlights

A budget to actual statement is provided for the General Fund.

Budgeted taxes revenue represents the full levy of property taxes for the year, whereas actual results reflect a small number of delinquent accounts. There were positive revenue variances totaling $530,601 across all revenue streams. Expenditures for general government, public safety, public works, health and welfare, culture and recreation, and debt service were under budget by a total of $1,266,074 due mostly to less capital outlay expenditures compared to the budget in 2025.

Capital Assets and Debt Administration

Capital assets. The Town's investment in capital assets for its governmental and business–type activities as of December 31, 2025, amounts to $22,045,364 (net of accumulated depreciation and related debt). This investment in capital assets includes land and water rights, buildings and systems, machinery and equipment, infrastructure, and vehicles. The overall net increase in the Town's capital assets for the current fiscal year was 6% due to acquisition and construction of assets. Major capital asset events in the current fiscal year included the following:

- Purchase of police cars and public works vehicles - $390,436
- Water system improvements- $1,047,325
- Street and roadway improvements - $611,915

Long-term debt. At the end of the current fiscal year, the Town had total debt outstanding of $2,712,773. Of this amount, $2,428,252 comprises bonded debt backed by the full faith and credit of the government. The remaining balance consists of long-term lease liabilities recorded under GASB Statement No. 87, *Leases.*

TOWN OF KEENESBURG
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS – TO THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2025

Net changes in fund balance - total governmental funds:	$	3,172,877
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay		1,092,578
Depreciation expense		(533,322)
Lease amortization expense		(49,668)
Governmental funds report principal payments as expenditures. However, in the statement of activities these payments are reflected as a reduction in long-term debt obligations.		
Principal on bonds payable		110,000
Principal on leases payable		44,976
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Change in accrued compensated absences		(33,666)
FFPA pension expense		(7,384)
Change in accrued interest payable		324
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds.		
Loss on disposal of capital assets		(29,857)
Change in net position of governmental activities	$	3,766,858

The accompanying notes are an integral part of the financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Town of Keenesburg, Colorado (the Town), was incorporated in 1919, and is governed by a Mayor and seven-member Board of Trustees elected by the residents. The Town provides the following services: public safety, public works, sanitation, health and welfare, culture and recreation, public improvements, planning and zoning, and general administrative services.

The accounting policies of the Town conform to generally accepted accounting principles as applicable to government entities. The Governmental Accounting Standard Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies. The financial reporting entity consists of the Town, organizations for which the Town is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the Town. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are part of the Town. Legally separate organizations for which the Town is financially accountable are considered part of the reporting entity. Financial accountability exists if the Town appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if there is a potential for the organization to provide benefits to or impose financial burdens on the Town. The Town includes no component units, nor is the Town a component of any other governmental entity.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the Town. For the most part, the effect of interfund activity has been removed from these financial statements. *Government activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of net position presents the financial position of the governmental and business-type activities of the Town at year-end.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenue*s.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)
Separate financial statements are provided for governmental funds and proprietary funds. Major individual funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Taxes, intergovernmental revenues, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. Expenditure-driven grants are recognized when the qualifying expenditures have been incurred and all other eligibility requirements have been met. All other revenues are considered to be measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

In the fund financial statements, the Town reports the following major governmental funds:

The *General Fund* is the general operating fund of the Town. It is used to account for all financial resources except those accounted for in another fund.

The *Impact Fee Fund* is used to address the impacts of growth and development, providing a funding mechanism to address the impact of new development. The main revenue sources are impact fees that include: park impact, roadway impact, drainage impact, town hall impact and police impact.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The *Capital Improvement Fund* is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition, construction or improvement of major capital facilities and other capital assets other than those financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The fund is also used to accumulate funds to finance a capital improvement plan. The budget is adopted on a project basis which is multi-year.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Town reports the following major proprietary funds:

The *Waterworks Fund* accounts for the revenues and expenses related to the provision of water service.

The *Wastewater Fund* accounts for the revenues and expenses related to the provision of sewer service.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions, and; 3) capital grants and contributions, including special assessments. General revenues include all taxes, interest and investment earnings, and miscellaneous revenues.

Interfund transactions are treated and classified as revenues, expenditures, or expenses. These include interfund transfers from one fund to another for the purchase of goods or services, In the government-wide statement of activities, interfund transactions are eliminated unless the transfer is between the governmental and business-type activities.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Cash and Investments– The Town's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments were reported in accordance with GASB Statement No. 72, as amended.

Receivables – All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. At December 31, 2025, the Town believes all amounts recorded are fully collectible.

Activities between funds that represent lending/borrowing arrangements at the end of the fiscal year are referred to as either "due (to)/from other funds." Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

By December 15 of each year, property taxes for the Town are levied by the Board and certified to Weld County for collection in the subsequent year. These taxes attach as an enforceable lien on property as of January 1 of the succeeding year and are payable in full by April 30 or in two installments by June 15 in the year of collection. The taxes are collected by Weld County on behalf of the Town. Property taxes levied in the General Fund are included in receivables and deferred inflows at December 31, 2025. These taxes are classified as deferred inflows since they are not normally available to the Town until mid-2026 and are budgeted for in 2026.

Inventories – Business-type fund inventory consists of supplies held for consumption. Inventory is carried at cost using the first-in, first-out method. The cost is recorded as an expenditure at the time individual inventory items are consumed (consumption method).

Prepaid Items – Certain payments to vendors and other third parties reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Expenditures/expenses are recorded when the service underlying the prepaid item is provided (consumption method).

Leased Assets – In June 2017 the Governmental Accounting Standards Board (GASB) adopted Statement No. 87, *Leases*. This standard establishes a single model for lease accounting based on the foundational principle that leases are financing the right to use and underlying asset. The Town determines if an arrangement is a lease at inception. Lease assets represent the Town's control of the right to use an underlying asset for the lease term, in an exchange-like transaction. Lease assets are recognized at the commencement date based on the initial measurement of the lease liability, plus any payment made to the lessor at or before the commencement of the lease term and certain direct costs. Lease assets are amortized in a systematic and rational manner over the useful life of the underlying asset.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets – Capital assets, which include land, construction in process, water rights, water and wastewater systems, buildings, equipment, and streets constructed or contributed since January 1, 2004, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund in the fund financial statements. Capital assets are defined as assets with an initial, individual cost of $5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at acquisition cost or estimated acquisition cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially expend asset lives are not capitalized.

All capital assets except land, water rights, and construction in progress are depreciated using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Buildings and improvements	10 - 50 years
Infrastructure and improvements	10 - 50 years
Equipment, machinery and furniture	5 - 20 years

Compensated Absences – It is the policy of the Town to permit employees to accumulate a limited amount of earned but unused leave benefits which will be paid to employees upon separation from service. Unpaid compensated absences are recorded as a liability when the benefits are earned in the proprietary fund financial statements. For governmental funds, there is no legal requirement to accumulate expendable available financial resources to liquidate the obligation; thus expenditures are recognized in the governmental funds when payments are made to employees. The liability is typically liquidated with resources of the same fund that has paid the applicable employee's regular salaries and fringe benefits.

Deposits – Developer deposits held in escrow and security deposits received from customers are reported as liabilities in the financial statements.

Long-Term Obligations – In government-wide financial statements and the proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt premiums, discounts and losses on debt refunding are deferred and amortized over the life of the debt using the straight-line method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Issuance costs, whether or not withheld from the debt proceeds, are reported as current expenses or expenditures.

Deferred Outflows and Inflows of Resources – In addition to assets and liabilities, the statement of net position will sometimes report separate sections for deferred outflows of resources and deferred inflows of resources. A deferred outflow of resources is a consumption of net position by the Town that is applicable to a future reporting period, and a deferred inflow of resources is an acquisition of net position by the Town that is applicable to a future reporting period.

Both deferred outflows and inflows are reported in the statement of net position but are recognized in the financial statements as revenues and expenses until the period(s) to which they relate.

Deferred inflows of resources for the Town consist of property taxes receivable. Property tax revenue is considered a deferred inflow of resources in the year the taxes are levied and measurable and are recognized as an inflow of resources in the period they are collected.

Net Position – Net position is classified and displayed in three components:

Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted – all other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

For government-wide presentation purposes and enterprise funds, when both restricted and unrestricted resources are available for use, it is the Town’s practice to use restricted resources first, then unrestricted as they are needed.

Fund Balance - Fund balance of governmental funds are reported in various categories, based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources for specific purposes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Nonspendable fund balance – The amount of fund balance that is not in spendable form (such as inventory or prepaids) or is legally or contractually required to be maintained intact.

Restricted fund balance – The amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance – Amounts constrained to specific purposes by the Town itself, using its highest level of decision-making authority (i.e., Board of Trustees).

To be reported as committed, amounts cannot be used for any other purpose unless the Town takes the same highest-level action to remove or change the constraint. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board.

Assigned fund balance – Amounts are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed.

Unassigned fund balance – Is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the Town's policy is to use restricted amounts first, followed by committed, assigned and unassigned amounts.

Estimates - The preparation of the financial statements, in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets are adopted for all funds of the Town as required by State statutes. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgetary comparisons for the proprietary fund are presented on a non-GAAP budgetary basis. Capital outlay and debt principal are budgeted as expenditures and depreciation is not budgeted. All annual appropriations lapse at fiscal year-end.

On or before October 15 of each year, the Town Manager submits to the Town Board a proposed operating budget for the fiscal year commencing on the following January 1. Public hearings are conducted to obtain input from elected officials, residents, and other interested parties. By December 31, the final budget is adopted. The appropriated budget is adopted by fund. Management is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Board.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments are classified in the financial statements as follows:

Cash with County Treasurer	$	6,482
Cash deposits		10,427,682
Investments		13,813,073
Total	$	24,247,237

Cash and cash equivalents at December 31, 2025, consisted of the following:

Cash and investments	$	22,394,969
Cash and investments - restricted		1,852,268
Total cash and investments	$	24,247,237

Custodial Credit Risk

For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Town bank accounts at year-end were entirely covered by federal depository insurance or by eligible collateral maintained by another financial institution or held by the Town's custodial banks in its name under provisions of the Colorado Public Deposit Protection Act (PDPA). The PDPA requires financial institutions to pledge collateral having a market value of at least 102% of the aggregate public deposits not insured by federal depository insurance.

The State Regulatory Commissions for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

At December 31, 2025, the carrying amount of the Town's cash deposits was $10,427,682 and the bank balance was $10,447,024 of which $250,000 was covered by FDIC insurance and the remainder covered by the PDPA.

Investments

The Town has not adopted a formal investment policy; however, the Town follows state statutes regarding investments.

The Town generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk, and no foreign currency risk. Additionally, the Town is not subject to concentration risk disclosure requirements or subject to investment custodial risk for investments that are in the possession of another party.

Colorado revised statutes limits investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirement. Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest, which include:

- Obligations of the Unites States and certain U.S. government agency securities and the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Certain reverse repurchase agreements
- Certain securities lending agreements
- Certain corporate bonds
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- ∗ Local government investment pools

ColoTrust

As of December 31, 2025, the Town had $13,813,073 invested in the Colorado Local Government Liquid Asset Trust (ColoTrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statues governing ColoTrust. ColoTrust operates similarly to a money market fund and each share is equal in value to $1.00. The Town's investments are held in the ColoTrust Plus+ portfolio.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

The portfolio may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. ColoTrust Plus+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper, and repurchase agreements collateralized by certain obligations of U.S. government agencies.

A designated custodial bank serves as custodial for ColoTrust's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for ColoTrust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals.

Investment Valuation

Certain investments that are measured at fair value on a recurring basis are categorized within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

However, the Town's investments are not measured at fair value and are therefore not categorized within the fair value hierarchy. These investments include 2a7-like external investment pools. The Town is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value (NAV) per share (or its equivalent) of the investment. ColoTrust determines the NAV of the shares of each portfolio as of the close of business on each day. The NAV per share of each portfolio is computed by dividing the total value of the securities and other assets of the portfolios, less any liabilities, by the total outstanding shares of the portfolios. Liabilities, which include all expenses and fees of ColoTrust, are accrued daily. The NAV is calculated at fair value using various inputs in determine value in accordance with GASB guidance. It is the goal of ColoTrust to maintain a NAV of $1.00 per share, however changes in interest rates may affect the fair value of the securities held by ColoTrust and there can be no assurance that the NAV will not vary from $1.00 per share. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

Restricted Cash and Investments – At December 31, 2025, the Capital Improvement Fund reported $48,000 of restricted cash which matches the bond debt service requirement for the Series 2014 Revenue Bonds. The General Fund reported $1,722,351 of cash and investments restricted for development agreements, and the Conservation Trust Fund reported $81,917 of cash restricted for culture and recreation.

NOTE 4 - CAPITAL ASSETS

Capital assets for governmental activities for the year ended December 31, 2025, is summarized below:

	Balances December 31, 2024	Additions	Deletions	Balances December 31, 2025
Governmental Activities:				
Capital Assets, not being depreciated				
Land	$ 479,243	$ -	$ -	$ 479,243
Construction in process	899,024	151,912	(119,116)	931,820
Total capital assets, not depreciated	1,378,267	151,912	(119,116)	1,411,063
Capital Assets, being depreciated				
Buildings	2,179,399	-	-	2,179,399
Equipment	1,797,183	447,867	(98,714)	2,146,336
Streets	7,985,362	611,915	-	8,597,277
Total capital assets, depreciated	11,961,944	1,059,782	(98,714)	12,923,012
Accumulated depreciation				
Buildings	(937,905)	(92,771)	-	(1,030,676)
Equipment	(1,053,180)	(199,135)	68,857	(1,183,458)
Streets	(1,139,196)	(241,416)	-	(1,380,612)
Total accumulated depreciation	(3,130,281)	(533,322)	68,857	(3,594,746)
Net capital assets, depreciated	8,831,663	526,460	(29,857)	9,328,266
Governmental Activities Capital Assets, net	$ 10,209,930	$ 678,372	$ (148,973)	$ 10,739,329

Depreciation expense was charged to functions/program of the Town as follows:

Governmental activities	
General government	$ 127,997
Public safety	21,333
Public works	346,659
Culture and recreation	37,333
Total	$ 533,322

NOTE 4 - CAPITAL ASSETS (CONTINUED)

	Balances December 31, 2024	Additions	Deletions	Balances December 31, 2025
Governmental Activities:				
Leased assets, being amortized				
Equipment	$ 272,861	$ 135,422	$ -	$ 408,283
Total leased assets being amortized	272,861	135,422	-	408,283
Accumulated amortization				
Equipment	(86,895)	(49,668)	-	(136,563)
Total accumulated amortization	(86,895)	(49,668)	-	(136,563)
Total lease assets, being amortized, net	$ 185,966	$ 85,754	$ -	$ 271,720

$5,041 of amortization expense was charged to the general government function and $44,627 was charged to the public works function on the statement of activities.

Capital assets for business-type activities for the year ended December 31, 2025, is summarized below:

	Balances December 31, 2024	Additions	Deletions	Balances December 31, 2025
Business-Type Activities:				
Capital Assets, not being depreciated				
Land	$ 168,679	$ -	$ -	$ 168,679
Construction in progress	1,777,229	71,500	(153,748)	1,694,981
Water rights	3,257,177	-	-	3,257,177
Total capital assets, not depreciated	5,203,085	71,500	(153,748)	5,120,837
Capital Assets, being depreciated				
Buildings	40,907	34,303	-	75,210
Equipment	211,792	-	-	211,792
Improvements - lagoons	428,139	-	-	428,139
Lagoon discharge rights	11,904	-	-	11,904
Wastewater system	984,152	-	-	984,152
Waterworks system	6,885,772	1,047,325	-	7,933,097
Total capital assets, depreciated	8,562,666	1,081,628	-	9,644,294
Accumulated depreciation				
Buildings	(39,837)	(234)	-	(40,071)
Equipment	(163,996)	(22,431)	-	(186,427)
Improvements - lagoons	(305,031)	(18,970)	-	(324,001)
Lagoon discharge rights	(11,904)	-	-	(11,904)
Wastewater system	(350,204)	(48,517)	-	(398,721)
Waterworks system	(2,523,089)	(246,603)	-	(2,769,692)
Total accumulated depreciation	(3,394,061)	(336,755)	-	(3,730,816)
Net capital assets, depreciated	5,168,605	744,873	-	5,913,478
Business-Type Activities Capital Assets, net	$ 10,371,690	$ 816,373	$ (153,748)	$ 11,034,315

NOTE 4 - CAPITAL ASSETS (CONTINUED)

Depreciation expense was charged to business-type activities of the Town as follows:

Business-type activities:		
Waterworks	$	262,559
Wastewater		74,196
Total	$	336,755

NOTE 5 - INTERFUND RECEIVABLES AND PAYABLES

Interfund receivable and payable balances at December 31, 2025 are as follows:

Fund	Interfund Receivable	Interfund Payable
General	$ -	$ 182,607
Capital Improvement	42,965	-
Impact Fee	42,088	-
Waterworks	73,543	31,204
Wastewater	55,215	-
	$ 213,811	$ 213,811

The residual balances of governmental funds and the proprietary funds is shown as internal balances on the government-wide statement of net position.

NOTE 6 - LONG-TERM DEBT

Following is a summary of long-term debt transactions for the governmental activities for the year ended December 31, 2025

	Balances December 31, 2024	Additions	Deletions	Balances December 31, 2025	Due In One Year
Governmental Activities:					
Series 2014, Sales Tax Revenue Bonds	$ 225,000	$ -	$ (110,000)	$ 115,000	$ 115,000
Lease liabilities	194,075	135,422	(44,976)	284,521	51,620
Compensated absences	26,261	33,666	-	59,927	59,927
Total	$ 445,336	$ 169,088	$ (154,976)	$ 459,448	$ 226,547

* Changes in compensated absences are reported net

$960,000 Sales Tax Revenue Refunding Bonds, Series 2014 (the 2014 Bonds), were issued to fund street improvements within the Town. Interest payments are due semi-annually on June 1 and December 1, with interest accruing at 2.92% per annum. Principal payments are due annually on December 1, through 2026. The Bonds are subject to redemption prior to maturity at the option of the Town as provided in the Sale Certificate.

NOTE 6 - LONG-TERM DEBT (CONTINUED)

The 2014 Bonds are payable from pledged revenues and the Town has established a 3% municipal sales tax of which 1/12th is pledged monthly to be used to pay principal and interest on the 2014 bonds. The pledge revenues are accounted for in the Capital Improvements Fund.

To provide additional security for the payment of the 2014 Bonds, sales tax collections in excess of the required annual amounts shall be maintained in a reserve account. The amount of the reserve at December 31, 2025, is $48,000, which means the requirement as set in the 2014 Official Statement.

In May of 2022 the Town entered into a lease agreement for the use of copiers and a folding machine. The lease term is 63 months with fixed payments of $415 due each month. The implicit borrowing rate on the lease was determined to be 1.37% and management utilized this rate to calculate the net present value of the right to use lease asset and lease liability recorded on the statement of net position.

In January of 2022, the Town entered into a lease purchase agreement with WagnerCat Financial Services for the use of a motor grader. The lease purchase agreement term is 84 months and the payments under the agreement are fixed at $2,375 per month. The lease purchase agreement carries a fixed interest rate of 2.99%. The Town used the fixed interest rate per the agreement to calculate the net present value of the right to use lease asset and lease liability recorded on the statement of net position. The Town plans to exercise the $82,320 purchase option at the end of the agreement, so the right to use lease asset was amortized over the asset's useful life of 10 years, instead of the length of the lease purchase agreement.

In February of 2025, the Town entered into a lease purchase agreement with Caterpillar Financial Services Corporation for the use of a backhoe loader. The lease purchase agreement term is 49 months and the payments under the agreement are fixed at $2,362 per month. The lease purchase agreement carries a fixed interest rate of 5.49%. The Town used the fixed interest rate per the agreement to calculate the net present value of the right to use lease asset and lease liability recorded on the statement of net position. The Town plans to exercise the $41,120 purchase option at the end of the agreement, so the right to use lease asset was amortized over the asset's useful life of 5 years, instead of the length of the lease purchase agreement.

NOTE 6 - LONG-TERM DEBT (CONTINUED)

Remaining debt service at December 31, 2025, was as follows:

2014 Revenue Refunding Bonds

Year ended December 31,	Principal	Interest	Total
2026	$ 115,000	$ 3,358	$ 118,358
Total	$ 115,000	$ 3,358	$ 118,358

Lease Liability - Equipment

Year ended December 31,	Principal	Interest	Total
2026	$ 51,620	$ 10,202	$ 61,822
2027	52,015	8,179	60,194
2028	133,035	6,130	139,165
2029	47,851	354	48,205
Total	$ 284,521	$ 24,865	$ 309,386

Compensated Absences – The liability is typically liquidated with resources of the same fund that has paid the applicable employee's regular salaries and fringe benefits.

Following is a summary of long-term debt transactions for the business-type activities for the year ended December 31, 2025:

	Balances December 31, 2024	Additions	Deletions	Balances December 31, 2025	Due In One Year
Business-Type Activities:					
Series 2018, Wastewater Revenue Bonds	$ 227,616	$ -	$ (14,364)	$ 213,252	$ 14,662
CWCB Loan	1,644,000	456,000	-	2,100,000	-
Compensated absences*	12,780	-	(1,593)	11,187	11,187
Total	$ 1,884,396	$ 456,000	$ (15,957)	$ 2,324,439	$ 25,849

* Changes in compensated absences are reported net

$496,000 Wastewater Revenue Bonds, Series 2018 (the 2018 Bonds), were issued for the purpose of financing the repair and replacement of existing sewer collection lines and expansion of the Town's aerated lagoon. Principal installments are due annually on December 1 with semiannual interest payments due on June 1 and December 1, at an annual interest rate of 2.75%. Payment of principal and interest are derived from the fees charged by the Wastewater Fund.

Annual debt service requirements for the outstanding 2018 Bonds at December 31, 2025, are as follows.

NOTE 6 - LONG-TERM DEBT (CONTINUED)

	Series 2018 Revenue Bonds		
Year ended December 31,	Principal	Interest	Total
2026	14,662	5,864	20,526
2027	15,065	5,461	20,526
2028	15,479	5,047	20,526
2029	15,905	4,621	20,526
2030	16,342	4,184	20,526
2031-2035	88,704	13,926	102,630
2036-2038	47,095	2,284	49,379
Total	$ 213,252	$ 41,387	$ 254,639

In August of 2023 the Town entered into a loan contract with the Colorado Water Conservation Board (CWCB) for an amount of $2,100,000 to finance acquiring additional water supply capacity and connecting the new water rights to existing infrastructure. The loan is secured by water activity revenues collected by the Town. The loan accrues interest at a fixed rate of 2.7% per annum and the loan contract matures 30 years from the close of the disbursement period. During the year ended December 31, 2025, The Town submitted and received loan draws totaling $456,000, and no repayment was made during the year.

Compensated Absences – Compensated absences of the business-type activities are expected to be liquidated with resources of the same fund that has paid the applicable employee's regular salaries and fringe benefits.

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN

The Town provides retirement benefits for all full-time employees through individual SEP accounts of the employee's choosing. The current year covered payroll of eligible employees amounted to $1,376,006. The Town contributes 5% of the employees' compensation; however, the total contribution for each employee may not exceed 15% of annual earnings or $30,000, whichever is less. Contributions by the Town on behalf of the employees amounted to $67,772 for 2025. All contributions are 100% vested for the benefit of each employee immediately upon deposit.

Statewide Retirement Plan – Hybrid Defined Benefit Component

The Town contributes to the Statewide Retirement Plan (SRP), a cost-sharing multiple-employer defined benefit pension plan. The Town participates in the hybrid component of the defined benefit plan. The plan is administered by the Fire and Police Pension Association of Colorado (FPPA). The Plan provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members hired prior to January 1, 1997 through the Plan. All full-time, paid police officers of the Town are members of the SRP and the Statewide Death and Disability

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN (CONTINUED)

Plan. Local revenue sources are responsible for funding of the Death and Disability benefits for firefighters hired on or after January 1, 1997. Colorado statutes assign the Town to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and requires supplementary information for both the SRP and the Statewide Death and Disability Plan. FPPA issues a publicly available financial report that includes information on the plan. That report may be obtained at www.fppaco.org..

The Plan assets associated with the Defined Benefit Component are included in the Fire & Police Members' Benefit Investment Fund and the Plan assets associated with the Money Purchase Component and Deferred Retirement Option Plan (DROP) assets are included in the Fire & Police Members' Self-Directed Investment Fund.

The plan is administered by the Fire & Police Pension Association of Colorado (FPPA). FPPA issues a publicly available comprehensive annual financial report which can be obtained on FPPA's website at http://www.FPPAco.org.

Benefits Provided

The FPPA Board of Directors may change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The normal retirement age should not be less than age 55 or more than age 60. Any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Members with a combined age and years of service totaling 80 or more, with a minimum age of 50 also qualify for a normal retirement pension. A member is eligible for retirement after attainment of age 55 with at least five years of credited service. A member is eligible for early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis.

The annual retirement benefit of the Hybrid Defined Benefit Component is 1.9 percent of the average of the member's highest three years' base salary for each year of credited service through December 31, 2022 and 1.5 percent of the average of the member's highest three years' base salary for each year of credited service after January 1, 2023. Benefits paid to retired members and beneficiaries may be increased annually on October 1 via cost of living adjustment (COLA). COLAs may be compounding or non-compounding. The increase in benefits, if any, is based on the FPPA Board of Director's discretion. Compounding COLAs can range from 0 percent to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers. Non-compounding COLAs take into consideration the investment returns, compounding COLAs and other economic factors. COLAs may begin once the retired member has been receiving retirement benefits for at least 12 calendar months prior to October 1. Upon termination, a member may elect to have their

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN (CONTINUED)

member contributions, along with 5.0 percent as interest, returned as a lump sum distribution in lieu of a retirement benefit.

Contributions

Contribution rates for the Plan are set by state statute. The FPPA Board of Directors may further increase the required contributions, equally between employer and member, upon approval through an election of both employers and members.

The Hybrid Defined Benefit Component and Money Purchase Component members and their employers are currently each contributing at the rate determined by the individual employer. Effective January 1, 2023, the employer and member minimum contribution rates will increase by 0.125 percent annually until they reach a minimum rate of 9 percent each and at least a combined rate of 18 percent in 2030. In 2024, the total minimum combined member and employer contribution rate was 17 percent.

The Hybrid Defined Benefit Component sets contribution rates at a level that enables the defined benefits to be fully funded at the member's retirement date. The amount allocated to the Hybrid Defined Benefit Component is set annually by the FPPA Board of Directors. The Hybrid Defined Benefit Component contribution rate from July 1, 2024 through June 30, 2025 is 14.56 percent. The Hybrid Defined Benefit Component contribution rate from July 1, 2023 through June 30, 2024 was 14.24 percent. Contributions in excess of those necessary to fund the defined benefit are allocated to the member's self-directed account in the Money Purchase Component.

Pension Asset/Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At December 31, 2025, the Town reported a net pension liability of $0 representing its proportionate share of the net pension liability of the plan. The net pension liability was measured at December 31, 2024, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2025. The Town’s proportion of the net pension liability was based on the Town’s share of contributions to the pension plan relative to the contributions of all participating entities. At December 31, 2024, the Town’s proportion was 0.0481 percent which was a decrease of .0005 percent from its proportion measured at December 31, 2023. For the year ended December 31, 2024, the Town recognized pension expense of $13,071. At December 31, 2025, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN (CONTINUED)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between Expected and Actual Experience	$ 115,473	$ 3,612
Changes of Assumptions or other Inputs	41,327	-
Net Difference between Projected and Actual Earnings on Pension Plan Investments	16,404	-
Changes in Proportion and Differences between Contributions Recognized and Proportionate Share of Contributions	1,947	150,697
Contributions Subsequent to the Measurement Date	58,084	-
Total	$ 233,235	$ 154,309

$58,084 reported as deferred outflows of resources related to pension resulting from Town contributions subsequent to the measurement date will be recognized as an increase in the net pension asset in the year ended December 31, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended December 31,	Amount
2026	$23,987
2027	46,542
2028	(18,305)
2029	(15,921)
2030	(7,153)
Thereafter	(8,308)
Total	$ 20,842

Actuarial Assumptions

The actuarial valuations as of January 1, 2025 determined the total pension liability using the following actuarial assumption and other inputs:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial Valuation Date	January 1, 2025	January 1, 2024
Actuarial Method	Entry Age Normal	Entry Age Normal
Amortization Method	N/A	Level % of Payroll, Open
Amortization Period	N/A	30 years
Long-term Investment Rate of Return*	7.0%	7.0%
Projected Salary Increases	4.25% - 11.25%	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0%	0%
*Includes Inflation at	2.5%	2.5%

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The preretirement off-duty mortality tables are adjusted to 60 percent of the MP-2020 mortality tables for active employees. The on-duty mortality rate is 0.00015.

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN (CONTINUED)

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The preretirement off-duty mortality tables are adjusted to 60% of the MP-2020 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2023 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2024. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	33 %	7.00 %
Equity Long/Short	6 %	6.20
Private Markets	34 %	8.80
Fixed Income - Rates	7 %	5.00
Fixed Income - Credit	7 %	6.50
Absolute Return	9 %	5.70
Cash	4 %	4.20
Total	100 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions,

NOTE 7 - RETIREMENT PLAN AND PENSION PLAN (CONTINUED)

the Statewide Retirement Plan's fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

As of the measurement period ending December 31, 2024, the COLA assumption, which was previously 0.00%, was revised to reflect the true nature of Board's Benefits Policy which includes a variable COLA and supplemental payments. Consistent with Board's policy, the new COLA assumption will fluctuate from year to year depending on plan experience and is the long-term COLA assumption which results in no Net Pension Asset. If current assets do not support Total Pension Liabilities using a COLA assumption of greater than 0.00%, then a COLA assumption of 0.00% will be used and a Net Pension Liability will be reported.

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of the valuation, the long-term expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 4.08% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting single discount rate is 7.00%.

Sensitivity of the Net Pension Liability (Asset) to changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as the Town's proportionate share of the net pension asset (liability) if it were calculated using a discount rate that is one percentage point lower (6.0%) or one percentage point higher (8.0%) than the current rate, as follows:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Proportionate Share of the Net Pension Liability (Asset)	$ 234,500	$ -	$ -

Pension Plan Fiduciary Net Postion

Detailed information about the plan's fiduciary net position is available in FPPA's separately issued financial report, which may be obtained at www.fppaco.org.

NOTE 8 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA). CIRSA is a joint self-insurance pool created by intergovernmental agreement of 275 members to provide property and liability and/or workers' compensation coverage to its members.

Coverage is provided through pooling of self-insured losses and the purchase of excess insurance coverage. CIRSA has a legal obligation for claims against its members to the extent that funds are available in its annually established loss fund, and those amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. CIRSA has indicated that the amount of any excess losses would be billed to members in proportion to their contributions in the year such excess occurs, although it is not legally required to do so. The Town maintains commercial insurance for workmen's compensation coverage. Claims have not exceeded coverage in any of the past three fiscal years.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

Claims and Judgements

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government. At December 31, 2024, certain grant expenditures have not been audited but management believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the Town.

NOTE 10 - RELATED ORGANIZATION

The Timberwood Housing Authority (the Authority) is an autonomous municipal entity governed by a board approved by the Mayor, but there is no continuing relationship between the Authority and the Town. The management of the Authority is selected by the governing board and operations are the exclusive responsibility of the Authority's management. The Authority is responsible for its financial affairs including the funding of deficits and the disposition of surpluses, also the Town does not guarantee the Authority's outstanding debt. The Authority operates within the geographical boundaries of the Town. The Authority is treated as a related organization rather than a component unit since there is not financial interdependency, control, or oversight responsibility.

NOTE 11 - TAX AND SPENDING LIMITATIONS

Tabor Amendment

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. In accordance with the amendment, the registered electors of the Town of Keenesburg, Colorado, passed an ordinance in 1995 allowing the collection, retention, and expenditure of the full proceeds of the Town's revenues, without any increase in any tax rate, from January 1, 1994 and thereafter. The Town believes it is in compliance with the requirements of the Amendment. The Town has made certain interpretations of the amendment's language in order to determine its compliance. The effect, if any, on the future operations of the Town is not determinable at this time. The Amendment requires that Emergency Reserves be established. These reserves must be at least 3 percent of "fiscal Year Spending" (as defined in the Amendment). As of December 31, 2025, the Town's restricted fund balance and net position for this purpose is $252,000.

NOTE 12 - RESTATEMENT OF BEGINNING FUND BALANCE AND NET POSITION

During the year ended December 31, 2025, the Town identified an error in the accounting for certain cash guarantee deposit agreements with developers. Interest income earned on the cash guarantee deposits under these agreements was not recorded as a liability but were instead recorded as a reduction of interest income when repaid to the developers under the agreement. This resulted in beginning net position for governmental activities and beginning fund balance in the general fund to be overstated by $136,134, resulting in a restatement of beginning balances. The effect of the restatement is shown in the table below.

	Beginning Balance as Previously Reported	Error Correction	Beginning Balance as Restated
Governmental Activities	$ 20,548,787	$ (136,134)	$ 20,412,653
General Fund	$ 6,485,149	$ (136,134)	$ 6,349,015

REQUIRED SUPPLEMENTARY INFORMATION
