## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Trustees  
Town of LaSalle  
LaSalle, Colorado

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of LaSalle, State of Colorado, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund, and the aggregate remaining fund information of the Town of LaSalle, State of Colorado as of December 31, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of LaSalle, State of Colorado, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of LaSalle, State of Colorado's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of LaSalle, State of Colorado's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of LaSalle, State of Colorado's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-8, budgetary comparison information on pages 42-53, the Schedule of Changes in Net Pension Liability / Asset and Related Ratios on page 54, the Schedule of Contributions on page 55, and the Schedule of Proportionate Share of Pension Liability and Schedule of Contributions on page 56 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of LaSalle, State of Colorado's basic financial statements. The combining nonmajor fund financial statements on pages 57-58, the budgetary comparisons on pages 59-69 and the local highway finance report on pages 70-71 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor financial statements on page 57-58, the budgetary comparisons on pages 59-69, and local highway finance report on pages 70-71 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**December 31, 2025**

This section of Town of LaSalle, State of Colorado's (Town) 2025 annual financial report presents management's discussion and analysis of the Town's financial performance for the year ended December 31, 2025. The Management Discussion and Analysis ("MD&A") should be read in conjunction with the Town's financial statements, including the notes to financial statements and supplemental information that immediately follow this section.

### **ORGANIZATION AND PURPOSE**

The Town was incorporated in 1910 as a political subdivision of the State of Colorado and operated under a Town Board form of government. The following services are provided by the Town: public safety, public works (streets, trash, street lighting), parks and recreation, water and sanitation service and general administration.

### **FINANCIAL HIGHLIGHTS**

The property tax revenue for 2025 was generated from taxable property with the 2024 gross total assessed value certification of \$31,574,840 in Weld County, Colorado with a Mill Levy Rate of 22.997. Other significant matters are as follows:

#### **Capital Projects and Operational Improvements**

- To enhance employee and public safety at Town Hall, the Town completed a remodeling project in the front lobby. Harris Constructors, Inc. enclosed the lobby by removing the existing half-door and viewing window into the deputy clerk's office and installing additional glass partitions, creating a fully enclosed reception area. The project was completed at a cost of \$23,193.
- In response to the requirements of House Bill 21-1110 regarding digital accessibility, the Town continued its efforts to ensure compliance with the Americans with Disabilities Act (ADA) for online content and documents. The Town purchased accessibility software from Equidox Software Company, LLC, at an annual cost of \$5,000 to assist staff in converting PDF documents into ADA-compliant formats.
- The Police Department strengthened its vehicle fleet through the purchase of three Dodge Durango patrol vehicles from the Kansas State Patrol at a total cost of \$105,525. The vehicles were acquired fully equipped with interior emergency lighting packages, sirens, consoles, TVI push guards, and transferable five-year fleet warranties, providing a cost-effective replacement solution for law enforcement operations.
- The Public Works Department contracted with Benitez Tree Service to perform comprehensive tree maintenance within Main Park. The project included trimming all trees throughout the park and was completed at a cost of \$36,000, helping to improve public safety, tree health, and park aesthetics.
- As part of the Town's ongoing facility maintenance efforts, CNW Siding & Window Company replaced 50 windows in the 6,000-square-foot middle shop building, originally constructed in 1968. The project improved the building's energy efficiency, functionality, and long-term condition.

#### **Street and Transportation Infrastructure**

- The Town completed the milling and overlay of 1st Avenue through a contract with Martin Marietta Materials at a total cost of \$323,787.50, including approved change orders. The project extended from the west side of the railroad tracks to 4th Street and included milling approximately two inches of existing

pavement, repairing deteriorated areas with four-inch asphalt patches, and placing three inches of new asphalt overlay. During construction, deficiencies were discovered in stormwater inlets at North 1st Street and North 3rd Street, resulting in additional improvements and change orders totaling \$14,300 to address drainage concerns.

- The Sunset Drive sidewalk, street widening, and ADA ramp improvement project was completed between South 4th Street and Church Court. GLH Construction, LLC completed the construction work for \$255,704. Total project costs were approximately \$332,000, including engineering and design services provided by GLM Design Group. The project improved pedestrian accessibility, roadway functionality, and compliance with ADA requirements.

#### **Wastewater System Improvements**

- Significant investments were made in the Town's wastewater infrastructure during the year. Rio, LLC replaced three deteriorated manholes located at Goodner Avenue, East Union Avenue, and an adjacent alley at a cost of \$43,705. In addition, the company completed sewer line repairs and flow-fill activities at Walnut Street and Taylor Avenue for \$18,390.
- To improve system reliability and extend the life of existing infrastructure, the Town completed a sewer main rehabilitation project on the east side of town. Insituform Technologies relined approximately 3,741 linear feet of sewer main at a cost of \$215,373. The project included segments located on West Taylor Avenue, East Union Avenue, East Taylor Avenue, Locust Street, Ley Drive, Railroad Drive, and West Union Avenue.
- The Town also undertook improvements to its lift station facilities. Both lift station pumps were replaced through Ramey Environmental at a cost of \$41,779. Additionally, a new electrical control panel was designed and assembled during the year. While the replacement pumps have been installed, the new above-ground control panel will replace the existing vault-mounted controls and is scheduled for installation in 2026.

#### **Bridge Project**

- Construction of the Main Street Bridge was substantially completed during the year. While physical construction activities have concluded, several state-required administrative and documentation requirements remain outstanding and are expected to carry over into 2026 before final project closeout can occur.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The Town's financial statements are comprised of three components, government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the financial statements themselves.

**Government-Wide Financial Statements** are comprised of the Statement of Net Position and the Statement of Activities. These two statements are designed to provide readers with a broad overview of the Town's finances utilizing the full accrual method of accounting.

**The Statement of Net Position** presents information on all of the Town's assets, deferred outflows of resources and liabilities and deferred inflows of resources, including capital assets and long-term liabilities with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

**The Statement of Activities** presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover

all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include the General Fund, Street Fund, Sales Tax Capital Improvement Fund, Conservation Trust Fund, and Recreation Fund. The business-type activities of the Town include the Waterworks Fund and Sanitation Fund. The Town does not have any component units.

**Fund Financial Statements** focus on current available resources and are organized and operated on the basis of funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements utilize the modified accrual basis of accounting, which focuses on near-term inflow and outflow of spendable resources, as well as on balances on spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements. The Town maintains five governmental funds (General, Street, Sales Tax Capital Improvement, Conservation Trust, and Recreation).

**Proprietary Funds** provide the same type of information as the government-wide financial statements, only in more detail. These funds are used to account for services in which the Town charges customers a fee. The Town maintains two proprietary funds (Waterworks and Sanitation).

**Fiduciary Fund** is used to account for the Policemen's Pension Fund related to the Town's "Old-Hire" defined-benefit pension plan. This fund is locally controlled but is administered by the Colorado Fire and Police Pension Association (FPPA), which mandates funding levels according to actuarial requirements. By law, the net assets of this fund belong to the retirement plan's participants rather than to the Town itself. This fund is incorporated into the basic financial statements by the reporting requirement of GASB Statement 68.

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide, business-type activities and fund financial statements.

**Other Information** includes certain required supplementary information containing budgetary comparison schedules of revenues, expenditures and changes in fund balances for all funds.

Net position increased to \$34,626,744, an increase of \$2,167,013 from 2024. The increase was affected by the Town capital assets, property tax, sales tax increases, donation, net pension asset, and royalties from mineral rights.

## FINANCIAL ANALYSIS OF THE FUNDS

**Governmental funds:** The Town's functions are reported in the General Fund, Street Fund, Sales Tax Capital Improvement Fund, Conservation Trust Fund and Recreation Fund. The focus of these funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the Town's net resources available for spending at the end of its fiscal year.

As of December 31, 2025, the Town's governmental funds reported combined ending fund balances of \$13,470,637 an increase of \$632,196 in comparison with 2025. Approximately 81.39% of this total amount (\$10,963,928) constitutes *unrestricted* fund balance, which is available for spending at the government's discretion. The reminder of the fund balance is *restricted* to indicate that it is not available for new spending because it has already been committed for encumbrances or Tabor.

**Proprietary funds:** The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

**Fiduciary fund:** As mentioned earlier, the FPPA administers this defined-benefit pension plan.

## Budgetary Highlights

The budgets are prepared in accordance with accounting principles generally accepted in the United States of America. Budget and actual comparison schedules are provided in the other supplementary information section of this report. The budget and actual comparison schedules show the original adopted budget, the final revised budget, actual results, and variance between the final budget and actual results for all funds.

Capital assets – net of depreciation increased \$836,788 during 2025 due to capital outlay (assets acquired) less depreciation and disposals (See Note 5 for further discussion).

## DEBT ADMINISTRATION

The Town is debt free.

## ECONOMIC FACTORS

- The Town continues to face rising costs for liability insurance, particularly in the area of law enforcement.
- Significant changes to property tax valuation and limits on revenue growth were implemented in 2024 and remained in effect through 2025. These changes included reductions to both residential and non-residential property valuations, along with the introduction of a cap on the amount of property tax revenue local governments may collect annually.
- Average Severance Tax revenue from 2021 through 2024 was \$96,011; however, in 2025 the Town received only \$4,100. This substantial decrease is attributable to Colorado legislative actions, including HB24-1413, which redirected millions of dollars from Local Government Severance Tax Funds to the State General Fund, significantly reducing the reserves available for municipal distribution.
- In 2025, interest rates on funds invested with ColoTrust declined compared to 2024 levels, though they still produced a solid average yield of approximately 3.757%.
- The Town also experienced positive growth in sales tax revenue, with collections increasing by approximately 11% in 2025 compared to 2024.

## FINANCIAL CONTACT

## TOWN OF LASALLE, COLORADO

### *Notes to the Basic Financial Statements*

December 31, 2025

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Town of LaSalle, Colorado (Town) was incorporated on April 19, 1910 as a statutory town. The statutes provide that the mayor is the chief administrative officer and that the Board of Trustees shall be the policy-making authority. The following services are currently offered by the Town: General government, public safety, and public works (streets, trash, street lighting), parks and recreation, and waterworks and sanitation service.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting and reporting policies and practices are described below.

#### **Reporting Entity**

The reporting entity consists of only the Town, a primary government that is a general-purpose local government. This primary government has a separately elected governing body and it is legally separate, as well as financially independent of other state and local governments. A component unit may be a financial benefit or burden to the primary government and is a legally separate organization of which the elected officials of the primary government are financially accountable. The Town does not have any component units.

#### **New Accounting Pronouncements**

GASB Statement No 102, *Certain Risk Disclosures*. This statement establishes and addresses financial reporting regarding certain concentrations or constraints and related events that have a substantial impact and negatively affect the level of service a government provides. Implementation had no impact to the Town's financial statements.

#### **Basic Financial Statements**

**Government-Wide Financial Statements** consist of Statement of Net Position and Statement of Activities; these statements report information about the reporting entity as a whole. These statements are presented on an "*economic resources*" measurement focus and the accrual basis of accounting. Accordingly, the assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets, infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred, regardless of the timing of the related cash flows.

**Governmental Fund Financial Statements** consist of Balance Sheet and Statement of Revenue, Expenditures and Changes in Fund Balance for all major governmental funds and non-major funds aggregated. These statements are presented on the "*current financial resources*" measurement focus and the modified accrual basis of accounting. Accordingly, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Revenues are recognized when received in cash, except for revenues subject to accrual (generally 60 days after year-end) are recognized when due.

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **Basic Financial Statements (continued)**

The Town reports the following **Governmental Funds**:

- **General Fund (major)** is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.
- **Street Fund (major)** is a special revenue fund of the Town. It is funded by sales tax, specific ownership tax, highway user's tax, motor vehicle fees and various other revenue sources. The expenditures represent the cost of maintaining the Town's streets and drainage.
- **Sales Tax Capital Improvement Fund (major)** is a special revenue fund used to account for a portion of sales tax revenue collected during the year that are legally restricted to expenditures for specified purposes.
- The **Conservation Trust Fund (nonmajor)** is a special revenue fund used to account for revenues derived primarily from intergovernmental revenues (Colorado Lottery) and earnings on investments. The use of these funds is legally restricted to the following activities: acquisition, development and maintenance of new conservation sites or for capital improvements or maintenance for recreation purposes on any public site (parks, trails, sports facilities, arenas or community centers).
- **Recreation Projects Fund (nonmajor)** is a special revenue fund used to account for the proceeds of specific revenue sources (other than special assessments, expendable trust, or major capital projects) that are legally restricted to expenditures for specified purposes.

The Town reports the following **Proprietary Funds**:

- **Waterworks Enterprise Fund (major)** provides waterworks services to the Town's citizens.
- **Sanitation Enterprise Fund (major)** provides sanitation services to the Town's citizens, including operation of the sanitary system and refuse collection.

The Town reports the following **Fiduciary Funds**:

- **Policemen's Pension Fund** accounts for assets, revenues and expenses of the "Old Hire" policemen's pension fund. This fund is incorporated into the basic financial statements by the reporting requirement of GASB Statement 68.

Required supplementary information includes Management's Discussion and Analysis which includes an analytical overview of the Town's financial activities. In addition, budgetary comparison schedules are presented for all funds that compare the adopted and modified budget with actual results.

##### **Deferred Outflows/Inflows of Resources**

In addition to assets and liabilities, the statement of net position will sometimes report a separate section for deferred outflows of resources and deferred inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense) or an inflow of resources (revenue) until that time.

Lease-related amounts are recognized at the inception of the lease in which the Town is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### Leases

The Town recognizes and measures its leases in accordance with GASB Statement No 87, *Leases*. The Town is a lessor portions of a water tower and ancillary real estate to commercial communications companies for the purpose of bearing communications antennae and gear subject to mutual covenants and conditions. The Town determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Town recognizes a lease receivable and deferred revenue at the commencement date of the lease. The lease receivable is initially and subsequently recognized based on the present value of its future lease payments. The discount rate is the implicit rate and lease payments are recognized on a straight-line basis over the lease term.

The Town has elected, for all underlying classes of assets, to not recognize right-to-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Town is reasonably certain to exercise. The Town recognize lease cost association with short-term leases on a straight-line basis over the lease term.

##### Budgets and Budgetary Accounting

An annual budget and appropriation resolutions is adopted by the Town in accordance with the Colorado State Statutes. The budget for all funds is prepared on a basis consistent with generally accepted accounting principles (GAAP), except that bond and loan proceeds are treated as other financing sources and debt service principal payments and capital outlays are treated as expenditures.

Budgeted amounts are as originally adopted or as increased by supplemental appropriations. Budget appropriations lapse at year-end. Budgetary comparisons with actual revenues and expenditures are included as required supplemental information for the General and Street funds and as other supplemental information for the Conservation Trust Fund, Recreation Fund, Waterworks Fund, the Sanitation Fund, and Policemen's Pension Fund. The following is a summary of the original, total revisions and revised budgets for those funds with amended budgets in year 2025:

### *Notes to the Basic Financial Statements*

December 31, 2025

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **Budgets and Budgetary Accounting (continued)**

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before August 25, the Weld County Assessor submits to the Town the new assessed valuation and other amounts needed to compute the statutory property tax revenue limit.
- On or before October 15, the Budget Committee submits to the Town Board of Trustees a proposed operating budget for the following fiscal year commencing January 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- On or before December 15, the Town certifies the mill levy to the Board of County Commissioners.
- On or before December 22, the Board of County Commissioners certifies the levy against the assessed valuation on all taxable properties.
- Prior to December 31, the Town legally adopts the budget.

##### **Designated for Subsequent Year's Expenditures**

Designated fund balance is the portion of the fund balance that is appropriated in the succeeding year's budget.

##### **Compensated Absences**

The Town reports compensated absences in accordance with the provisions of GASB Statement No. 101, *Compensated Absences*. The Town allows employees to accumulate unused vacation and sick leave/PTO benefits up to certain maximum hours. A liability is accrued for compensated absences as the benefits are earned if the leave is more likely than not to be used for time off or settled in cash. Accrued compensated absences are recognized as expenses when earned by the employees for the government-wide financial statements and the proprietary fund financial statements. Compensated absences are recognized as expenditures when paid in the governmental fund financial statements. Upon termination of employment from the Town, an employee will be compensated for all accrued vacation time and up to 60 hours of sick leave/PTO at their current rate of pay. An employee who resigns or is terminated shall not be entitled to any payment for accumulated sick leave/PTO.

Compensated absences liabilities are computed using the regular pay and termination pay rates, as applicable, in effect at year end plus an additional amount for salary-related payments such as Social Security and Medicare taxes and Statewide Retirement Plan contributions computed using rates in effect at that date. The Town has recorded a liability of \$426,735 at December 31, 2025, of which the Town estimates 20% of the recorded liability will be paid in the subsequent year.

##### **Cash and Cash Equivalents**

For purposes of the basic financial statements and the statement of cash flows, the Town considers all highly liquid debt instruments with maturities of three months or less to be cash equivalents.

The Town pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the Town's investments.

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **Restricted Cash and Investments**

The Town received funds from the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program. This program is intended to provide support to State, territorial, local and Tribal governments in responding to the economic and public health impacts of COVID-19 and in their efforts to contain impacts on their communities, residents and businesses. These funds may only be used in compliance with section 603(c.) of the Social Security Act, Treasury's regulations implementing that section, and guidance issued by the Treasury.

##### **Investments**

Investments are carried at fair value plus accrued interest with net appreciation or depreciation on investments included in earnings on investments. See Note 3 for further discussion.

##### **Inventory**

Inventory is generally stated at cost in the Waterworks Fund and Sanitation Fund, applying the first-in, first-out inventory flow method.

##### **Prepaid Expenses**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

##### **Capital Assets**

Capital assets, which include land, buildings and improvements, equipment, and infrastructure assets, are reported in the governmental-wide financial statements. The Town records its property and equipment at historical cost. Contributed capital assets are valued at their estimated fair value on the date donated. Maintenance and repairs are charged to current period operating expenses, whereas additions and improvements are capitalized. Upon retirement or other disposition of property and equipment, the costs and related accumulated depreciation are removed from the respective accounts and any gains or losses are included in operations. Interest costs relating to construction are capitalized. During year ended December 31, 2025, no interest was capitalized. The Town's capitalization level is \$5,000 for capital assets.

Depreciation is computed using the straight-line method over the following estimated useful lives:

|                                   | Years    |
|-----------------------------------|----------|
| Machinery and equipment           | 5 to 10  |
| Buildings and improvements        | 20 to 40 |
| Improvements other than buildings | 20 to 40 |
| Utility systems                   | 15 to 50 |

##### **Construction in Progress**

Construction in progress includes design and construction costs that accumulate until completion or installation of the respective project, at which time the total cost is transferred to depreciate capital assets.

##### **Use of Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **Receivables**

Receivables are considered fully collectible and therefore are reported at their gross value.

##### **Equity - Net Position**

For government-wide presentation purposes, when both restricted and unrestricted resources are available for use, it is the Town's practice to use restricted resources first, then unrestricted resources as they are needed.

##### **Equity - Fund Balance**

In the governmental funds, fund balances should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, or unassigned. The following classifications describe the relative strength of spending constraints:

- (1) ***Nonspendable Fund Balance*** – the portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.
- (2) ***Restricted Fund Balance*** – the portion of fund balance that is constrained to be used for a specific purpose by external parties (creditors, grantors, or contributors), enabling legislation or constitutional provisions.
- (3) ***Committed Fund Balance*** – the portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making, the Town Board. The constraint may be removed or changed only through formal action of the Town's Board through approval of resolutions.
- (4) ***Assigned Fund Balance*** – the portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Town Board to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- (5) ***Unassigned Fund Balance*** – the residual portion of fund balance that does not meet any of the criteria described above. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes.

If more than one classification of fund balances is available for use when an expenditure is incurred, it is the Town's practice to use the most restrictive classification first.

#### **NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

Article X, Section 20, of the Colorado Constitution contains several limitations, including raising revenue, spending abilities and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The Town believes that it is in compliance with the requirements of the amendment. However, the Town has made certain interpretations of the amendment's language in order to determine its compliance. The amendment excludes from its provisions Enterprises. Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than ten percent of their annual revenue in grants from all state and local governments combined, are excluded from the provisions of the Amendment.

Fiscal year spending and revenue limits are determined based on the prior years' spending adjusted for inflation and local growth. Revenue in excess of the limit must be refunded unless the voters approve retention of such revenue. In 1996, voters approved a ballot measure "to allow the collection, retention, and expenditure of the full proceeds of the Town's sales tax, use tax, property tax, non-federal grants, fees and other revenues, notwithstanding any state restriction on fiscal year spending, including without limitation the restrictions of Article X, Section 20 of the Colorado Constitution to be effective January 1, 1995". These provisions were added to the Town's Municipal Code by Ordinance. In addition, voters approved to allow the Town to maintain its operating mill levy at 22.997 mills, qualifying as a TABOR voter approved revenue change and, if applicable, an authorized exception to the statutory 5.5% tax revenue growth limitation. Considering the above interpretation of TABOR, the governing board believes that it is in compliance with its fiscal requirements for the year December 31, 2025.

The Amendment requires that Emergency Reserves be established. The reserves must be at least three percent of the fiscal year spending (excluding bonded debt service). The Town is not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The Town has restricted \$90,075 for this purpose.

#### **NOTE 3 - CASH DEPOSITS AND INVESTMENTS**

Cash deposits and investments are reported in the financial statements as follows:

**Cash Deposits**

As of December 31, 2025, the carrying amount of the Town's deposits was \$754,736 and the corresponding bank balance was \$751,071.

**Custodial Credit Risk** is the risk that, in the event of the failure of a bank failure, the government's deposits may not be returned to it. Town bank accounts at year-end were entirely covered by federal depository insurance or by eligible collateral maintained by another financial institution or held by the Town's custodial banks in its name under provisions of the Colorado Public Deposit Protection Act (CPDPA). The CPDPA requires financial institutions to pledge collateral having a market value of at least 102% of the aggregate uninsured deposits.

The State Regulatory Commissions for banks are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

**Investments**

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which a political subdivision may invest, which include:

- Obligations of the United States and certain U.S. government agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

As of December 31, 2025, the Town had the following investments:

|                              | S&P<br>Rating | Investment Maturities in Years |             |             |              | Total                |

## TOWN OF LASALLE, COLORADO

### *Notes to the Basic Financial Statements*

December 31, 2025

#### **NOTE 3 - CASH DEPOSITS AND INVESTMENTS (CONTINUED)**

##### **Investments (continued)**

The Town's policy is to hold investments until maturity and to invest its funds in a manner which will provide for the highest investment return consistent with the preservation of principal and provision of the liquidity necessary for daily cash flow demands.

**Interest Rate Risk** is the risk that changes in interest rate will adversely affect the fair value of an investment. The Town investment portfolio does not contain investments that exceed the five-year limitation imposed by Colorado Statutes.

**Credit Risk** is the risk that an issuer or other counterparts to an investment in debt securities will not fulfill its obligations to the Town. The Town's investment policy follows Colorado Revised Statutes.

**Concentration of Credit Risk** is the risk of loss attributed to the magnitude of a Town's investment in a single issuer. The Town has no such policy limiting how much can be with one financial institution.

**Custodial Credit Risk** is the risk that, in the event of the failure of the issuer or counterparty, the Town will not be able to recover the value of its investment or related collateral securities that are in the possession of an outside party. The Town had custodial credit risk for its investments at December 31, 2025.

**Local Governmental Investment Pools**, the Town had investments in the Colorado Local Government Liquid Asset Trust (COLOTRUST), a local government investment pool, comprised of three funds: COLOTRUST PRIME, COLOTRUST PLUS+, and COLOTRUST EDGE. PRIME invests only in U.S. Treasury and government agencies, while PLUS+ invests in U.S. Treasury, government agencies and in the highest-rated commercial paper. These two investment pools are rated AAAM by S&P Global Ratings and operate similar to a money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. EDGE invests in money market instruments and medium-term notes and is rated AAAF by Fitch Ratings. EDGE is characterized by a higher weighted average maturity (beyond 60 days) and a longer target duration than either PRIME or PLUS+. As an investment pool, COLOTRUST operates under the Colorado Revised Statutes (24-75-701) and is overseen by the Colorado Securities Commissioner. The Trust is exempt from registration with the Securities and Exchange Commission. For more information on COLOTRUST call (303) 864-7474 or go to [www.colotrust.com](http://www.colotrust.com).

**Fair Value of Investments**, the Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There are three levels of inputs that may be used to measure fair value, as follows:

*Level 1:* Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

*Level 2:* Inputs other than quoted prices in Level 1 that are observable for the asset or liability either directly or indirectly.

*Level 3:* Unobservable inputs that cannot be corroborated by observable market data.

#### NOTE 3 - CASH DEPOSITS AND INVESTMENTS (CONTINUED)

##### Investments (continued)

The Town's investment in COLOTRUST is measured at net asset value, equal to \$1.00 per share. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period. There is not an investment component to be valued under GASB Statement 72, *Fair Value Measurement and Application*. COLOTRUST EDGE does not seek to maintain a stable net asset value.

##### Investment Income

Investment income, is reported in the financial statements as follows:

| Investment Income:                                       | Governmental<br>Activities | Business-Type<br>Activities | Total             |
|----------------------------------------------------------|----------------------------|-----------------------------|-------------------|
| Interest income                                          | \$ 542,924                 | \$ 258,335                  | \$ 801,259        |
| Net increase (decrease) in the fair value of investments | -                          | -                           | -                 |
| <b>Total</b>                                             | <b>\$ 542,924</b>          | <b>\$ 258,335</b>           | <b>\$ 801,259</b> |

The net increase (decrease) in the fair value of investments represents the difference in fair value from one year to the next.

#### NOTE 4 - PROPERTY TAXES RECEIVABLE

Under Colorado law, all property taxes become due and payable in the calendar year following that in which they are levied. Property taxes levied by the General Fund in the current year, 2025, to be collected in the subsequent year, 2026 are accrued as a receivable as of December 31, 2025 and offset by an unearned revenue account.

The Town's property tax calendar for 2025 is as follows:

|                             |                   |
|-----------------------------|-------------------|
| Lien Date                   | January 1, 2025   |
| Levy Date                   | November 1, 2025  |
| Tax bills mailed            | January 1, 2026   |
| First installment due       | February 28, 2026 |
| Second installment due      | June 15, 2026     |
| If paid in full, due        | April 30, 2026    |
| Tax sale – delinquent taxes | November 15, 2026 |

**NOTE 9 - RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and subcontractors; and natural disasters.

For risks related to property and liability and worker's compensation, the Town is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity formed by intergovernmental agreement by member municipalities pursuant to the provision of 24-10-115.5, Colorado Revised Statutes (1982 Replacement Volume) and Colorado Constitution, Article XIV, Section 18(2). The purposes of CIRSA are to provide members defined liability and property coverage and to assist members to prevent and reduce losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, their employees or officers.

It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the bylaws, any member of CIRSA against stated liability of losses, to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverage at reasonable costs.

All income and assets of CIRSA shall be at all time dedicated to the exclusive benefit of its members. CIRSA is a separate legal entity and the Town does not approve budgets nor does it have ability to significantly affect the operations of the unit. The Town has not significantly changed its insurance coverage over the past three years, nor have any settlements exceeded coverage during the same period.

The Town purchases commercial insurance for all items not covered by CIRSA. Settled claims for these risks have not exceeded insurance coverage the past three years.

**NOTE 10 – CONTINGENCIES**

In the opinion of the Town's management and counsel, there is no material pending or threatened litigation, claims, and assessments. Furthermore, the Town's management and counsel are unaware of any unasserted possible claims or assessments that are probable of assertion and must be disclosed as of December 31, 2025.

#### **NOTE 11 – DEFERRED COMPENSATION PLAN**

##### **Plan Description**

Town employees may voluntarily contribute to the Voluntary Investment Program (457 Plan), an Internal Revenue Code Section 457 defined contribution plan administered by the Town. All plan assets remain the property of the Town (and subject to its creditors) until such time as specific participating employees separate from service, however, the Town intends to act in a fiduciary capacity for the benefit of its employees. Consequently, as of December 31, 2025 an asset and corresponding liability has been recorded in the General Fund in the amount of \$833,067. This account is essentially a trust fund; it has not been included in assets or liabilities on the Statement of Net Position.

##### **Funding Policy**

The 457 Plan is funded by voluntary member contributions up to a maximum limit set by the IRS (\$23,500 for the calendar year 2025). Catch-up contributions up to \$7,500 for the calendar year 2025 were allowed for participants who had attained age 50 before the close of the plan year, subject to the limitations of IRS Section 414(v). The Town contributes 2% of the employee's salary into this plan. Starting February 1, 2025, if the employee commits to a minimum of 1% of their salary, the Town will contribute an additional 1% for a total of 3%. The Town's cost under the Plan as of December 31, 2025 was \$38,021.

#### **NOTE 12 – OLD-HIRE POLICE PENSION PLAN**

##### **Plan Description**

The Old-Hire Police Pension Plan of the Town (Old-Hire) is an Agent Multiple-Employer Defined Benefit Plan managed and administered by the Fire and Police Pension Association of Colorado (FPPA).

##### **Benefits**

Police officers retiring on or after Normal Retirement date are entitled to a monthly pension equal to 50% of the final year's monthly salary. Normal Retirement is age 55 and 20 years of service in LaSalle, or, in the alternative, have complete 25 years of service in any police department in Colorado. Officers continuing to serve after Normal Retirement date and meeting the established retirement age and years-of-service criteria accumulate an additional 2% per year to a maximum of 74% of final year's salary.

Effective June 1, 2017, the Town increased the maximum benefit from 74% to 100% of member's pay. For each year a member continues working past eligibility for Normal Retirement, a member's benefit will increase by 2% of his average monthly salary received one year before his retirement. Once the member reaches 55 years of age with 42 years of service, the member is entitled to 100% of his salary upon retirement.

Death and disability benefits are available. Disability benefits are calculated based on the type and severity of the disability and may be temporary (full compensation up to one year) or permanent, in which case the disabled officer receives 50% of current salary at the time of disability. Death benefits are also paid to widows and dependent children (up to age 19) as a percentage of base salary at the time of death.

Effective June 1, 2017, the Town added a pre-retirement death benefit such that when an active member dies after becoming eligible for a retirement benefit, the beneficiary shall receive 50% of the benefit of the member would have been eligible for at the time of the member's death. The beneficiary shall continue to receive this benefit until remarriage or death.

**Discount Rate**

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects 1) a long-term expected rate of return on pension plan investments and 2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. The long-term expected rate of return on pension plan investments is 4.50%; the long-term municipal bond rate is 4.08%; and the resulting Single Discount Rate is 4.50%.

**Sensitivity to Single Discount Rate Assumption**

The following presents the plan's net pension liability / (asset), calculated using a Single Discount Rate of 4.50%, as well as what the plan's net pension liability / (asset) would be if it were calculated using a Single Discount Rate that is 1 percent lower or 1 percent higher:

**NOTE 13 – STATEWIDE RETIREMENT PLAN****Plan Description**

The Statewide Retirement Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan. The Plan consists of four components: Defined Benefit Component, Hybrid Defined Benefit Component, Social Security Component and Money Purchase Component. The Plan currently has 229 participating employer fire and police departments.

The Defined Benefit Component and Social Security Component cover substantially all full-time employees of participating fire and police departments in Colorado hired on or after April 8, 1978, provided that they are not already covered by a statutorily exempt plan. Employers once had the option to withdraw from the Plan, but a change in state statutes eliminated this option effective January 1, 1988, unless the employer elects and is determined to be eligible to participate in the Statewide Money Purchase Plan.

In 2003, legislation was enacted that allows departments who cover their firefighters and police offices in the money purchase plans to elect coverage under the Plan. As of August 5, 2003, clerical and other personnel from fire districts whose service are auxiliary to fire protection may also participate in the Plan. As of January 1, 2020, Colorado police and sheriff departments who participate in the Social Security have the option of affiliating for coverage under the Plan.

#### **NOTE 13 – STATEWIDE RETIREMENT PLAN (CONTINUED)**

##### **Plan Description (continued)**

The Plan assets are in the Fire & Police Members' Benefit Investment Fund Long-Term Pool and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Money Purchase Component assets). The Long-Term Pool is designed primarily for open plans with longer time horizon, appropriate risk tolerance, and lower liquidity needs. The investment return assumption is 7.00 percent.

Members participating in DROP or in the Money Purchase Component choose among various investment options offered by an outside investment manager.

The Plan is administered by the Fire and Police Pension Association of Colorado (FPPA). FPPA issues a publicly available annual comprehensive financial report that can be obtained on FPPA's website at: <http://www.fppaco.org>. The Town enrolls all full-time police officers in the Plan.

##### **Benefits**

The FPPA Board of Directors may change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The Normal Retirement Age should not be less than age 55 or more than age 60. Any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Members with a combined age and years of service totaling 80 or more, with a minimum age of 50 also qualify for a normal retirement pension.

A member is eligible for retirement after attainment of age 55 with at least five years of credited service.

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis.

The annual retirement benefit for the Defined benefit Component is 2.0 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent of the average of the members' highest three years' base salary for each year of service thereafter.

Beginning January 1, 2007, the annual normal retirement benefit for the Social Security Component is 1.0 percent of the average of the members' highest three years base salary for each year of credited service up to ten years plus 1.25 percent of the average of the member's highest three years' base salary for each year thereafter. Prior to 2007, the benefit for members of the Social Security Component will be reduced by the amount of social security income the member receives annually, calculated as if the social security benefit started as of age 62.

The annual retirement benefit of the Hybrid Defined Benefit Component is 1.9 percent of the average of the member's highest three years' base salary for each year of credited service through December 31, 2022 and 1.5 percent of the average of the member's highest three years of base salary for each year of credited service after January 1, 2023.

#### NOTE 13 – STATEWIDE RETIREMENT PLAN (CONTINUED)

##### Benefits (continued)

Benefits paid to retired members and beneficiaries may be increased annually on October 1 via cost-of-living adjustment (COLA). COLAs may be compounding or non-compounding. The increase in benefits, if any, is based on the FPPA Board of Director's discretion. Compounding COLAs can range from 0 percent to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers. Non-compounding COLAs take into consideration the investment returns, compounding COLAs and other economic factors. COLAs may begin once the retired member has been receiving retirement benefits for at least 12 calendar months prior to October 1.

Upon termination, the vested account balance within the Money Purchase Component becomes available to the member.

Upon termination, a member may elect to have their member contributions, along with 5.0 percent as interest, returned as a lump sum distribution in lieu of a retirement benefit.

##### Contributions

Contribution rates for the plan are set by state statute. The FPPA Board of Directors may further increase the required contributions, equally between employer and member, upon approval through an election by both the employers and members.

Contribution rates at December 31, 2024 are as follows:

|                                             | Member | Employer | Total  |
|---------------------------------------------|--------|----------|--------|
| Defined Benefit Component                   | 12.00% | 10.00%   | 22.00% |
| Statewide Death and Disability Plan (SWD&D) | 1.70%  | 1.70%    | 3.40%  |
|                                             | 13.70% | 11.70%   | 25.40% |

Member contributions will increase 0.5% annually through 2022 to a total of 12.0% of base salary. Employer contributions will increase 0.5% annually beginning in 2021 through 2030 to a total of 13.0% of base salary.

Contribution rates for members and employers of affiliated social security employers:

|                                             | Member | Employer | Total  |
|---------------------------------------------|--------|----------|--------|
| Statewide Defined Benefit Plan (SWBD)       | 6.00%  | 5.00%    | 11.00% |
| Statewide Death and Disability Plan (SWD&D) | 1.70%  | 1.70%    | 3.40%  |
|                                             | 7.70%  | 6.70%    | 14.40% |

Member contributions to SWBD will increase 0.25% annually through 2022 to a total of 6.0% of base salary. Employer contributions to SWBD will increase 0.25% annually beginning in 2021 through 2030 to a total of 6.5% of base salary.

The Hybrid Defined Benefit Component and Money Purchase Component members and their employers are currently each contributing at the rate determined by the individual employer. Effective January 1, 2023, the employers and member minimum contribution rates will increase by 0.125 percent annually until they reach a minimum rate of 9 percent each and at least a combined rate of 18 percent by 2030. In 2024, the total minimum combined member and employer contribution rate was 17.00 percent.

#### NOTE 13 – STATEWIDE RETIREMENT PLAN (CONTINUED)

##### Plan Contributions (continued)

The Hybrid Defined Benefit Component sets contribution rates at a level that enables the defined benefits to be fully funded at the member's retirement date. The amount allocated to the Hybrid Defined Benefit Component is set annually by the FPPA Board of Directors. The Contribution rate from July 1, 2024 through June 30, 2025 is 14.56 percent. Contributions in excess of those necessary to fund the defined benefit are allocated to the member's self-directed account in the Money Purchase Component.

A member of the Plan may elect to make voluntary after-tax contributions to the Money Purchase Component of the Plan. Additional voluntary contributions from the employer are made on a pre-tax basis.

##### Pension Liability (Asset)

At December 31, 2025, the Town reported \$0 for its proportionate share of the net pension liability (asset). The net pension liability was measured as of December 31, 2024, and the total net pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on the Town's share of contributions relative to the contributions of all participants.

#### NOTE 13 – STATEWIDE RETIREMENT PLAN (CONTINUED)

##### Actuarial Assumptions

The actuarial valuations for the Statewide Retirement Plan were used to determine the total pension liability (asset) and actuarially determined contributions for the fiscal year ending December 31, 2024. The valuations used the following actuarial assumption and other inputs:

|                                       | Total Pension Liability | Actuarial Determined Contributions |
|---------------------------------------|-------------------------|------------------------------------|

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables for males and females, amount-weighted, and then projected with the ultimate values of the MP-2020 projection scale for all years. The pre-retirement mortality assumption uses Pub-2010 Safety Healthy Employee Mortality Tables for males and females, amount-weighted, and then projected with the MP-2020 Ultimate projection scale. The pre-retirement non-duty mortality tables are adjusted to 60% multiplier. The on-duty mortality rate is 0.00015.

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The pre-retirement off-duty mortality tables are adjusted to 60% of the MP-2020 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July, 2023 meeting, the Board of Directors, reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Company, based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2024. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2024 are summarized in the following table:

| Fixed Income - Credit | 7.0%              | 6.50%                                  |
| Absolute Return       | 9.0%              | 5.70%                                  |
| Cash                  | 4.0%              | 4.20%                                  |
| <b>Total</b>          | <b>100.0%</b>     |                                        |

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Statewide Retirement Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The COLA assumption reflects the true nature of Board's Benefits Policy which includes a variable COLA and supplemental payments. Consistent with Board's policy, the COLA assumption will fluctuate from year to year depending on plan experience and is the long-term COLA assumption which results in no Net Pension Asset. If current assets do not support Total Pension Liabilities, using the COLA assumption of greater than 0.00%, than a COLA assumption of 0.00% will be used and a Net Pension Liability will be reported.

##### Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects 1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and 2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 4.08% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Regarding the sensitivity of the net pension liability to changes in the single discount rates, the following presents the Town's proportionate share of the net pension liability / (asset), calculated using a Single Discount Rate of 7.00%, as well as what the plan's net pension liability / (asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher.

##### Pension Plan Fiduciary Net Position

Detailed information about FPPA's plan fiduciary net position is available in the separately issued comprehensive annual financial report of the FPPA plan.

For the year ended December 31, 2025, the contributions recognized as part of pension expense for each Plan were as follows:

|                          | Police<br>Pension | Deferred Benefit<br>Pension | Total     |
|--------------------------|-------------------|-----------------------------|-----------|
| Contributions - Employer | \$ 7,259          | \$ 64,807                   | \$ 72,066 |

Police pension contribution was a required contribution per the January 1, 2024 actuarial valuation.

#### NOTE 14 – JOINT VENTURE

The Town participates with various other governmental entities in the Weld 911 Emergency Telephone Authority. The Authority is funded through a monthly surcharge to telephone customers and is governed by a seven-member board of directors, four of which are chosen by the Weld County Board of Commissioners. Due to the Town's lack of influence over the governance of the Authority and the Town's share of equity in the Authority is immaterial and unlikely to be distributed to the Town for any foreseeable time, no financial information for this activity has been included in these financial statements.

#### NOTE 15 – COLORADO CONTRABAND FORFEITURE ACT

The Town is eligible to participate in the Colorado Contraband Forfeiture Act, which allows police agencies to receive and expend monies acquired by the sale of seized contraband items. Any such funding must be expended by the agency for purposes other than "normal operating needs", and a report and accounting must be made to the agency's governing authority. During 2025, the Town received no monies as a result of seizures of contraband items under this Act.

#### NOTE 16 – LEASE OF TOWN FACILITIES

The Town leases portions of a water tower and ancillary real estate to commercial communications companies for the purpose of bearing communications antennae and gear. The leases have provisions for additional 5-year terms, which renew automatically unless the tenants provide at least 60 days' notice of intent to non-renew. The tenants may terminate the leases without penalty or further liability for such reasons as unsuitability for its intended uses, destruction of property and other causes. The Town may terminate the leases for non-payment of monthly rents.

The Town's standard lease calls for a single up-front payment of \$10,000, and a beginning lease payment of \$1,000 per month. This monthly charge increases by 3% each year on the anniversary date of the lease.

The following is a schedule of future minimum lease income to be received under the lease that has an initial or remaining non-cancelable lease term in excess of one year as of December 31, 2025.

| Year Ending December 31                  | Amount            |

**NOTES TO SCHEDULE OF CONTRIBUTIONS****Valuation Date:**

Notes

Actuarially determined contribution rates are calculated as of January 1 of even numbered years.  
The contribution rates have a one-year lag:  
Actuarial valuation as of January 1, 2022 determines contributions amounts for 2023 and 2024.

**Methods and Assumptions Used to Determine Contribution Rates:**

in Fund Balance to the Statement of Activities:**

Net Change in Fund Balance - Total Governmental Funds \$ 35,705

*Amounts reported for governmental activities in the statement  
of activities are different because:*

Governmental funds report capital outlays as expenditures while  
governmental activities report depreciation expense to allocate  
those expenditures over the life of the assets:
