Estimated Yield

The Estimated Yield (EY) in the preceding section compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at the time of estimation. Yield to Maturity is typically reported for Zero Coupon Bonds as these securities do not have an annual payment.

Bond ratings(s) displayed are supplied by third party credit rating agencies Standard & Poor's (S&P), Moody's and Fitch. The bond ratings shown are the highest of several possible credit ratings assigned by S&P, Moody's or Fitch for a particular bond and may reflect factors in addition to the credit quality of the issuer, such as bond insurance or participation in a credit enhancement program.
