

# **Lumatic Accessibility Statement**

Lumatic is designed to be accessible for everyone.

Lumatic's design standards strive to make it easy for every user, including those with disabilities, to use Lumatic's platform. The attached VPAT Accessibility Conformance Report represents the most recent accessibility audit of the Lumatic platform. It outlines Lumatic's full compliance with many WCAG 2.1 standards, and also notes current platform accessibility shortcomings. It is the intent of the Lumatic team to mitigate these shortcomings over future platform upgrades, and to ensure that new features continue to comply with these standards.
