

Description of the City of Marion flag:

The City of Marion's unofficial flag is described as displaying the city's brand mark which was revealed as the main graphic of the City of Marion's new brand/identity in January of 2017, created by students and volunteers of IWU's Marion Design Co. from collaboration among citizens and community leaders.

"The new Marion M comes from the repeating patterns within our many blocks and streets of businesses, homes, and great organizations. The center of the M is proportional to the center square where the Grant County Court House sits." – Marion Design Co.

The M is tilted on a 45-degree angle from the Marion grid as it sits today, allowing the M to move forward.

The colors of the Marion M include a spectrum of soothing and calming blues representing trust and responsibility, and teal representing clarity, growth, and spirit. This collaboration sits on a white background, comfortable in its surrounding of white which symbolizes purity, peace, and refreshing new ideas.
