

## R2- Medium Density Single Family Residential

§ 153.021 (B) Residential Districts. Six districts, RS, R1, R2, R3, R4, and R5, are established for residential use in conformity with the types of neighborhoods, which have occurred, and are likely to develop in the areas so designated on the Zone Maps. The Districts differ primarily with respect to requirements of lot size, building ground floor area, and the number of families that may be housed in one building.

The R2 district is primarily a medium density single-family district. The R2 requirements as to minimum lots and ground floor area of buildings are less than those specified for residential districts RS and R1. This district frequently applies to existing residential neighborhoods and comparable expansions thereof.
