NOTES:
¹ The location and requirements on accessory structures defined as essential services, and the location of specific types of structures such as signs, fences and antenna structures are governed by Article VII of the Development Regulations.
² Adjustments for steep slope areas shall be as prescribed by § 150-78.
³ Each lot shall be able to contain within it the shape of a circle tangent to the front yard setback line and located within the minimum side and rear yard lines. The diameter of the circle shall be as prescribed for the zone district. See Exhibit 5-3 for illustration.
⁴ The gross density of the RTH District shall not exceed eight dwelling units per acre.
⁵ The gross density of the MF-1 District shall not exceed 16 dwelling units per acre.
⁶ The gross density of the MF-2 District shall not exceed 25 dwelling units per acre.
⁷ Area, bulk and setbacks in the PB District shall be based upon the specific use, building or structure approved by the governing body.
⁸ The MC District consists of the open waters of Sandy Hook Bay as shown on the zone map. The intent is to limit disturbance and maintain the open bay. Area, bulk and setback requirements are not applicable to this zone.
⁹ No structure, except within the MR District, shall be located within 50 feet of the mean high tide line of Sandy Hook Bay or of any area fronting thereon which is reserved for public beach purposes except for approved shore protection structures and water-dependent structures for public recreation. Within the MR District, buildings shall not be located within 35 feet of the mean high tide line, except for marine transportation facilities or any portion of a building or structure whose function is to provide service to boats or any personal service facilities. In calculating the permitted useable floor area ratio of a building on a pier, the pier area may be used.
¹⁰ A fifty-foot-wide buffer shall be maintained between the LI District and an adjoining residential district.
¹¹ Within the MR District no gasoline pump, gasoline storage tank nor any structure used for storing fuel or oil shall be located nearer than 100 feet to adjacent residential or commercial properties, except other boatyards or marinas.
¹² A fifty-foot-wide buffer shall be maintained between the WB District and the R-1 District.
¹³ The minimum floor area requirements in the RTH, MF-1 and MF-2 Districts shall be as follows:
 a. One-bedroom units: 750 square feet/unit.
 b. Two-bedroom units: 900 square feet/unit.
 c. Three-bedroom units: 1,100 square feet/unit.
¹⁴ Multifamily dwelling units over three bedrooms are prohibited.
 In the HB, CBD and LI Districts, basements and cellars utilized for off-street parking to accommodate on-site uses shall not be counted as a floor.

(1) This measure of socioeconomic status helps identify ZIP codes with the best conditions for quality schools. It is based on the U.S. Census Bureau's Socioeconomic Status (SES) measure with weights adjusted to more strongly reflect the educational aspect of social status (education 2:1 to income & occupation). Factors in this measure are income, educational achievement and occupation of persons within the ZIP code. Since this measure is based on the population of an entire ZIP code, it may not reflect the nature of an individual school.
