

PROPERTY DESCRIPTION

Unique opportunity to locate a business in a standalone office/flex building with rear yard space that is fenced and secured. The property offers great visibility with parking directly in front of the building. The rear yard has additional covered storage with all gravel for equipment or truck storing.

PROPERTY OVERVIEW

- ±3,910 SF office with rear yard space
- 2.84 Acres
- Zoned LI (light industrial)
- Lease rate: \$6,000/month, NNN

LOCATION DESCRIPTION

The property is strategically located along Wilson Road in Sanford, NC, a strong industrial and flex corridor. This location provides quick and easy access to Hwy 421 leading to Lillington, NC and Hwy 87 to Fayetteville and I-95. The 421 bypass around Sanford provides a four-lane, divided highway route to US 1 towards Raleigh-Durham. The facility is very close to the active retail market in Sanford which includes numerous restaurants and large retailers. The building is in a great location with easy access to Hwy. 421, Hwy. 42, and Hwy. 87.

RECENT NEWS

By Evan Hooper and Lauren Ohnesorge – Triangle Business Journal
Mar 25, 2022 Updated Mar 25, 2022, 3:46pm EDT

An international carmaker has picked the Greater Triangle region for its first U.S. manufacturing site, a win that could mean as many as 13,000 jobs on buildout, multiple sources told Triangle Business Journal.

Sources identified the carmaker as Vietnamese firm VinFast and said the company plans to spend as much as \$6.5 billion, and produce both electric batteries and vehicles at Chatham County's Triangle Innovation Point megasite, formerly known as the Moncure Megasite. [>>Read More](#)

SANFORD & LEE COUNTY

AREA INFORMATION

Sanford is a dynamic small town on the edge of the Research Triangle. An easy drive from the Raleigh, Fayetteville, Southern Pines, and Chapel Hill areas, Lee County is an All-American community that welcomes new faces and ideas.

A foundation for learning and life: Sanford's student-centered PK-14 schools provide enriched education that sees graduation as a launching point for students creating the future of their dreams.

Special and specialized care: Central Carolina Hospital was recently cited by Consumer Reports for excellence in a critical area of hospital care. The hospital has over 100 medical professionals representing more than two dozen specialties.

Outstanding recreation: When it comes to building healthier bodies and spirits, the sun- and fun-filled recreational assets of Lee County keep residents on the move and in the mix with golf courses, greenways, river paddling and more.

A culture of excellence and enjoyment: There's no shortage of the arts in Lee County with music and drama at the Temple Theatre, festival fun at the Sanford Arts and Vine, performances by the Heart of Carolina Jazz Orchestra. Arts are for savoring in Sanford, and so are dining choices that delight every taste.

Lee County is a location where affordable costs allow residents to enjoy living beyond their expectations, yet well within their means. That includes a welcome variety of housing prices, styles, and settings.

Living your life, loving your life, crafting the legacy of a happy, thriving family. That's quality *of* life, quality *in* life, in Sanford and Lee County.

REGIONAL ROAD IMPROVEMENTS

SOURCES: NCCORE & WRAL

North Carolina could get a new interstate as part of a newly-passed federal infrastructure bill. It would be known as Interstate 685 and potentially have a big impact for the Carolina Core region, including Lee and Harnett counties. The plan is for a road that would start in the Triad and end in Dunn at Interstate 95, just minutes away from Fayetteville. U.S. Highway 421 would become designated as I-685 in the future, however, there are still a few crucial steps needed in order for the change to become a reality. Continue reading on WRAL's [website](#).

AN EMERGING LIFE SCIENCE SUBMARKET IN THE RESEARCH TRIANGLE REGION

The Raleigh-Durham market is one of the leading locations for life science cluster in the United States. While the Research Triangle Park and Downtown Durham are the dominate submarkets, nearby Sanford is quickly gaining momentum as a prime destination for new life science investment.

LEADING EMPLOYERS

The Research Triangle Region is the fourth largest cluster of life science companies in the United States. This includes Sanford-based Abzena, Pfizer, and Astellas Gene Therapies.

SKILLED & PLENTIFUL TALENT

With 1.7 million people in a 50-minute drive time of Sanford, businesses have a strong talent pool, reaching both the Raleigh-Durham and Fayetteville metropolitan areas. Over 47% of the population in the Research Triangle has a Bachelor's degree or higher.

SKILLED & PLENTIFUL TALENT

Duke University, the University of North Carolina, and North Carolina State University are three Tier 1 research universities in the region. More than 42,000 people receive a bachelor's degree annually from area colleges and universities, 22,000+ of which are STEM graduates. The region has the 4th highest concentration of PhDs in the United States.

INNOVATIVE COMMUNITY COLLEGES

The North Carolina Community College System is the third largest in the United States and enrolls more than 800,000 students each year at 58 campuses.

In Sanford, Central Carolina Community College offers the BioWork certificate program, which teaches students foundational skills to begin a career in life science manufacturing.

TRANSITIONING MILITARY

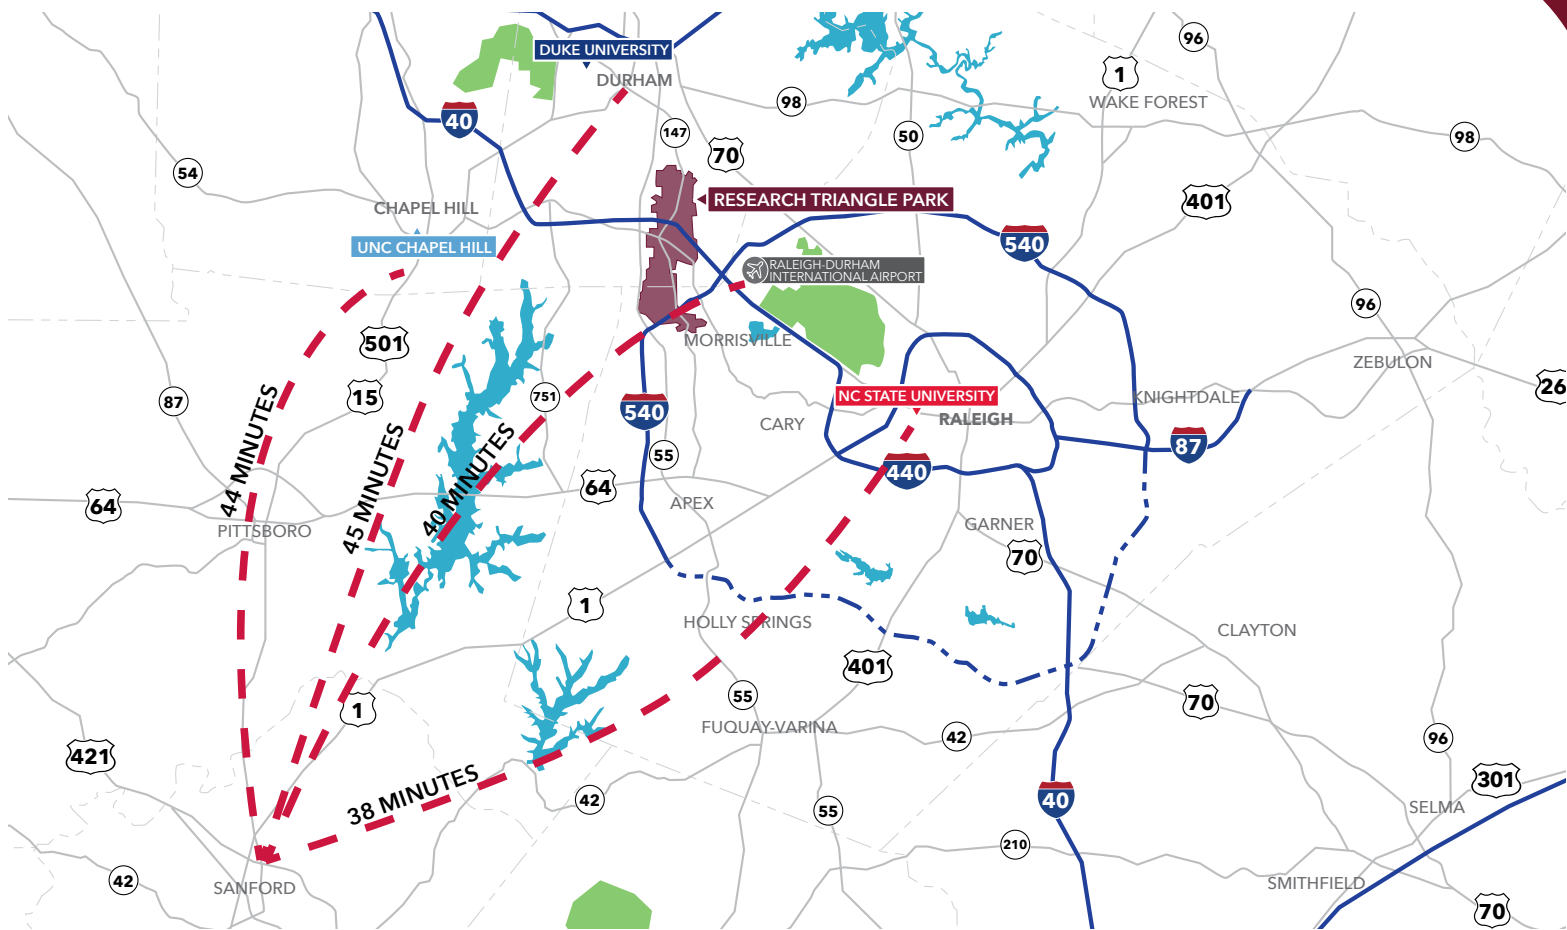

North Carolina is home to more than 20,000 transitioning veterans each year, providing a new, skilled talent pool for employers. Fort Bragg, located 30 minutes south of Sanford, is one of the largest military installations in the world.

WELL CENTERED, WELL CONNECTED

Sanford is located in central North Carolina, with an ideal mid-Atlantic location in the United States. Nearby Raleigh-Durham International Airport provides abundant domestic and international travel options.

North Carolina boasts more than 3,200 miles of railroad, two coastal ports, and over 90,000 miles of highway that connect businesses to all corners of the United States. The state is consistently recognized for its strong business climate.

LIFE SCIENCE IN SANFORD

Sanford continues to see investment from new and existing life science companies due to its strong infrastructure and business environment. These successes have put a spotlight on the area, increasing interest in commercial, residential, and industrial real estate opportunities to serve the new growth.

In August 2019, **Pfizer**, the world's largest pharmaceutical company, announced two projects in Sanford.

First, a major \$500 million expansion to advance its state-of-the-art gene therapy manufacturing facility in Sanford. At completion, the new operation is projected to add 300 new jobs with an average wage of more than \$96,000 per year. The operation will concentrate in highly specialized gene therapy manufacturing.

Pfizer will also invest \$70 million to upgrade the manufacturing process for the company's vaccine portfolio. This project will expand its workforce by 200 employees. The average annual wage for these new jobs will be approximately \$68,000.

In February 2020, **Astellas** announced it will open a new facility in Sanford. The life-sciences company purchased a shell building that was developed through a local public-private partnership. **Astellas** will create 209 jobs at an average salary of \$83,900. The company will be investing \$109.4 million in Sanford over a five year period.

In April 2021, **Abzena** announced its decision to locate its biopharmaceutical manufacturing facility in Sanford. **Abzena** will invest \$213 million to establish a state-of-the-art facility featuring a design optimized for phase 3 and commercial manufacturing of biologics. The company expects to create 325 new jobs at an average annual wage of more than \$60,000.
