## Creating a global destination for health and wellness

With Mayo Clinic at its heart, Destination Medical Center (DMC) is the largest public-private economic initiative in Minnesota and the catalyst for growth in Rochester. DMC is a robust 20-year, \$5.6 billion economic development initiative designed to position Minnesota as a global center for the highest quality medical care.

Great cities are great destinations. They are vibrant places where people come together to work, live and recreate. They are centers for business. They are centers for culture. They are places that are attractive to residents and visitors alike. Finally, they are places that engage individuals in ways that meet and often exceed their expectations.

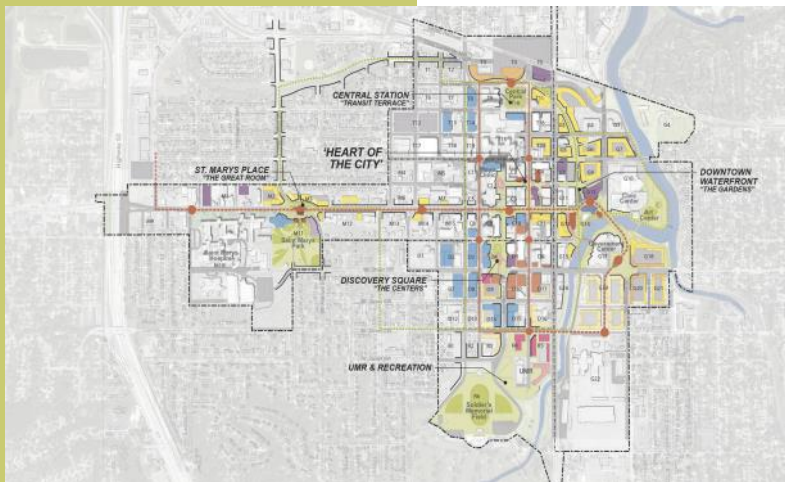

The Master Plan is intended to transform Rochester into a dynamic, urban center that integrates Mayo Clinic’s medical campus with commercial, biomedical-research-technology, residential, retail-entertainment, hotel-hospitality, educational, recreational and cultural uses through a strategic network of street scape, transportation, greenway and public space amenities. The primary concept of the DMC Master Plan is to create “places” that foster lasting experiences, create an active and attractive environment to drive visitation and act as catalysts to development and investment in support of realizing the goal of creating a global destination medical center.

The DMC Master Plan has been established as a fairly dense, concentrated area to maximize the impact of DMC Funds, leverage Mayo Clinic’s growth, and effectively employ the public investment and to create the mass and energy needed to attract investment and development to the downtown. The “places” are organized into 6 sub-districts, defined as:

- The Heart of the City
- Discovery Square
- Downtown Waterfront
- Central Station
- St. Mary’s Place
- UMR/Recreational Area
