Introduction

Truly Turn-key Tech-optimized Space for **150-250 Employees**

Covering the entire top floor, this space was designed and built out for TaskEasy, the leading technology platform for ordering and managing exterior maintenance services.

Over the last six years, TaskEasy has become the largest provider of single family home lawn and yard care in the world by developing technology and processes to simplify how exterior property management services are ordered and managed. TaskEasy's CEO Ken Davis received the E&Y Entrepreneur of the Year award in 2018, and the company continues to innovate and grow, providing services in 12,000 cities across all 50 states. Having outgrown their prior offices, TaskEasy secured and built out this space in 2018 to accommodate existing team members and technology infrastructure with ample space for future headcount growth.

With new technology driving continued efficiency gains, TaskEasy has been able

to grow revenue without growing headcount, and in the new COVID environment, has transitioned to a mix of office and work-from-home positions. As a result, TaskEasy plans to move to a smaller space on the second floor, freeing up a truly turn-key option for any company looking for a bright, open, tech-oriented space to accommodate 150-250 employees. **With sit-stand desks for every employee, and a flexible open floor plan with lots of offices, huddle rooms and lounge areas, this top floor space can be delivered with furniture, phones, internet and even the tech support to get you moved in and working with just a few weeks notice.** Besides a perfect near-downtown SLC location, the building offers a fully equipped on-site data center with dual fiber Internet options, UPS, and a backup generator on the roof.

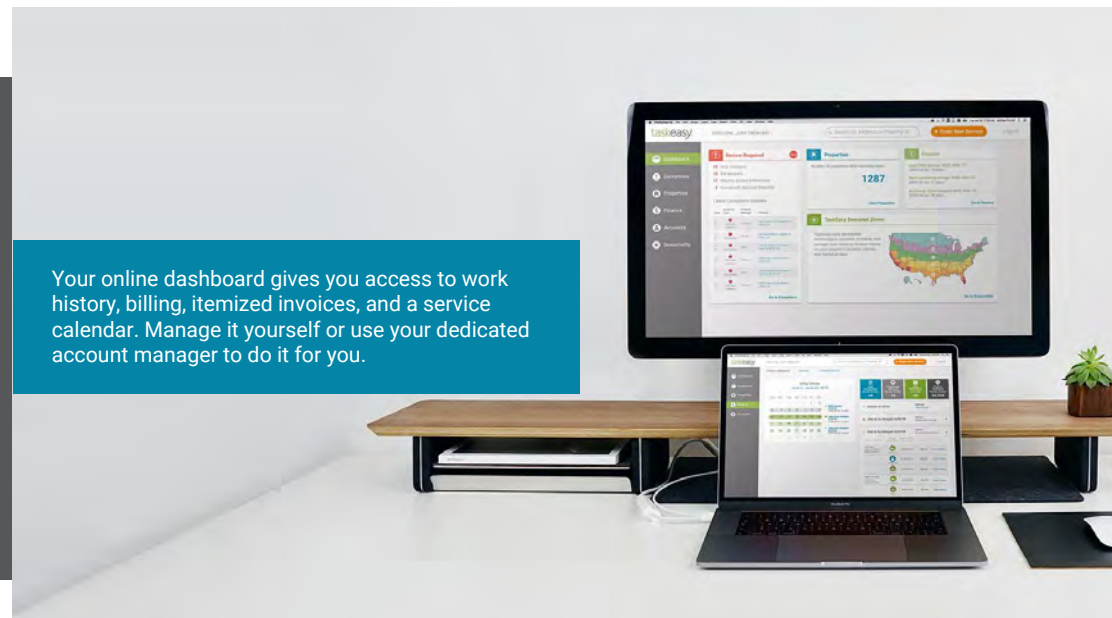

TaskEasy has a hand-selected network of lawn care professionals spanning across all 50 states. Our vendors are screened, insured, and experienced.

- 10,000+ experienced and insured vendors
- 1,500,000+ jobs performed across the US
- 12,000+ cities we perform work in

Since launching, TaskEasy has performed services in more than **12,000 cities**, and across all **50 US states**. TaskEasy works together with landscaping businesses in each area, supporting local industry with over **1,500,000 tasks** performed to date.

TaskEasy's ability to continue growth with a mix of work-from-home and new, smaller offices on the second floor creates a great opportunity for another company to become the new anchor tenant in the 669 S West Temple building, with an operations-ready, already configured and ready-to-go space.

It doesn't get any easier than this.

Your online dashboard gives you access to work history, billing, itemized invoices, and a service calendar. Manage it yourself or use your dedicated account manager to do it for you.

Floor Plan

Third Floor

Space Highlights

- 1 large CEO office w private bath
- 1 very large multi-function space w A/V hookup
- 7 open conference room-like spaces / lounge areas
- 15 conference rooms/large office spaces
- 19 small office/huddle room spaces
- 215 cubical spaces (mix of 5' desks, 6' desks and corner desks)
- Large room with 10 desks (TaskEasy used for marketing team)
- Dedicated storage space / recording booth
- Private nursing room for new mothers
- 2 kitchen areas
- 4 supplies closets
- TaskEasy configured the space for 161 employees and can provide desks and fittings for immediate occupancy at that headcount. Additional matching desks can be ordered with some lead time if a higher capacity is needed.

UTAH ECONOMY AMONG THE FASTEST GROWING IN U.S. HERE'S WHY

Jasen Lee

Deseret News

March 28, 2019

SALT LAKE CITY — Utah's economy has been among the more robust and fastest growing in the nation, according to analysts from one of the country's largest financial institutions.

"The Utah economy is doing very well right now," said Wells Fargo economist Charlie Dougherty. "It's doing well for all the reasons you'd want to see an economy do well — mainly a fast-growing labor force (that) is very well-educated and young."

Wells Fargo reported that the Beehive State has consistently ranked as "one of the fastest growing economies in the country" in addition to boasting one of the lowest rates of unemployment.

Dougherty said the economy is also among the most diverse.

"You're seeing a lot of job growth, seeing a lot of people moving into the state, a lot of companies moving into the state and so there are a lot of good things happening in the state of Utah," he said.

The bank's report stated that collaboration between business, labor and government is among the reasons why Utah consistently ranks among the best states to do business. An increasing presence in prominent business sectors such as technology, including cloud computing, big data and software development, has raised the state's economic profile nationally and internationally. He also noted the growth in aerospace and life sciences as reasons for Utah's positive economic outlook.

"The U.S. economy grew at about 3 percent in 2018, while Utah was growing in excess of 4 percent," he said. "And it's been above 4 percent for all of 2018."

Additionally, nonfarm employment rose 2.8 percent over the past 12 months, with stable increases apparent in all principal industry sectors, the report stated. The state's jobless rate held steady at 3.1 percent in February, around where it has been for the past two years, he said.

The State of Utah

Highlights

Utah's Economy

Utah's economy is booming thanks to a combination of strong employment growth, a vibrant tech industry and collaboration between business, labor and government.

Employment

Following the release of the July 2019 employment numbers for the state of Utah, the U.S. Bureau of Labor Statistics data shows Utah is ranked No. 1 for total job growth in the nation at 3.6%. In addition, Utah is ranked No. 1 for private sector job growth at 4%. For unemployment, Utah is ranked No. 5 at 2.8%, tied with Hawaii.

Growth

The Beehive State ranks among the fastest-growing states in the nation, with a 1.9 percent growth in population from 2017 to 2018 and is the youngest state in the nation
(*Forbes*, 2019)

Utah's population is projected to reach 4 million in 2032

#3 Best State for Business (*Forbes* 2019)

#1 Best State for Entrepreneurs (*Forbes* 2019)

#2 Best Place in America to Start a Business (*Inc.* 2019)

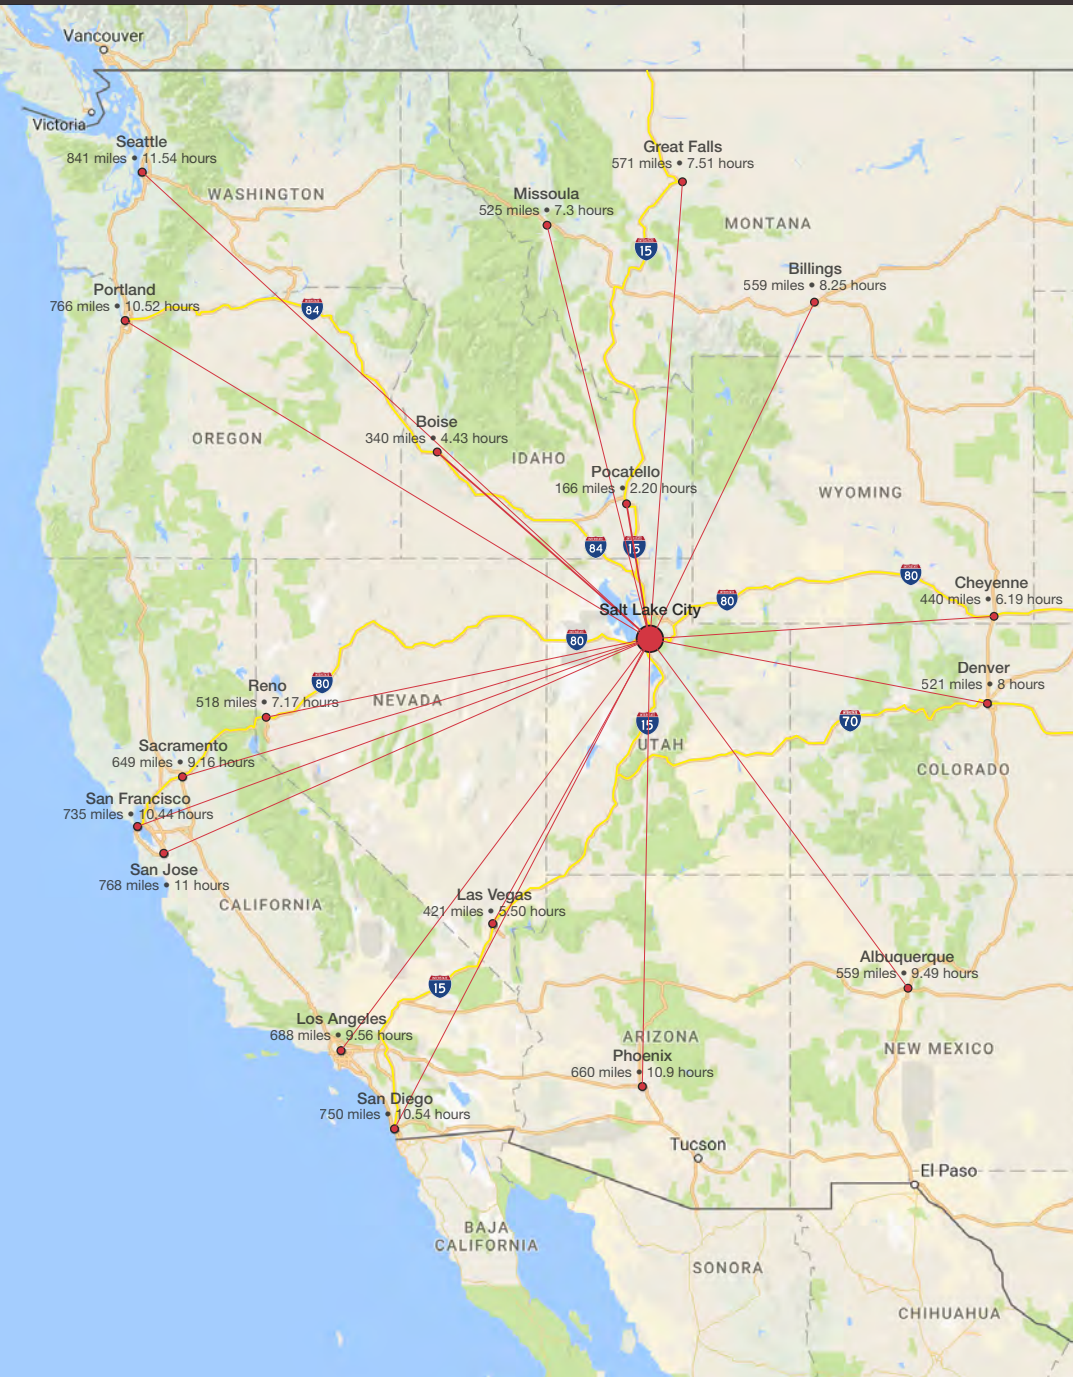

Best Economic Outlook Utah has held #1 spot since 2012 (*FoxBusiness*)

Happiest State (*WalletHub* 2019)

Fastest Growing Tech State (*BLS Data*)

The State of Utah

Crossroads of the West

Transportation

Utah's strategic geographic location in the heart of the American West continues its role as "The Crossroads of the West." Whether by road, rail, or air, the state is an optimal place as a hub for distribution.

Utah is at the hub of seven major long distance highway freight routes.

Main rail lines link Utah directly to the major seaports of Los Angeles, Oakland, Portland, and Seattle

Utah Transit Authority (UTA) has 136 total operational miles of commuter rail that service 67,300 passengers per day.

Salt Lake City has the 23rd busiest airport in North America and the 85th busiest in the world. More than 370 flights depart daily to 99 nonstop destinations. The airport serves over 23,000,000 passengers per year.

Salt Lake City International Airport is currently undergoing a \$4 billion redevelopment program, the first phase of which opened in September of 2020.

Salt Lake City's location gives travelers the ability to fly to any major city in the Western US in less than two hours and under five hours to the Eastern coast. The airport serves 10 airlines affiliations, including Delta Air Lines that offers non-stop flights to Amsterdam, London, Paris, and Toronto.
