The Los Angeles Airport (LAX) has some big plans coming in the future including a car rental consolidation center to cut back on area traffic congestion, the new Airport Metro Connector (AMC) Transit Station (near Aviation Blvd/96th St) that will provide a connection to a future Automated People Mover (APM), and several new hotel developments that are also underway. LA County Metro is promising train transportation right to and from the airport. The Metro Crenshaw Line is scheduled to open sometime in 2019, and will run from the present Expo Line station at Crenshaw Boulevard, all the way down to the Green Line, connecting at the Aviation/Century station.
