

CONTINENTAL **AERO**

A TRAMEC COMPANY

**We turn your problems
into solutions!**

A TRAMEC COMPANY

Continental-Aero provides Integrated Supply Chain Management Systems that deliver on and off the balance sheet benefits. Continental-Aero partners with our clients to deliver strategic solutions.

Make Continental-Aero part of your Supply Chain

- Widest and Deepest Inventory
- Branded Products at Competitive Pricing
- Same Day Shipping
- Vendor Managed Inventory Systems
- Customized Reporting
- Stock and Release Programs
- Consignment Programs
- Blanket Orders, Price Containment
- Direct Shipment from our Mills
- Drop Shipments to Your Customers
- Customer Specific Labeling and Bar Coding
- Single Size Poly Bagging
- Single Size Boxing
- Kitting Program
- Supplier Quality Assurance Enrichment Program
- Lot Control and Full Traceability
- Chemical and Physical Certification Available
- Plating Specialists
- ROHS and REACH Compliant
- Credit Card Acceptance
- Mercury Free Environment Compliant
- ISO 9001:2015 Certified

Nylon Insert Fasteners

Machine Screw Pattern Standard Height

NM Series

Purple Tork Lok Nylon Insert Locknut
Machine screw threaded applications

Machine Screw Pattern Thin (Jam) Height

NTM Series

Purple Tork Lok Nylon Insert Locknut
Machine screw threaded applications
where thin nut is required

Light Hex, Standard Height NE Series

Purple Tork Lok Nylon Insert Locknut
For fractional bolt threaded applications

Light Hex, Grade 8 NE8 Series - N 1610

Purple Tork Lok Nylon Insert Locknut
Grade 8 markings: Double Notched or 6 Dot, High tensile Grade 8 applications

Heavy Hex, Full Height NU Series

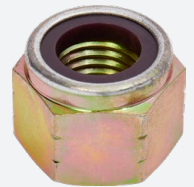

Purple Tork Lok Nylon Insert Locknut
Designed for the American
Standard Heavy Hex Series

Heavy Hex, Full Height Grade 8

NU8 Series - NU 1610

Purple Tork Lok Nylon Insert Locknut
Grade 8 markings: Double Notched or 6 Dot,
Designed for the American Standard Heavy Hex
Series for high tensile Grade 8 applications

Light Hex, Thin (Jam) Height NTE Series

Purple Tork Lok Nylon Insert Locknut
For fractional bolt threaded applications
where thin nut is required

Light Hex, Thin Height Grade 8

NTE8 Series - NTE 1610

Purple Tork Lok Nylon Insert Locknut
Grade 8 markings: Double Notched or 6
Dot, High tensile Grade 8 applications
where thin height is required

Heavy Hex, Thin Height NTU Series

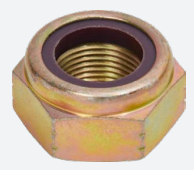

Purple Tork Lok Nylon Insert Locknut
Designed for the American Standard
Thin Heavy Hex Series

Heavy Hex, Thin Height Grade 8

NTU8 Series - NTU 1610

Purple Tork Lok Nylon Insert Locknut
Grade 8 markings: Double Notched or 6 Dot,
Designed for the American Standard Thin Heavy
Hex Series for high tensile Grade 8 applications

Light Hex, Standard Height NE5 Series

Purple Tork Lok Nylon Insert Locknut
Grade 5 markings: Single Notched or 3 Dot
For fractional bolt threaded
applications requiring Grade 5 material
proof loads & clamp loads

High Hex, Grade 8

N1268 Series - N1260

Purple Tork Lok Nylon Insert Locknut
Grade 8 markings: Double Notched or 6
Dot, Designed for applications that require
pre-stressing high strength bolts
to their elastic limits providing extra
thread length and hex height

Hex Nylon Insert Flange Locknut Grade 5

NFLG Series

Purple Tork Lok Nylon Insert Locknut
Wider bearing diameter to cover the
mating surface when seated, while
still offering a locking element

Hex Nylon Insert Flange Locknut Grade 8

NFLG8 Series

Purple Tork Lok Nylon Insert Locknut
Grade 8 applications for wider bearing
diameter to cover the mating surface when
seated, while still offering a locking element

Miniature Hex Nylon Insert Locknut 1660 Series

Purple Tork Lok Nylon Insert Locknut
Radar, radio equipment, electronics, computers
where design requires miniaturization
& reduced installation clearance

Locking Wing Nut with Nylon Insert WC Series

Purple Tork Lok Nylon Insert Locknut
Wing nut with nylon insert that may
be installed and removed by hand

Clinch Hex Nut Nylon Insert Locknut NC Series

Purple Tork Lok Nylon Insert Locknut
Captive self-locking installed in
aluminum or soft sheet steel

Spline Nylon Insert Locknut ND Series

Purple Tork Lok Nylon Insert Locknut
Self-wrenching nut for either
blind hole application or where
maintenance can be facilitated by
the use of a captive fastener

Miniature Clinch Flush Mounting Nylon Insert Locknut NCFMA Series

Purple Tork Lok Nylon Insert Locknut
Installation in thin aluminum, soft steel
sheets or plates having small mounting areas

Miniature Clinch Flush Mounting Nylon Cap Locknut NKCFS Series

Tork Lok Nylon Insert Locknut
Nylon cap covers protruding threads
in an NCFMA application

Hex Nylon Cap Locknut NKM/NKTM Series

Used in applications for reasons for safety
or appearance to cover exposed bolt ends

Hex Nylon Cap Locknut NKE/NKTE Series

Used in applications for reasons of safety
or appearance to cover exposed bolt ends

All Metal Fasteners

Finished Hex Nut Standard NFH Series

Available in Grade 2, 5, 8 Steel and
18-8 Stainless Steel
Finish: Plain, Black Oxide, Zinc/Yellow,
Clear Zinc & other finishes are available

All Metal Reversible Locknut TL Series

Finished Hex Nut Pattern with Reversible
Locking feature on center Hex Flats
(Centerlock)

All Metal Grade C Toplock CLC Series

CLC Series Automation Style Locknut,
Prevailing Torque Type Heat Treated

Hex Nut/Tooth Washer Assembly Lock Nut KL Series

All-Metal Assembly
Available in Steel & Stainless Steel
A2 (18/8) External tooth washer
provides extra gripping for assembly

Special Requests Welcome

Continental-Aero has been famous for service and selection. We stock one of the largest locknut inventories in the industry and offer our branded Purple Nylon Tork Locknuts, All Metal Locknuts, Grade 5 & Grade 8 Finished Hex Nuts.

If you don't see what you need, your Continental-Aero Sales Representative welcomes special requests.

We turn your problems into solutions!

Flush Mounting Clinch Nut NRC Series

Locking and non-locking in Class 10
Available in Metric and Imperial
Creates permanent and reusable
threads in thin ductile metal

Flush Mounting Octagon Clinch Nut NOC Series

Locking and non-locking in Class 10
Available in Metric and Imperial
Creates permanent and
reusable threads in thin ductile
metal with octagon flats

Hex Flange, Grade 5 or 8 HFLG Series

Available in Metric and Imperial
Wider bearing diameter to cover
the mating surface when seated

All Metal Flange Top Locknut CFLF/CFLG Series

Prevailing Torque Type Steel Hex Flange
Top Locknut. Wider bearing diameter to
cover the mating surface when seated
with a locking feature Grade F or G

Serrated Flange Hex Locknut SL Series

Carbon Steel, Case Hardened, Inch
& Metric Hex Nut with serration
for gripping the mating surface

All Metal Miniature Locknut LH1660

Where design requires miniaturization
and reduced installation clearance

Axilok Unitized Wheel Bearing Nut System

Axilok

Unitized part consisting of nut body, two
locking clips and retainer cage, results
in longer bearing, wheel, and tire life

Two-Piece Nut for Hub Piloted Wheels

Wheel Nut

Through-hardened carbon steel Wheel Nut. The
nut body is made of through-hardened carbon steel
and each free spinning washer is made of through-
hardened and tempered chrome-moly steel
meeting SAE J1965 requirement for torque tension

Metric Fasteners

Metric Nylon Insert Locknut M2DN Series - DIN 982

Purple Tork Lok Nylon Insert Locknut
Steel Class 6, 8 & 10 Stainless Steel A2
(18/8) & A4 (316)
For metric threaded bolt applications

Metric Nylon Insert Locknut M5DN Series - DIN 985

Purple Tork Lok Nylon Insert Locknut
Steel Class 6, 8, & 10
Stainless Steel A2 (18/8) & A4 (316)
For metric threaded bolt applications
where thin nut is required

Metric Nylon Insert Locknut DIN 6924 or ISO 7040

Purple Tork Lok Nylon Insert Locknut
Steel Class 6, 8 & 10 Stainless Steel A2
(18/8) & A4 (314)
For metric threaded bolt applications

Hex Nylon Insert Flange Locknut DIN 6926 or ISO 7043

Available in Class 8 or 10
Purple Tork Lok Nylon Insert Locknut
with wider bearing diameter to cover
the mating surface when seated

All Metal Locknut DIN 980V or ISO 7042

Available in Class 8 or 10
Metric Automation Style Locknut,
Prevailing Torque Type Heat Treated

All Metal Flange Top Locknut DIN 6927 or ISO 7044

Available in Class 8 or 10
Metric Prevailing Torque Type
Steel Hex Flange Top Locknut

Continental-Aero is the premier stocking master distributor of nylon insert locknuts, all-metal locknuts, clinch nuts, and finished hex nuts, supplying the North American distributor market with superior customer service since 1948.

Continental-Aero maintains stocking warehouse in Alsip, Illinois, Arlington, Texas and Chino, California. Our sales office is located in Alsip, IL.

Continental-Aero is well known for its distinguishable press-closed nylon lock nuts and its trademarked Royal Purple Tork-Lok™ nylon insert.

The Standard of Excellence Since 1948
