Hand into the Dean of Engineering's Office (JHE/261) by December 22nd, 2018 at Noon

“The McMaster Laboratory Advancement Benefaction (macLAB) Endowment Fund was a project initiated by the McMaster Engineering Society in 1997, in response to an increasing need to renew and update the undergraduate engineering laboratory facilities. Using similar funds at other engineering schools as models, a dedicated group of students, staff, and faculty set out to establish an ambitious and comprehensive program for collecting voluntary contributions from engineering students, which would be invested in a trust fund in order to generate funds each year, and be distributed to departments and programs for labs and facilities.”
