

## MATERIALS

**Shell:** Cold Rolled Carbon Steel  
**System Connection:** 304 Stainless Steel  
**Coating:** Triple Layer Electrostatic Blue Paint  
**Diaphragm:** Heavy Duty Butyl Rubber  
**Factory Pre-set Pressure:** 36 PSI

## OPERATION RANGE

**Max. Pressure:** 150 PSI  
**Max. Temperature:** 210 °F

## APPLICATION

Elbi of America Well Tanks provide optimal control of pump performance by allowing efficient cycling, in turn, extending the life of the pump. Each **Elbi of America Well Tank** is pressure rated up to 150PSI and equipped with a solid 304 Stainless Steel connection. We use high-grade steel for an optimal strength to weight ratio. As an added benefit, every tank comes finished with an appliance-quality coating that is resistant to sunlight and harsh conditions. For your family's safety concerns all tanks are completely lead free.

## Product List

Model	Total Tank Volume (gal.)	Acceptance Volume	System Connection	Dimensions (Inch)	Height
12-W002	2.0	1.0	3/4"	8.0	11.5
12-W004	4.5	2.5	3/4"	11.0	15.5
12-W009	9	7	1"	15.5	20.0
12-W014	14	10	1"	15.5	22.0
12-W020	20	16	1"	15.5	32.0
12-W026	26	20	1"	20.0	29.0
12-W032	32	25	1"	20.0	33.0
12-W038	38	30	1" 1/4	20.0	37.5
12-W055	55	42	1" 1/4	23.5	40.5
12-W068	68	45	1" 1/4	25.5	41.0
12-W080	80	60	1" 1/4	25.5	47.0
12-W119	119	85	1" 1/4	30.5	53.0
