

## Installation Guide

### Snap-In-Hub

### Model: SIH4

#### Package Contents

#### Tools Required

Safety Goggles

Tape Measure

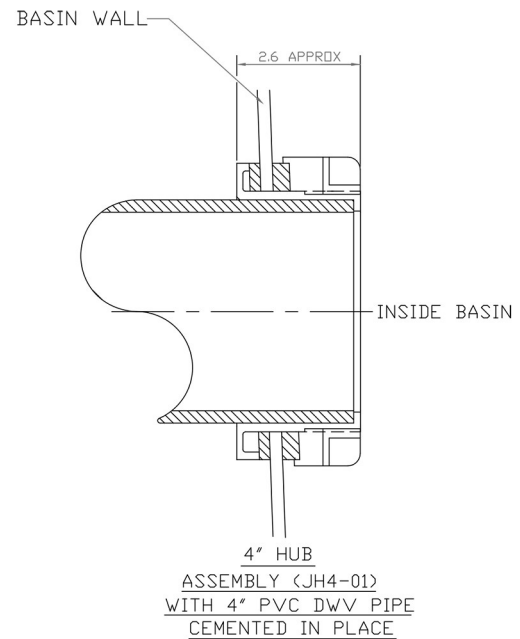

Hole Saw

### Installation:

**Note:** The below serves only as a general installation guide. Please refer to your local state and/or local plumbing regulations for details pertaining to your systems design, installation and maintenance requirements.

1. If the basin does not have a pre-punched hole in the side, refer to the "Template for Field Installation" as a guide to making the proper size hole.
2. From outside the basin "snap" the hub into the basins inlet hole making sure that the portion of the hub where the clamp is located is on the outside of the basin
3. Insert pipe into the hub and tighten the clamp to keep the pipe in place - Do NOT overtighten
