#43400 shown

Set-Rite - Toilet Flange Extension System

- The only patented and UPC listed flange extension product acceptable for repair and remodels.
- Eliminates leak paths because of improper double stacking of wax with spacers to raise the height and a gasket to seal the system.
- The leak-proof installation prevents callbacks. No subfloor restoration required, which saves time and money.
- Set-Rite can be used on existing PVC, ABS, Cast Iron and Stainless Steel ringed flanges.
