Why Get A Certification In Career Counselling?

The recent years have seen an emergence of a multitude of career options across the globe. From well-established careers like Medicine and Engineering to new-age career options like Social Media Evangelist and Wildlife Photography, students today are spoiled for choice when it comes to making their career decision. It is only natural that they face hundreds of questions before arriving upon one of the most crucial decisions of their adult life.

Cognizant of the need for structured career planning, schools, colleges and educational institutions are now actively taking steps to promote career guidance and proper selection. Many national boards and government bodies have now made counselling and aptitude testing mandatory in schools.

In spite of the sizeable and growing need for qualified counsellors to guide students, there is a huge supply and skill shortage. Reports suggest that as many as 90% of schools in India do not have provisions for full-time counsellors or other forms of career guidance for students.

Thus, being skilled and trained in career counselling and guidance will put you at the forefront of career opportunities in this domain and help you meet this expanding demand. Career Guidance, Counselling, Mentoring and Coaching are becoming the next buzz words. This 3-month experiential learning program to become an International Certified Career Coach (ICCC) is going to be a perfect stepping stone to build your career in this fast-growing field.

‘ Career guidance & counselling, mentoring & coaching will be the next big professional opportunity in the near future. ’

‘ A paradigm shift is occurring in India with Universities, Educational Boards, Schools and Governments beginning to understand the significance of career counselling. ’

‘ As of today there is a shortfall of about half a million career counselling & guidance professionals in the country. ’

‘ Skilled & certified career counsellors will be the biggest beneficiaries & best placed to fill the gap of qualified practitioners. ’

Key Highlights

Program Overview

A. Understanding the Education and Career Ecosystem

Module 1:

Panoramic View of the Indian Education System

Detailed overview of the Indian education system, including different boards, college/university admissions and the varied range of university selection and eligibility criteria.

Module 2:

Indian Careers Landscape

Potential career options across multiple traditional and emerging domains and streams, with a special focus on helping students find the perfect career fit.

Module 3:

Education Abroad

Understanding the system of education and admissions in popular study abroad destinations, and how to guide students to reach their dream college destination.

Module 4:

Changing Face of Careers in the 21st Century

The disruption of education through technological advances and how to adapt career planning to future demands.

B. Effective Career Guidance: Tools, Techniques and Challenges

Module 5:

Psychometric Testing in India and Abroad

Essentials of psychometric theory, test construction, and the effective utilisation of psychometric tools in career guidance.

Module 6:

Skill Building for the Future

Inculcating vital skills in students to consolidate their overall profile and get them ready for the job market.

C. Enhancing Counselling Skills

Module 7:

Essentials of a Great Counsellor

Effectively managing the softer aspects of the career counselling setup, including handling parental and student expectations, and ethical issues in guidance.

Module 8:

Global Competencies and Helping Skills

Critical competencies of career development professionals for effective counselling, which are globally recognised as guidelines by career bodies and associations.

Module 9:

Creating the Most Effective Learning Environment

The power of positive feedback as a key skill for a coach, with first-hand experience of how learning and exploration can be accelerated.

D. Partnering with Mindler

Module 10:

Understanding the Mindler Ecosystem

Models of association with Mindler and how to effectively utilise the Mindler platform and support tools to your benefit.

E. Practical Training

Module 11:

Case Studies

Real-life case studies of students and their career dilemmas to hone the counselling skills of participants.

Module 12:

Live Projects & Assignments

Practical exposure to the counselling setup through a series of live projects and assignments, along with constant hand holding by experts.

Module 13:

Webinars

Continued learning and engagement through webinars by subject matter experts to monitor progress and enable guided learning.

EVALUATION & CREDENTIALING

Continued evaluation during the entire term of the program. Final evaluation by the panel of Master Trainers.

The Metropolitan Hotel, New Delhi

Participant Testimonials

"As a principal, I did not ever get such an opportunity where I could think one-to-one for a child and what all goes into planning a career. Now I go back much more equipped. What I have learnt here is very practical and I think we would be able to replicate it in our school."

-Abha Anant, Principal, City Montessori School

"The program has been fabulous! It's truly eye-opening because it makes you think about things that we are not looking at but we should be if we want the best for students. There's so much of data, inputs and content to carry forward."

-Debarati Bannerjee, HR Manager, SCJ Academy

"I had the expectation that I could come up with an international standard in my career coach practice and I am happy that the program is intact with my expectations. I strongly believe that it is going to make a big leap in launching my career as a career coach."

-Thahir Ahammed, Director, Precision Global Training, Oman

"It has been intensively knowledge-based and the quality of the sessions was exemplary. The speakers were absolute masters of whatever they were speaking. I have learnt so much in each session that it will take me a week to compile all the information I have taken in."

-Hina Sharif Khan, Head - Career Guidance, SelaQui International

"The program was very informative, interactive and with well-experienced speakers. The case studies they gave us were really good. We usually have candidates that come to us with similar problems. I got solutions as to how I can stay calm and deal with them."

-Ann Andrew Gracious, Placement Counsellor, Genesis Global School

"I feel more confident about making a difference in my students' lives and guiding them in their career. It has been an enormous learning experience for me and I have already started planning how I can improve my teaching and better help my kids."

-Niharika Kulshreshtha, Teacher, The Scindia School

Media Coverage

"Learn global best practices in counselling and sharpen counselling skills."

THE FINANCIAL EXPRESS

"Imparting international best practices in counselling."

DECCAN HERALD

"Creating specialists who can take care of the rising demand in India."

THE TIMES OF INDIA

"करियर काउंसलर्स को नए करियर अवसरों के बारे में जागरूक कर रहा है इंटरनेशनल सर्टिफिकेशन प्रोग्राम"

दैनिक भास्कर

Glimpses of the Previous Cohorts
