Direction: Read the given passage carefully and answer the questions that follow.

There is a fairly universal sentiment that the use of nuclear weapons is clearly contrary to morality and that its production probably so, does not go far enough. These activities are not only opposed to morality but also to law if the legal objection can be added to the moral, the argument against the use and the manufacture of these weapons will considerably be reinforced. Now the time is ripe to evaluate the responsibility of scientists who knowingly use their expertise of the construction of such weapons which has deleterious effect on mankind. To this must be added the fact that more than 50 percent of the skilled scientific manpower in the world is now engaged in the armaments industry. How appraise it is that all this valuable skill should be devoted to the manufacture of weapons of death in a world of poverty is a question that must touch the scientific conscience. A meeting of biologists on the long-term worldwide biological consequences of nuclear war added frightening dimension to those forecasts. Its report suggested that the long biological effects resulting from climatic changes may at least be as serious as the immediate ones. Sub-freezing temperatures, low light levels, and high doses of ionizing and ultraviolet radiation extending for many months after a large scale nuclear war could destroy the biological support system of civilization, at least in the northern hemisphere. Productivity in natural and agricultural ecosystems could be severely restricted for a year or more. Post war survivors would face starvation as well as freezing conditions in the dark and be exposed to near lethal doses of radiation. If, as now seems possible, the southern hemisphere were affected also, global disruption of the biosphere could ensue. In any event, there would be severe consequences, evening the areas not affected directly, because of the interdependence of the world economy. In either case the extinction of a large fraction of the earth's animals, plants and microorganism seems possible. The population size of homo sapiens conceivably could be reduced to prehistoric levels or below and extinction of the human species itself cannot be excluded.

Q1. Amit first goes in south direction, then he turns towards left and travel for some distance. After that he turns right and moves certain distance. At last, he turns left and travels again for some distance. Now, in which direction is he moving?

- (a) South
- (b) West
- (c) East
- (d) None of the above

- (b) illustrate the devastating effects of use of nuclear weapons on mankind.

- (c) duly highlight the supremacy of the nations which possess nuclear weapons.
- (d) summarize the long biological effects of use of nuclear weapons.

Q3. The scientists engaged in manufacturing destructive weapons are

- (a) very few in number.
- (b) irresponsible and incompetent.
- (c) more than half of the total number.
- (d) engaged in the armaments industry against their desire.

Q4. According to the passage, the argument on use and manufacture of nuclear weapons

- (a) does not stand the test of legality.
- (b) possesses legal strength although it does not have moral standing.
- (c) is acceptable only on moral grounds.
- (d) becomes stronger if legal and moral considerations are combined.

Q5. The author of the passage seems to be of the view that

- (a) utilization of scientific skills in manufacture of weapons is appropriate.
- (b) manufacture of weapons of death would help eradication of poverty.
- (c) spending money on manufacture of weapons may be justifiable subject to the availability of funds.
- (d) utilization of valuable knowledge for manufacture of lethal weapons is inhuman.

Q6. Which of the following is one of the consequences of nuclear war?

- (a) Fertility of land will least for a year or so.
- (b) Post-war survivors being very few will have abundant food.
- (c) Lights would be cooler and more comfortable.
- (d) Southern hemisphere would remain quite safe in the post war period.

Q7. Which of the following best explains the word devoted, as used in the passage?

- (a) Dedicated for a good cause.
- (b) Utilized for betterment.
- (c) Abused for destruction.
- (d) Under utilized.

Q8. The biological consequences of nuclear war as given into the passage include all the following, except

- (a) fall in temperature below zero degree Celsius.
- (b) ultraviolet radiation.
- (c) high doses of ionizing.
- (d) abundant food for smaller population.

Q9. It appears from the passage that the use of nuclear weapons I considered against morality by

- (a) only such of those nations who cannot afford to manufacture and sell weapons.
- (b) almost all the nations of the world.
- (c) only the superpowers who can afford to manufacture and sell weapons.

(d) most of the scientists devote their valuable skills to manufacture nuclear weapons.

Q156. Directions: Each question consists of legal propositions/principles and facts. These principles have to be applied to the given facts to arrive at the

most reasonable conclusion. Assume principles to be true for the purposes of this section.

Principle:

When one person signifies to another his willingness to do or to abstain from doing anything, with a view to obtaining the assent of that other to such act or abstinence, he is said to make a proposal. The expression of willingness/desire results in a valid proposal only when it is made/ addressed to some person(s).

Facts:

'X' makes the following statement in an uninhabited hall: 'I wish to sell my mobile phone for Rs. 1,000.'

Which of the following derivations is CORRECT?

- (a) 'X' made a statement that resulted in a promise
- (b) 'X' made a statement that resulted in a proposal
- (c) 'X' made a statement that did not result in any proposal
- (d) 'X' made a statement that resulted in an agreement

Q157. Directions: Each question consists of legal propositions/principles and facts. These principles have to be applied to the given facts to arrive at the most reasonable conclusion. Assume principles to be true for the purposes of this section.

Principle:

A proposal (offer) should be made with an intention that after its valid acceptance, a legally binding promise or agreement will be created. The test for the determination of such intention is not subjective, rather it is objective. The intention of the parties is to be ascertained from the terms of the agreement and the surrounding circumstances under which such an agreement is entered into. As a general rule, in the case of arrangements regulating social relations, it follows as a matter of course that the parties do not intend legal consequences to follow. On the contrary, as a general rule, in the case of arrangements regulating business affairs, it follows as a matter of course that the parties intend legal consequences to follow. However, the above rules are just presumptive in nature, and hence, can be rebutted.

Facts:

One morning while having breakfast, 'X', the father, says to 'Y' (X's son), in a casual manner, 'I shall buy a motorbike for you if you get through the CLAT.'

Which of the following derivations is CORRECT?

- (a) 'X' made a statement that resulted in an enforceable promise
- (b) 'X' made a statement that resulted in a valid proposal
- (c) 'X' made a statement that resulted in an enforceable agreement
- (d) 'X' made a statement that did not result in any enforceable agreement

Q158. Directions: Each question consists of legal propositions/principles and facts. These principles have to be applied to the given facts to arrive at the most reasonable conclusion. Assume principles to be true for the purposes of this section.

Principle:

Acceptance (of offer) must be communicated by the offeree to the offeror so as to give rise to a binding obligation. The expression 'by the offeree to the offeror' includes communication between their authorised agents.

Facts:

'X' made an offer to buy Y's property for a stipulated price. 'Y' accepted it and communicated his acceptance to 'Z', a stranger. Which of the following derivations is CORRECT?

- (a) Y's acceptance resulted in an agreement
- (b) Y's acceptance did not result in any agreement
- (c) Y's acceptance resulted in a contract
- (d) Y's acceptance resulted in a promise

Q159. Directions: Each question consists of legal propositions/principles and facts. These principles have to be applied to the given facts to arrive at the most reasonable conclusion. Assume principles to be true for the purposes of this section.

Principle:

Acceptance should be made while the offer is still subsisting. The offeror is free to retract his offer at any time before his offer gets accepted by the offeree. Once the offer is withdrawn or is lapsed, it is not open to be accepted so as to give rise to a contract. Similarly, if a time is prescribed within which the offer is to be accepted, then, the offer must be accepted within the prescribed time. And, if no time is prescribed, then, the acceptance must be made within a reasonable time. 'What is a reasonable time', is a question of fact which is to be determined by taking into account all the relevant facts and surrounding circumstances.

Facts:

'X' makes an offer to 'Y' to sell his equipment for Rs. 1,000.00. No time is specified for the acceptance. 'Y' sends his reply two years after receiving the offer. Which of the following derivations is CORRECT?

- (a) There arises a contract between 'X' and 'Y' to sell/buy the equipment in question for Rs. 1,000.00
- (b) There does not arise any contract between 'X' and 'Y' to sell/buy the equipment in question for Rs. 1,000.00
- (c) 'X' is bound by his offer, and hence, cannot reject the acceptance made by 'Y'
- (d) There arises a promise by 'Y' to buy the equipment

Q160. Directions: Each question consists of legal propositions/principles and facts. These principles have to be applied to the given facts to arrive at the most reasonable conclusion. Assume principles to be true for the purposes of this section.

Principle:

Minor's agreement is void from the very beginning. It can never be validated. It cannot be enforced in the court of law.

Facts:

'A', a boy of 16 years of age, agrees to buy a camera from 'B', who is a girl of 21 years of age. Which of the following derivations is CORRECT?

- (a) There arises a contract between 'A' and 'B' to sell/buy the camera in question

- (b) There arises an enforceable agreement between 'A' and 'B' to sell/buy the camera in question
 (c) There does not arise any contract between 'A' and 'B' to sell/buy the camera in question
