Harrisburg, Nov. 13/64

On his
I would cheerfully write
in behalf of Mr. Balch, but how
said so much to old Stanton as
the President in proof of it, par-
tiolic that I fear to impair this
come yet more interference. He
was the most liberal a faithful
friend of this cause. In Phila. I
can fancy to add were treated
them even the Northern con-
tractor, who are getting rich
from the forces of the eventu-
they have been trying to destroy
and they are really the men
who have created a prejudice
for against Balch. It won't
be disgrace to let them suffer,
especially as the high President
both for to me their request was
just and right.
the house made a good fight and won a great victory and together with Ohio and Indiana, we know by our Penn victory we have saved the Union for another four years.

In Oct, Mr. Lincoln would probably have been come to the administration, but while I thank my friends for the many kind expressions. I won't moreover which place can give. The cabinet has no choice for me who tried it. I wish all men in our roads were as cool satisfied.

It is altogether too soon to get into a frolic about the Senate. Too elections may well have warnings before the legislature elects all 17 senators. I believe every man nominated this year for the Stale Senate was not appointed and every one elected it. We
Mr. Miner, was defeated by a
large vote, by it is said, the
secret affections of the State or-
unification, but he is a man who
will come up again, in the
right time and place, for his
plutocratic talent.

Don't do as well here in
Dolphin. The coffee has never
been strong enough to make
a good cup. I've been told
"Cambro's county seat." It is the
Boys made the majority 1200 without
the soldiers. I was away from
home attending to the duties
of the State corn.

Expect to get to Washington
Wednesday morning, and will
try to drop into your office
then next morning.

R. M. Allston
