Form and Line Reference	Explanation
Part I, Line 7	<p>Costing Methodology A ratio of patient care cost to charges, as determined in Worksheet 2, was used to report the amounts in Part I, Lines 7a-7c. For amounts reported on lines 7e-7i, actual expenses for each community benefit activity are tracked and reported using the organizations accounting general ledger and are not based on a cost to charge ratio. The number reflected on line 7, column (f) excludes bad debt expense. The supplemental hospital offset payment program (SHOPP) was created and implemented in calendar year 2011 for the purpose of assuring access to quality care for Oklahoma Medicaid members. The program is designed to assess Oklahoma hospitals, unless exempt, a supplemental hospital offset payment program fee. The collected fees are placed in pools and then allocated to hospitals based on Medicaid revenues as directed by legislation. The Oklahoma Health Care Authority (OHCA) does not guarantee that allocation will equal or exceed the amount of the supplemental hospital offset payment program fees that were paid by Saint Francis Hospital South, LLC.</p>
Part II Community Building Activities	<p>Community building activities improve the community's health and safety by addressing the root cause of health problems. These activities strengthen the community's capacity to promote the health and well-being of its residents by offering the expertise and resources of the healthcare organization. Costs for these activities include cash donations and expenses for the development of a variety of community-building programs and partnerships. See Schedule O for additional information regarding Saint Francis Health System, Inc.'s and Saint Francis Hospital South, LLC's community building activities aimed at promoting the health of the community.</p>

Form and Line Reference	Explanation
Part III, Section A, Line 2	Saint Francis Hospital South, LLC has an established process to determine the adequacy of the allowance for uncollectable receivables that relies on a number of analytical tools and benchmarks to arrive at a reasonable allowance. No single statistic or measurement determines the adequacy of the allowance for doubtful accounts. Some of the analytical tools that Saint Francis Hospital South, LLC utilizes include, but are not limited to, historical cash collection experience, revenue trends by payer classification, and revenue days in accounts receivable. Accounts receivable are written off after collection efforts have been followed in accordance with Saint Francis Hospital South, LLC's policies.
Part III, Section A, Line 3	The provision for bad debt attributable to patients eligible under the organizations financial assistance policy is calculated from a sample review of all bad debt accounts and subsequent information.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Section A, Line 4	<p>The Saint Francis Health System, Inc. audited consolidated financial statements, which includes Saint Francis Hospital South, LLC, provide a separate footnote addressing the organization's accounts receivable and allowance for doubtful accounts on pages 6 and 7. Saint Francis Hospital South, LLC reports bad debt in accordance with Generally Accepted Accounting Principles (GAAP). Healthcare Financial Management Association Statement 15 is followed to the extent that the provision for bad debt at cost is determined using the same cost to charge ratio that is used to calculate charity care and Medicaid shortfalls. Discounts and allowances are accounted for separately from the provision for bad debt. Accounts receivable are valued at net realizable value. Saint Francis Hospital South, LLC estimates the allowances for uncollectable receivables based on historic write-offs and the aging of the accounts.</p>
Part III, Section B, Line 8	<p><b>Costing Methodology</b> Medicare allowable costs were calculated using a cost-to-charge ratio and the Medicare filed cost report. The shortfall on Schedule H, Part III, Section B, Line 7 is considered community benefit. Saint Francis Hospital South, LLC provides services to many low-income Medicare recipients. The Medicare losses sustained at the hospital are a result of Medicare reimbursing at less than operating costs. The supplemental hospital offset payment program (SHOPP) was created and implemented in calendar year 2011 for the purpose of assuring access to quality care for Oklahoma Medicaid members. The program is designed to assess Oklahoma hospitals, unless exempt, a supplemental hospital offset payment program fee. The collected fees are placed in pools and then allocated to hospitals based on Medicaid revenues as directed by legislation. The Oklahoma Health Care Authority (OHCA) does not guarantee that allocation will equal or exceed the amount of the supplemental hospital offset payment program fees that were paid by Saint Francis Hospital South, LLC. IRS REV. RUL. 69-545 established the community benefit standard for hospitals and considers a hospital that serves patients covered by governmental health benefits (including Medicare) as operating to promote the health of the community and furtherance of its exempt purposes. Accordingly, treating Medicare patients is considered a community benefit.</p>

Saint Francis Hospital South, LLC applies its collections efforts consistently and fairly to all patients regardless of insurance. Saint Francis Hospital South, LLC works with those individuals who do not have the financial resources to pay outstanding balances to qualify for Saint Francis Hospital South, LLC's financial assistance policy. Charges to patients qualifying for charity care under the Saint Francis Hospital South, LLC financial assistance policy are written-off 100 percent. Part VI, Line 2 Needs Assessment One of Saint Francis Hospital South, LLC's fundamental operational goals is to identify and address the needs of the defined community that it serves. Justice is one of the core values of Saint Francis Hospital South, LLC and Saint Francis Health System, Inc. It calls for the organization to advocate for systems and structures that are attuned to the needs of the vulnerable and disadvantaged and to promote a sense of community among all persons. To effectively do this requires that Saint Francis Health System, Inc. 1. Gathers and obtains information identifying those needs, and 2. Develops programs and services that address and provides access to those in greatest need of healthcare services. Historically, Saint Francis Health System, Inc. and its entities focus have been caring for those who are sick or vulnerable. In order to make informed decisions on how to care for the sick, at-risk and minority populations, Saint Francis Health System, Inc. must first identify priority health needs. During the fiscal year 2016, Saint Francis Health System, Inc. conducted a Community Health Needs Assessment (CHNA) to address the healthcare needs of the community for each of its licensed hospital facilities and developed an implementation strategy to address the needs identified in the CHNA. The assessment is a compilation of national survey results, health information databases, government data, and analytical feedback from state and local partners. This data is used to identify potential courses of action based on existing healthcare facilities, available resources within the community, and capabilities of the community in terms of both socioeconomic and education status. Providing access to comprehensive, quality health services, providing effective treatments and services in the community for substance abuse disorders and mental health disorders, promoting the prevention of disease, reducing obesity and promoting healthy eating, cessation of tobacco use, and promoting the health of low-income and at-risk communities are among the public health issues that the assessment seeks to prioritize. The CHNA and implementation strategies are available to the public on Saint Francis Health System, Inc.'s website at <a href="https://www.saintfrancis.com/Documents/CHNA.pdf">https://www.saintfrancis.com/Documents/CHNA.pdf</a>.</p>

If the patient does not qualify for a government sponsored plan then the financial counselor works with the patient to determine if they qualify for charity based on the Saint Francis Health System, Inc.'s financial assistance policy.</li> <li>- Saint Francis Health System, Inc. offers the financial assistance policy, as well as payment options as part of the patient responsibility during the follow up collection calls.</li> </ul>

Form and Line Reference	Explanation
Part V, Section B, Line 11	<p>The Community Health Needs Assessment (CHNA) identified the top ten needs (in order of highest priority) of the Tulsa community as poor diet/inactivity, chronic diseases, alcohol/drug abuse, access to healthcare, tobacco use, lack of education, aging problems, safety/crime, poverty/unemployment, and mental health. Saint Francis Hospital South, LLC does not intend to address the health needs of lack due to education, aging problems, safety/crime, and poverty/unemployment due to lack of expertise in these areas. It is an unfortunate matter that certain socioeconomic burdens to the health of our community cannot be fully or effectively addressed by individual private institutions. The hospitals comprising Saint Francis Health System, Inc. provide millions of dollars each year in uncompensated care to the poor in the form of free or discounted care to the uninsured, the underinsured, and Medicaid beneficiaries. Saint Francis Hospital South, LLC, as well as Saint Francis Hospital, Inc., Laureate Psychiatric Clinic and Hospital, Inc., Saint Francis Hospital Vinita, Inc., Saint Francis Hospital Muskogee, Inc. and the senior leadership and Board of Directors of Saint Francis Health System, Inc. will continue to work with community and state-level policy and political leaders, safety net providers, and community advocates to build sustainable partnerships to better address these broader community needs. Saint Francis Health System, Inc. and all of its entities, including those not covered by the CHNA implementation strategy, will continue to be an advocate for the poor, the vulnerable and the underserved. Saint Francis Hospital South, LLC and the other Saint Francis Health System, Inc. entities are addressing the community needs of access to healthcare, alcohol/drug abuse, chronic diseases, poor diet/inactivity, tobacco use, and mental health through various programs designed to improve access to healthcare, advance knowledge, identify root causes, and improve health status and quality of life. Access to healthcare Access to comprehensive, quality health services is necessary for health equity and a healthy quality of life for individuals in our community. Access to healthcare can impact physical, social and mental health, disease and disability prevention, and life expectancy, among other things. Not having healthcare coverage obstructs the ability to access medical care, reduces utilization of preventive services, and contributes greatly to the costs of healthcare. Uninsured people are also less likely to receive medical care, more likely to die early, and more likely to have poor health status as they tend to delay treatment, experience diagnoses at later stages of disease progression, and may receive less medical care than patients with health insurance. Current policy efforts focus on the provision of insurance coverage as the principal means of ensuring access to healthcare among the general population. Almost two-thirds of Tulsa County adults survive</p>

Form and Line Reference	Explanation
Part V, Section B, Line 11	<p>ns These are a few of the many ways Saint Francis Health System, Inc. is addressing the need for improving access to healthcare. Alcohol and drug use Substance abuse has a major impact on individuals, families, and communities, and contributes to poor public health outcomes. These costly social, physical, mental, and public health problems include teenage pregnancies, HIV/AIDS and other STDs, domestic violence, child abuse, motor vehicle accidents, physical fights, crime, homicide, and suicide. Estimates of individuals who have a substance abuse disorder are high, indicating the importance of prevention efforts and improved access to treatment for substance abuse. Overall, 23 percent of Tulsa County adults reported that they had been told by a healthcare or support service provider that they had an alcohol dependency, and a total of 23 percent of Tulsa County adults reported they had been told by a healthcare or support service provider that they had a drug dependency. These self-reported rates appear to be lower than much literature would suggest, lending support to the theory that mental health needs in general are a major area of need for both the service area and the nation as a whole. Saint Francis Hospital South, LLC is not addressing this issue, however, Laureate Psychiatric Clinic and Hospital, Inc., an entity of Saint Francis Health System, Inc. offers substance abuse counseling for adults on an inpatient basis, and adults and adolescents on an outpatient basis to address alcohol and drug abuse. Other entities in the community addressing this issue include Parkside Psychiatric Hospital, Brookhaven Hospital, Indian Healthcare Resource Center of Tulsa, Oxford House, St. John Health System, Hillcrest Health System, Alcoholics Anonymous, Shadow Mountain Behavioral Health System, Tulsa Center for Behavioral Health and Family and Children's Services. Chronic disease In the US, chronic diseases are the main cause of poor health, disability, and death, account for most of healthcare expenditures. Chronic diseases are responsible for 7 of 10 deaths each year, and treating people with chronic diseases accounts for 86 percent of our nation's healthcare costs per the Centers for Disease Control and Prevention (CDC). Around half of adults in the US have at least one chronic condition and 26 percent have two or more conditions. The chronic disease burden in the US largely results from a short list of risk factors - including socioeconomic status, tobacco use, poor diet and physical inactivity (both strongly associated with obesity) - that can be effectively addressed for individuals and populations. To effectively and equitably address the chronic disease burden, public health and healthcare systems need to deploy integrated approaches that bundle strategies and interventions, address many risk factors and conditions simultaneously, create population-wide changes, help the population subgroups most affected, and rely on implementation by many sectors.</p>
