Tottil and Line Kelerence	Explanation
Part II, Community Building Activities	Littleton Regional Healthcare is involved in several community building activities that promote the health and wellbeing of the communities it serves. We collaborate with a number of local agencies including the North Country Health Consortium, Littleton Area Senior Center, Ammonoosuc Community Health Services and others. These agencies share common goals that address access to healthcare, health improvement, health education and affordable healthcare services. LRH encourages senior management and mid-level management to be actively involved in the communities we serve. We work with area schools to address the health of our young students and we work with local safety providers to promote safety and help prevent injury.
Part III, Line 4	Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding, after management has used reasonable collection efforts, are written off through a charge to the valuation allowance and a credit to patient accounts receivable. In evaluating the collectibility of accounts receivable, the Hospital analyzes past results and identifies trends for each major payor source of revenue for the purpose of estimating the appropriate amounts of the allowance for

Evolunation

doubtful accounts and the provision for bad debts. The adequacy of the allowance for doubtful accounts is regularly reviewed. For receivables associated with services provided to patients who have third-party

coverage, an allowance for doubtful accounts and a provision for bad debts are established at varying levels based on the age and payor source of the receivable. For receivables associated with self-pay patients, the Hospital records a provision for bad debts in the period of service based on past experience

indicating the inability or unwillingness to pay amounts for which they are financially responsible

Form and Line Reference	Explanation
Part III, Line 8	Any shortfall is treated as a community benefit. The Organization uses a cost to charge ratio from the Medicare cost report to determine the amount of Medicare allowable costs
Part III, Line 9b	Patients who are known to qualify for financial assistance are given a financial assistance application to fill out and return to our Financial Counselor Upon receipt of the financial assistance application, the application is processed and the amount of financial assistance that will be granted to the patient is determined Once the percentage of financial assistance is approved, we adjust the account balance

determined Once the percentage of financial assistance is approved, we adjust the account balance accordingly. If a balance is left over after the financial assistance is adjusted, the patient will receive their monthly statements for the remaining balance. If the patient defaults on paying the remaining balance, their account will be sent to a third party collection agency no sooner than 120 days from date of their

for further collection efforts

Form and Line Reference	Explanation
Part VI, Line 2	LRH takes a comprehensive approach to assess community health needs. We perform several independent data analyses based on secondary source data, augment this with local survey data and resolve any data inconsistency or discrepancies from the combined opinions formed from local experts. We rely on secondary source data amd most secondary sources use the county as the smallest unit of analysis. Since the service area comprises parts of Grafton County, we asked local residents to note if they perceived the problems, or needs, identified by secondary sources to exist in their portion of the county.
