Part VI, Line 2:	In 2019, the Brattleboro Retreat served 4,540 children, adolescents and adults in inpatient, residential, ambulatory, outpatient, and school programs. The impact of the Retreat's ser vices upon its patients and their families and communities is often dramatic and life-sav ing; especially as fewer and fewer healthcare organizations choose to offer a full continu um of mental health and addiction care services. Meanwhile, the number of patients seeking treatment for mental health and substance abuse issues continues to rise throughout the region and the nation. The Retreat strives to meet this increasing demand for services by renovating and updating facilities and patient care areas and utilizing the latest in treat ment modalities to improve health care outcomes for the populations served. In 2019, the Br attleboro Retreat served 2,427 individuals in our outpatient programs. Six hundred and eighteen (618) children were served across all programs. Fift-five (55) children were served in our residential programs and 84 children in our school programs. The Retreat continued to meet the need for quality psychiatric and addiction care coupled with an ongoing trend of higher inpatient acuity by strengthened its clinical expertise in 2019. This included the continued roll out of evidence-based practices throughout the hospital's programs along with an expansion of required clinical skills trainings involving both psychiatric and con-morbid medical conditions (wound care, for example) offered through the Retreat's Clinical Education department. The Retreat also continued to make important strides forward in improving its financial systems with the goal of strengthening cash flows and establishing a more predictable operating margin. 2019 marked the third and final year of the Retreat's 2017-2019 strategic jolan entitled Setting a New Standard. This three-year plan outlines a ho st of strategic initiatives organized under four main categories: Focus on Clinical Excellence; Achieve Financial Stability; Increase Accountabi

Part VI, Line 4:	The Brattleboro Retreat is located in Brattleboro, Vermont, which is in the southeastern corner of Vermont- on the border with both New Hampshire and Massachusetts. Brattleboro is a small, rural town with an estimated population of 11,332. The estimated population for Windham County is 42,222. The state of Vermont has an estimated population of 623,989. (U.S. Census estimate, July 1, 2019). The Retreat plays a vital role as a large provider of mental health and substance abuse services in New England. It provides treatment to individuals of all ages from throughout the Northeast, accepts high numbers of Medicare and Medicaid funded patients and provides services offered by few other hospitals. In addition, the Retreat provides an array of ambulatory services to people in the local area. These services include outpatient counseling as well as partial hospital and intensive outpatient mental health and substance abuse treatment. The Brattleboro Retreat is the only mental health and addiction specialty hospital in Vermont and one of the few in New England. In Vermont, there are four medical hospitals with psychiatric units. The Retreat is the largest provider of inpatient psychiatric services in the state and operates roughly the same number of psychiatric beds as the other four hospitals combined. The Retreat is also the only mental health hospital in Vermont for children and adolescents. The surrounding states have similar arrays of services: a few free-standing psychiatric hospitals, such as Providence Behavioral Healthcare Hospital in Holyoke, MA, and some medical hospitals operating psychiatric units. Many area medical hospitals have downsized or eliminated their psychiatric beds in recent years, particularly those in New Hampshire. Most psychiatric units also exclusively serve adults with few inpatient programs available for children and adolescents. The Retreat is dedicated to serving this population. As a regional specialty hospital, the Retreat draws patients from a large and diverse catchment area: acros

Survey (ACS) and the Puerto Rico Community Survey (PRCS) conducted annually by the U.S. Census Bureau, the estimated median household income of Vermont residents is \$60,076. Eleven percent of Vermonters live in poverty and 4.9 percent of Vermonters are without health insurance. In 2019, 74 percent of the Retreat's funding came from public sources-22 percent from Medicare and 51 percent from

Medicaid/State programs.

Form and Line Reference Explanation								
Brattleboro Retreat	Part V, Section B, Line 5: Because of its diverse and extensive service area, the Retreat defines its service area at both the county and state levels, and assesses the health needs of both areas. This gives planners a detailed understanding of the needs of the local populations as well as Vermont as a whole. The Community Health Needs Assessment (CHNA) was therefore divided into two phases: Phase I for Windham County and Phase II for the state of Vermont.For Phase I (Windham County), the Retreat partnered with Grace Cottage Hospital and Brattleboro Memorial Hospital to gather and assess both quantitative and qualitative data. The three health care organizations developed a steering committee, made up of representatives from each of the hospitals as well as from the Vermont Department of Health, Brattleboro Office, to guide the qualitative research and collect and analyze the quantitative data. The Windham County CHNA Steering Committee planned and conducted qualitative research.							

ldata. The Windham County CHNA Steering Committee planned and conducted qualitative research. which included a countywide survey and a focus group on health care needs of minority and underserved populations. During the research process, the Steering Committee consulted with Vermont Agency of Human Services District Leadership Team and the Clinical Planning Group of the Vermont Blueprint for Health-Brattleboro Service Area. In Phase II (statewide), the Retreat gathered and assessed quantitative and qualitative data on mental health and addiction in the state of Vermont. Additionally, qualitative data was collected from community stakeholders across the state of Vermont through an online survey that was widely distributed across the state. During this phase of research, the Retreat consulted with the Vermont Department of Health, the Brattleboro Retreat's Consumer Advisory Council as well as a range of Retreat staff members, including clinical and administrative staff. Once the qualitative and quantitative data were collected and analyzed, planners reviewed the community health needs that emerged as a result of conducting the assessment. They carefully assessed each need, identified the major themes and developed broader priority areas to encompass these needs. Planners carried out this process by focusing only on needs and priority areas that fall within the mission and scope of the Brattleboro Retreat, namely in mental health and addiction treatment, as well as within the Retreat's capacity to make an impact. Planners also worked to identify needs that were supported by quantitative research data OR were identified in the community input process, through either of the surveys or the focus group. Once the planners identified some potential priority areas, they shared the results of the needs

Section B. Line 11: Based on the data collected in the 2018 CHNA, the Brattleboro Retreat identified three (3) priority areas in which to focus its efforts for the upcoming 2019-2021 reporting period:1. Cooperate with regional providers as part of the Accountable Communities for Health by helping individuals and families receive more timely and effec tive mental health/addiction treatment and aftercare support through enhanced inter-agency collaboration. 2. Increase accessibility to the Retreat's programs and services by improving the cultural competencies of providers and removing barriers that challenge vulnerable populations and people who have been historically underserved by the mental health and add iction treatment system. 3. Reduce barriers to treatment and promote factbased knowledge a bout mental illness and addiction among healthcare providers and the general public by inc reasing educational initiatives and supporting campaigns to decrease stigma. Let ter to the Editor in Brattleboro Reformer, September 8, 2019The Brattleboro Retreat's crit eria for prioritizing and addressing community health needs was based on the following: an identified priority or concern in community input process; consistent with quantitative r esearch data; within the Brattleboro Retreat's capacity to impact; consistent with the Brattleboro Retreat is mission; and a need where community partners exist. Some needs emerged in the research findings that the Brattleboro Retreat has not prioritized in this health needs assessment.In Phase I of the CHNA, BMH and Grace Cottage Hospital identified a number of medical health needs in their CHNA. Given that the Retreat is a specialty mental healt h and addictions treatment hospital that does not provide medical services to the general public, the Retreat will not address these medical health needs. Through qualitative resea rch with the communities served, the Retreat learned that a number of socioeconomic challe nges exist for the community, including the need for more employment opportunities, afford able housing, public transportation and social services. Form and Line Reference	Explanation
Part V, Section B, Line 11 Continued	In October, 2017, the Windham County CHNA Steering Committee formed and began meeting to work on the 2018 Community Health Needs Assessment that will cover 2019-2021. The group met eight times. Data collection for Phase 1 (Windham County) took place between the months of November, 2017 and May, 2018. The 2018 Windham County CHNA Steering Committee planned and conducted qualitative research, which included a county-wide survey and outreach to organizations in the community on health care needs of minority and underserved populations. The resident surveys were available through the month of March 2018. The findings were presented at the Southeastern Vermont Accountable Communities for Health meeting in September 2018 to a number of human service organizations in Windham County who attended the meeting.In Phase II (statewide) of the 2018 CHNA, the Brattleboro Retreat gathered and assessed quantitative and qualitative data on mental health and addiction in the state of Vermont and consulted with the Vermont Department of Health. The Retreat conducted an online survey, which was distributed widely across the state to various stakeholder groups and to the general public. Following collection of the qualitative and quantitative data, planners identified emerging community health needs, and flagged major themes and key findings worthy of attention in the Implementation Plan. Based on these key findings, planners at the Brattleboro Retreat established the following priorities:-Mental/Psychiatric Health-Addiction Treatment-Access to Care.Planners carried out this process by focusing only on needs and priority areas that fall within the mission and scope of the Brattleboro Retreat (i.e., mental health and addiction treatment) and that exist within the Retreat's capacity to make an impact. In the first quarter of 2019, planners at the Brattleboro Retreat developed a three-year action plan to address our identified priority areas.
