The Division's Cardiac Transplant program exceeds 1 year and 3 year survival rates based on the national Scientific Registrar of Transplant Recipients Based on 3 year Estimated Probability of Graft Survival, Hartford Hospital ranks #1 in Connecticut, #2 in Greater New England including New York and New Jersey and #11 nationally Based upon the latest published report from the STS/ACC TVT Registry, risk-adjusted in hospital 30 day mortality for Hartford Hospital TAVR patients ranks in the top 10% of hospitals nationwide Physicians from the Heart & Vascular Structural Heart Disease Program have served as principal investigators on multiple pivotal national trials leading to the FDA approval of TAVR use in extreme, high and intermediate risk patients. In 2018-2019, Hartford Hospital was selected as one of 35 hospitals nationwide to participate in a study allowed low-risk patients with severe aortic stenosis to receive TAVR rather than conventional open-heart surgery. The American Heart Association (AHA) has

recognized the Heart and Vascular Institute for adhering to national guidelines for evidence-based care of stem patients. In 2019, Hartford Hospital was recognized with a Gold Award Interventional Cardiology led a multidisciplinary team to create and implement an algorithm for the initial triage and management of Out of Hospital Cardiac Arrest (OHCA) This algorithm standardizes care to reduce heterogeneity. Improve outcomes and improve resource utilization

and accuracy of our services

Hartford HealthCare is Connecticut's most comprehensive healthcare network. Our fully integrated health system includes a tertiary-care teaching hospital, an acute-care community teaching hospital, an acute-care hospital and trauma center, two community hospitals. The Hartford HealthCare Cancer Institute encompasses comprehensive cancer centers at six hospitals across Connecticut - Hartford Hospital, The Hospital of Central Connecticut, Backus Hospital, MidState Medical Center, Windham Hospital and Charlotte Hungerford Hospital Collectively, the cancer programs within the Cancer Institute treat more than 5,000 new cancer patients per year while caring for tens of thousands of existing patients, offering a full range of innovative, evidence-based and personalized treatments designed to meet the needs of each individual patient. Our innovative Institute approach is unlike any other in the state and is among the most highly regarded in the nation. Through our Institute, which is organized around a specific disease and not necessarily location, we can apply best practices throughout our system so that patients receive the same high standards of care no matter where they live or which Hartford HealthCare cancer center they choose. For all of our patients, a dedicated team of oncologists, surgeons, radiologists, pathologists, nurses, clinical researchers, technicians and others collaborate to provide the exact course of care they need. The Institute's multidisciplinary disease management teams meet and collaborate regularly to lend expertise and insight on numerous cancer types, translating into exceptional coordinated care. The Institute's accomplished, fellowship-trained physicians are nationally recognized for their level of sophisticated care in areas such as radiation oncology, medical oncology and surgical oncology. Patients are also cared for in an environment that emphasizes compassion and personal connections, with a team of trained nurse navigators who provide guidance and support to patients and families, from diagnosis to recovery. The Institute also boasts a thriving survivorship program. In 2013, the Hartford HealthCare Cancer Institute became the first community-based cancer program to become a member of the Memorial Sloan Kettering Cancer Alliance, establishing a relationship with one of the world's premier cancer centers. The Institute's membership in the Alliance provides patients in Connecticut access to the most advanced, leading-edge treatments available anywhere. In 2017, the Institute was accredited as a network by the American College of Surgeons Commission on Cancer, one of a select few institutes nationwide to be recognized as a system, rather than individual cancer centers. For patients coming through our doors with a cancer diagnosis, that means three things, standardized care, more options and more hope More than four years after the Hartford HealthCare Cancer Institute became the charter member of the Memorial Sloan Kettering (MSK) Cancer Alliance, cancer patients now have unprecedented access to the world's most advanced clinical trials. And more than ever before, physicians, nurses, pharmacists and researchers are working collaboratively to implement cancer treatment standards and protocols developed at MSK, the premier cancer treatment center in the country. This distinctive cancer care and clinical research partnership means the Hartford HealthCare Cancer Institute brings the most innovative, evidence-based cancer care directly into community settings During FY19, the Institute had approximately 5,871 new cases across the system were as follows Hartford Hospital - 3,187Hospital of Central Connecticut -1,082Backus Hospital - 748MidState Medical Center - 483Windham Hospital - 163Charlotte Hungerford Hospital - 208The five most common types of cancer diagnosed by teams of specialists at the Hartford HealthCare Cancer Institute are cancers of the bladder, breast, colon, lung and prostate. anesthesiologists, rheumatologists, orthopedic oncologists, physical medicine specialists and pain management specialists. Our nurses, physical therapists, occupational therapists and case managers are all specially trained and certified in orthopedics. Our central location in Hartford gives the community easy access to treatment for their orthopedic needs. Patients are referred from the emergency room as well as community clinics. The Bone & Joint Institute's specialty clinics are outpatient centers whose mission is to provide quality orthopedic care for Hartford's underserved population The specialty orthopedic clinics offer all of the services patients require, in one convenient

The orthopedic surgeons at the Bone & Joint Institute provide outstanding diagnosis, treatment and rehabilitation for musculoskeletal disorders and injuries The Institute is run by our board-certified orthopedic surgeons and staffed by a multi-disciplinary treatment team. This includes subspecialists like musculoskeletal radiologists,

orthotics and braces, and physical therapy services. Whenever possible, clinic staff support people to overcome potential barriers to care, helping them access resources for financial and transportation related issues All of our specialty clinics maintain close relationships with the Hartford-based orthopedics practices including Orthopedic Associates, the Hand Center in Glastonbury, and Rheumatology Associates Departments/Services provided by the Institute include Anesthesiology, Musculoskeletal Health,

Part V, Line 4	The Hospital has adopted investment and spending policies for endowment assets that attemp to provide a predictable stream of funding to mission related programs such as those described in Part III, lines 4a-d while seeking to maintain purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Hospital must hold in perpetuity or for a donor-specific period(s). Under this policy, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment management costs, of at least 4% over the long term. Actual returns in any given year may vary from this amount. The Hospital's endowment consists of hundreds of individual funds established for a variety of purposes including but not limited to pati				

ent care, research and capital needs. Net assets associated with endowment funds are class ified and reported based on the existence or absence of donor-imposed restrictions.

Part I,	, Line 3c	Hartford Hospital used Federal Poverty Guidelines to determine eligibility. In addition, the hospital takes into consideration, medical indigency, insurance status, underinsurance status and other family eligibility criteria such as family size, employment and financial obligations Part I, Line 6a. Although the organization does not prepare a formal Community Benefit Report, quarterly reports are submitted to Connecticut Hospital Association and Form 990 is submitted to the Connecticut Office of Health Strategy (OHS) annually					
Part I,	, Line 7	The organization utilized an overall cost to charge ratio (RCC), developed from the Medicare Cost Report Total expense was adjusted for medicaid provider taxes, directly identified community benefit expense and community building expenses. This cost to charge ratio was used to calculate costs for Part I lines 7a, b, & g. The costs associated with the activities reported on Part I, Line 7e were captured using actual time multiplied by an average salary rate. The costs associated with Line 7h, were the actual costs reported in the organization's general ledger less any industry funded studies. These costs were removed from the calculations above to avoid duplication. Costs reported in Part III, Section B6, were calculated from the Medicare cost report and reduced for Medicare costs previously reported on Part I Lines 7f and g.

additional expense related to the provision of care to Medicare patients that Medicare has deemed nonallowable. This additional expense includes costs of physician services (emergency on-call fees, Hospitalist
Programs, recruitment, etc.), advertising costs, cafeteria costs for meals sold to visitors, etc. The Hospital
attempts to collect coinsurance and deductibles from Medicare beneficiaries. To the extent collection
efforts are unsuccessful, Medicare reimburses the hospital at 65% of unpaid amounts. The table reconciles
the shortfall or surplus from Line 7 to the actual surplus or shortfall. The additional costs were allocated to
Medicare based upon Medicare's percentage of total allowable costs. The unpaid coinisurance/deductibles
were estimated using historical collection results. Any shortfall amounts have not been treated as
Community Benefits.

Part III, Line 9b	Hartford Hospital has adopted the Financial Assistance Policy of its Parent Company, Hartford HealthCare Corporation. The following is included in the Financial Assistance Policy. Patients who are deemed ineligible for financial assistance or who receive a partial discount and do not pay their bills may be subject to the following Extraordinary Collection Action (ECAs). *Wage Garnishments*Liens on primary and secondary residences, bank or investment accounts, or other assets*Legal actions and reporting the matter to one or more credit rating agencies*Other ECAs not listed aboveIf an individual has not submitted an application within the first 120 days from the date on which Hartford HealthCare first issues its first, post-discharge billing statement, then Hartford HealthCare may begin engaging in the ECAs described above ECAs may begin after the first 120 days from the date on which Hartford HealthCare issues its first, post-discharge billing statement. If the patient applies for assistance within 240 days from the first notification of the self-pay balance, and is granted assistance, Hartford HealthCare will take all reasonable available measures to remove any collection actions such as negative reporting to a credit.

In addition, HHC continues to take important steps toward achieving its vision of being "nationally respected for excellence in patient care and most trusted for personalized, coordinated care." The affiliation with HHC creates a strong, integrated health care delivery system with a full continuum of care across a broader geographic area. This allows small communities easy and expedient access to the more extensive and specialized services the larger hospitals are able to offer. This includes continuing education of health care professionals at all the affiliated institutions through the Center of Education, Simulation and Innovation located at Hartford Hospital. The affiliation further enhances the affiliates' abilities to support their missions, identity, and respective community roles. This is achieved through integrated planning and communication to meet the changing needs of the region. This includes responsible decision making and appropriate sharing of services, resources and technologies, as well as cost containment strategies.

Hartford Hospital	Part V, Section B, Line 5 To solicit input from key informants and individuals who have b road interest in the health of the community, the hospital performed surveys, community fo rums, focus groups and interviews with key informants. The key informants were selected by community leader(s) or liaison(s) Additionally, focus groups were used to identify any o their resource. Focus groups were conducted on February 2, 2018 and February 9, 2018. Community forums, and individual key informant interviews were conducted between February and J une 2018. Key informants were chosen because of their ability to identify primary concerns of the populations with whom they work, as well as of the overall community. They were ask ed to rate the degrees to which various health issues were of concern in the Hartford Regi on. Follow up questions were asked to describe why they identified areas as such, and how these might be better addressed. The key informants included Physicians, public health representatives, health professionals, social service providers and a variety of other community leaders including the following Community. The review of the identified needs were followed by a wide ranging discussion, after which the representatives were a sked to rank each of the needs Based on data analysis, surveys, focus groups, and intervie ws performed, the top community health needs and priorities for the Hartford Hospital focu s area are listed below Access to Care Access to care is impacted by a number of factors I neluding availability of transportation, insurance cost, availability of primary care prov iders, availability of providers who take all insurance types, and community health center hours that meet the needs of those working during regular business hours. Food Concerns T he availability of meals, lack of healthy food choices, and the cost of healthy food are a challenge for many, especially in the poorest neighborhoods in the service area. Access to healthy food, especially for children outside of school based programs and for seniors, is a challenge even for those in middle income areas. Mental Health and Substance Abuse Th e ongoing opioid epidemic, a shortage of mental health providers and counselors and the difficulty of recruiting additional providers, and a lack of effective mental health screening at all levels contribute to continuing challenges with mental health and substance abus e in the service area. Chronic Disease and Poor Physical and Mental Health Chronic disease including asthma and diabetes remain challenges despite community wide efforts. Varying r ates of childhood vaccinations due to access to care as well as limited safe options for e xercise/active living also contribute to poor health status including

obesity and depressi on City of Hartford scored significantly worse on multiple metrics relative to the state of Connecticut, including good physical health, good mental health, depression, obesity, a mount of

physical activity, and smoking Collaboration, Communication, and Coordination Be tween Social Services Agencies and Health Care Providers Despite a significant number of o utstanding community health initiatives, the majority of stakeholders who participated in focus groups and interviews said that a lack of coordination among and between providers and community based organizations limits the overall

effectiveness of the programs and the funding that are going to help serve the populations most in

need Housing and Safety Issue's Including Lack of Affordable Housing, Neighborhood Safety, and Housing

Conditions While certain housing metrics for the overall service area are comparable to or better than the

State of Connecticut, pockets of poverty in and around Hartford warrant additional attenti on relative to the impact that limited availability of housing and safe housing conditions /neighborhoods will have on co Section C.
