Schedule I, Part I 2	Organization abides by all applicable rules and regulations with regard to compliance with the grant agreements. Organization's procedures for monitoring the use of research grant funds include steps in eliminating issues related to a conflict of interest when doctors or researchers have an ownership in the company-recipient of the research grant. The Foundation typically will not perform research for a given company if one of the doctors or researchers has a personal interest in the company. In a situation when the Organization was to accept a proposal of this nature, the conflict of interest would be fully disclosed. In addition, the Organization's Institutional Review Board reviews all proposals involving volunteer doctors, nurses and administrators in order to determine if a potential project is in the best interest of their patients.
