COMMUNITY BENEFITS OVERVIEW	<p>Temple University Health System (TUHS), as the sole member of its affiliated hospitals and physician practices, provides access to facilities, programs, and other resources to carry out a broad array of community services. Through the employees and physicians of Temple University Hospital, Fox Chase Cancer Center, Jeanes Hospital, our faculty and community based Physician practices, we provide comprehensive services to improve the health and quality of living in North Philadelphia and our Southeast Pennsylvania region. TUHS is dedicated to ensuring access to comprehensive primary and specialty quality patient care through population health, linked to academic excellence in medical education and research. Our health outreach and education services are critically important in the diverse, economically challenged neighborhoods surrounding our hospitals. TUHS hospitals provide indispensable health care services to residents of Philadelphia, which is the largest city in America without a public hospital. Among Pennsylvania's full-service safety-net providers, Temple University Hospital (TUH) serves the greatest volume and highest percentage of patients covered by Medicaid. TUH is a 732-bed non-profit acute care hospital that provides a broad spectrum of primary, secondary, tertiary, and quaternary care to patients in throughout South eastern Pennsylvania and beyond. TUH is accredited as an Adult Level 1 Trauma Center by the Pennsylvania Trauma Systems Foundation and is a Regional Burn Center. Among our recent distinctions is the achievement of Magnet status from the American Nurses Credentialing Center, a prestigious recognition of quality nursing care, community commitment and staff dedication bestowed upon only 8% of U.S. healthcare organizations. In addition to our main campus on North Broad Street, TUH includes the Episcopal and Northeastern campuses, both of which are in economically distressed areas within three miles of the TUH and medical school campus. Our Episcopal Campus provides a recovery-oriented behavioral health treatment program, offering a welcoming approach and hope for those whose lives have been affected by mental illness and co-occurring disorders. It serves adults, age 18 or older, experiencing severe psychiatric symptoms that markedly impair their capacity to function adequately within the community. Many are diagnosed with psychiatric plus one or more substance or alcohol disorders. Almost half have diagnoses of hypertension, diabetes or both. Many have multiple co-existing medical illnesses. All Temple physicians, whether faculty or community based, care for patients covered by Medicaid in both the inpatient and outpatient setting. About 85% of TUH's inpatients are covered by government programs. 40% by Medicare and 45% by Medicaid. Patients dually eligible for both Medicare and Medicaid comprise about 52% of our Medicare inpatient base. Approximately 41% of our total inpatient cases include a behavioral health diagnosis. COMMUNITY BENEFITS OVERVIEW	<p>serves as a critical access point for vital public health services. Last year we handled more than 130,000 patients in our Emergency Department, about 12,000 patients in our Psychiatric Crisis Response Center, 2,100 discharges from our inpatient Behavioral Health unit, 700 victims of gun and stab violence in our Trauma Unit, and more than 300 patients in our Burn Center. We delivered about 2,500 babies, of whom nearly 90% were covered by Medicaid. Temple physicians also staff important clinics that address major public health concerns, such as the Comprehensive NeuroAids Center at Temple University, which is dedicated to improving the public health impact of bench-to clinic research associated with HIV-induced neurological diseases and cognitive disorders. As indicated in the 2016 Community Health Needs Assessment of the Philadelphia Department of Health, poverty, and poor living conditions are prevalent in the City's Lower North and North planning districts served by TUH, in which 45% of the population live at incomes below 100% of the Federal Poverty Level, and conditions of living and housing are suboptimal, illustrated by rat complaints of 20-42/10,000 population. The homicide mortality rate in these planning districts is also the highest in the City of Philadelphia. In calendar year 2017, there were 1,200 opioid related deaths in Philadelphia, many of which occurred within the immediate service area of TUH. The disease burden in North Philadelphia is significant, including high prevalence of obesity, diabetes, hypertension, asthma, chronic obstructive pulmonary disease and heart disease. Temple's nationally renowned physicians offer state of the art treatment options for patients with complex medical problems, some of whom were previously considered untreatable. Using sophisticated technologies and personalized treatments, Temple physicians are working to alter the course of serious disease. In over a dozen research centers, our faculty is speeding the transformation of fundamental scientific discoveries into practical therapies that may one day dramatically improve human health. The Fox Chase-Temple Bone Marrow Transplant Program, a formal affiliation between Fox Chase Cancer Center and TUH, is an example of this type of transformative medicine. Last year it performed over 130 transplants, and has participated in countless research studies to promote life-saving treatment modalities. Complementing our academic mission, The Temple Center for Population Health, LLC, (TCPH) promotes and supports the population health efforts of TUH and North Philadelphia. We align our efforts with the goals of the United States Department of Health and Human Services' three-part aim of achieving better care for patients, better health for our communities, and lower costs through health care system improvement. With respect to prevention, education and outreach related to cancer, we are especially proud of the services provided through Fox Chase Cancer Center.</p>
