**Form 990, Part III, Line 4a:**

Resident Teaching & Graduate Medical Education Programs University Medical Center New Orleans (UMCNO) is the state of Louisiana's largest teaching hospital and a major training site for both LSU and Tulane University Schools of Medicine, as well LSU schools of Dentistry, Nursing and Allied Health More than 400 resident and fellow FTE positions actively rotate at UMCNO on a monthly basis, through roughly 50 different medical specialties UMCNO also partners with many other academic institutions such as Delgado, Xavier, Dillard, Nicolls State and Southern University to train over 2,000 future health care providers annually

## **Form 990, Part III, Line 4b:**

Patient Care UMCNO provides core safety net services to the New Orleans region. These services include the operation of an emergency room, an HIV outpatient clinic, oncology services, mental health services, and a Level I trauma center. In 2018 UMC opened a new 16 bed Burn Unit to provide new services to the region. In addition, UMC started a new bariatric program to offer bariatric services to its patient population. UMC also opened 8 new additional beds. UMCNO provides a wide range of medical services covering 77 specialties and ambulatory care in over 79 specialty clinics and provides free or reduced cost health care to medically indigent and uninsured patients, including medically complex and otherwise high-risk Medicaid patients. It also provides medically necessary health care to the Louisiana Department of Corrections population. The hospital has 446 licensed beds and treated 14,181 Inpatients and 386,913 Outpatients.

---

### **Form 990, Part III, Line 4c:**

Community health services and community benefit operations provide free health education programs and screenings to the community. These programs are designed to focus on some of the most prevalent diseases in the New Orleans community, such as diabetes, heart disease and cancer. These programs address prevention, early detection, treatment and maintaining healthy lifestyles. In 2018, UMCNO participated in and offered numerous outreach events including a senior bootcamp in partnership with the American Diabetes Association, free breast health lunch lectures and screenings for skin cancer, head and neck cancer and abdominal aortic aneurysm. The Injury Prevention Program in UMCNO's Level 1 Trauma Center provides programming throughout the state. This includes the Sudden Impact program for high school students, hemorrhage control for law enforcement personnel and child safety seat checks. In 2018, UMCNO continued a partnership with Sonic Restaurants in Louisiana to provide almost 800 free child safety seats to families in Louisiana. Additionally, UMCNO is partnered with Walgreens and Avita Drugs to dispense medications under the 340(b) pricing program to ensure patients have access to necessary pharmaceuticals that may otherwise not be available to them.

**Supplemental Information**

Return Reference	Explanation
Part X, Line 2	The Corporation follows the provisions of Accounting for Uncertainty in Income Taxes Topic of the FASB ASC. The Corporation recognizes a threshold and measurement process for financial statement recognition of uncertain tax positions taken or expected to be taken in a tax return. The interpretation also provides guidance on recognition, de-recognition, classification, interest and penalties, accounting in the interim periods, disclosure and transition. The Corporation's tax filings are subject to audit by various taxing authorities. There are currently no returns under examination. Management evaluated the Corporation's tax position and considered that the Corporation has taken no uncertain tax positions that require adjustments to the financial statements to comply with the provisions of this guidance.

Supplemental Information	
Return Reference	Explanation
Schedule D, Part V, Line 4	Government grants were received to cover costs of trauma prevention training, passenger safety and seatbelt training, HIV treatment, Breast Cancer Research, Forensic Nursing Services and the purchase of Ebola emergency preparedness supplies. These funds were accounted for as temporarily restricted funds.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part I, Line 3c	UMCNO uses the FPG in determining financial assistance eligibility Specifically, a person whose family unit resources or property and income is at or below 250% of the Federal Poverty Level for the size of the family unit, rounded to the nearest dollar In addition to income-based criteria, UMC applies an asset test and residency

## 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7	UMC uses a ratio of patient care cost to gross patient charges, adjusted for Medicaid Provider Tax and other non-patient related items to establish total community benefit expense for Financial Assistance, Medicaid, and other means-tested government programs

Form and Line Reference	Explanation
Part II, Community Building Activities	<p>Injury Prevention Programs University Medical Center's Level 1 Trauma Center is verified every 3 years as a Trauma Center As a Level 1 Trauma Center UMC participates in the research, development, implementation and evaluation of injury prevention programs There are several research based prevention programs within the UMC Trauma Center The following is a synopsis of the UMC programs to reduce the number of injuries and fatalities within Louisiana Sudden Impact Enforcement, education and engineering must work together to decrease the number of injuries and deaths related to motor vehicle crashes A 6-hour hospital based program developed for teenagers during their sophomore level in high school, the program promotes good decision making as a driver or passenger in a motor vehicle The day consists of presentations by medical team, law enforcement, Louisiana Organ Procurement Agency and a trauma victim and concludes with visits to the Emergency Department and the Intensive Care Unit The students are pre-tested for a baseline of knowledge, attitude and behavior, then post tested upon conclusion of the program The results are analyzed by a Sudden Impact staff member with a masters degree in public health The change in responses guides the program development and proves program effectiveness The program was developed 20 years ago and has expanded to 13 hospitals in 9 regions of the state During the 2018-19 school year, UMC presented to 1,797 students in our facility and statewide the program reached over 6,886 students Mock Crashes The Consequences of Impact Mock Crash was developed as a follow up to the hospital based sophomore level Sudden Impact Program The mock crash portrays a motor vehicle crash to increase the awareness of the dangers of driving impaired, driving unrestrained and participating in high risk behaviors, like distracted driving The drivers and passengers are student role players First responders, Trauma Center personnel, and the coroner's office demonstrate the following crash investigation, rescue/evacuation, medical attention, DWI arrest, lock-up, hospital trauma activation, injury notification and death notification The goal is to increase compliance with Louisiana traffic safety laws, reinforce healthy decision making and decrease the number of injuries and fatalities associated with motor vehicle crashes The Consequences of Impact Mock Trial was created and developed to reinforce the education from the Mock Crash The perceived certainty of legal consequences is of significant value, especially among teens All participants from the Mock Crash return and are placed on trial for the decisions and outcomes from the crash Senior Sessions The Senior Sessions were developed at the request of participating schools to reinforce the sophomore hospital based Sudden Impact Program The seniors receive updated information on laws and consequences, followed by education that parallels the hospital based program on a more mature level The students are post tested to evaluate the information retained and of behavioral changes since attending the sophomore hospital based program School-Based Trauma Prevention Outreach Program (STOP) This school age injury prevention program focuses on grades Kindergarten, 1st and 2nd grades Through age appropriate interactive lectures and activities, the presenters promote good safety habits to assist children from being injured The program emphasizes safety while riding in a motor-vehicle, seat belt and booster seat usage, bicycle helmets, pedestrian safety and gun and firearm safety The program is evaluated by the teacher in each classroom Letters from UMC accompany each student home to reinforce the education provided to the student During the 2018-19 school year, UMC hosted the STOP program to 2,671 elementary school students Child Passenger Safety Initiatives Using the correct car seat for your child's age and size cuts his likelihood of being injured by at least half, when compared with a seat belt (Durbin, Elliott, et al ) Proper use of child restraints lessens injury and fatality The effectiveness varies by the type of child restraint Child safety seats reduce fatal injury by 71 and 54%, respectively, for infants and toddlers in passenger cars Compared to seat belts, the use of child safety seats reduces the risk of injury among young children by 71 to 82% and fatal injury by 28% Among children ages 4 to 8, the use of booster seats reduces the risk of nonfatal injury by 45% compared to seat belts (www.safekids.org) Louisiana has a 96% misuse of child restraints, which is considerably above the national average of 73% To reach our goal of reducing injuries and fatalities, it was necessary to develop a large network to gain the infrastructure needed for program support It is the goal of the Louisiana Passenger Safety Task Force to provide education to agencies and the community throughout the state to increase the proper</p>

Form and Line Reference	Explanation
Part II, Community Building Activities	<p>use of child restraints and seat belts and encourage the proper installation of the restraint. This can be accomplished through partnerships with law enforcement, fire, medical, judicial and advocates. The Louisiana Passenger Safety Task Force is a network of child passenger safety technicians and advocates who work together to make the unrestrained and incorrectly restrained population unacceptable in Louisiana. The infrastructure of the network produces success, as events, education and activities are disseminated for personalization on a local level. The project director and coordinator, employees at University Medical Center's Trauma Center in New Orleans guide the state task force, which is divided into 9 areas within the state. In addition to the recurring annual efforts, the LPSTF places an emphasis on targeting the adult population to increase the 88% seat belt usage rate and promoting partnerships with medical facilities for involvement in traffic safety programs. Grant Funded Fitting Stations. Fitting stations are a one on one tutorial for the community to learn the benefits of proper occupant protection. Parents learn the correct installation of child restraints and the benefits of a lap shoulder seat belt. To become a grant supported fitting station, the agency must show commitment to the passenger safety program. This can be accomplished by supporting the personnel in a role of community prevention education, allow for participation in community events, at LPSTF meetings and participation at established fitting stations. Personnel must attend a mandatory fitting station in-service hosted by UMCNO and show compliance with the approved child installation forms and documentation, as grant funded fitting stations are mandated to send copies of installation forms to the LPSTF. Once criteria are met, supplies will be issued to support the development and sustainability of the fitting station by UMC. Grant funded supplies and in-services promote and maintain standardization within the state. The UMCNO supports 105 fitting stations in Louisiana. Occupant Protection Awareness Class. The course was developed to provide injury prevention education to law enforcement, fire, and rescue personnel, EMS, healthcare providers and families who witness death and injury daily in preventable crashes. The course focuses on the needs of both adult and child passengers and the ranges and proper use of appropriate child restraint devices. Saved by the Belt. Last year, approximately 76,572 people were injured in motor vehicle crashes in Louisiana. This award identifies individuals whose lives are saved or injuries are significantly reduced because they were wearing a seat belt or were properly restrained in a child safety seat at the time of their crash. This recognition which is awarded by the UMC Level One Trauma Center will increase public awareness on the benefits of proper use of a safety belt or car seat and will reinforce the life-saving importance of occupant protection. Stop the Bleed. With simple training in bleeding control techniques, ordinary citizens can provide immediate stabilization before first responders arrive to care for an injured person. Bleeding control education is easy to perform, appropriate for all skill levels, and impactful. Particularly in New Orleans, with a highly concentrated population, multiple yearly large crowd events with potential for mass casualties, and a high rate of penetrating trauma this initiative has the potential to significantly improve health. To provide widespread bleeding control education and supplies, free of charge, to interested law enforcement/security organizations, schools/educational institutions, community centers or hubs, local businesses and places of gathering or worship.</p>

Part III, Line 4	<p>From Note 2, "Net Patient Service Revenues and Related Receivables " Patient accounts receivable are reduced by an allowance of doubtful accounts. In establishing its estimate of collectability of accounts receivable, each entity within the System analyzes its history and collection patterns of its major payor sources of revenue. These allowances are adjusted monthly for volume and service mix, and annually for rate increases. For receivables associated with self-pay patients (which includes patients without insurance who are not covered by the charity care program of each entity within the System and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill) , the System records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by the policy) and the amounts actually collected after all reasonable collection efforts have been exhausted are charged off against the allowance for doubtful accounts.</p>

Part VI, Line 2	<p>UMC assesses the health care needs of the communities it serves in many ways. Numerous studies have been conducted by various state agencies regarding the needs of patients historically served by UMC in formulating decisions regarding a replacement facility, to establish programs such as GNOCHC, and otherwise to assure that health care and medical education needs are addressed. UMC receives information regarding the health care needs of the New Orleans community from the schools that participate in its training programs. The participants in the training programs are on the front lines of patient care and are most aware of the particular needs of this community. Through communication with these schools and the other providers in the community, UMC develops an assessment of the health care needs of the indigent population of the New Orleans region. UMC has participated actively in the aforementioned studies and in many community efforts relating to the healthcare needs in the New Orleans area.</p>

Part VI, Line 3	<p>Upon scheduling or registration, the ability to apply for financial assistance is offered if the patient is uninsured or underinsured. If Medicaid assistance is denied, the UMC Financial Assistance and Medical Assistance Program (MAP) departments will assist the patient in seeking other financial assistance benefits. This department instructs the patient on required documentation and eligibility procedures. If the patient is determined to be medically indigent and unable to obtain Medicaid benefits, UMC will inform them of alternative possibilities for financial assistance. If the patient is found to be unable to qualify for any public assistance but is not below the 400% FPG limits on charity care, they are informed that they will be considered self-pay and entitled to a 66% discount on charges. UMC works with the patient to formulate a payment plan. If the patient falls in between 250-400% of the FPG limits, the patient's charges will be discounted by 75%. Further, if the patient is found to fall below the 250% FPG level, he or she is classed as charity care and all charges are written off. UMC has a long standing reputation of being the safety net hospital for the indigent medically ill patients of New Orleans and surrounding areas. Our commitment to our community is to care for all who need our care.</p>

Part VI, Line 4	<p>With respect to University Medical Center, the community served is defined as the 50 zip codes, across 13 different parishes, which hold a majority (75%) of the inpatient discharges for the hospital. In discussing demographic data, UMC's service area will draw comparisons to Jefferson Parish and Orleans Parish, the two parishes containing the greatest number of patient discharge zip codes. In addition, comparison are drawn to the State of Louisiana as a whole. The information below is gleaned from UMC's Community Health Needs Assessment performed in 2015 by Tripp Umbach. In 2017, the total population of UMC's service area is 1,329,370. By comparison, the total population of Orleans and Jefferson Parish were 399,567 and 437,303, respectively. The overall 2017 population of the State of Louisiana was 4,706,135. By 2022, UMC anticipates a 4.7% increase in population to 1,391,436. This compares to 1.7% and 7% growth for Jefferson Parish and Orleans Parish, respectively. The population of Louisiana is expected to increase by 2.8% to 4,839,118 by 2022. UMC's population is comprised 47.8% males and 52.2% females. This ratio mirrors that of Jefferson Parish and Orleans parish. By comparison, the State of Louisiana is comprised of 49% males and 51% females, as of 2017. The age dispersion for UMC's service area is as follows: 0 -14 19%, 15 - 17 3.7%, 18 - 24 9.1%, 25 - 34 15.2%, 35 - 54 25.9%, 55 - 64 13.2%, 64+ 14%. This dispersion is consistent, for the most part, with Jefferson Parish, Orleans Parish, and the State of Louisiana as a whole. Racially, there are significant differences within UMC's service area. In Orleans Parish, 31.3% of the population is White/Non-Hispanic, 57.9% is Black/Non-Hispanic, and 5.8% is Hispanic. By comparison, Jefferson Parish's breakdown is 52.6%, 26.2%, and 14.7%. As a state, Louisiana is comprised of 58.5% White/Non-Hispanics, 32.0% Black/Non-Hispanic, and 5.3% Hispanics. The average annual household income for Orleans Parish is \$66,697. The average household income for Jefferson Parish is \$71,756. The average for the State of Louisiana as a whole is \$68,011. It is important to note that all average household incomes highlighted above fall substantially below the national average of \$80,853. The poverty rates of Jefferson Parish, Orleans Parish, and Louisiana are as follows: 16.48%, 27.34%, and 21.7%. All substantially greater than the 15.3% of the United States as a whole. In reviewing the UMC Service Area's 50 zip codes based on the Community Needs Index, it was found that 45 of the 50 zip codes scored higher than the median score of 3. This would indicate that these zip codes have more than average the number of barriers to proper health care access. The factors that are taken into account when calculating a zip-code's CNI score area as follows: income barriers, cultural barriers, educational barriers, insurance barriers, and housing barriers. Four zip codes in UMC's service area scored a 5. This indicates significant barriers to health care access. In addition, a review of Prevention Quality Indicators finds that the following ailments drive a higher than normal preventable admissions rate: Diabetes Short-term complications, Diabetes Long-term complications, lower extremity amputations among diabetics, perforated appendix, and low birth weight. From a health rankings perspective, Louisiana ranks 50th overall. This includes ranking 48th for smoking, 47th for diabetes, and 45th for obesity. The states challenges include a high incidence of infectious diseases, a high prevalence of low birth-weights, and a high rate of preventable hospitalization.</p>

Part VI, Line 5	<p>The top two needs identified by the CHNA and prioritized by UMC are Access to Health Services and Behavioral Health. To address the need of increased Access to Health Services, UMC has expanded current services or open new services. These services include the Cancer Center, Radiation Oncology, Neurosurgery, ENT, IBD, Primary Care, Ophthalmology and Dermatology. In 2018 UMC opened a new 16 bed Burn Unit to provide new services to the region. In addition, UMC started a new bariatric program to offer bariatric services to its patient population. UMC also opened up 8 new additional beds. UMC has also expanded 340b services through a partnership with Walgreen's. Additionally, the facility's financial assistance policy had been revised, effective 5/1/2016, to allow for a 75% indigent care adjustment for 251 - 400% FPL and 100% adjustment for 250% and below. Finally, UMC has improved collaboration of services with the FGQHC's through quarterly meetings. To address the increased Behavioral Health needs of the community, UMC has 60 licensed behavioral health beds. Additionally, the Emergency Department has expanded its Behavioral Health beds.</p>
