Valuation

For the purpose of our valuations, you have asked us:

1. to determine the closing price of Lilly common stock on the last trading day of each month for the twelve month period ended December 31, 2017;
2. to determine whether the Endowment's holding of such stock could not be liquidated within a reasonable period of time at that closing price as a result of: (i) the size of the block of Lilly stock held by the Endowment; or (ii) the fact that the sale of such holding would result in a forced or distress sale; and
3. to determine by commonly accepted methods of valuation the fair market value of such holding at the close of the final trading day of each month for the twelve month period ended December 31, 2017, giving consideration to all relevant facts and elements of value and taking fair market value to mean the price at which the holding would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

As a basis for our valuations, we have examined developments affecting the Company and its stock, as well as conditions in financial markets as a whole, which could have a bearing on the capacity of the financial markets to absorb a large offering of Lilly common stock.

For the monthly Valuation Dates for the twelve months ended December 31, 2017, the closing price of Lilly common stock ranged from a low of \$77.03 on January 31, 2017 to a high of \$85.54 on September 29, 2017. The quoted market values for the block of shares held by the Endowment on the twelve Valuation Dates ranged from approximately \$9.673 billion to \$10.563 billion. The prices upon which these indicated quoted market values are based, however, represent the value of a limited number of shares trading on the dates in question and not the price that could have been realized by a sale of the Endowment's holding, which represented approximately 11.18% of the common stock of the Company outstanding on October 23, 2017 (the most recent date for which such information is publicly available). The Endowment's holding of 123,075,804 shares of Lilly common stock represents approximately 36 days of trading volume in Lilly common stock utilizing the average daily trading volume (ADTV) metric for the month ending December 31, 2017. Based on the size of the block and the number of days of trading which it represents, we believe the Endowment's holding of Lilly common stock could not have been liquidated within a reasonable period of time at the quoted closing prices.

For the purpose of this valuation, we have assumed that shares of Lilly common stock held by the Endowment would be sold in a marketed offering, with a registration statement if required.

Accordingly, we have attempted to estimate the net proceeds that might have been available to the Endowment by means of underwritten marketed offerings on the Valuation Dates.

In determining the price at which the Endowment's holding of Lilly common stock could have been sold in an underwritten marketed public offering on the Valuation Dates, we considered a number of factors. In our experience, the announcement of an underwritten secondary offering tends to have a downward impact on the market price. Impacts vary depending upon the size of the offering, investors' attitudes toward the particular stock, conditions peculiar to the particular company whose stock is involved and overall market and economic conditions at the time of the sale. With respect to a potential underwritten secondary offering of the Endowment's holding of Lilly shares during the twelve months ended December 31, 2017, which offering would have been among the largest secondary offerings in history, the market impact during the period in question would have been, in our opinion, substantial. In addition to this market impact, there would have been the cost

Morgan Stanley

Part X, Line 1 (e) - Minimum Investment Return
*** - Attachment to Statement 16**

of underwriting, i.e., the gross spread, which represents the difference between the price at which the stock would be offered to the public, or the retail price, and the price paid to the seller by the underwriter, or the wholesale price.

Our methodology to calculate the fair market value of the Endowment's holding of Lilly common stock utilizes a number of factors including the number of days of trading which the holding represents, overall market volatility, volatility of Lilly common stock, the performance of Lilly common stock and the broader market during the month and whether mutual funds are experiencing net inflows or outflows. Importantly, we note that the estimated valuation discount listed in the table at the end of this letter represents the minimum discount needed to market to investors a registered offering of the Endowment's holding of Lilly common stock.

These valuation estimates are not an offer to enter into, transfer or assign, or terminate any transactions or a commitment by Morgan Stanley to make such an offer or to underwrite any security. These valuation estimates may vary significantly from valuation estimates available from other sources.

In providing you with these valuation estimates, we have assumed and relied upon the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to us by you, and formed a substantial basis for this letter. We assume no obligation to verify independently the adequacy, reasonableness, accuracy or completeness of such information. We have not reviewed the legal, accounting or tax treatment of the Lilly common stock and our view does not cover such treatment. Our valuation estimates are necessarily based on economic, market, financial and other conditions prevailing as of the Valuation Dates and the information, conditions and prospects, financial and otherwise of the Endowment and Lilly made available or represented to us as of the Valuation Dates. We have not been asked to solicit, and have not solicited, indications of interest from other parties with respect to any transactions involving the shares of Lilly common stock. This valuation estimate is furnished solely for your use in preparation and filing of Form 990 PF and may not be used for any other purpose and may not be referred to, disseminated, quoted or reproduced in any manner for any other purpose in whole or in part without our prior written consent.

The table below shows the closing prices at the various month-ends and the overall discounts, representing the discounts referred to above that incorporate total market impacts and the gross spread that we believe would have pertained to month-end registered underwritten marketed secondary public offerings. The resulting per share figures would have represented, in our opinion and based on our assumptions and considerations, the estimated fair market value of the shares of Lilly common stock as of such Valuation Dates. The views expressed herein are rendered solely as of the date of this letter.
