Supplemental Information

Return Reference	Explanation
Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	The Hospital is a not-for-profit corporation pursuant to Section 501(c)(3) of the Internal Revenue Code and is exempt from income taxes on related income pursuant to Section 501(a) Accordingly, no provision for income taxes is required for the Hospital in the consolidated financial statements. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax ben efit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. The Hospital is no longer subject to examination by U.S. federal taxing authorities for years before 2012 and for all state income taxes through 2013. The Hospital does not expect the total amount of unrecognized tax positions to significantly change in the next 12 months. The Hospital would recognize interest and/or penalties related to income tax matters in income tax expense. The Hospital has no amounts accrued for interest or penalties as of December 31, 2018, and 2017.

In addition, Rehabilitation Hospital of Indiana partners with other community organizations in healthcare, wellness, outreach, and other services to address our communities' health needs. Among the many programs focused on priority areas identified, we list a few examples here that take Rehabilitation Hospital of Indiana beyond the clinic walls and into the community. Access to healthcare. On Tuesday, June 27th, RRII partnered with a number of local hospitals and health care organizations to co-sponsor the third annual. "Strike Out Stroke" event at Victory Field. The focus of this event was to educat e the community about the prevalence and symptoms of stroke and send the message that quic k action in the event of a suspected stroke can save lives. Volunteer efforts included dis tributing promotional giveaways as well as providing stroke education information and blood pressure readings to attendees prior to the game. We also had a very strong showing of R HI employees and previous patients coming out in support of this fantastic event. contractually due amounts are analyzed and compared to actual cash collected over time to enhance the quality of the estimate of the allowance for doubtful accounts and the provision for bad debts (for example, for expected uncollectible deductibles and co-payments on accounts for which the third-party payor has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and co payment balances due for which third-party coverage exists for part of the bill), a significant allowance for doubtful accounts is recorded on the basis of historical experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. An estimate of the difference between contracted rates and amounts actually collected, after all reasonable collection efforts have been exhausted, is charged to the provision for

bad debts and credited to the allowance for doubtful accounts.

Schedule H, Part VI, Line 2 Needs assessment	For the 2018 Community Health Needs Assessment, Indiana University Health conducted the community survey data collection in collaboration with Indiana University, University of Evansville and an Indiana Hospital Collaborative, including Community Health Network, Franciscan Allianace, St. Vincent Health and other hospital partners. Additional IU Health collaborators included. * Indiana University Health. Community Outreach and Engagement Department. Federal regulations allow hospital facilities to define the community they serve based on "all of the relevant facts and circumstances," including the "geographic location" served by the hospital facility, "target populations served" (e.g., children, women, or the aged), and/or the hospital facility's principal functions (e.g., focus on a particular specialty area or targeted disease). Accordingly, this CHNA focuses on community health issues relevant to rehabilitation services. In assessing community health needs relevant to RHI, the following statistics are important to understand. * Patients most often are admitted to RHI as a result of stroke, Traumatic Brain Injury (TBI), Spinal Cord Injury (SCI), major trauma, cardiac events, amputations, other orthopedic conditions, and other issues for which rehabilitation services are medically necessary. * About 94 percent of admissions to RHI are for patients transferred from an acute medical/surgical hospital Many patients first are seen in hospital emergency rooms and trauma centers, then are admitted to acute medical/surgical hospitals, and then are transferred to RHI to receive intensive rehabilitation services. * RHI provides both inpatient and outpatient services Outpatient care is provided at the main hospital site and at two other locations (Indianapolis and Carmel, Indiana). For RHI, surveys were received from 359 community households. According to the responses, these households included 644 adults. This CHNA relies on multiple data sources and community input gathered between February 2018 and August 2018. Sever
