PART III, LINE 2	offset Medicaid shortfall with the net income distorts the result. Therefore, we are providing the percentages as if the net were not presented as an offset. In addition, the other Affordable Care Act supplemental payments should also not be considered in the calculation. If these items were removed from the calculation, net community benefit expense on line 7B., column (E) would have been \$24,486,176 or 20.3 percent of total expense. This would have increased the total net community benefit expense on line 7K, column (E) from \$19,355,925 to \$31,114,958 or 25.8 percent of total expense. Holy Cross Hospital's true community benefit is better represented by this percentage. If the hospital were to use cost-to-charge ratio per the Audited Financial Statements, without adjustments to revenues and expenses per the IRS's Schedule H, worksheet 2 instructions, and removed provider tax expenses, provider tax revenues and several supplemental payments from the calculation, total net community benefit expense on line 7K, column (E) would be \$35,781,525 or 29.6%. This is computed by starting with the \$19,355,925 on schedule H, adding the impact of the provider tax related items as discussed above of \$11,759,034 and then adding the increase in the cost-of-charge ratio per Audited Financial Statements of \$4,665,567. We believe this is a more realistic computation as the cost to charge will include all expenses related to providing services Medicaid patients. Part I, Line 7a,7b and 7c. Net Community Benefit Expense for Financial Assistance, Medicaid, and other means-tested government programs Holy Cross Hospital provided aptients totaled \$2.5 million. The Hospital received Provider Tax Revenues and other ACA payments to offset the costs to provide care for the Hospital's disproportionally high Medicaid and financial indigent populations. On an aggregated basis, Sinal Health System provided over \$2.9 million in financial assistance, in addition to a Medicaid shortfall of \$2.4 million. The Hospital received Provider Tax Revenue
	(net of contractual provisions and discounts) For uninsured patients that do not qualify for charity care, the Corporation establishes an allowance to reduce the carrying value of such receivable to their accounts based upon historical write-off experience. After satisfaction of amounts due from insurance, the Corporation follows established guidelines for placing certain past-due balances with collection agencies, subject to the term of certain restrictions on collection efforts as determined by the Corporation The Corporation generally does not charge interest on past due accounts. A significant portion of the Corporation's provision for doubtful accounts relates to self-pay patients, as well as co-payments and deductibles owed to the Corporation by patients with insurance. Part III, Line 8 Explanation of Shortfall as Community Benefit There is no shortfall this year. Holy Cross Hospital utilized the cost to charge ratio calculated using IRS Form 990, Schedule H, Worksheet 2 (Ratio of Patient Care Cost to Charges) to estimate cost to provide care to Medicare patients. Such cost is offset by Medicare receipts to determine shortfall. Part III, Line 9b Provisions on Collection practices for Qualified Patients Holy Cross Hospital's collection process includes both letters and calls to inform patients of their outstanding balances and to explain available payment options. If the patient is uninsured, a discount is applied to the patient's account in accordance with Illinois Patient Uninsured Act. In addition, resources are made available to patients throughout the collection process. These resources include a charity program targeted to low income individuals along with payment plans that start as low as \$25 a month. The debt collection practices only apply to charity patients to the extent of copayments or patient portion balances and not to INCLUDE amounts that have been approved as charity or financial assistance.

In 201 9 Holy Cross Hospital partnered with the Alliance for Health Equity, a collaborative of 37 hospitals across Chicago and Suburban Cook County, to conduct a comprehensive community i nput process to better understand the needs and assets of the communities that make up the ir primary service areas. Together, they facilitated 52 focus groups with community member s. Focus group participants were selected to represent medically underserved, low income, marginalized and minority populations. Priority populations included veterans, individuals living with mental illness, communities of color, older adults, caregivers, teens and you ng adults, LGBTQ+ community members, adults and teens experiencing homelessness, families with children, faith communities, adults with disabilities, and children and adults living with chronic conditions such as diabetes and asthma. The purpose of the focus groups were to gain insight on the most pressing health conditions affecting each community, the barr iers to overcoming those conditions, and how a community hospital such as Holy Cross Hospi tal might help improve the community's health Participants were also asked about underlying root causes of health issues that they see in their communities and specific strategies for addressing those health needs. These groups were held in both English and Spanish, as appropriate Many people contributed to the CHNA Report, including the staff of the Sinai Urban Health Institute. These are all people trained in public health (most are graduates of schools of public health with MPH or PHD degrees) We thus believe that the public health credentials of the authors of this report are substantial and notable. Sinai Health Sy stem is a member of the Alliance for Health Equity, which helped to conduct a citywide CHN A from which SHS gathered most of our data The Alliance for Health Equity (Alliance) is a collaboration of 37 hospitals, 3 health departments, and community-based organizations wo rking to improve health equity, wellness, and quality of life across 77 Chicago community areas and 125 Cook County suburban municipalities The Illinois Public Health Institute (I PHI) serves as the Alliance's backbone organization The purpose of the Alliance is to improve population and community health by 1) promoting health equity, 2) supporting capacity building, shared learning, and connecting local initiatives, 3) addressing social and st ructural determinants of health, 4) developing broad city- and county-wide initiatives and creating systems, 5) engaging community partners and working collaboratively with community leaders, 6) developing data systems to support shared impact measurement and community assessment, and 7) collaborati

Schedule H, Part V, Section B, Line 3E & 3g	ng on population health policy and advocacy. As part of its work to improve community heal th, the Alliance conducts a collaborative county and citywide Community Health Needs Asses sment (CHNA). The 2019 CHNA is the second consecutive collaborative CHNA in Cook County and Chicago, and was intentionally built on the success of previous efforts, including the 2-016 collaborative CHNA, Healthy Chicago 2-0 (2016), and Cook County WePLAN (2016). The All iance worked closely with its Steering Committee and the City and County health department s to compile, design, and create the CHNA to meet regulatory requirements for nonprofit ho spitals. CHNA Methodology - Primary and Secondary Data Collection - Alliance Collaborative CHNA Report The Alliance collected primary data via four methods. 1) a 16-question community input survey administered to over 5,900 adults aged 18 and over, 2) 27 community resid ent focus groups and 22 learning map sessions, 3) three health care and social service pro vider focus groups, and, 4) two stakeholder assessments (Forces of Change and Health Equit y Capacity Assessments) led by partner health departments. Alliance partners and stakehold ers identified, gathered, and analyzed secondary data from a variety of sources. The data was organized into six categories social and structural determinants of health, physical environment, health behaviors, health care and clinical care, behavioral health (mental he alth and substance use disorders), and health outcomes (birth outcomes, morbidity, and mor tality). For complete information about the Alliance, the collaborative CHNA process, and data collection, see the Collaborative CHNA Report at allihealthequity org/2019-chna-reports/

SCHEDOLE H, PART V, SECTION B, LINE 11	Explanation of needs addressed/not addressed Holy Cross Hospital completed its 2019 CHNA The CHNA identified significant health needs and barriers to care faced by the communities served by Holy Cross Hospital Holy Cross Hospital leaders developed an implementation plan and rollout strategy that aligns with the Hospital's strategic plan and will be implemented over the course of three years. Holy Cross Hospital is addressing the following significant health needs. Social Determinants of Health. Community Safety. Health Care Accessibility and Use. Chronic and Infectious Disease. Behavioral Health Holy Cross Hospital has implemented projects such as providing community education around asthma, breast health, diabetes, maternal and child health, and violence prevention. In the Hospital, we have conducted HIV screening programs, worked on a quality improvement project to address COPD readmissions and assisted patients with social service needs. It is our goal to provide the best care possible to address the needs of our community. Holy Cross Hospital remains fully engaged in implementing the strategies and expects to substantially complete the identified plans by the time of the next CHNA.

Return Reference	Explanation
FORM 990, PART VI, LINE 15A & 15B	COMPENSATION REVIEW & APPROVAL PROCESS - OFFICERS & KEY EMPLOYEES Sinal Health System has a Human Resources Committee that approves all executive compensation arrangements, including incentive compensation. Sinal Health System's Human Resources Committee supports the organizational performance of Sinal Health System and its related entities through the align ment of executive compensation with system strategies and programs, and ensures compliance with applicable law. The voting members of the Committee are independent members of the board of directors. The Committee meets twice annually or more frequently as circumstances require. The Committee establishes detailed goals annually for the President and CEO and other executives, and reviews performance against these goals on an annual basis. The Committee annually engages an outside, independent compensation consultant to benchmark the sal aries and benefits of the organization's assistant vice presidents and above, as well as a few directors. Compensation is based on detailed written performance appraisals and exterinal market data. In an executive session, the Committee reviews the performance of the President and CEO, each element of compensation, data of compensation programs in effect for CEOs of comparable organizations, and conducts an annual review of CEO performance against established goals. The Committee maintains written minutes which are maintained in executive administration.
