EIN: 36-2170143

Name: La Rabida Children's Hospital

Form 990 (2018)

Form 990, Part III, Line 4a:

The primary service provided by La Rabida is inpatient services to children with chronic illnesses and disabilities. In fiscal year 2019 we had 262 admissions and 9,994 patient days of care. La Rabida Children's Hospital serves these children regardless of race, creed, sex, national origin, or ability to pay and is the most Medicaid dependent hospital in the State of Illinois, with more than 92% of its patient days of care rendered for Medicaid program beneficiaries. La Rabida Children's Hospital is a local expert and provides a site of training for residents and medical students. We train nearly 45 physician residents and medical students each year from the University of Chicago. La Rabida is also a training site for nursing, rehabilitation therapists, social work, psychology and respiratory therapy students. The Hospital works to ensure that all Hospital staff, both clinical and non-clinical, receives education on how to make the hospital a safe place for children. This includes quality initiatives for infection control, certification classes in CPR and Pediatric Advanced Life Support (PALS), running mock codes, classroom lectures for nurses, emergency preparedness training, and meetings on education and research. La Rabida also holds in-services as warranted for new products, policies and event-related occurrences.

Form 990, Part III, Line 4b:

The secondary services provided by La Rabida are various clinical outpatient services supportive of the special needs of our patients. These services include 4,619 treatment room visits, 12,128 physician clinic visits and 16,271 outpatient ancillary visits. The physician clinics are for children with chronic healthcare needs and their siblings. These services also include care coordinators, patient education, case management and numerous wrap around services such as nutrition and behavioral health. Included in the ancillary visits are physical therapy, speech therapy, occupational therapy and infant development specialty visits.

Form 990, Part III, Line 4c:

In conjunction with the inpatient and outpatient services provided, LRCH also provides several primarily grant funded program extensions. The largest are Children's Advocacy Center for children who have been abused, neglected or have experienced trauma, Child and Family Connections which is a healthcare system point of entry for early intervention services for residents of southeast Chicago, and Integrated Assessment which conducts mental health assessments for children entering custody of the Illinois Department of Children & Family Services.

Form 990, Part III - 4 Program Service Accomplishments (See the Instructions)

Describe the exempt purpose achievements for each of the organization's three largest program services by expenses. Section 501(c)(3) and (4) organizations and 4947(a)(1) trusts are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

(Code) (Expenses \$ 2,785,470 including grants of \$) (Revenue \$ 2,032,804)

The hospital formed the La Rabida Coordinated Care Network for Children with Complex Medical Needs (Network) as a Care Coordination Entity for Children with Special Needs (CSN CCE) As a CCN CCE, the Network develops alternative models of delivering care to Medicaid recipients through a provider-organized network

(Code) (Expenses \$ 0 including grants of \$) (Revenue \$ 359,707)

The Hospital maintains an approximately 11% interest in MHN ACO, LLC, which is a formal provider collaborative whose goal is to develop and implement provider-based solutions that improve the healthcare of Medicaid recipients in Chicago's south and southwest neighborhoods

Software ID:

Software Version:

EIN: 36-2170143

Name: La Rabida Children's Hospital

Supplemental Information

Return Reference	Explanation
Part V, Line 4	The Hospital's endowments consist of individual funds which were established to support the special services provided by the Hospital which are not covered by Medicaid and other third-party payors. The principal of the endowments must be maintained in perpetuity. Income earned on the endowments may be spent on the special services designated by the donors.

Supplemental Information

Return Reference	Explanation
Part X, Line 2	<p>The Hospital is a tax-exempt organization under Internal Revenue Code Section 501(c)(3) and, accordingly, no income taxes are provided for in the accompanying financial statements. The Hospital follows the Financial Accounting Standards Board (FASB) - issued guidance for accounting for uncertainty in income taxes. The Hospital files a Form 990 (Return of Organization Exempt from Income Tax) annually. When this return is filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others may be subject to uncertainty about the merits of the position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to not-for-profit hospitals include such matters as the following: the tax-exempt status of the entity, the nature, characterization and taxability of joint venture income and various positions relative to potential sources of unrelated business income (UBI). The Hospital had no UBI for the years ended June 30, 2019 and 2018. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes that it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions are not offset or aggregated with other positions. Tax positions that meet the "more likely than not" recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely to be realized on settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Forms 990 filed by the Hospital are subject to examination by the Internal Revenue Service (IRS) up to three years from the extended due date of each return. Forms 990 filed by the Hospital are no longer subject to examination for the tax years 2015 and prior.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 4	<p>The Hospital estimates the allowance for uncollectible accounts based upon management's evaluation of the collectability of its accounts receivable based on factors such as the length of time the receivable is outstanding, payor class, historical experience, trends in health care coverage, and business and economic conditions. Accounts receivable are written off against the allowance for uncollectible accounts when they are deemed uncollectible. Recoveries of receivables previously written off are recorded as a reduction of the provision for uncollectible accounts when received. Patient receivables, where a third-party payor is responsible for paying the amount, are carried at a net amount determined by the original charge for the service provided, less an estimate made for contractual adjustments or discounts provided to third-party payors. The past due status of receivables is determined on a case-by-case basis depending on the payor responsible. Interest is generally not charged on past due accounts. Receivables or payables related to estimated settlements on various payor contracts, primarily Medicaid, are reported as amounts due from or to third-party programs. Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental health care coverage could affect the Hospital's collection of accounts receivable, cash flows and results of operations.</p>

The application is available on LRCH's website and is also available for pick-up at the hospital's Patient Financial Services Department.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 2	<p>Community Assessment Goals and Processes Our families come from specific environments which can either enhance or challenge their abilities to care for their medically complex children. The goal of our community needs assessment is to understand the context in which our families live, specifically, as informed by Chicago's mission to improve community health (see Measuring Chicago's Health Findings from the 2014 Healthy Chicago Survey) and the health status data which is gathered and made publicly available online by the Chicago Department of Public Health. We participate in one collaborative—the Chicago Southside HealthCare Collaborative, anchored by the University of Chicago, which shares information and combined efforts to improve community health. We participate in the Medical Home Network, an organization of safety net providers dedicated to improving health and service outcomes for those served by Medicaid. We provide care coordination to one Medicaid Managed Care organization, which actively reviews resources, processes, and outcomes in order to improve services received by those served by Medicaid. Finally, because we work with families to reduce barriers to health and health services, both for children being cared for by La Rabida programs and for 2,500 children being cared for elsewhere across the region, we actively participate in daily conversations about the immediate and long term needs and options available to families in the region, and by collaborating with other agencies or health plans, to expand options available to our families. These sources drive enhancements and refinements to our programming to build on assets families already have, better meet challenges they face, and improve or expand the services we provide. For this report, we will look at the characteristics of the primary geographic areas we serve, and then at the results of a survey of our clinic attendees about the challenges they face. We expect both of these investigations and the information garnered from the relationships described above to inform program enhancements to be made over the next one to three years. Priority is given to ways we can boost our own programs and processes to help our subset of the population, families caring for medically complex children, reach their health goals.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 3	Patient Education of Eligibility for Assistance At the time of registration, families are asked to provide any insurance information that may be used in paying for the services being rendered. If insurance is not available, the family is advised of the availability of Public Assistance and the need to complete the necessary paperwork. Preliminary paperwork is completed by the Hospital and provided to the necessary Agency for follow up by the family. It is the family's responsibility to meet with the Agency to ensure eligibility. The family is also notified about our financial assistance policy and the necessary forms for qualification are provided if requested.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4	<p>Community Information Nearly 48% of La Rabida families (those who have used inpatient and/or outpatient services) come from 10 zip codes - what we are identifying as our primary service area - bounded by West Garfield and then E 35th street to the north, State Street and then Western Avenue south to 95th street, then reaching further east and south to Racine and 130th or so, all the way east to the Indiana border An additional 25% of patients come from 18 more zip codes (our secondary service area), reaching extensively into Chicago's south suburbs The final 26% spans a broad region indeed, comprising of 280 additional zip codes, and demonstrating our role as a regional specialty hospital Living below the federal poverty level In our primary service area, the percentage of residents living below the federal poverty level ranges from 42.2% to 13.7% By contrast the state average for Illinois is about 14% Per capita income ranges from \$11,993 to \$37,519 Poverty is particularly localized in the northwest corner of our service area, though pockets of deep poverty occur elsewhere in the region, such as in Burnside, and the entire region is lower than average By contrast, per capita income in the state is about \$54,203 Unemployment High rates of unemployment also occur throughout the region, ranging from a high of 24% in Auburn Gresham to a low of 11% in Kenwood/Hyde Park No high school diploma The percent of persons aged 25 years and older lacking a high school diploma ranges from 10.8% in Kenwood/Hyde Park to 29.4% in Englewood Dependency Englewood has a notably high dependency rate (43.4%) and Kenwood/Hyde Park stands out as a particularly low outlier (34.2%) Crowded Housing This is a proxy for the stress of living in crowded conditions, it measures the percent of occupied house in which there are more than one person per room Our primary service area ranges from 6% in East Side to 0.8% in Morgan Park</p>

Form and Line Reference	Explanation
Part VI, Line 5	<p>Promotion of Community Health La Rabida serves over 400 children and families through hospitalizations and 15,800 through outpatient clinics and urgent care visits annually. Almost half of La Rabida's patients (approximately 25%) are age five and under. La Rabida serves children and their families through age 18 and ensures that ongoing care is provided through referrals to local hospitals and clinics. In addition, La Rabida assists families in negotiating the new bureaucracies they will encounter once the child is no longer eligible for Medicaid upon reaching age 18. La Rabida is the most public insurance dependent hospital in the state of Illinois with Medicaid comprising over 85% of the hospital's income. The following are some of the programs used to meet the needs within our community: Trauma/Abuse Program. LRCH has one of the largest child abuse/trauma programs of any children's hospital in the country and has national recognition for cutting edge community based treatment and training programs. This program serves one of Chicago's and Chicago's south suburbs' most low-income areas. Adjunct services include forensic interviewing, case management, court services (i.e. accompanying children to court to testify against the perpetrator), liaison with community hospitals and community agencies. LRCH also provides outreach, training and consultation to child service programs in the community. LRCH currently provides ongoing consultation to the Chicago Department of Public Health Safe State Program, Ada S. McKinley Emergency Foster Care program, the Chicago Police Department Crisis Intervention team and the Vernon Park Church of God, among others. The program has provided training to many agencies, including The Little City Foundation, Cook County State Attorney's Office, Cook County Public Guardian's Office, various Chicago Public Schools, the University of Chicago, Department of Psychiatry and Department of Developmental and Behavioral Pediatrics, Casa Central and the Illinois Violence Prevention Authority. In addition, the Behavioral Sciences Department gives a number of lectures and community presentations throughout the year to school and professional groups. LRCH also assists DCFS in providing initial health screenings prior to placement for abused and neglected children who come into custody. LRCH assists the Illinois Department of Healthcare and Family Services as an enrollment site for a health insurance program for low income children and families Medical Home Program. LRCH is a NCQA-recognized Patient-Centered Medical Home (PCMH) that offers children from birth to age 18 with developmental problems and/or medically complex conditions an interdisciplinary model for primary care. The program utilizes a cross-disciplinary pediatric care team to work in partnership with patients and families to ensure all of the medical and non-medical needs of the patient are met. Through the use of shared patient data in the EMR and robust case management, the program focuses on outcomes while reducing costs associated with duplicative and fragmented care. The American Journal of Managed Care recently published results from a study that showed pediatric PCMH patients were 23% less likely to be hospitalized, required 17% fewer ED services and cost 14.5% less than pediatric non-PCMH patients. Through the medical home program, LRCH provides ongoing healthcare and social supports to children with special needs and their families from infancy until adulthood. This program delivers care and service that is family-centered, comprehensive, holistically addressing the child's needs, coordinated, team driven, and culturally sensitive. LRCH's "one stop shopping" medical home is a particularly important model when working with families who not only have a child with special needs, but also are burdened with other economic stressors. This allows for better and easier access to care, as well as maximizing positive outcomes over the long term while lowering the use of high cost services like duplication of diagnostic procedures and treatments, unnecessary emergency room use and inpatient hospitalization. Case Management Program. The La Rabida Children's Hospital Case Management Program goal is to provide care coordination, assessment, and education across the inpatient and outpatient spectrum of care to children with chronic conditions and developmental delays and disabilities. The Program's team of case managers (nurses and social workers) has extensive experience and knowledge uniquely qualifying them to serve La Rabida's patients and families. Most of the social workers are Licensed Clinical Social Workers (LCSW). Nurse expertise includes Nurse Practitioners (who also serve as providers in the outpatient clinics), those trained to case manage specific chronic conditions, failure to thrive and technology dependent children. Together they provide services to over half of the hospital's patient population each year. While case management</p>

Form and Line Reference	Explanation
Part VI, Line 5	<p>t services are available to all patients and families, their most intensive interventions focus on patients that are medically complex and with more than one health condition and/or health care provider. The Case Management Program makes it possible to effectively provide continuous chronic care to large groups of children with various conditions from infancy to adulthood. The program also assists the families of children with chronic conditions to navigate the necessary support systems. Each child and family is assessed to determine which community linkages need to be established. Case management coordinates care between L RCH providers and external providers such as subspecialists, Child and Family Connections, Chicago Board of Education and other Education Programs, Ounce of Prevention, Division of Specialized Care for Children (DSCC), Children's Home and Aid Society, Erickson Institute, Department of Child and Family Services, home health care agencies and medical equipment vendors. The Case Management Program has a significant impact on the ability of the family to provide necessary home care and to minimize hospitalization. The Case Management Program performs a large array of activities. While patients and their families may receive services anywhere from a few months to many years, these activities must occur year round on an ongoing basis to ensure children and their families receive needed services in a timely manner. Following is a list of the most common activities performed by Case Management staff:</p> <ul style="list-style-type: none"> -Coordination of multiple medical services and providers, including coordination of the management of technology dependent children in the home -Patient and caregiver education. For example, diabetes classes are given to caregivers, extended family and school personnel to understand how to manage the disease -The State of Illinois mandates special classes for caregivers before a medically complex child can be released to the home. These weekly classes run in four week intervals, and include G-tube care, Tracheotomy care, Ventilator care, and CPR/airway obstruction care -Ordering of home care services (nursing and equipment) -Telephone Management (Diabetes) Toll free call in numbers for patients and their families staffed by diabetes specialists. In addition to providing children and their families with a way to update the Diabetes team on their current glucose readings, it provides patients and their families with 24/7 access to a clinical nurse specialist who gives recommendations on medication, nutrition and exercise adjustments over the telephone -Feeding evaluations -Follow up of newborn screening results (sickle cell diseases) -Wound management consultation -Coordination of inpatient and outpatient rehabilitation program -Collaboration with community agencies, such as Division of Specialized Care for children (DSCC) -Coordination of school needs, including assistance in preparation of 504 Plans, a legally binding document that spells out exactly what special education services the child will receive and why. Form and Line Reference	Explanation
La Rabida Children's Hospital	<p>Part V, Section B, Line 5 As part of the Community Needs Assessment, La Rabida routinely receives information about community needs from a number of sources industry groups such as the Illinois Health and Hospital Association and the Children's Hospital Association, local collaboratives, such as the Healthy Chicago Hospital Collaborative and the South Side Healthcare Collaborative, managed care organizations, with whom we collaborate on prevention and screening efforts, disease- or condition-specific groups such as the Sickle Cell Disease Association of Illinois and EverThrive, and collaborations, particularly with our two major academic medical center colleagues, University of Chicago Medicine and Lurie Children's Hospital In addition, we receive briefings from Pediatrics Today Smartbrief and Chicago Department of Public Health, and also attend conferences, webinars, grand rounds and community meetings For the preparation of the Community Health Needs Assessment, the scope of our service area was researched and it was determined that our primary area included approximately 50% of our patients from 10 zip code areas, our secondary area included approximately 25% patients from 18 zip codes areas, and the remaining service areas included 280 additional zip code areas This research concluded that we are a small, but regional specialty hospital Focusing on our primary service area, we then turned to the data collected by epidemiologists at the Chicago Department of Public Health, as published in Measuring Chicago's Health, which tracked a "hardship index", comprised of six indicators, as well as age, race, perceptions and practices via the Healthy Chicago survey Comparing population changes from 2000 to 2016, and estimated changes through 2013 using census data, we determined that our area has experienced significant outmigration, 16% loss Better job opportunities and safety were the primary reasons for the outmigration found in local research reported by the Tribune We looked at changes in the health industry that impacted access to services in our area, as well as health and community assets Finally, since we provide extensive wraparound services to our patients to address a variety of social determinants of health (food, income, housing, and transportation insecurity, access to other support services), we engage in deep conversation daily with our own patients about what they need We surveyed our own patients, highlighting the specific issues that were found in the public survey data for our primary service area access to health care, what was needed to improve health and health services, chronic conditions and primary sources of health information Over a multiple-week period, three hundred surveys (presented in English and Spanish) were distributed to the primary family member whose child had a pre-scheduled appointment The data reflected responses from 115 (38%) respondents who live in our primary service area The leading issues identified</p>

If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

Form and Line Reference	Explanation
La Rabida Children's Hospital	<p>Part V, Section B, Line 11 A wide range of priority issues emerged from the CHNA process A committee of La Rabida senior executive staff reviewed the outcomes of the community health needs assessment and the clinic survey La Rabida Children's Hospital also reviewed the prior implementation plan and we reviewed the plan of the major medical center that is closest to us, as well as some other community initiatives underway in which we have the option to participate The significant needs identified in the CHNA which La Rabida elected not to address are</p> <ol style="list-style-type: none"> 1) Job and employment opportunities, the third biggest concern in our patient survey, as unemployment rated from ranges from 24% to 11% in our primary service area, compared to a long-term state average of 7% - La Rabida will not address this issue in its Implementation plan, as job insecurity is not just a south side phenomenon, it is a city, county and state issue which is beyond the resources of La Rabida However, we contribute where we can for example, we buy local vegetables in season from Growing Home, an urban farm that employs local people with particularly difficult employment challenges, preparing them to enter the mainstream job market 2) Having a safe place to walk and play was the second most cited concern in our patient survey Although parks are fairly well distributed in many of our communities, the survey reports that the perception of their safety varies with age, ethnicity and poverty - La Rabida will not address this issue in its Implementation plans, as the hospital does not have the internal assets nor resources to produce a significant impact on the resolution of this issue La Rabida evaluated the unique role La Rabida plays as a small specialty hospital in the constellation of providers in our community and discussed the best ways to build on those assets to the benefit of the community In general, we wish to bring enhanced services and/or access to services in areas of general behavioral health (#3 below), caregiver well-being (#4 below) and asthma intervention (#5 below) The following are the significant needs identified in the CHNA which La Rabida elected to address 3) Mental Health services, as severe psychological distress is not correlated with age, gender or ethnicity, but it is highly correlated with poverty, with 10 percent of those living at or below the federal poverty level reporting distress compared to 1 percent of those living at 400% of the federal poverty level or above - La Rabida plans to address this need by (1) embedding Behavior Health providers in our Outpatient Clinics and (2) training primary care providers to treat ADHD, depression and anxiety, including standard prescribing protocols (3) expand child psychiatry to include secondary support of PCP provision of primary health services as well as continuing treatment of more complex cases (4) introducing sickle cell integrated pain program (4) plan to expand services to include group therapy

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

La Rabida Children's Hospital	<p>y sessions (5) partner with the University of Chicago on pediatric mobile unit medical clinic to offer trauma consults to vulnerable populations (6) launch a trauma informed care seminar to train community providers 4) Caregiver Well Being, as the adult measures of our survey reflects an increased prevalence of diseases including cancer, stroke, diabetes and asthma The caregivers of the children we serve are juggling their own poor health while caring for their medically complex children - La Rabida will address this need by (1) inserting caregiver well-being checks into standard visit templates and (2) insert inquiry in to informal supports available to family (neighbors, church) into standard visit templates 5) Asthma Interventions, respondents of our survey were asked to name the top three health conditions their children were facing Asthma (grouped with diabetes and cerebral palsy) was the leading condition named 52%, followed by allergies (43%), and sickle cell (16%) - La Rabida will collaborate with the University of Chicago Medical Center to improve asthma in the surrounding community by joining and participating in the south side Pediatric Asthma Center La Rabida's Chief Medical Officer participated on the asthma outreach advisory committee</p>
