Dedicated to serving our entire community, Mercy is enriched by a board of directors comprised of civic-minded leaders Working in conjunction with this esteemed team, Mercy's leadership evaluates and dedicates resources to the promotion of a healthy community and an improvement in the lives of those we serve One example of Mercy's commitment to unmet needs exists in the House of Mercy Initially developed to provide safe and supportive housing for vulnerable women and their children, the House of Mercy is now one of Iowa's largest providers of transitional housing and clinical services for parenting women with addiction. The House of Mercy is dedicated to assisting pregnant, parenting/non-parenting, and adolescent/adult women in developing personal responsibility and independence through counseling, education, and medical care in collaboration with other caring individuals. It is home to 11 vital human service and health care related programs and, on average, houses nearly 170 women and children in the residential treatment program. During their stay, women gain the skills they need to live independently, deal with addiction, overcome the effects of trauma and effectively parent their children Mercy Medical

Schedule H, Part VI COMMUNITY BENEFIT NARRATIVE AND NEEDS ASSESSMENT, SCH H PART II	Mercy Medical Center - Des Moines is an 802-bed acute care, not-for-profit Catholic hospital situated on three campuses. Founded by the Sisters of Mercy in 1893, Mercy is Des Moines' longest continually operating hospital and one of the largest employers in the state, with more than 6,600 employees and a medical staff of more than 950 physicians and allied health professionals. As the first Catholic hospital to serve the community, Mercy embraced the mission of the founding religious congregation, which has since joined with other religious congregations to form Catholic Health Initiatives. CHI serves as the parent corporation of its MBOs which are comprised of 101 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$1.14 billion in charity care and community benefit in the 2018 fiscal year, including services for the poor, free clinics, education and research. Financial assistance and community benefit totaled approximately \$2.1 billion with the inclusion of the unpaid costs of Medicare. Mercy is one of the Midwest's largest referral centers, offering a variety of specialty services that are unique to Iowa and the region. In addition, a 24-hour emergency room is open to all individuals regardless of ability to pay. While a participant in Medicare and Medicaid, Mercy also deploys a robust financial.

The consolidated footnote reads as follows. CommonSpirit relies on the results of detailed reviews of historical write-offs and collections in estimating the collectability of accounts receivable. Updates to the hindsight analysis is performed at least quarterly using primarily a rolling eighteen-month collection history and write-off data. Subsequent changes to estimates of the transaction price are generally recorded as adjustments to net patient revenue in the period of change. Subsequent changes that are determined to be the result of an adverse change in a third-party payor's ability to pay are recorded as bad debt expense in purchased services and other in the accompanying consolidated statements of operations and change in net assets. Bad debt expense for 2019 was not significant.

Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population. For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHA framework in Category C as "subsidized health services." Medicare losses are different from Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement. Medicaid payment is largely driven by what states can afford to pay, and is typically substantially less than what Medicare pays.
