Schedule H, Part V, Section B Hospital Websites	Part V, Section B: During the course of the tax year and/or prior to the filing of the return for the taxable year, the filing organization, which is part of a larger health system, transitioned from a separately hosted website (or websites), to being a part of the health system's centrally hosted hospital website. This transition was intended to facilitate public access to information, including enabling the health system to better manage and monitor compliance requirements that IRC Section 501(r) information be made widely available to the public. During and as a result of the migration of hospital facility information to the new central website, it is possible that there may have been brief instances of web access interruption. If so, the filing organization believes that any such interruptions would have been minor and inadvertent, and due to reasonable cause, and that any such instances would have been immediately addressed when identified. The filing organization and health system have established procedures in place as part of its centralized monitoring and management processes that are reasonably designed to address, monitor and promote compliance with the requirements of IRC Section 501(r). In an effort to be fully transparent, the filing organization has chosen to pro-actively disclose on this Form 990 this possibility of very minor and inadvertent web access interruptions that could have occurred in the normal course of migrating locally maintained hospital facility information to an improved centrally managed website. In so disclosing, the organization is not reporting that interruptions in the nature of a Section 501(r) violation in fact occurred. Rather, the organization is pro-actively disclosing that the migration process was undertaken and that, in completing that process, it is possible that brief interruptions in web access may have occurred as the hospital facility data was relocated to the central website.

Schedule H, Part VI, Line 4 Community information	With the FY18 Community Needs Assessment, our Community Benefit Service Area (CBSA) has re defined. First, due to multiple internal and external changes over the last two decades, the zip codes that comprise the Saint Agnes Hospital service area have shifted East and the primary service area (Top 60% of lives served) has oriented to include a greater share of West Baltimore city communities. Second, anticipating Phase 2 waiver the CBSA was redefine do to better align with Phase 2 Total Cost of Care patient attribution geography. And fina lly, the CBSA was aligned to those zips codes where Saint Agnes has the greatest aiblity to demonstrate meaningful impact on community health outcomes. The wide variety of needs th at exist throughout the service area can be addressed most effectively with an acute focus on those crucial needs upon which Saint Agnes Hospital can have the greatest impact. It is this focus that will guide the allocation of resources, and development of health care p rograms, which will most significantly improve community health. Due to its location in the southwest segment of the Baltimore City and Baltimore County) has a population of approximately 400,514 (all population data was taken from Sg2 data for 2018).
