Supplemental Information

Return Reference	Explanation
Part X, Line 2	<p>Schedule D, Part X, Line 2 requires that the organization provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under ASC 740. ASC 740 addresses the accounting for uncertainty in income taxes recognized in an entity's financial statements and prescribes a threshold of more-likely-than-not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. The adoption of ASC 740 by Bon Secours Mercy Health, Inc. on September 1, 2007 did not have a material impact on BSMH's consolidated financial statements. As the organization does not conduct a separate audit of its financial statements, below is the related statement from the Bon Secours Mercy Health, Inc. consolidated audited financial statements: The System and most of its subsidiaries (including certain joint venture entities) are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. The System accounts for uncertain tax positions in accordance with ASC Topic 740, Income Taxes. Their related income is exempt from federal income tax under Section 501(A). The System accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The System has determined that no material unrecognized tax benefits or liabilities exist as of August 31, 2018 or 2017. Accounting for uncertainty in income taxes, ASC Topic 740-10 prescribes a comprehensive model for how an organization should measure, recognize, present, and disclose in its financial statements uncertain tax positions that an organization has taken or expects to take on a tax return. The System is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The System believes it is no longer subject to income tax examinations for years prior to 2013. As of August 31, 2018 and 2017, the System has no uncertain tax positions. The System's taxable subsidiaries had approximately \$97,815 and \$106,393 of net operating loss carryforwards as of August 31, 2018 and 2017, respectively, which expire in varying periods through 2037 and are available to offset future taxable income. The System accounts for income taxes under the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be in effect during the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rate</p>

Supplemental Information

Return Reference	Explanation
Part X, Line 2	<p>s is recognized in income in the period that includes the enactment date. Interest and penalties related to income taxes are accounted for as income tax expense. The System's deferred tax assets are fully reserved at August 31, 2018 and 2017 as the System considers it more likely than not that these amounts will not be recognized. On December 22, 2017, the President signed into law H.R. 1, originally known as the Tax Cuts and Jobs Act. The Act significantly revises the U.S. corporate income tax by, lowering the statutory corporate tax rate from 35% to 21% and eliminating certain deductions. The new law also includes several provisions that result in substantial changes to the tax treatment of tax-exempt organizations and their donors. The System has reviewed these provisions and the potential impact and concluded the enactment of H.R. 1 will not have a material effect on the operations of the organization.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 6a	Annually, Bon Secours Richmond Health System (BSRHS) publishes a report for the community on the community benefit services and programs that exist. This report also includes the annual financial commitment of the local system to the community, detailing monetary contributions for government sponsored healthcare shortfall, community benefit programs and charity care at cost. This report is available to the public each year on or around January 24, commemorating Founding Day of the Sisters of Bon Secours. This report is available online at https://bonsecours.com/richmond/about-us
Part I, Line 7	Part I, line 7a Charity Care at cost is computed by applying a cost-to-charge ratio to the aggregate charity adjustments recorded in the general ledger. Part I, line 7b Unreimbursed Medicaid is computed by determining the cost of Medicaid services supplied less payments received for these services. To determine the cost of Medicaid services provided, a cost-to-charge ratio is applied to traditional and managed Medicaid gross charges captured in the patient accounting system and general ledger. Payments include payments for individual claims, payments from the Medicaid program paid outside the claim process (such as medical education payments) and expected or actual cost report settlements. Part I, line 7c Unreimbursed costs from other means-tested government programs are computed by applying a cost-to-charge ratio to the total charges to patients covered under these programs. The charges are identified by the financial class assigned to the patient. For Part I, Line 7 a-c computations. The cost-to-charge ratio is derived using the suggested computation in Worksheet 2, Ratio of Patient Care Cost-to-Charges. Operating expenses and Gross patient charges are taken from the general ledger. Expenses for nonpatient care activities recorded in operating expenses are approximated as directly equaling other operating revenue, assuming these activities do not provide profit. Part I, line 7e Community health improvement services and community benefit operations are accumulated throughout the year and reported at actual cost in a software program that specifically addresses this purpose.

Form and Line Reference	Explanation
Part I, Ln 7 Col(f)	Bad debt expense included in Part IX, line 25 and excluded from the "percent of total expense" calculation is \$5,620,221
Part II, Community Building Activities	Funding was provided to community partners working in Richmond's East End to renovate housing, create community gardens, stimulate economic development through seed funding, enhance children's educational experiences and provide recreational opportunities to children residing in public housing

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2	Bad debt expense on the general ledger includes 1) actual write offs of discounted gross charges where it is determined an uninsured patient can pay and does not pay, and 2) the estimated write offs for uninsured patient accounts with outstanding balances after discount Estimates are based on historical collection rates When an uninsured patient is billed for patient care services, the charges are automatically discounted and the patient is requested to only pay the amount after discount The discount is recorded as an adjustment to gross revenue and is not recorded in bad debt expense If the balance after discount is not paid or not paid in full, the unpaid amount will be written off to bad debt expense When a patient remits a payment on an account that has already been written off to bad debt expense, the payment is recorded as a recovery of bad debt, which reduces bad debt expense
Part III, Line 3	The organization does not report an estimate for the portion of bad debt expense that may have been likely to qualify for financial assistance under the hospital's charity care policy The organization takes the position that ample opportunity and assistance is provided to the patient to qualify under the financial assistance policy If sufficient information is not provided, the organization must assume the patient does not qualify

Part III, Line 4	Please see Footnote "(2d) Accounts Receivable, net" discussing "accounts receivable" on page 10 in the attached BSMH consolidated audited financial statements ("AFS") "Allowance for uncollectible accounts" is discussed in the second paragraph in Footnote "(10) Net Patient Service Revenue" on page 37-38 of the attached AFS There is not a separate "bad debt expense" footnote in the AFS
Part III, Line 8	Medicare allowable costs reflected in Part III come directly from the facility's Medicare cost report The cost report segregates the total facility actual expenses into costs for support departments, clinical departments (routine and ancillary) and nonreimbursable departments The cost report uses appropriate statistical bases to "step down" support costs to allowable clinical and nonreimbursable departments The charges for clinical departments are matched to the total cost for these departments for a cost-to-charge ratio Medicare-specific allowable costs for in- and outpatient ancillary departments are computed by applying the department-specific cost-to-charge ratio to the Medicare program charges by department For routine departments, a per diem total cost is computed and applied to Medicare program days for the Medicare routine program cost

Part III, Line 9b	<p>The hospital has a written policy that describes collection practices applying to patients who qualify for financial assistance. If full assistance is approved, no collection efforts are pursued on that patient's account(s). If partial assistance is approved, the patient is responsible for the adjusted account balance and collection efforts will follow the established practices for all patients where a self-pay balance exists. Collection efforts are not pursued on any pending FAP account. Specific criteria exists for how much financial assistance, partial or total, will be provided to the patient based on the assessed need. Criteria is based on Federal Poverty Guidelines and is reviewed and updated annually. Once a patient has been deemed eligible for the Patient Financial Assistance Program (FAP), the patient is notified by letter within 60 days after receipt of the application and supporting documentation. The patient retains eligibility for a period of eight months from the date of the application. This eligibility is identified by hospital admissions, billing and collection staff by the assignment of a specific financial class with accompanying eligibility dates. At the end of the eight months, the patient is responsible for reapplying for FAP eligibility.</p>
Part VI, Line 2	<p>The 2016 CHNA was conducted during Fiscal Year 2016 (September 1, 2015 to August 31, 2016) by the Community Health Services team in order to prepare documents by the end of the fiscal year. It was determined that existing quantitative data, augmented by a community survey, and community conversations would be used to identify and prioritize health indicators. All identified needs were reported to the Community Advisory Board to prioritize based on need and feasibility. An executive summary and report was then presented to system leadership from Mission. Findings were then presented to the Executive Management Team for further review and comment. Finally, a presentation was made to the Bon Secours Richmond Health System Board for final approval prior to being made available to the public. Quantitative Data was gathered and compiled via publicly available data sources such as County Health Rankings, the Census Bureau, and the Virginia Department of Health. The data presented in the CHNA reflects how the area served by Bon Secours Richmond Health System compares to Virginia overall and/or the nation. Health issues and conditions were either identified by the community during qualitative community conversations or are issues which deviated from the state or national findings. Community Input from community members was included in assessing health care needs as described in Part V, Line 5.</p>

Part VI, Line 3	<p>The Patient Financial Assistance program is communicated to patients verbally upon scheduling, registration, visible postings of the program are in common areas throughout the hospital, along with brochures and the program is detailed on our Bon Secours website. In addition, patient billing statements and letters inform patients regarding our financial assistance program. Bon Secours Mercy Health proactively screens patients to identify individuals and their families who may qualify for federal, state or local health insurance programs or the Bon Secours Mercy Health Patient Financial Assistance Program ("FAP") and assist the potential eligible patients through the qualification process. Potentially eligible patients that do not qualify for a federal or state health insurance program are referred to the Financial Assistance Coordinator located in Patient Financial Services for assistance in completing the documentation required to establish FAP eligibility. Bon Secours Mercy Health is also dedicated to meeting the needs of non-English speaking patients by having on-site Spanish translators, and other language translation services. In addition, Bon Secours Mercy Health employs a telephone language service which assists in meeting any language needs that arise. The translation services are offered to non-English speaking patients from admission to discharge, including the financial assistance process. Based on market need, our financial assistance policy and application is translated into multiple languages and placed on our Bon Secours Mercy Health website for patients to access.</p>
Part VI, Line 4	<p>In 1895, Richmond Community Hospital opened as the first facility in Richmond designed to serve African-American patients in historic Jackson Ward. Bon Secours Health System acquired the hospital, which by then had moved to the present location of 1500 N. 28th Street in historic Church Hill. Today, Bon Secours Richmond Community Hospital is an acute care facility licensed for 104 beds. The Richmond Community Hospital service area extends through much of the Richmond metropolitan area, including downtown Richmond. It is uniquely located in Richmond's East End, an historic area of Richmond with great diversity and culture. The Richmond Community Hospital service area falls mostly in the City of Richmond and also serves residents primarily from the counties of Chesterfield, Hanover and Henrico. Bon Secours Richmond Health System serves the larger Richmond, Virginia metropolitan area and includes four hospital facilities whose service areas largely overlap. While the hospitals serve patients from many cities and counties, the majority of patients fall within the counties of Chesterfield, Henrico, Hanover and the City of Richmond totaling approximately 1,067,000 residents. For the purpose of this CHNA, we refer to these as the "Richmond Core Service Area." The Richmond Core Service Area is 53% Caucasian and 30.7% African American. When the demographics of the City of Richmond are viewed alone, we find a much lower percentage of Caucasians (40%) and a much higher percentage of African Americans (49%) than the community overall. The population age distribution for the Richmond Core Service Area is similar to Virginia overall with the exception of the City of Richmond, which has a higher percentage of 19-64 year olds (70%) and lower percentages of children (18%) and older adults (12%). Median household incomes in the United States are less than those found in Virginia overall. The Richmond Core Service Area counties of Henrico, Hanover and Chesterfield all have higher median household incomes than the U.S. overall. In contrast, the City of Richmond has a much lower median household income (\$39,249) as compared to the U.S. (\$53,046) and Virginia overall (\$63,907). Compared to Virginia, the percentage of uninsured adults is highest in the City of Richmond (20%) and lowest in Hanover County (10%). The percentages of uninsured children show a much lower degree of variance.</p>

Richmond Community Hospital, Inc	<p>Part V, Section B, Line 5 2015 CHNA Community Survey An electronic survey using Survey Monkey was developed and administered to 759 community members and partners. The survey was offered in Spanish and English. 65 individuals completed the survey in Spanish and 694 completed the survey in English. Individuals were invited to participate based on their ability to represent underserved, low-income and minority population needs, needs of chronically ill patients, and awareness of healthcare needs in their respective communities. Participants were asked to share their viewpoints on Important health concerns in the community, Significant service gaps in the community, Ideas for addressing concerns and service gaps. To gauge the importance of various health concerns, respondents were asked to "Choose the top 5 priorities you think should be addressed in your community" from a list of 34 health concerns. Respondents were then asked to rate their overall health, the health of the community, and the quality of life of the community. Other questions included reviewing lists of services typically important to addressing health concerns and how strong the community was in providing those services. Respondents were then asked to indicate services that needed to be strengthened in terms of availability, access, and quality. Open-ended response items were provided for participants to indicate additional service gaps in the community and ideas for addressing concerns and service gaps.</p> <p>Community Conversations Five Community Conversations were held as part of the CHNA process in which 78 individuals participated from all of the core jurisdictions of Hanover, Henrico, Chesterfield, and Richmond City. Overall, the racial and geographical diversity of the participants represented a healthy mix of the region's residents. The purpose of the conversation was to elicit feedback from community members about publicly available health data describing health conditions in the services area, and to review the online survey results to further explore findings. Attendees were asked to 1) rank the health issues identified in the Community Survey according to the issues that impact them and the people close to them the most and 2) rank the issues needing to be addressed to improve the overall health of the region from a community view.</p> <p>Priority Needs Bon Secours Richmond convened a CHNA Advisory Board to support the process by engaging community members and providing feedback on the findings. The CHNA Advisory Board included individuals with special knowledge of public health and underserved populations and included the following: Directors from the Richmond City Health Department and the Chickahominy Health District, an Executive Director of a Free Clinic, a Vice President from VCU Health, Vice Presidents from the Better Housing Coalition and United Methodist Family Services, and the Executive Director of the Richmond Academy of Medicine. Part IV Supplemental Information. Provide the information required in Part I, line 2; Part III, column (b); and any other additional information.

Return Reference	Explanation
Part I, Line 2	Per Bon Secours Mercy Health's system-wide financial and accounting policies, contributions are generally made as reimbursements for funds spent. In such cases, the donee/grantee organization must provide documentation to the filing organization before funds are approved for disbursement. In other cases, grantees submit progress reports on the anniversary date on which the grant was received. The evaluation report includes: 1) progress toward the deployment of the stated goals and objectives, 2) progress towards the achievement of desired outcome as demonstrated by Project Work Plan, 3) an accurate accounting of the revenue and expenses and the amount of the mission fund award expended, and 4) a summary past, current and future funding sources and efforts to secure sustaining sources of funding.
Part III	Description of the Bon Secours Mercy Health Mission Fund: Bon Secours Mercy Health performs its philanthropic work through its mission department. This initiative, called the Bon Secours Health System Mission Fund ("Mission Fund"), was developed to promote the Catholic Health Ministry and the Bon Secours Mercy Health, Inc Mission. This purpose is realized through the funding of initiatives that improve the health and well-being of communities, particularly for disenfranchised and marginalized people, served by Bon Secours Mercy Health Local Systems ("Local Systems"), Cosponsors and the Congregation of the Sisters of Bon Secours. The scope of its purpose and use of funds would be to: -promote healthy community coalition initiatives in conjunction with local system efforts, -develop local system and community excellence for a specific health condition and preventive need, and -improve access for uninsured populations and reduce health disparities among populations in the community. The Strategic Quality Plan of the health system calls for focused efforts to Build Healthier Communities. The health system understands "health" to include social and communal dimensions and has adopted the following articulation of a healthy community. The conditions of communities and individuals served by Bon Secours Mercy Health reflect the interaction of significant factors and complex behaviors at the individual, communal, and societal level. It is not likely that interventions by any one organization will result in substantial improvement or benefit to the community. Rather, increased participation by stakeholders and greater cooperation among entities with appropriate skills and resources is necessary for systemic change and improved outcomes. Mission Fund grants place emphasis on increased collaboration among community based members (Healthy Community Initiative), public health officials and other providers of services. The Mission Fund anticipates that most endeavors that seek to bring meaningful improvement require time and commitment. Consequently, local system grant recipients may expect continuity of support (several years) to establish and track outcomes. At the same time, grant applicants need to cultivate and achieve a wide array of financial resources necessary to sustain promising projects and service programs.

Form 990, Part VI, Section B, line 12c	<p>The organization regularly and consistently monitors compliance with the conflict of interest policy. On an annual basis, all persons subject to the policy, including all officers, directors and key employees are required to make certain disclosures. These include disclosures related to certain personal, financial and organizational relationships that may present a conflict, or the appearance of a conflict of interest with the organization. All disclosures go through a three-part review process: (1) disclosures are reviewed first by the corporate responsibility officer (CRO), (2) a governance team comprised of the CEO, board president, board chair, CRO, and the BSMH CRO participate in a second review of all disclosures during which recommendations are made as to the resolution of any conflicts or potential conflicts. Depending on the facts and circumstances, resolutions may include ongoing disclosure, recusal or removal of the conflict, and (3) all disclosures and recommendations are reviewed by a board committee (audit and compliance committee reviews the disclosures of management and the governance committee reviews the disclosures of the board and board committee members).</p>

Form 990, Part VI, Section B, line 15b	<p>The compensation committee of the board of Bon Secours Mercy Health (BSMH) engages in a comprehensive process for the oversight and management of remuneration for executive employees and disqualified parties of BSMH. The compensation committee consists of a group of independent board members and engages an independent external compensation consultant to ensure they receive appropriate analysis of market and follow the practices necessary to obtain full compliance with the IRS's rebuttable presumption of reasonableness. The committee establishes and maintains a compensation philosophy, reviews pay practices against local, regional and national healthcare organizations and approves all remunerative decisions for this group of individuals. The committee reviews and receives assurances that all levels of pay within the organization are reasonable based on performance and validates incentives are met. These decisions are documented in the BSMH board of directors and compensation committee minutes.</p> <p>Compensation Process Other Officers/ Key Employees</p> <p>For those key employees and highest paid employees that are not reviewed by the BSMH compensation committee, the process included a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision. In the review, the other officers or key employees of the organization were compared to other hospitals' employees in the area that hold the same title. During the review and approval of the compensation, documentation of the decision was recorded in human resources.</p>
