990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I Line 3c	Potomac Valley Hospital PVH uses 200 Federal Poverty Guideline to determine free care eligibility. PVH offers a Prompt - Pay Discount Program - patients who have no third party coverage uninsured or uninsurable may be eligible for a 20 self-pay discount while patients who have a guarantor balance may be eligible for a 20 discount. To be eligible for either discount the patient/guarantor must meet certain requirements.
Part I Line 6a	Potomac Valley Hospital community benefit numbers are reported in total with the other hospitals within West Virginia United Health System. The 2019 amounts can be found at the following web address http://wvmedicine.org/about/community-benefit/ .

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I Line 7	Column f - Total community benefit expense for 2019 is 7,438,022 and is 23.11 of total net expenses. To calculate net expense, bad debt of 1,837,356 was deducted from total expenses of 34,020,883 as shown in Part IX line 25 of the core Form 990.
Part I Line 7	Worksheet 2 from the IRS Schedule H instructions was used to derive the Cost-to-charge ratio, which was used to calculate Charity Care, Unreimbursed Medicaid and other means-tested government programs at cost. To calculate the Medicare allowable cost shown in Part III question 8, we used the allowable costs from the Medicare Cost report.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part II	For 2019, PVH employees spent work time volunteering for the Mineral County United Way Day of Caring.
Part III Line 2	Bad Debt Expense at Cost on Line 2 was calculated by multiplying bad debt expense of 1,837,356 by our cost-to-charge ratio of 60.65 for a total of 1,114,356 less DSH allocations to self-pay patient accounts of 124,761 for a total of 989,596.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III Line 3	Estimated bad debt attributable to patients eligible for charity care on Line 3 was calculated by pulling all outstanding patient balances of 5,000 or greater from our patient accounting system. That report totaled 128,766, which was then multiplied by the cost-to-charge ratio of 60.65 for a total of 78,097.
Part III Line 3	We feel that at a minimum, the estimated bad debt attributable to patients eligible for charity care of 78,097 should be considered community benefit due to the fact that anyone with outstanding balances of 5,000 or greater in our demographic usually qualifies as catastrophic if the patient completes the application process. In our Charity Care Policy, we define catastrophic care as any illness or injury that will likely require continuous or frequent treatment for more than one year and would have qualified for charity care if paperwork was completed.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III Line 4	<p>Potomac Valley Hospitals financial statements are prepared on a consolidated basis as a member of the WV United Health System. The footnote for Accounts Receivable is as follows Patient accounts receivable are reported at net realizable value. For accounts receivable associated with services provided to patients who have third-party coverage, the System estimates net realizable value based on estimated contractual reimbursement percentage, which in turn is based on current contract provisions and historical paid claims by payor. For self-pay accounts, including uninsured and patient responsibility accounts, the net realizable value is determined using historical collection experience, adjusted for estimated conversions of patient responsibility portions, expected recoveries and changes in trends to estimate implicit price concessions. Management continually reviews the estimated net realizable value of accounts receivable by monitoring cash collections, economic conditions and trends, changes in payor mix, changes in federal or state healthcare coverage and other matters. The System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements, primarily with Medicare, Medicaid and various commercial insurance companies. The System records accounts receivable net of estimated price concessions and such amounts have historically been within managements expectations. The mix of accounts receivable at December 31, 2019 from patients and third-party payors is as follows Medicare - 27, Medicaid - 17, Blue Cross - 24, Commercial, managed care and other - 26, Patients - 6, totaling 100.</p>
Part III Line 4	<p>For receivables associated with self-pay patients, which includes both patients without insurance and insured patients with deductible and copayment balances, the System records a significant provision for bad debt in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the billed rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.</p>
