Form 990 (2018)

---

**Form 990, Part III, Line 4a:**

The Health Systems Strengthening sector includes Public Health Informatics Institute(PHII), Training Programs in Epidemiology and Public Health(TEPHINET), African Health Workforce Project(AWP) and MedSurplus Alliance(MSA) PHII provided direct services to the U S public health system through a cooperative agreement with the Centers for Disease Control (CDC), and funding from the Robert Wood Johnson foundation This funding supported PHII and its partners in efforts to increase the capacity of public health informaticians and other public health leaders and practitioners to improve the collection, management and use of information and information technology for protecting and improving health and reducing disparities Key activities included providing technical assistance and online tools to state and local health departments in linking to private healthcare electronic records systems for the purpose of electronically reporting disease cases, providing training to public health professionals in essential informatics competencies, and assessing non-communicable and injury epidemiology capacity in state and/or local health departments in informatics, data and methods Additionally, PHII is a partner on a collaborative Gates Foundation-funded project that is collecting data to reduce childhood mortality across the globe, this project is working on mortality surveillance activities at sites in Asia and Sub Saharan Africa Finally, this year, Emory's Department of Human Genetics and the Metabolic Nutrition Program continued to fund PHII in designing and building a health information system that streamlines multiple sources of information about patients with metabolic disorders The new system will enable providers to manage their patients' overall healthcare needs in a more efficient manner, including specialized food and formulas prescribed for patients TEPHINET met with global health leaders, including WHO Director-General, to begin operationalizing the recommendations made in the Global Field Epidemiology Roadmap Hosted the 10th TEPHINET Global Scientific Conference, convening approximately 600 field epidemiologists and other public health professionals from more than 80 countries and officially launched the FETP Enterprise and announced the formation of a strategic leadership group to drive its progress The Program formed the FETP Learning Advisory Council and began developing a comprehensive new learning strategy for the FETP Enterprise in order to ensure a well-trained and professional global field epidemiology workforce prepared to address evolving public health priorities It accredited four FETPs, opened the fifth cycle of FETP accreditation and formed the TEPHINET Advisory Scientific Committee to provide strategic, science-based recommendations to the TEPHINET Secretariat In addition, it collaborated with the Focus Area for Compassion and Ethics on a survey to better understand ethical dilemmas encountered by professional field epidemiologists and developed training modules on practical ethics for veterinarians and global health photography ethics It also held a training on Epidemiology in Humanitarian Emergencies in Uganda for FETP graduates in partnership with AFENET, WHO and CDC and organized the 2019 FETP International Nights at the 68th Annual EIS Conference Awarded 20 small grants to FETP fellows and graduates working on projects related to non-communicable diseases and cancer and collaborated with ministries of health and higher education to increase biosafety and biosecurity standards in Iraq and Yemen Received funding from and collaborated with CDC, U S Department of State, CDC Foundation, and CRDF Global to implement approximately 40 public health projects related to maternal and child health, infection prevention and control, non-communicable diseases, influenza surveillance, biosafety and biosecurity, polio eradication, operational support to FETPs, and more AWP is winding up its activities and will end on May 31, 2020 During this past year, the team worked with the University of Nairobi to create an online certificate course in Data Management, Analysis, and Dissemination, with 3 learning modules to teach participants the FUNDAMENTALS OF HUMAN RESOURCES FOR HEALTH DATA MANAGEMENT (module #1), BASIC STATISTICAL CONCEPTS AND APPROACHES FOR HRH DATA USE (module #2), and HRH INFORMATION DISSEMINATION (module #3) This course will be offered online, initially free of charge, to all health managers and human resource managers in Kenya In collaboration with the National AIDS and STI Control Program (NASCOP), the Project developed a human resource information system to track all professionals who have trained in HIV counseling and testing and certified by NASCOP It also established electronic interoperability between the regulatory human resource information system and the Ministry of Health human resource information system so that data is now easily available on all healthcare providers hired by the government health system This allows HR managers to easily determine which professionals have an up-to-date license and practicing legally and which are not, improving the quality of health care MSA Program - The MedSurplus Alliance Code of Conduct, Accreditation Program, stakeholder programs and education resources are helping to build responsible medical product donation programs through donor education, donation program certification, and cross-sector collaborations MSA-accredited medical surplus recovery organization ## Form 990, Part III, Line 4b:

The Neglected Tropical Disease sector includes CWW (Children Without Worms), ITI (The International Trachoma Initiative), NTD-SC (the Neglected Tropical Disease-Support Center), MDP (The Mectizan Donation Program) and GPZL (Global Partnership for Zero Leprosy). Funded principally by the Bill & Melinda Gates Foundation, the U.S. Agency for International Development and the Department for International Development (UK AID), the NTD-SC aims to optimize Operational Research (OR) to eliminate neglected tropical diseases which threaten the lives and well-being of more than one billion of people in some of the world's poorest communities. As of 2019, the NTD-SC manages a portfolio of more than 200 OR projects spanning 60 countries and targeting all five neglected tropical diseases amenable to preventive chemotherapy: lymphatic filariasis, onchocerciasis, STH, schistosomiasis and trachoma, morbidity and social science. Some of these OR study products have resulted into program recommendations which the World Health Organization (WHO) has endorsed and adopted into WHO policy while others are clinical trials which may result in new therapies for NTD diseases. In addition, the NTD-SC serves as the Secretariat for the Coalition for Operational Research on Neglected Tropical Diseases (COR-NTD) yearly meeting. This meeting brings together a growing group of researchers and country program implementers working to foster important collaborations to address the challenges faced by NTD programs which prevent the shared goal of eliminating these infections. The 2-day event convened four hundred fifty individuals from more than 40 countries and 128 different organizations for 24 breakout sessions, translating ideas into future OR projects for 2020. In addition, the NTD-SC is working with African Research Network for NTDs (ARNNTD) support a small grants program sponsored by USAID and UK AID, to develop research capacity in the African region. At the 2018 COR-NTD meeting, 18 young investigators were provided support to conduct their studies in 2019. CWW During the reporting period, CWW continued the management of the GSK-supported NTD Deliver supply chain web-based information portal. National Ministries of Health, the World Health Organization (WHO), pharmaceutical, and implementing partners use the online database to track requests for donated medicines used in the control and elimination of various neglected tropical diseases (NTDs). From September 1, 2018 to August 31, 2019, CWW supported the accurate and timely delivery and monitoring of 97 consignments of GSK Albendazole to 55 countries for lymphatic filariasis & STH. The total delivered treatments were 967,907,000. In FY19, CWW continued to support the Bangladesh national STH program in its efforts to map the post-intervention STH burden and conduct community-level surveys in four additional districts including a rural versus urban risk area comparison in Dhaka district. Data from seven districts was concatenated and analyzed together with significant outcomes that are informing further program decisions. This analysis was presented at ASTMH by CWW in November 2019. A protocol and checklist were also developed for investigating areas of continued high transmission ("hot spots") in two surveyed districts. The fieldwork is ongoing, and led by the CWW Technical Advisor in Dhaka. CWW efforts to support and position the STH Advisory Committee as the recognized global technical body for STH-related issues led to the 2018 annual STH Advisory Committee meeting being held jointly with the WHO to propose targets for STH control post-2020. This was the first time that WHO formally requested a joint Consultation with the CWW-assisted STH Advisory Committee, and shows the significant progress in bridging this relationship as a result of CWW and partners' efforts. The meeting brought together 37 independent experts drawn from 19 organizations as well as WHO participants from Geneva, regional, and country offices. In Kenya, we finalized a formal agreement with the Kenyan Red Cross Society/NTD Program and the African Field Epidemiology Network/FELTP to initiate the sustainable M&E implementation in Kenya. Through this engagement, we are supporting a full-time FELTP resident who is seconded to the NTD program for two years to facilitate the data management and M&E capacity-strengthening project. ITI works tirelessly for a world free from trachoma. ITI provides stewardship for Pfizer's donation of Zithromax(R) to treat and prevent trachoma, builds and strengthens partnerships to accelerate progress, and develops innovative tools and methods to share data. In 2019, ITI published the Zithromax(R) Management Guide with the goal of enhancing safety, ease, and acceptability of Zithromax(R) administration. The Guide is designed for all stakeholders at all levels who use donated Zithromax(R) for trachoma elimination. Between September 2018 to August 2019, ITI also organized just-in-time shipments of 110,128,992 treatments for trachoma shipped to be distributed at mass drug administrations in 20 countries. As of August 2019, ITI has shipped more than 876,014,787 million treatments to trachoma endemic countries since 1999. ITI continued its data management support for Tropical Data, a free mobile phone-based service to support trachoma programs as they conduct prevalence surveys, providing them with robust data for decision making on where antibiotic treatments are needed and where they can be stopped. In partnership with the Royal Society for Tropical Medicine and Hygiene (RSTMH), ITI supported trachoma research for four selected small grants of up to £5,000. ITI's commitment to strong stewardship of the antibiotic donation from Pfizer, coupled with its solid data management and transparent communications, have contributed to remarkable achievements by the global trachoma community in reducing the population at risk of blindness from this preventable disease from an estimated 1.2 billion people in 2000 to 142 million in 2018. ITI will continue to enhance its support, improve its effectiveness, and increase its efficiencies to maximize impact. GPZL Program's GPZL Research Agenda was published in Leprosy review and a commentary is underway for The Lancet Infectious Diseases. This effort included more than 160 researchers from 25+ countries. A National Zero Leprosy model (national peer-to-peer assessment tool and visioning template) was developed with a working group of over 140 participants. It was tested in Nepal (July) and Morocco (October). An online Zero Leprosy Toolkit and Helpdesk for Country Capacity Building were developed. Work continued to foster a community of practice and innovation by developing tools and sharing best practices and opportunities, including during the 2019 Global Leprosy Congress, the NNN and COR-NTD meetings and at WHO regional meetings. Workshops and sessions took place at the ILC and NNN meetings. A session was organized for the AFRO regional meeting with 4 GPZL Leadership Team members participating. Policy guidance was compiled and shared for the WHO leprosy 2030 targets. A member survey on WHO targets was conducted, with leadership from ILEP. Resource mobilization and partnership. Proposals submitted or nearing completion to MacArthur, Canadian Grand Challenges, Audacious Fund. Relationships being built with key potential donors. Joint session on NTD partnerships jointly undertaken 3 other NTD groups during NNN. A strategic planning session led to the development and approval of a 10-year aligned strategy for the partnership. MDP approved 408.6 million treatments including 348.2 treatments in countries where Lymphatic Filariasis (LF) and onchocerciasis are co-endemic and 60.4 million treatments in IDA countries in 2019. This record-breaking number resulted was celebrated in Haarlem in December as one billion tablets were manufactured by MSD in 2019. In 2019, 117 million tablets were "recovered" from the supply chain due to the close monitoring of applications and interaction with the country program managers. To celebrate achievements and to increase visibility of Merck's global contribution to LF and onchocerciasis elimination, MDP launched the LF elimination award in Togo, which was given to the minister of health during a celebration in Lomé. Following the celebration, MDP received a letter of gratitude from the president of Togo. MDP also coordinated a joint Merck/GSK/MDP press release congratulating Yemen on achieving LF elimination, which was validated by WHO in 2019.

In fiscal year 2019, The Center for Vaccine Equity sector made substantial progress in existing program areas, and expanded its role in current programs. The Center expanded its work into the area of vaccine safety monitoring with the addition of the Brighton Collaboration Program Polio Eradication Support. In 2019 the Center established an emergency outbreak response team to support the Centers for Disease Control and Prevention (CDC) and other GPEI partners in high-priority surveillance and outbreak response activities around the globe. Serving as the secretariat for the US Polio National Certification Committee, CVE convened a meeting of the committee and submitted a report on the status of US containment to the Regional Certification Committee. Serving as the secretariat for and led by the Center Director, The Polio Antiviral Initiative (PAI) working with ViroDefense, Inc., advanced the development of two antiviral agents (V-7404 and pocapavir) working by different mechanisms of action. A Phase 1 clinical study of V-7404 showed that the highest intended dose was well tolerated and achieved the expected exposures. Pocapavir was administered on a compassionate use basis to treat immune deficient individuals who were excreting poliovirus for prolonged periods. Influenza To date the Partnership for Influenza Vaccine Introduction delivered/committed to deliver more than 3.6 million doses of influenza vaccine to high-risk groups in partner countries. Five PIVI partner countries are on track to transition to being fully supported by their national government. In the current year the Partnership led creation of a new global alliance of stakeholders, including WHO, GAVI, UNICEF, vaccine manufacturers and others, to support expansion of seasonal vaccination programs worldwide and pandemic vaccine preparedness. The Global Funders Consortium for Universal Influenza Vaccine Development established a platform to track and provide accurate information about next generation influenza vaccines. The Center for Infectious Disease Research and Policy (CIDRAP) at the University of Minnesota collaborated with the Unifluvac Working Group in compiling and curating an open-access database of universal influenza vaccine candidates and technologies currently in development. Hepatitis On World Hepatitis Day 2019 (July 28), the Task Force launched the Coalition for Global Hepatitis Elimination, a collaboration of public and private partners to forge consensus on elimination goals, share knowledge and experience, provide technical assistance, generate new knowledge, and advocate for the elimination of hepatitis B and C. The Coalition supports the global goal to prevent over 7 million deaths by 2030. Coalition work is focused in 5 strategic axes: development of a trusted dynamic evidence base, HEPEXPERT, to guide program development, supporting hepatitis programs to overcome barriers in implementation and evaluation, conducting operational research to improve program effectiveness, and supporting global advocacy and community mobilization. Vaccine Safety In 2019 the Brighton Collaboration, a scientific association of vaccine safety experts, joined the Task Force. The Brighton Collaboration brings together committed stakeholders, protects scientific independence, facilitates knowledge transfer across different sectors, locations and professions and supports vaccine safety experts. The Collaboration received funding from the Coalition for Epidemic Preparedness Innovation (CEPI) to support their portfolio of vaccine candidates with harmonized safety assessment through development of standards and evaluation tools and provision of safety monitoring and guidance for developers.
