For the years ended June 30, 2019 and 2018, Common Spirit's taxable entities recorded an immaterial amount of interest and penalties as part of the provision for income taxes. CommonSpirit's taxable entities did not have any material unrecognized income tax benefits as of June 30, 2019 and 2018. Using essentially the same Medicare cost report principles as to the allocation of general services costs and "apportionment" methods, the "CHI Workbook" calculates a payers' gross allowable costs by service (so as to facilitate a corresponding comparison between gross allowable costs and ultimate payments received). The term "gross allowable costs means costs before any deductibles or co-insurance are subtracted. Saint Joseph Health System's ultimate reimbursement will be reduced by any applicable copayment/deductible. Where Medicare is the secondary insurer, amounts due from the insurer's primary payer were not subtracted from Medicare allowable costs because the amounts are typically immaterial. Saint Joseph Berea is the hospital within Saint Joseph Health System which is designated as a Critical Access Hospital ("CAH"). CAHs are rural community hospitals that are certified to receive cost-based reimbursement from Medicare. The reimbursement that CAHs receive is intended to improve their financial performance and thereby reduce hospital closures. CAHs are certified under a different set of Medicare Conditions of Participation ((CoP). Shortfalls are created when a facility receives payments that are less than the costs of caring for program beneficiaries. Because shortfalls are based on costs, not charges, Saint Joseph Berea, due to its designation as a CAH, received cost-based reimbursement for Medicare purposes, Saint Joseph Berea will typically not experience Medicare related shortfalls. Although not presented on the Medicare cost shortfalls although not presented on the Medicare cost and the subject of facilitate a more accurate understanding of the "true" cost of services (for "shortfall" purposes) the CHI Workbook allows a health care facility not to offset costs that Medicare considers to be non-allowable, but for which the facility can legitimately argue are related to the care of the facility's patients. Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	The organization's billing and collections policy applies to all individuals presenting for emergency or other medically necessary care. The policy contains provisions for collecting amounts due from those patients who the organization knows to qualify for financial assistance either through the traditional financial assistance application process or through presumptive eligibility processes. Before engaging in extraordinary collection actions (ECAs) to obtain payment for EMCare, Hospital Facilities must make reasonable efforts through its billing and collections processes, pursuant to Treas. Reg. ŧ1.501(r)-6(c), to determine whether an individual is eligible for Financial Assistance. In no event will an ECA be initiated prior to 120 days from the date the Facility provides the first post-discharge billing statement (i.e., during the Notification Period) unless all reasonable efforts have been made. Hospital Facilities will not refer accounts for collection where the patient has initially applied for Financial Assistance, and the Hospital Facility has not yet made reasonable efforts with respect to the account. For patients and Guarantors who are unable to provide required documentation, a Hospital Facility may grant Presumptive Financial Assistance based on information obtained from other resources. Patients who qualify for Medicaid are presumed to qualify for full charity write off. Any charges for days or services written off (excluding Medicaid denials related to timeliness of billing, insufficient medical record documentation, missing invoices, authorization, or eligibility issues) as a result of a Medicaid are booked as charity. Some Medicaid plans offer coverage for a limited or restricted list of services.
