Schedule H, Part I, Line 3c FACTORS OTHER THAN FPG	Patients with demonstrated financial needs with income greater than 327% of the FPL may be eligible for consideration under a "Means Test" for some discount of their charges for services from the Organization based on a substantive assessment of their ability to pay. Income vs expenses will be reviewed and the patient cannot have a non-essential asset more than \$1.00 greater than the hospital charges. A Patient eligible for the "Means Test" discount will not be charged more than the calculated AGB charges.							
Schedule H, Part V, Section B Hospital Websites	Part V, Section B During the course of the tax year and/or prior to the filing of the return for the taxable year, the filing organization, which is part of a larger health system, transitioned from a separately hosted website (or websites), to being a part of the health system's centrally hosted hospital website. This transition was intended to facilitate public access to information, including enabling the health system to better manage and monitor compliance requirements that IRC Section 501(r) information be made widely available to the public. During and as a result of the migration of hospital facility information to the new central website, it is possible that there may have been brief instances of web access interruption. If so, the filing organization believes that any such instances would have been minor and inadvertent, and due to reasonable cause, and that any such instances would have been immediately addressed when identified. The filing organization and health system have established procedures in place as part of its centralized monitoring and management processes that are reasonably designed to address, monitor and promote compliance with the requirements of IRC Section 501(r). In an effort to be fully transparent, the filing organization has chosen to pro-actively disclose on this Form 990 this possibility of very minor and inadvertent web access interruptions that could have occurred in the normal course of migrating locally maintained hospital facility information to an improved centrally managed website. In so disclosing, the organization is not reporting that interruptions in the nature of a Section 501(r) violation in fact occurred Rather, the organization is pro-actively disclosing that the migration process was undertaken and that, in completing that process, it is possible that brief interruptions in web access may have occurred as the

Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	The cost of providing charity care, means-tested government programs, and other community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines. The organization uses a cost accounting system that addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay). The best available data was used to calculate the amounts reported in the table For the information in the table, a cost-to-charge ratio was calculated and applied.
