### Form 990, Part III, Line 4a:

North Mississippi Medical Center (NMMC) serves more than 700,000 people in 24 counties in north Mississippi, northwest Alabama and portions of Tennessee. In fiscal year 2018, there were 26,233 inpatient admissions, 88,616 emergency department visits, and 554,567 outpatient visits. NMMC uses Press Ganey, the largest patient satisfaction survey company in the nation, that works with more than 7,000 healthcare facilities. Randomly selected patients are asked about their experience with NMHS inpatient, outpatient, ER, home health and long term care services. Area residents have access to a medical staff representing more than 40 medical specialties, as well as centers of excellence in cancer treatment and research, neurology, neurosurgery, cardiac surgery, cardiology, pulmonology, rehabilitation, chemical dependency and neonatal programs. In addition, the NMMC Home Health Agency serves patients in 17 counties in north Mississippi and offers many complex and extremely high-tech procedures that can be performed in the home setting. NMMC is designated as a Level II trauma center by the Mississippi State Department of Health. To receive this designation, facilities must offer a full range of trauma capabilities, including an Emergency Department, a full service surgical suite, intensive care unit and diagnostic imaging, as well as make a commitment to consistently meet national guidelines or standards in caring for trauma patients. In 2006, NMMC-Tupelo received the Malcolm Baldrige National Quality Award for innovative practices, a commitment to excellence and outstanding results. This award is a symbol of world-class performance and is the nation's highest Presidential honor for organizational performance excellence. NMMC is a participant in QUEST (Quality, Efficiency, Safety, with Transparency), a national initiative sponsored by fellow 2006. Baldrige recipient Premier. NMMC benchmarks its quality measures against the very best hospitals and health systems in the United States. This collaborative effort enables NMMC'

Patients from outside the service area may also be granted charity care based on the judgment of NMMC management depending on their individual circumstances. The policy also requires the patient to cooperate fully with NMMC's request for information with which to verify the patient's eligibility. Following that policy, NMMC maintains records to identify and monitor the level of charity care it. provides These records include the amount of charges foregone for services and supplies furnished under its charity care policy. Charges foregone, based on established rates, totaled approximately \$57,501,076 in fiscal year 2018 Based on the gross charges provided to charity patients compared to total hospital gross charges, 2 07% of all services in fiscal year 2018 were provided on a charity basis. The net cost of charity care provided by NMMC was approximately \$13,910,494 in fiscal year 2018. The total cost estimate is based on the ratio of costs to charges for NMMC. All of the foregone charges mentioned above are netted against patient service revenue to arrive at net patient service revenue as reflected as program service revenue on Part VIII of Form 990 in order to be consistent with financial statement reporting and are not reported as functional expenses on the tax return

column (F)

Form and Line Reference	Explanation
Part I, Line 7	A cost to charge ratio was used for the amounts reported in the table for Line 7. The cost to charge ratio for Line 7 was calculated using Worksheet 2.
Part III, Line 2-4	North Mississippi Medical Center's (NMMC) financial statements do not include a footnote specifically concerning bad debt. Bad debt is shown as a separate line item on the face of the income statement. The amount of bad debt booked each year is based on a review of outstanding receivables and their age from date of service. The older the account, the higher the reserve percentage used to estimate bad debt. Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluations and specific circumstances of the account. The amount reported in Part III, line 2 as bad debt.

Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluations and specific circumstances of the account. The amount reported in Part III, line 2 as bad debt expense matches the amount of bad debt expense reported on NMMC's audited financial statements. North Mississippi Medical Center (NMMC) follows the Catholic Health Association guidelines and does not include bad debt in any community benefit amounts. NMMC, however, believes that some portion of bad debt results from patients who could qualify for charity care but has no way of making an estimate of the amount and therefore has answered "zero" for Part III Line 3.

Form and Line Reference	Explanation
Part III, Line 8	The ratio of cost to charges used in the calculation of costs for Medicare was taken from the Medicare Cost Report Lines 5, 6, & 7 do not include certain Medicare programs and costs and thus do not reflect all of the organization's revenues and costs associated with its participation in Medicare programs. Additional revenues and costs not reported on Lines 5, 6, & 7 include those associated with the organization's Medicare outpatient lab, ambulance and therapy services. Total revenues from these activities were \$4,170,517 and total costs were \$4,171,529 for a net shortfall of -\$1,012. When combined with the shortfall reported on Line 7, the net surplus from all Medicare programs is \$4,693,575.
Part III Line 9h	North Mississippi Medical Center does not nursue collection of amounts determined to qualify as charity

care For patients who qualify for charity care or financial assistance and who are cooperating in good faith to resolve their discounted hospital bills, the hospitals may offer extended payment plans, will not send unpaid bills to outside collection agencies, and will cease all collection efforts

Form and Line Reference	Explanation
Part VI, Line 2	Needs Assessment North Mississippi Medical Center utilizes varied but complimentary methods to assess the health care needs of the communities it serves. The North Mississippi Medical Center Community Health Needs Assessment is performed every three years and provides information on health status, utilization of health services, healthy beliefs and satisfaction with health care services. In addition, the North Mississippi Medical Center Community Relations Facilitator conducts routine visits with internal and external stakeholders. The information gathered through several qualitative survey questions is used to determine community needs.
Part VI, Line 3	Patient education of eligibility for assistance Explanations of the North Mississippi Medical Center charity care policy are communicated in a variety of forms including signage at all admission and registration

areas, on the web site, on bills and statements, and in admission packets. Financial counselors assist the patient and responsible parties with determining eligibility for government programs, primarily Medicaid, and charity care status. The patient can apply for charity care at any time from the date of service through

the collection process and once qualified and approved all collection efforts are stopped
