Form 990, Part III, Line 4a:

See Schedule OBaylor University Medical Center at Dallas (BUMC) is a faith-based, nonprofit 914 bed acute care hospital providing exemplary patient care services to the residents of the Dallas-Fort Worth Metroplex since 1903 BUMC is a major patient care, research and medical education center of the Southwest and serves local, national and international patients caring for more than 300,000 patients per year BUMC is affiliated with Baylor Scott & White Health (BSWH), a faith-based nationally acclaimed network of acute care hospitals and related health care entities providing quality patient care, medical education, medical research and other community services to the residents of North and Central Texas. As the largest not-for-profit health care system in Texas and one of the largest in the United States, BSWH was born from the 2013 combination of Baylor Health Care System and Scott & White Healthcare Today, BSWH includes 50 hospitals, over 1,000 patient care sites, approximately 7,500 active physicians, more than 49,000 employees and the Scott & White Health Plan BUMC is one of the system's two flagship hospitals and provides inpatient and outpatient medical services in over 20 specialties to treat individuals with diseases, illnesses and injuries of varying complexities. Services include providing patients with innovative methods of prevention, diagnosis, treatment, education and support consistent with a quality teaching and research hospital. Multidisciplinary interaction among physicians helps ensure comprehensive care for all stages of illness through all stages of life. Many of the major health care programs have received national recognition and honors, including the Level I Trauma Center, a Level III 83-Bed Neonatal Intensive Care Unit, transplant program, neuroscience center, digestive disease center, orthopaedic institute and a new dedicated cancer hospital and center. During the fiscal year, BUMC admitted 37,738 patients resulting in 227,987 days of care, delivered 3,936 babies, and received 112,314 emergency department visits. Additionally, BUMC provided community benefits (as reported to the Texas Department of State Health Services and in accordance with the State of Texas Statutory methodology) of \$239,983,532 and provided community benefits (as reported on the Internal Revenue Service (IRS) Form 990, Schedule H) of \$120,086,147 during the tax year The Texas Annual Statement of Community Benefit Standard includes approximately \$110,263,367 of unreimbursed cost of Medicare that is not included in the IRS Form 990, Schedule H See Schedule H for more information regarding these services and how BUMC promotes the health of

Form 990, Part III, Line 4b: See Schedule OMedical education is a crucial part of BUMC's mission. BUMC commits resources to help address the shortage of health care professionals including partnering with other educational institutions and similar organizations. BUMC provided medical residency programs for the training of future physicians, nurses and other health professionals in an effort to increase the supply of health care professionals nation-wide. During the year, BUMC served 274 medical residency students. Assisting with the

preparation of future nurses at entry and advanced levels of nursing is critical in establishing a workforce of qualified nurses. During the year, BUMC invested in training

1,082 undergraduate nurses Total unreimbursed cost of these medical education programs is \$23,131,370

Form 990, Part III, Line 4c: See Schedule OMoving scientific theory from the research bench to clinical trials and ultimately to the patient's bedside is central to BSWH's commitment to patient-centered

medical research During the year, BUMC supported clinical research development costs, research papers and studies through Baylor Scott & White Research Institute (BSW

Research), at a cost of \$13,154,947 At BSW Research alone, there are nearly 2,000 active clinical trials underway

Return Reference	Explanation
Part II-B, Line 1	Statement Regarding Legislative Activity Health care policy is critical to all Americans, and the Organization believes that health care providers must participate in forming health care policy by interacting with national, state and local representatives and their staff members to help them better understand the complexities and ramifications of key health care policies including, without limitation, those related to uninsured and indigent patient needs as well as the legislative and regulatory needs to assure the delivery of cost-efficient, quality health care. The Organization has established relationships with persons and industry associations that often communicate the Organization's positions on major health care issues. These contacts may include direct contact, telephone conversations and/or letters. Also, the Organization may attempt to educate the local community on certain legislative initiatives that may impact. The Organization's ability to provide quality health care services to the community through direct mailings, media advertising or broadcast statements. The amount of resources (time and money) involved in these activities is insubstantial. The Organization has not intervened in any political campaign.

The System assesses the reasonableness of the allowance account based on the historical write-offs, cash collections, the aging of the accounts and other economic factors. Accounts are written off when collection efforts have been exhausted. Management continually monitors and adjusts its allowance associated with its receivables." contractual allowance, payments received and recoveries of bad debt previously written off. The Organization has entered zero on Schedule H, Part III, Line 3, however, based on prior experience and certain demographics and other information obtained during admission, the organization believes a portion of the bad debt expenses (estimated to range from 1-5%) would be attributable to patients that would otherwise qualify for charity care. Despite all of the effort and ways the organization educates patients about qualifying for its charity care program as demonstrated in Part VI, question 3 below, many uninsured patients either refuse or fail to complete a charity care application or provide sufficient information at the time of admission, during their stay or after being discharged to qualify for assistance under the organization's charity care policy.

Form and Line Reference	Explanation
Part III, Line 8	The amount reported on Part III, Section B, line 7 was calculated in accordance with the Schedule H instructions utilizing the organization's allowable cost reported in the Medicare cost report based on a cost to charge ratio. However, the allowable costs in the Medicare cost report do not reflect the actual cost of providing care to patients since the Medicare cost report excludes many direct patient care costs that are essential to providing quality care to these patients. For example, certain coverage fees to physicians, cost of Medicare C and D, and other similar direct patient care expenses are specifically excluded as allowable cost in the cost reports. Using the same methodology to calculate the unreimbursed cost of providing charity care and Medicard (using applicable Schedule H Worksheets) would result in a shortfall of \$110,243,280, which is \$114,845,350 higher than the amount reported on Part III, Section B, Line 7. The organization believes that all of the shortfall should be considered as a community benefit for the following reasons. First, the IRS Community Benefit Standard includes the provision of care to the elderly and Medicare patients. IRS Revenue Ruling 69-545 provides, in part, that hospitals serving patients with governmental health benefits, including for example Medicare, is an indication that the hospital operates for the promotion of health in the community. Second, the organization provides care to Medicare patients regardless of this shortfall, i.e., loss, and thereby relieves the state and federal government of the burden of paying the full cost for the care of Medicare beneficiaries. Medicare does not provide sufficient reimbursement to cover the entire cost of providing care to these patients causing the organization to use other surplus funds to cover the shortfall. It is expected that reimbursement under the Medicare program will continue to decline and therefore may further limit access to care due to the anticipated reduction of participating Medicare providers in the commun

The hospital has teamed up with other hospital facilities in the community to complete a joint community health needs assessment and develop a joint implementation strategy to address the health needs of the community while meeting certain federal and state requirements. These hospitals will address all significant community health needs (except the need(s) listed below) based on the anticipated impact to the community, hospital resources available, and the expertise of each respective hospital facility. Specific actions can be found in the joint implementation strategy that is made widely available on the hospital's website at www BSWHealth com/CommunityNeeds. The following identified need has not bee addressed in the joint community benefit implementation plan. Accidental Poisoning Deaths Where Opioids. Were Involved There are multiple community and state agencies whose expertise and infrastructure are better

suited for meeting the needs not addressed in the Community Health Implementation Strategies Therefore, BSWH leadership has opted to focus its resources on the listed priorities for the betterment of the community

	Process for determining compensation. The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually. Total executive compensation is part of an integrated talent management strategy developed by the BSW Holdings Board of Trustees and its Compensation Committee to attract, motivate, and retain the best leadership resources for the organization. Executive compensation is determined pursuant to guidelines outlined in the intermediate sanction rules under IRC Section 4958 including taking steps to meet the rebuttable presumption standard of reasonableness under Treasury Regulation 53 4958-6, as summarized below. When making compensation decisions, the organization compares itself to similarly-sized, and structured businesses including other integrated health care service systems and other similarly-sized organizations, both locally and nationally. Each year the BSW Holdings Board of Trustees and the Compensation Committee, on behalf of the organization through reserved powers held by BSW Holdings, works directly with an independent compensation expert(s) to identify reasonable and competitive market rates as well as provide an annual review of the total compensation of the organization's top management officials and other officers and key employees to ensure total compensation is within a fair market range. The annual review included management reviewing all officers and key employees listed on the Form 990 during the current tax year Any individual whose direct compensation exceed

	The organization has adopted and implemented BSW Holdings', the organization's ultimate parent, Annual Incentive Program to provide a market competitive total cash compensation incentive program that is designed to attract and retain key leaders and establish greater individual accountability and alignment to business performance. Payout targets are based upon a percentage of base pay and are developed by independent third party expert(s) using comparable market competitive data within the bounds of reasonableness and that are reviewed and approved by BSW Holdings' governing body. Payout levels are based upon a combination of system, entity, and individual performance using various metrics related to quality, patient satisfaction, employee retention, and financial stewardship. BSW Holdings' governing body may approve modifications to annual incentive awards provided under the program consistent with market comparability data.
