### **Form 990, Part III, Line 4a:**

See Schedule O. Baylor University Medical Center at Dallas (BUMC) is a faith-based, nonprofit, 914-bed acute care hospital providing exemplary patient care services to the residents of the Dallas-Fort Worth Metroplex since 1903. BUMC is a major patient care, research and medical education center of the Southwest and serves local, national and international patients caring for more than 300,000 patients per year. BUMC is affiliated with Baylor Scott & White Health (BSWH), a faith-based nationally acclaimed network of acute care hospitals and related health care entities providing quality patient care, medical education, medical research and other community services to the residents of North and Central Texas. As the largest not-for-profit health care system in Texas and one of the largest in the United States, BSWH was born from the 2013 combination of Baylor Health Care System and Scott & White Healthcare. Today, BSWH has over 1,000 patient care sites including 52 hospitals, 562 specialty care clinics, 195 outpatient clinics, 172 primary care clinics, 31 pharmacies, 26 ambulatory surgery centers, and approximately 7,300 active physicians. The system also includes a state certified health maintenance organization, the Scott and White Health Plan and the Baylor Scott & White Quality Alliance accountable care organization both covering over 906,000 lives. BUMC is one of the system's two flagship hospitals and provides inpatient and outpatient medical services in over 20 specialties to treat individuals with diseases, illnesses and injuries of varying complexities. Services include providing patients with innovative methods of prevention, diagnosis, treatment, education and support consistent with a quality teaching and research hospital. Multidisciplinary interaction among physicians helps ensure comprehensive care for all stages of illness through all stages of life. Many of the major health care programs have received national recognition and honors, including the Level I Trauma Center, a Level IV Neonatal Intensive Care Unit, Level IV Maternal designation, the only dedicated cancer hospital in North Texas and outpatient cancer center, an internationally renowned transplant program, neuroscience center, digestive disease center, and orthopaedic institute. During the fiscal year, BUMC admitted 35,858 patients resulting in 224,497 days of care; delivered 4,026 babies and received 101,080 emergency department visits. Additionally, BUMC provided community benefits (as reported to the Texas Department of State Health Services and in accordance with the State of Texas Statutory methodology) of \$168,135,754 and provided community benefits (as reported on the Internal Revenue Service (IRS) Form 990, Schedule H) of \$94,004,831 during the tax year. The Texas Annual Statement of Community Benefit Standard includes approximately \$47,132,350 of unreimbursed cost of Medicare that is not included in the IRS Form 990, Schedule H. See Schedule H for more information regarding these services and how BUMC promotes the health of the communities.

---

## **Form 990, Part III, Line 4b:**

See Schedule O Medical education is a crucial part of BUMC's mission. BUMC commits resources to help address the shortage of health care professionals including partnering with other educational institutions and similar organizations. BUMC provided medical residency programs for the training of future physicians, nurses and other health professionals in an effort to increase the supply of health care professionals nation-wide. During the year, BUMC served 270 medical residency students. Assisting with the preparation of future nurses at entry and advanced levels of nursing is critical in establishing a workforce of qualified nurses. During the year, BUMC invested in training 668 undergraduate nurses. Total unreimbursed cost of these medical education programs is \$25,627,111.

---

## **Form 990, Part III, Line 4c:**

See Schedule O Moving scientific theory from the research bench to clinical trials and ultimately to the patient's bedside is central to BSWH's commitment to patient-centered medical research. During the year, BUMC supported clinical research development costs, research papers and studies through Baylor Scott & White Research Institute (BSW Research), at a cost of \$14,223,811. At BSW Research alone, there are nearly 2,000 active clinical trials underway.

**Part IV Supplemental Information**

Provide the descriptions required for Part I-A, line 1; Part I-B, line 4; Part I-C, line 5; Part II-A (affiliated group list); Part II-A, lines 1 and 2 (see instructions), and Part II-B, line 1. Also, complete this part for any additional information.

Return Reference	Explanation
Part II-B, Line 1:	Statement Regarding Legislative Activity: Health care policy is critical to all Americans, and the Organization believes that health care providers must participate in forming health care policy by interacting with national, state and local representatives and their staff members to help them better understand the complexities and ramifications of key health care policies including, without limitation, those related to uninsured and indigent patient needs as well as the legislative and regulatory needs to assure the delivery of cost-efficient, quality health care. The Organization has established relationships with persons and industry associations that often communicate the Organization's positions on major health care issues. These contacts may include direct contact, telephone conversations and/or letters. Also, the Organization may attempt to educate the local community on certain legislative initiatives that may impact the Organization's ability to provide quality health care services to the community through direct mailings, media advertising or broadcast statements. The amount of resources (time and money) involved in these activities is insubstantial. The Organization has not intervened in any political campaign.

- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part I, Line 3c:	and Line 3b: In addition to providing free care to financially indigent patients at 200% of the federal poverty guidelines ("FPG"), the organization provides discounted care to the medically indigent which is based on both the FPG (up to 500%) and the percentage of the patient's total bills from all providers in relation to the patient's annual income.

## 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 6a:	The organization prepares and files an Annual Report of Community Benefit Plan with the Texas Department of State Health Services. This report is made available through the organization's website at <a href="http://www.BSWHealth.com/CommunityNeeds">www.BSWHealth.com/CommunityNeeds</a> .

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part I, Line 7:	<p>A ratio of patient care cost to charges, as determined in Worksheet 2, was used to report the amounts in Part I, Lines 7a - 7d. For amounts reported on lines 7e - 7k, actual expenses for each community benefit activity are tracked and reported using both community benefit software and/or the organization's cost accounting system. Part I, Line 7i, Column (c): Includes charity care payments of \$7,736,775 that are made directly to or on the behalf of a local public hospital and/or other nonprofit organizations for the treatment of indigent patients of those organizations.</p>

## 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Ln 7 Col(f):	The amount of bad debt expense included on Form 990, Part IX, line 25, but removed for Schedule H, Part I, Line 7, Column (f) totaled \$0.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 4:	<p>As stated in the combined audited financial statements, "The System maintains allowances for uncollectible accounts for estimated losses resulting from a payor's inability to make payments on accounts. The System assesses the reasonableness of the allowance account based on the historical write-offs, cash collections, the aging of the accounts and other economic factors. Accounts are written off when collection efforts have been exhausted. Management continually monitors and adjusts its allowance associated with its receivables." Bad debt does not include amounts for patients who are known to qualify under the organization's charity care policy. The amount of bad debt attributable to patient's accounts is net of contractual allowance, payments received and recoveries of bad debt previously written off. The Organization has entered zero on Schedule H, Part III, Line 3; however, based on prior experience and certain demographics and other information obtained during admission, the organization believes a portion of the bad debt expenses (estimated to range from 1-5%) would be attributable to patients that would otherwise qualify for charity care. Despite all of the effort and ways the organization educates patients about qualifying for its charity care program as demonstrated in Part VI, question 3 below, many uninsured patients either refuse or fail to complete a charity care application or provide sufficient information at the time of admission, during their stay or after being discharged to qualify for assistance under the organization's charity care policy.</p>

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 8:	<p>The amount reported on Part III, Section B, line 7 was calculated in accordance with the Schedule H instructions utilizing the organization's allowable cost reported in the Medicare cost report based on a cost to charge ratio. However, the allowable costs in the Medicare cost report do not reflect the actual cost of providing care to patients since the Medicare cost report excludes many direct patient care costs that are essential to providing quality care to these patients. For example, certain coverage fees to physicians, cost of Medicare C and D, and other similar direct patient care expenses are specifically excluded as allowable cost in the cost reports. Using the same methodology to calculate the unreimbursed cost of providing charity care and Medicaid (using applicable Schedule H Worksheets) would result in a shortfall of \$110,243,280, which is \$114,845,350 higher than the amount reported on Part III, Section B, Line 7. The organization believes that all of the shortfall should be considered as a community benefit for the following reasons. First, the IRS Community Benefit Standard includes the provision of care to the elderly and Medicare patients. IRS Revenue Ruling 69-545 provides, in part, that hospitals serving patients with governmental health benefits, including for example Medicare, is an indication that the hospital operates for the promotion of health in the community. Second, the organization provides care to Medicare patients regardless of this shortfall, i.e., loss, and thereby relieves the state and federal government of the burden of paying the full cost for the care of Medicare beneficiaries. Medicare does not provide sufficient reimbursement to cover the entire cost of providing care to these patients causing the organization to use other surplus funds to cover the shortfall. It is expected that reimbursement under the Medicare program will continue to decline and therefore may further limit access to care due to the anticipated reduction of participating Medicare providers in the community. As a result, the care for these patients will likely increase at, and rest on the shoulders of, nonprofit hospitals or county hospital districts. Third, many of the Medicare participants have low fixed incomes and therefore would qualify for charity care or other means tested government programs absent being enrolled in the Medicare program. Fourth, Texas nonprofit hospitals must provide a minimum level of community benefit in order to obtain exemption from state and local taxes. According to the current Texas Health and Safety Code, the unreimbursed cost of Medicare is considered to be a community benefit in determining these state statutory requirements as it helps relieve a governmental burden of providing this care that would otherwise be provided through the county hospital system in Texas.</p>

## 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 9b:	<p>The organization's patient billing and collection policy prohibits any collection efforts for the portion of the account balance that qualifies for financial assistance under the organization's financial assistance policy. For any remaining balances due, the same policy contains the actions that may be taken in the event of nonpayment, which are applied equally to all patient types. The policy is made widely available to the public on the organization's website <a href="https://www.bswhealth.com/financialassistance">https://www.bswhealth.com/financialassistance</a>.</p>

Form and Line Reference	Explanation
Part VI, Line 2:	<p>During the fiscal year ending June 30, 2019, the Organization conducted a Community Health Needs Assessment (CHNA) to assess the health care needs of the community for each of its licensed hospital facilities and developed an implementation strategy to address the needs identified in the CHNAs. The CHNAs were conducted in accordance with state and federal guidelines including Internal Revenue Code Section 501(r) and the Texas Health and Safety Code Section 311. These CHNAs and implementation strategies have been made widely available to the public and are located on the Organization's website at the following address: <a href="http://www.BSWHealth.com/CommunityNeeds">www.BSWHealth.com/CommunityNeeds</a>.</p>

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part VI, Line 3:	<p>The organization is committed to promoting health in the community including providing or finding financial assistance programs to assist patients. Patients who may qualify for financial assistance through the organization's charity care program or other federal, state and local government programs are informed and educated about their eligibility in several ways including, but not limited to, the following: 1) posting signs and notices regarding the financial assistance policy in the emergency departments, admitting areas and business offices located throughout the organization: 2) annual posting regarding the organization's financial assistance program in the local newspapers: 3) information regarding financial assistance, including the organization's financial assistance policy, is posted on the organization's website: 4) notices about the organization's financial assistance policy is posted on each bill sent to patients including providing a phone number to access the customer service unit dedicated to answering patients billing questions, as well as provide information regarding financial assistance: and 5) the organization may provide free financial counselors to help inpatients determine how to meet their financial obligations for services provided. Specifically financial counselors assist patients in applying for government assistance programs such as Medicaid or the organization's financial assistance program. Any patient may request to speak to a financial counselor when being treated at the organization. Uninsured patients who are admitted to the hospital will automatically receive help from a financial counselor. These services are provided in writing and through interpretation services in the primary language of the patient requesting assistance. The organization has the 501(r) policies available on its website in eight languages: English, Spanish, Russian, Korean, Vietnamese, Arabic, French and Chinese. The organization can also accommodate other languages including American Sign Language as needed.</p>

Part VI, Line 4:	<p>The organization operates multiple hospital facilities across multiple defined communities serving the geographical urban area of Collin, Dallas, Denton, Ellis, Grayson, Gregg, Henderson, Hood, Hunt, Johnson, Parker, Kaufman, Navarro, Rockwall, Smith, Tarrant, Wood, and Van Zandt counties. Additional information regarding the communities can be found below, and in each of the hospital's community health needs assessment and implementation strategy located on the organization's website at <a href="http://www.BSWHealth.com/CommunityNeeds">www.BSWHealth.com/CommunityNeeds</a>. Dallas Metropolitan Health Community includes certain zip codes spanning Collin, Dallas, Denton, Ellis, Henderson, Hunt, Kaufman, Navarro, Rockwall, Tarrant and Van Zandt counties, with a population of approximately 4,643,844. The median household income for the ZIP codes within this community range from \$21,940 to \$169,738. There were 42 ZIP Codes with median household incomes less than \$50,200 twice the 2018 Federal Poverty Limit for a family of four. A majority of the population (50%) were insured through employer sponsored health coverage. By insurance type, the second largest number of people were uninsured (16%). The remainder of the population was fairly equally divided between Medicaid, Medicare, and private market. The community includes 40 Health Professional Shortage Areas and 24 Medically Underserved Areas as designated by the U.S. Department of Health and Human Services. Frisco Health Community includes certain zip codes spanning Collin, Dallas and Denton counties, with a population of approximately 1,106,773. The median household income for the ZIP codes within this community ranged from \$43,473 to \$140,446. Part VI, Line 5:	<p>With the oversight of an independent volunteer community board and Baylor Scott &amp; White Ho Idings, the organization's ultimate parent, the organization's hospital facilities and/or other health care facilities have promoted health and benefited the community by providing exemplary health care, medical education, research and other community services. The organization's governing body is comprised of a majority of volunteer community representatives that provide leadership and governance for the organization. The members of the governing body contribute their wisdom, insights, and expertise to ensure the organization is fulfilling its mission and charitable purpose while providing efficient administrative support services and direction for the organization. The members are well respected residents and/or own businesses in the organization's primary or secondary service area and understand the needs of the community. The medical staff of the organization is open to all physicians in the community who meet membership and clinical privilege requirements. As a nonprofit organization surplus funds are continuously invested back to the community and are utilized to maintain access to limited patient care services or expand access points of care to patients throughout the community. These efforts are generally targeted to meet the community health needs identified in the community health needs assessment conducted by each of the hospital facilities. More information of these efforts can be found in the written implementation strategies that have been made widely available to the public and are located on the organization's website at the following address: <a href="http://www.BSWHealth.com/CommunityNeeds">www.BSWHealth.com/CommunityNeeds</a>. Below are summaries of a few of the hospital's key patient care services or community benefit programs designed to promote the health of the community. The organization provides financial assistance in the form of charity care to patients who are indigent and satisfy certain eligibility requirements. Additionally, the organization is committed to treating patients who are eligible for means tested government programs such as Medicaid and other government sponsored programs including Medicare, which is provided regardless of the reimbursement shortfall, and thereby relieves the state and federal government of the burden of paying the full cost of care for these patients. Often, patients are unaware of the federal, state and local programs open to them for financial assistance, or they are unable to access them due to the cumbersome enrollment process required to receive these benefits. The organization offers assistance in enrollment to these government programs or extends financial assistance in the form of charity care through the organization's Financial Assistance Policy which can be located on the organization's website at <a href="http://www.bswhealth.com/financialassistance">www.bswhealth.com/financialassistance</a>. The organization provides a comprehensive Level I trauma center; one of only three adult trauma centers in Dallas, covering 21 counties and five million residents. The trauma services division has dedicated trauma and stroke teams, providing 24-hour coverage of emergency services. The Riggs Emergency Department has more than 75,000 square feet, 85 patient treatment rooms, with dedicated areas specifically for trauma care and minor emergency care. The Women and Children's Center at the organization provides obstetric and gynecological services, including advanced technology for prenatal diagnosis and care; labor and delivery; high-risk infant care; genetic counseling; and family education. The organization operates a Level III bed neonatal intensive care unit (NICU) which is the highest level of care. The organization's Neuroscience Center offers services to diagnose and treat all types of neurological disorders, injury and disease, including tumors of the central nervous system; stroke; spine care; seizure disorders; movement disorders and cognitive disorders. This nationally recognized center of excellence is also home to the region's first nationally certified stroke program. The transplant program at the organization is a national leader in solid organ transplantation and was one of the first three programs worldwide to have performed more than 4,000 adult liver transplants. Since the program's inception in 1984, transplant surgeons on the medical staff have performed nearly 11,000 transplants, including liver, kidney, pancreas, heart, lung, and uterus transplants. In 2012 the organization opened the T. Boone Pickens Baylor Cancer Hospital, the first dedicated cancer hospital in North Texas as part of the organization's cancer services expansion. The new inpatient hospital will house 120 beds, a pharmacy, patient and family support areas, and the bone marrow transplant unit. The hospital is connected to a new 467,000 square foot outpatient cancer center offering a patient navigation system, advanced technology and integrative therapies for the treatment of every kind</p>

Part VI, Line 5:	<p>of cancer. The expanded center will include outpatient radiation and chemotherapy as well as expanded support groups, and educational resources and programs. The organization's digestive care center offers advanced and comprehensive inpatient and outpatient treatment for digestive and liver disorders by providing a full-range of diagnostic and therapeutic services. The center's 18,000 square-foot gastrointestinal (GI) physiology and endoscopy laboratory provides physicians with the ability to perform esophageal motility studies, pH monitoring, manometry testing and double balloon endoscopy, in addition to typical endoscopic procedures in a centrally located area. The GI analytical lab also offers digestive disease clinical research opportunities for physicians and patients. The organization provides heart and vascular services to the community through the Baylor Jack and Jane Hamilton Heart and Vascular Hospital. The organization's Heart and Vascular Institute, in partnership with Baylor Scott &amp; White Research Institute, coordinates research studies involving cardiac surgery, cardiology, cardiac and vascular intervention, electrophysiology, vascular surgery and cardiovascular disease prevention. Medical education is a crucial part of the organization's mission. The organization annually trains residents and fellows in 10 specialties and 24 subspecialties. As a renowned teaching hospital, the organization attracts first-rate medical specialists who help improve the level of medical care for the entire community and provide a continuous supply of well-trained medical professionals for the North Texas region. To help address the state's health care workforce shortage, the Texas A&amp;M Health Science Center College of Medicine and the organization have joined forces to establish a Clinical Training Program in Dallas for students to complete clinical rotations in surgery, internal medicine, family medicine, psychiatry, pediatrics, and obstetrics/gynecology at the organization and other clinical affiliates over their last two years of residency. The organization is also committed to assisting with the preparation of future nurses at entry as well as advanced levels of the profession to establish a workforce of qualified nurses. The organization promotes and supports both basic and translational research activities to ensure innovative treatments are quickly available to patients in unique need through the Baylor Scott &amp; White Research Institute (BSWRI). In fiscal year ending June 30, 2020, the organization sponsored research studies totaling more than \$14 million conducting nearly 2,000 active research studies. Research discoveries of the organization and BSWRI are frequently published in major peer-reviewed scientific journals and reported to national and international medical and scientific audiences. The organization partners with other organizations to provide access to health care services for an underserved population, those living in poverty, in areas where infant mortality is high and where there is a shortage of primary care physicians. The organization has teamed with HealthTexas Provider Network and the City of Dallas to improve care for people with diabetes by creating a new care model focused on health care, education and research in South Dallas. By providing financial support, the Baylor Scott &amp; White Health and Wellness Center at the Juanita J. Craft Recreation Center is the cornerstone of the organization's care model to treat patients in the South Dallas region to address the region's health care needs relative to diabetes. The center provides access to medical care and preventative health education to a historically underserved and low-income community experiencing disparate health outcomes relative to the most commonly-encountered health conditions associated with diabetes.</p>

Part VI, Line 6:	<p>The organization is affiliated with Baylor Scott &amp; White Health (BSWH or the System), a faith based nationally acclaimed network of acute care hospitals and related health care entities providing quality patient care, medical education, medical research and other community services to the communities of North and Central Texas. BSWH is the largest not-for-profit health care system in the State of Texas and one of the largest in the United States as measured by total operating revenue of \$10.5 Billion and total assets of \$15.1 Billion based on the fiscal year ended June 30, 2020. Today, BSWH has over 1,000 patient care sites including 52 hospitals, 562 specialty care clinics, 195 outpatient clinics, 172 primary care clinics, 31 pharmacies, 26 ambulatory surgery centers, and approximately 7,300 active physicians. The System includes a robust spectrum of owned, operated, ventured and affiliated philanthropic foundations, a research institute, physician clinics and networks, acute care hospitals, short-stay hospitals, specialty hospitals, ambulatory surgery centers, free standing emergency medical centers, free standing imaging centers, retail pharmacies, an accountable care organization, a health plan and other health care providers all which fall under the common control of BSW Holdings. Under the guidance of an independent community board, the System follows one single mission, vision and values focusing on quality patient centered care while meeting the demands of health care reform, the changing needs of patients and extraordinary recent advances in clinical care. With a commitment to and a track record of innovation, collaboration, integrity and compassion for the patient, BSWH stands to be one of the nation's exemplary health care organizations. Community benefits are provided through the provision of financial assistance, governmental sponsored programs (such as Medicaid and Medicare), medical research, medical education, community health improvement services, donations to other nonprofit health care providers, and many other community service activities. During the year, the affiliated nonprofit hospitals reported community benefits (as reported to the Texas Department of State Health Services, and in accordance with the State of Texas Statutory methodology) of \$768 Million. The System's nonprofit hospitals provided community benefits (as reported on the IRS Form 990, Schedule H) of \$421 Million during the tax year. The Texas Annual Statement of Community Benefit Standard includes approximately \$262 Million of unreimbursed cost of Medicare that is not included in the IRS Form 990, Schedule H. As part of the System, certain affiliates make grants and/or contributions to other related nonprofit affiliates to help financially support and/or fund worthy community benefits activities. The System has also established a patient transfer system among the affiliated hospitals allowing patients needing a particular level of care to be transferred as needed to a related hospital that can provide that service in an efficient and effective manner. As part of the System, all hospitals and other affiliated health care providers are required to adhere to high standards for medical quality, patient safety and patient satisfaction. These standards are set forth by BSW Holdings, the organization's parent, which helps ensure consistency across the System. Technology is rapidly changing the way consumers and health care providers connect, which has enabled the development of new and innovative solutions that enhance the patient experience and support wellness and quality health care. The System is integrating these new technologies, programs and resources into the health information technology infrastructure through the Consumer Digital Experience. This initiative enhances the way consumers discover, decide and connect with the System; improves wellness and care outcomes through digitization and analytics; and enables support for specific measures for availability, geographic use and capacity needs. The Consumer Digital Experience includes video visits, mobile device apps and patient portals, putting a variety of health and wellness tools into the patient's hands. The growth strategy in this area is to create a virtual health capability where users can book an appointment, be treated on demand through a video or electronic visit, assemble their information and personalized profile, and find out where the nearest urgent walk-in clinic might be.</p>

Facility Reporting Group A Part V, Section B, line 5:	<p>Two (2) focus groups with a total of 53 participants, as well as five (5) key informant interviews were conducted to take into account the input of persons representing the broad interests of the community served. The focus groups and interviews solicited feedback from leaders and representatives who serve the community and have insight into community needs. Prioritization sessions were also held with hospital clinical leadership and/or other community leaders to identify significant health needs from the assessment and prioritize them. Focus groups familiarized participants with the CHNA process and solicited input to understand health needs from the community's perspective. Focus groups, formatted for individual as well as small group feedback, helped identify barriers and social determinants influencing the community's health needs. Barriers and social determinants were new topics added to the 2019 community input sessions. Watson Health conducted key informant interviews for the community served by the hospital facilities. The interviews aided in gaining understanding and insight into participants' concerns about the general health status of the community and the various drivers that contributed to health issues. Participation in the qualitative assessment included at least one state, local, or regional governmental public health department (or equivalent department or agency) with knowledge, information, or expertise relevant to the health needs of the community, as well as individuals or organizations who served and/or represented the interests of medically underserved, low-income and minority populations in the community. Participation from community leaders/groups, public health organizations, other healthcare organizations, and other healthcare providers (including physicians) ensured that the input received represented the broad interests of the community served. The following is a list of groups consulted: Agape Clinic, Baylor Scott &amp; White Health, Baylor Scott &amp; White Quality Alliance, Bridge Breast Network, Cancer Care Services, Catholic Charities of Dallas, City of Denton, City of Plano, City of Waxahachie, City Square, Community Council, Community Lifeline Center, Cornerstone Baptist Church, Dallas Area Interfaith, Dallas County Health and Human Services, Dallas/Ft. Facility Reporting Group A Part V, Section B, line 11:	<p>The hospital is committed to serving the community by adhering to its charitable mission, using its skills and capabilities, and remaining a strong organization which continues to provide a wide range of important health care services and community benefits. The hospital has teamed up with other hospital facilities in the community to complete a joint community health needs assessment and develop a joint implementation strategy to address the health needs of the community while meeting certain federal and state requirements. These hospitals will address all significant community health needs (except the need(s) listed below) based on the anticipated impact to the community, hospital resources available, and the expertise of each respective hospital facility. Specific actions can be found in the joint implementation strategy that is made widely available on the hospital's website at <a href="http://www.BSWHealth.com/CommunityNeeds">www.BSWHealth.com/CommunityNeeds</a>. The following identified need has not been addressed in the joint community benefit implementation plan: Accidental Poisoning Deaths Where Opioids Were Involved. There are multiple community and state agencies whose expertise and infrastructure are better suited for meeting the needs not addressed in the Community Health Implementation Strategies. Therefore, BSWH leadership has opted to focus its resources on the listed priorities for the betterment of the community.</p>

<p>Facility Reporting Group B Part V, Section B, line 5:</p>	<p>Two (2) focus groups with a total of 53 participants, as well as five (5) key informant interviews were conducted to take into account the input of persons representing the broad interests of the community served. The focus groups and interviews solicited feedback from leaders and representatives who serve the community and have insight into community needs. Prioritization sessions were also held with hospital clinical leadership and/or other community leaders to identify significant health needs from the assessment and prioritize them. Focus groups familiarized participants with the CHNA process and solicited input to understand health needs from the community's perspective. Focus groups, formatted for individual as well as small group feedback, helped identify barriers and social determinants influencing the community's health needs. Barriers and social determinants were new topics added to the 2019 community input sessions. Watson Health conducted key informant interviews for the community served by the hospital facilities. The interviews aided in gaining understanding and insight into participants' concerns about the general health status of the community and the various drivers that contributed to health issues. Participation in the qualitative assessment included at least one state, local, or regional governmental public health department (or equivalent department or agency) with knowledge, information, or expertise relevant to the health needs of the community, as well as individuals or organizations who served and/or represented the interests of medically underserved, low-income and minority populations in the community. Participation from community leaders/groups, public health organizations, other healthcare organizations, and other healthcare providers (including physicians) ensured that the input received represented the broad interests of the community served. The following is a list of groups consulted: Agape Clinic, Baylor Scott &amp; White Health, Baylor Scott &amp; White Quality Alliance, Bridge Breast Network, Cancer Care Services, Catholic Charities of Dallas, City of Denton, City of Plano, City of Waxahachie, City Square, Community Council, Community Lifeline Center, Cornerstone Baptist Church, Dallas Area Interfaith, Dallas County Health and Human Services, Dallas/Ft. Part I, Line 2:	Monitoring Grants & Other Assistance: As part of its mission, the organization provides grants and other assistance to related organizations and/or unrelated not-for-profit organizations which are religious, charitable, scientific, or educational in nature, within the meaning of Internal Revenue Code Section 501(c)(3), when the use will further one or more tenets of the organization's charitable mission and one of the following criteria for use of these funds is met: (1) Fulfills a need identified by a community needs assessment conducted by the organization and/or outlined in an implementation strategy, (2) Serves an under-served community or group of people through medical mission work to improve their health status (3) promotes health in the community, (4) supports community buildings activities that protect or improves the community's health or safety and/or (5) provides positive visibility and good community relations with other organization serving the health needs of the community. For related organizations, all grants and other assistance are subject to the policies and procedures set forth by BSWH which ensures all funds are used in accordance with the guidelines set forth above and in accordance with the related organization's exempt purpose. Grants and other assistance provided to unrelated organizations are typically monitored by personal inspection. Examples include providing assistance to entities where the filing organization's employee serves as a Board Member for the recipient organization or through attendance at community events where the filing organization employees work as volunteers or to help coordinate these events.

Return Reference	Explanation
Part I, Line 1a	Travel for companions-The organization reimburses eligible employees and board members certain reasonable travel expenses associated with spousal travel where the spouse's presence is important to the event. These events may include, for example, board meetings, business meetings, and award ceremonies approved by the BSW Holdings' CEO, COO or CFO. All spousal travel reimbursements are treated as taxable compensation. One person listed in the Form 990, Part VII, Section A, received this benefit during the tax year. Tax indemnification and gross-up payments-The organization provides tax indemnification where the BSW Holdings' CEO, COO or CFO determines there is justification to reimburse an individual for the tax impact on certain taxable, non-cash benefits provided to them. All tax indemnification payments provided are treated as taxable compensation. Two of the persons listed in the Form 990, Part VII, Section A, received this benefit during the tax year. Discretionary spending account-The organization provides eligible employees who travel frequently in their personal vehicle an auto expense allowance in lieu of reimbursement for business mileage under the organization's business travel and expense reimbursement policy. All auto expense allowances are treated as taxable compensation. Two of the persons listed in the Form 990, Part VII, Section A, received this benefit during the tax year. Health or social club dues or initiation fees-The organization may reimburse eligible employees for dues for a health club and/or a social club where there is a bona fide business need for the membership. For example, as part of the organization's promotion of health, the organization will cover a portion of any employees' fitness center club membership dues paid to an affiliated entity that owns and operates a fitness center. All employees are eligible for this benefit. Such reimbursements are treated as taxable compensation to the extent any part of the membership is used for personal use. One person listed in the Form 990, Part VII, Section A, received this benefit during the tax year.
Part I, Line 3	Process for determining compensation: The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its ongoing success and growth. Thus, it must attract, retain and engage the highest quality officers and key employees to lead the organization and help the organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually. Total executive compensation is part of an integrated talent management strategy developed by the BSW Holdings Board of Trustees and its Compensation Committee to attract, motivate, and retain the best leadership resources for the organization. Executive compensation is determined pursuant to guidelines outlined in the intermediate sanction rules under IRC Section 4958 including taking steps to meet the rebuttable presumption standard of reasonableness under Treasury Regulation 53.4958-6, as summarized below. When making compensation decisions, the organization compares itself to similarly-sized, and structured businesses including other integrated health care service systems and other similarly-sized organizations, both locally and nationally. Each year the BSW Holdings Board of Trustees and the Compensation Committee, on behalf of the organization through reserved powers held by BSW Holdings, works directly with an independent compensation expert(s) to identify reasonable and competitive market rates as well as provide an annual review of the total compensation of the organization's top management officials and other officers and key employees to ensure total compensation is within a fair market range. The annual review included management reviewing all officers and key employees listed on the Form 990 during the current tax year. Any individual whose direct compensation exceeded the projected compensation from prior year, any new individual whose position has not been reviewed by the Compensation Committee during the prior 2 years, or any individual whose responsibilities or scope of operations expanded during the current year were reviewed by the Compensation Committee during the current tax year. The Compensation Committee is made up of members of the BSW Holdings Board of Trustees, who are independent, community volunteers. Guided by the information provided by the independent compensation expert(s), the Compensation Committee approves the annual process and methodology for setting fair market salary ranges, earned incentives, and/or benefit offerings for the organization's President, other officers and/or key employees to be comparable to similar organizations for similar services and/or positions. Furthermore, the Compensation Committee is charged with the responsibility of reviewing annually the major elements of the executive compensation program to assure designs remain consistent with the business needs, market practices, and compensation philosophy. As part of the decision making process, the Compensation Committee will often meet in executive session to discuss and review recommendations made by the independent compensation expert(s). No officer or key employee whose compensation is being reviewed is present during these discussions. All decisions are properly documented in the minutes of the meetings.
Part I, Line 4b	In order to recruit and retain key talent, BSW Holdings and certain tax exempt affiliates (BSWH) offers a supplemental non-qualified retirement plan to eligible employees. The plan provides an annual benefit (based on a percentage of compensation) to the employee that is paid to the employee on a future date upon vesting in the plan. The following individual(s) participated in and/or received payments (noted in parenthesis) from BSWH's supplemental non-qualified retirement plan during the tax year: Grant Teegarden, Janice Whitmire, Jason Whitfield, John McWhorter (\$162,746), Kyle Armstrong, Michael Emmett, M.D. (\$39,196), Michael Ramsay, M.D. (\$54,141), Paul Madeley, M.D. (\$37,388), Scott Peek and Steven Newton.
Part I, Line 7	The organization has adopted and implemented BSW Holdings', the organization's ultimate parent, Annual Incentive Program to provide a market competitive total cash compensation incentive program that is designed to attract and retain key leaders and establish greater individual accountability and alignment to business performance. Payout targets are based upon a percentage of base pay and are developed by independent third party expert(s) using comparable market competitive data within the bounds of reasonableness and that are reviewed and approved by BSW Holdings' governing body. Payout levels are based upon a combination of system, entity, and individual performance using various metrics related to quality, patient satisfaction, employee retention, and financial stewardship. BSW Holdings' governing body may approve modifications to annual incentive awards provided under the program consistent with market comparability data.
Form 990, Schedule J, Part III	Supplemental Information: Governing Body Compensation The members of the governing body serve on a voluntary basis and receive no cash compensation from the organization for these duties as a member of the governing body. Some, but not all, members may have received modest benefits incident to their service on the board and/or multiple board committees or received compensation as an employee of a related organization. These benefits may include reimbursement for certain reasonable expenses paid on behalf of the member's spouse while accompanying the member on business travel on behalf of the related organization. All such benefits are treated as taxable compensation to the extent required by law and are reported in the Form 990 where applicable.

Form 990, Part VI, Section A, line 6	Members or stockholders: The organization is a Texas nonprofit membership organization in which Baylor Health Care System, a tax exempt, Texas nonprofit corporation, is the sole member.

**990 Schedule O, Supplemental Information**

<b>Return Reference</b>	<b>Explanation</b>
Form 990, Part VI, Section A, line 7a	Election of members of governing body by members, stockholders, or other persons: Baylor Scott & White Holdings (BSW Holdings), a tax exempt, Texas nonprofit corporation, is the ultimate parent entity of the organization. BSW Holdings has control and substantial reserved powers over the organization, including those to elect and remove the governing body of the organization. The BSW Holdings' Board of Trustees is comprised of a majority of independent community representatives that provide leadership and governance to BSW Holdings and its affiliated tax exempt entities, including the filing organization, to ensure it is meeting its charitable purpose.

**990 Schedule O, Supplemental Information**

<b>Return Reference</b>	<b>Explanation</b>
Form 990, Part VI, Section A, line 7b	<p>Governing body decisions subject to approval: All rights and powers are reserved to the organization's ultimate parent, BSW Holdings, except only those rights and powers expressly set forth in the bylaws, required by state or federal law, or to meet the requirements and standards promulgated by joint commission. For example, BSW Holdings' substantial reserved rights and powers include, without limitation, approval of the organization's certificate of formation and bylaws and amendments thereto, appointment and removal of members of the organization's governing body, approval of dissolutions and mergers, and other similar decisions over the organization. The BSW Holdings' Board of Trustees is comprised of a majority of independent community representatives that provide leadership and governance to BSW Holdings and its affiliated tax exempt entities, including the filing organization, to ensure it is meeting its charitable purpose.</p>

## 990 Schedule O, Supplemental Information

Return Reference	Explanation
Form 990, Part VI, Section B, line 11b	Process used to review the Form 990: The Form 990 is prepared and reviewed by the BSWH tax department. During the return preparation process the tax department works with other functional areas including finance, accounting, treasury, legal, human resources, and corporate compliance for advice, information and assistance to prepare a complete and accurate return. Upon completion, the Form 990 is reviewed by the organization's President, financial officer and/or other key officers. A complete final copy of the return is provided to the organization's governing body prior to filing with the IRS.

**990 Schedule O, Supplemental Information**

<b>Return Reference</b>	<b>Explanation</b>
Form 990, Part VI, Section B, line 12c	<p>Process used to monitor and enforce compliance with the organization's conflict of interest policy: Persons with an actual or perceived ability to influence the organization have the duty to disclose annually and otherwise promptly as potential conflicts are identified, any familial, professional or financial relationships with entities or individuals that do, or seek to do business with the organization or that compete with the organization. These individuals include the organization's officers, governing body, management, physicians with administrative services agreements, employed physicians, persons who participate in the design, coordination, conduct, or reporting of research on behalf of BSWH, and other key personnel who interact with outside organizations or businesses on behalf of the organization. The BSW Holdings Board of Trustees Audit and Compliance Committee and the BSW Holdings Corporate Compliance Committee review all relevant disclosures submitted by these individuals to determine whether a conflict of interest exists and to determine an appropriate resolution, if necessary. Any individual with a perceived or potential conflict is prohibited from voting or participating in the decision making process regarding such transaction with that individual.</p>

**990 Schedule O, Supplemental Information**

<b>Return Reference</b>	<b>Explanation</b>
Form 990, Part VI, Section B, line 15	<p>Process for determining compensation: The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its ongoing success and growth. Thus, it must attract, retain and engage the highest quality officers and key employees to lead the organization and help the organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually. Total executive compensation is part of an integrated talent management strategy developed by the BSW Holdings Board of Trustees and its Compensation Committee to attract, motivate, and retain the best leadership resources for the organization. Executive compensation is determined pursuant to guidelines outlined in the intermediate sanction rules under IRC Section 4958 including taking steps to meet the rebuttable presumption standard of reasonableness under Treasury Regulation 53.4958-6, as summarized below. When making compensation decisions, the organization compares itself to similarly-sized, and structured businesses including other integrated health care service systems and other similarly-sized organizations, both locally and nationally. Each year the BSW Holdings Board of Trustees and the Compensation Committee, on behalf of the organization through reserved powers held by BSW Holdings, works directly with an independent compensation expert(s) to identify reasonable and competitive market rates as well as provide an annual review of the total compensation of the organization's top management officials and other officers and key employees to ensure total compensation is within a fair market range. The annual review included management reviewing all officers and key employees listed on the Form 990 during the current tax year. Any individual whose direct compensation exceeded the projected compensation from prior year, any new individual whose position has not been reviewed by the Compensation Committee during the prior 2 years, or any individual whose responsibilities or scope of operations expanded during the current year were reviewed by the Compensation Committee during the current tax year. The Compensation Committee is made up of members of the BSW Holdings Board of Trustees, who are independent, community volunteers. Guided by the information provided by the independent compensation expert(s), the Compensation Committee approves the annual process and methodology for setting fair market salary ranges, earned incentives, and/or benefit offerings for the organization's President, other officers and/or key employees to be comparable to similar organization</p>

Furthermore, the Compensation Committee is charged with the responsibility of reviewing annually the major elements of the executive compensation program to assure designs remain consistent with the business needs, market practices, and compensation philosophy. As part of the decision making process, the Compensation Committee will often meet in executive session to discuss and review recommendations made by the independent compensation expert(s). No officer or key employee whose compensation is being reviewed is present during these discussions. All decisions are properly documented in the minutes of the meetings.

**990 Schedule O, Supplemental Information**

<b>Return Reference</b>	<b>Explanation</b>
Form 990, Part VI, Section C, line 19	Process for making governing documents, conflict of interest policy, & financial statements available to the public: The organization's certificate of formation and amendments thereto are made available to the public by the filing of those documents with the Texas Secretary of State. Also, the organization is included within the combined financial statements of BSW Holdings that are made available to the public by the posting of those documents through DAC Bond and are attached to this return. The organization's other governing documents and conflicts of interest policy are not made available to the public.
